HEAT INDEX CHART - PLAN AHEAD & STAY SAFE

How To Use Heat Index

Locate today's predicted high temperature across the top line (air temp.) Down the left side (relative humidity) locate today's predicted humidity. Follow across and down to find "Apparent Temperature" or "What it feels like." Keep in mind, this chart was devised for shady, light wind conditions, so exposure to full sun can increase values by up to 15°. Strong winds, particularly with hot, dry air can be extremely hazardous.

Source: National Oceanic & Atmospheric Association & OSHA

Air Temp.	70°F 21°C	75°F 24°C	80°F 26°C	85°F 29°C	90°F 32°C	95°F 35°C	100°F 38°C	105°F 41°C	110°F 43°C

A. Rig Lizard Oasis™ 2022

In the most extreme work environments, the heat can be nearly unbearable. Outdated leather protective gloves often make this situation worse. Fortunately, HexArmor® listened, and is proud to offer the Rig Lizard Oasis™ 2022. They have created a unique ventilation technology, called HexVent™; an advanced nylon mesh that supports our IR-X™ Impact Exoskeleton™, so you have the distinct advantage of a lightweight, breathable glove without sacrificing any of our industry-leading smash protection. Combining this innovation with our proprietary TP-X™ synthetic high-grip palm yields the level of safety and dexterity you require. ISEA Level 3 cut and puncture protection.

SKU	Description	Size	UOM
HEX2022	Rig Lizard Oasis glove	S-2X	PR

B. Chrome Core Oasis™ 4035

Comfort shouldn't be a luxury, and we at HexArmor® know that safety certainly isn't. That's the reasoning behind our Chrome Core Oasis™ 4035 – a sleek, hi-vis mechanic's glove with a SuperFabric® brand material palm and a HexVent® back of hand. Built to beat the heat, the Chrome Core Oasis™ 4035 also beats laceration hazards with the most advanced technology on the market. With features such as our pre-curved design and double-stitched side seams, you won't have to give up dexterity for the highest level of safety. Our patented SlipFit® cuff also means an easy on and off between jobs.

B

C

C. Chrome Oasis™ 4030

In a heated situation, comfort should be the last thing on your mind. HexArmor® wants to keep it that way. HexArmor added HexVent™ to their most popular mechanic's glove, to provide you with the highest level of cut and impact protection on the market while making sure you aren't overheating due to your PPE. This advanced breathable technology supports HexArmor's Hi-Vis impact-resistance system, and a layer of Cut 5 SuperFabric® brand material gives you both superior safety and peace of mind. The combination of HexVent,™ HexArmor's standard pre-curve design, and double-stitched seams provides added dexterity and durability. Now you can focus on your work, and we'll focus on your comfort and safety.

HEX4030	Chrome Oasis glove	S-3X	PR

D. Rig Lizard Thin Lizzie™ 2090

The secondary line of palm-coated gloves from HexArmor®, the 2000 Series™ is purpose-built for an impressive range of applications. Each product in this series is constructed of fiber blend and unique palm coatings. Glove structures are durable, flexible, and cut resistant, offering both dexterity and safety. Varying palm dips increase abrasion resistance, extend product life, and provide the highest grip for many specific uses. The shell is comprised of a 13-gauge high-performance polyethylene and glass fiber blend. Superior back-of-hand impact protection system utilizes an advanced design to dissipate forceful blows over a large area Sandy Nitrile palm dip increases abrasion resistance and provides exceptional grip in heavy oil and wet situations. Machine washable.

A. Powder Pack™ Mixes

Great tasting, scientifically formulated electrolyte replacement drink is designed to restore important mineral salts and fluids lost through dehydration, physical exertion and heat stress. Sqwincher is more satisfying than water or soft drinks because the body absorbs it more quickly and restores it to its proper electrolyte and fluid balance. Powder Pack mixes quickly and easily with water. Sqwincher is the natural recovery source for dehydration. Powder Pack concentrate mixes are available in 1, 2 1/2, or a 5 gallon packet.

SCJO1842-8	Deep Woods OFF! 6 oz can	EA

A. Pump Spray

Perfect for when you need heavy-duty protection, BugBand™ spray lotion does not contain any propellants, but relies on a highly effective metered pump sprayer to dispense a fine mist of Geraniol lotion over the area to be treated. By spraying the BugBand™ liquid directly on clothing or skin, the Geraniol vapors form a protective barrier to deter blood-sucking insects from biting. It is ideal for use around the ankles, wrist or neck where insects tend to invade clothing. Use once for hours of insect protection. Effective against mosquitoes, ticks, flies, gnats, no-see-ums and fleas. Retains FR properties when sprayed on Indura or Nomex.

SKU	Description	UOM
BUG88336	BugBand pump spray bottle, 6 oz	EA

A

B

B. Towelettes

Easy to use, safe and effective, BugBand™ towelettes allow for direct application of Geraniol lotion onto exposed skin. They're ideal for using around your face or neck without over-applying. Effective against mosquitoes, ticks, flies, gnats, no-see-ums and fleas.

MSV4OM	Economy class 2 breakaway safety vest	Orange	M-5X	EA

D. Economy Vest Class 2 with Two-Tone Trim

The SV22-2 Economy Class 2 Safety Vest with Two-Tone Trim is compliant protection at an economical price. Excellent choice for extreme work environments like asphalt paving that greatly reduce the useful life of a vest, or protection for short-term labor. Reflective stripes on contrasting trim make workers much more noticeable in low light and broad daylight. This vest features zipper closure, 2" silver tape reflective material, 1 horizontal stripe, contrasting trim detail, 1 upper left front pocket and 1 lower right inside pocket. 3rd Party Certified – Meets ANSI/ISEA 107-2010 Standards.

B

B. Hi-Vis Short Sleeve T-Shirts Class 2

This class 2 safety T-shirt with Moisture Wicking Mesh is made with an arid Birdseye Mesh allowing for maximum breathability, without compromising durability. The stripes are adhered by heat transfer rather that sewn on, making the safety T-Shirt wear much more like a regular T-Shirt. The wicking properties improve hot weather comfort, making it feel much cooler. The front pocket does not include reflective material to allow for corporate imprints.

In House Customization

Direct Embroidery

Embroider text directly on a garment. This option is most often used for names, titles, accredits, etc. and can be done easily without the need for digitization.

Reflective Tape

Adding reflective striping to your uniform can make a lifesaving difference. Select from the many trim widths, colors and placements to make your enhancements have the highest impact. These distinctive stripings can be added to most garments. Flame-resistant striping is also available. The garments and striping you select should depend on the end use requirements.

Stock Emblems

The possibilities are endless! Whether you choose from one of the emblems displayed here or supply us with your own emblems, our sewing operators can apply almost any shape emblem to your garments at time of order. There is no charge to store your emblems at our warehouse. Emblems are kept in a secured area and are applied at time of order, giving you the flexibility to decorate garments with different combinations and placements of emblems. We can also assist you with the development and procurement of new emblems. Lead time for custom emblems is 6 to 8 weeks
