# BRING THE HEAT

## Cool-Ven®: The All-In-One Portable Cooler & Oven

ITEM# MSSGOSAFECOOLER

- Cool-Ven® embraces your busy lifestyle by providing innovative portability and convenience.
- This cold insulated, soft-sided meal bag with a detachable heating chamber is sure to elevate your next eating experience while on-the-go.

Cool-Ven's top and bottom chambers conveniently separate to better suit your storage or heating needs while on-the-go.

### How it Works

- Heating times will vary from 45 minutes to one hour depending on the starting temperature of your meal and density of the items being heated.
- Unzip the top cover, place your heat-safe container inside the heating chamber and zip the lid closed.
- Plug the cord into any 110 volt receptacle and allow the internal element to heat your meal to your desired temperature.
- Once your meal has reached your desired temperature, simply unzip the top lid and enjoy!

### PORTABLE & CONVENIENT

Compact cold storage for all your chilled items.

### COMPATIBILITY

Suitable for metal, paper and microwave safe food containers (up to 28 oz. per container).

### VERSATILITY

Ideal for hot and convenient meals while on-the-go.

### HEATING ELEMENT

Detachable and insulated hot plate chamber heats meals in about 45 - 60 minutes.

### CUSTOMIZABLE

Heat transfer and embroidery safe with ample space reserved for your own branding.
