

Endura® 378GKG4P

Multi-feature driver gloves with extreme impact resistance and arc flash protection

This multi-feature glove features our 4PRO™ back-of-hand protection to deliver maximum impact resistance that is more flexible and dexterous. In addition to being one of the first gloves on the market to offer ANSI Level 3 impact resistance (the industry's highest impact rating level), these gloves provide 360° cut resistance with ANSI Level A5 cut protection thanks to their lining made with DuPont™ Kevlar® fiber. This feature-packed glove also includes vibration-dampening palms, is treated with Oilbloc™ for oil/water repellancy, and has been arc flash tested for Level 3 with an ATPV of 35 cal/cm².
