# The Medsafe Philosophy

*“Medsafe combines the technological and service capabilities of an international safety provider with the family feel that makes it comfortable to work with us on a long term basis. We listen to our customers to create progressive, custom e-commerce services along with flexible solutions to difficult safety situations.”*

*Burk Shaw, President*

Founded in 1979, Medsafe works out of five fully stocked service facilities in TX, AR, OK, and LA. We have grown into one of the most substantial privately held distributors of industrial safety, occupational health, industrial hygiene, and medical supplies in the United States.

## Medsafe : Core Services & Value Proposition

- Rental Equipment
- Web-based ordering and tracking
- Instrument Repair Services
- Custom Engineered Fall Protection Systems
- On Site Product Training Special Product Stocking programs.
- Self Contained Breathing Apparatus (SCBA) Maintenance & Inspection
- Gas Monitor Maintenance & Inspection
- Emergency Eyewash & Shower Station Maintenance & Inspection
- Self Retracting Lifeline (SRL) & Hoists Recertification
- Many, many additional services are available

The Medsafe inside and outside sales force is comprised of highly trained safety professionals. Our field specialists average over 20 years experience in supporting end user on site safety needs. Medsafe specializes in personal protective equipment, occupational health and safety and medical/first aid supplies. We have opted not to carry tools, ladders, gaskets, pipe, etc. for the simple reason that our business promise is to provide quick answers to difficult safety situations that protect your employees.

We understand the details needed to make personalized program and product recommendations, our veteran outside and inside safety sales specialists can provide immediate solutions to your problems. We consistently deliver on a timely basis and work with sites to proactively determine your needs. At Medsafe we are more than another distribution company; we are safety specialists and remain committed to being your total resource for PPE solutions.

# Factory Authorized Repair Center

**Medsafe is a Factory Authorized Repair Center certified in the following fields:**

## Gas Detection

- ▲ Honeywell
- ▲ BW Technologies by Honeywell
- ▲ MSA
- ▲ RKI

## Hoist Repair

- ▲ Miller® Fall Protection
- ▲ MSA

## Retractable Repair

- ▲ Reliance
- ▲ Miller® Fall Protection
- ▲ MSA
- ▲ 3M

## Fire Extinguisher Inspection

- ▲ We perform annual inspections on all fire extinguishers. Please contact your Medsafe representative for more information.

# Rental Program

At Medsafe, our rental program specializes in a broad spectrum of equipment for customers with distinctive needs in the industrial workplace. Rentals are available on a daily, weekly or monthly basis depending on your need. If you have questions concerning our rental or repair program, please call or send an email to [service@gosafe.com](mailto:service@gosafe.com). Our goal is to provide you with quality products to meet all your application requirements.

## Rental Program Offers:

- ▲ Air Sampling Pumps
- ▲ Gas Detection Monitors
- ▲ Confined Space Kits
- ▲ Retractable Lifelines
- ▲ Ventilation Equipment
- ▲ Noise Dosimeters
- ▲ Quantitative Fittester
- ▲ CMS Analyzer

# Embroidery

Embroidery is one of the first enhancements most customers look at when considering decoration of apparel. A logo announces to the world who you represent and a strong first impression can make a big difference in business. Imagine it can handle all aspects of your embroidery needs. We offer a wide selection of thread colors constructed of either 100% polyester (our default thread choice) or 100% rayon, which is available upon request through your Customer Service Representative or the embroidery department. Both selections ensure color vibrancy as well as colorfastness, though we do not recommend rayon thread for industrial laundered product. Read on to see some of the options available within the world of embroidery.

## How to Request a Custom Logo

- **Contact Customer Service** for additional information on submitting new logo image artwork.
- **Formats** - Acceptable formats for artwork of logo include: TIF, .BMP, .JPG, .EPS
- **Color / Thread Limitations** - Custom logos are limited to 9 colors.
- **Size** - A typical left or right chest location is about 2 1/2" x 3 1/2".  
Small detail in a logo design may require resizing or an adjustment so that detail can be seen. See following pages for size guidelines on garments and locations.
- **Digitizing Fees** - 1 to 8,000 stitches - **\$95.00\***. 8,001 stitches and up - **\$125.00\***
- **Color Changes** - There is a **\$25.00\*** fee for changing colors to an existing logo if a new logo number is required.
- **Revisions** - Charges for revisions are determined based upon complexity. There may be up to a **\$50.00\*** fee for customer requested revisions.
- **Time line** - Please allow up to 3 days to receive a sew-off of custom logos. Logos in excess of 20,000 stitches may require longer.

\* Prices subject to change without notice.

## Embroidery Guidelines and Success Tips

- Placement and size can differ based on the garment they will be sewn on. These pages show placements and size guidelines for various garment types.
- Embroidering on a garment with textures, prints or patterns can often make part of a logo difficult to see. Ask for a sew-off prior to placing orders to be certain that all words are legible and colors are visible.
- To determine the best size and placement for embroidery, photocopy the logo to the desired size, cut it out and place it on the garment in various locations until the best size and location is determined.
- If grommets, eyelets or badges will be going on the same side of a garment as embroidery, be sure to leave the appropriate space for the badge when specifying embroidery location.
- Embroidery requested on a pocket will render the pocket non-functional.

### EMBROIDERY CODES WITH SIZE GUIDELINES

All sizes below listed as inches.

<b>CMB</b> - Center Middle Back	10 x 10
<b>RSS</b> - Right Sleeve at Shoulder	4 x 4
<b>RUF</b> - Right Upper Front	4 x 4

▶ See page 15 for embroidery thread color options.

# Embroidery Locations

**SHIRT FRONT**

**SHIRT BACK**

**LEFT SIDE**

**RIGHT SIDE**

Medsafe uses colorfast embroidery threads for all embroidery applications. These threads are acceptable for Industrial and Homewash Processing. We are equipped to embroider garments, Oilfield bags, promotional items and a variety of other items. If you have questions, please do not hesitate to contact our customer service team at 800-330-9240.

# Emblem Embroidery

The same font selections and sizes shown on the previous page can also be applied to emblems. We offer a wide selection of emblem background and border combinations to complement whatever the garment color or pattern may be. Emblems are a great choice for striped or patterned shirts where direct embroideries can often blend in. Another benefit of selecting to embroider on emblems is the flexibility they provide for removal should an employee's position or name change.

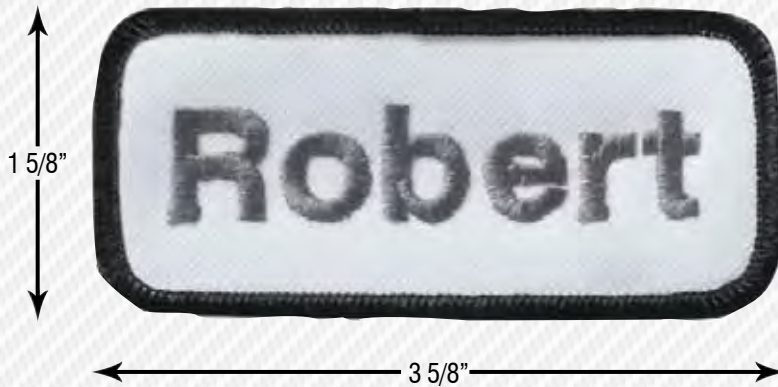

Large Emblem

Font Size:  
5/8" 15 mm  
10 characters per line  
(Non-stock patch)

Small Emblem

Font Size:  
5/8" 15 mm  
7 characters per line  
(Stock patch)

# Stock Emblems

The possibilities are endless! Whether you choose from one of the emblems displayed here or supply us with your own emblems, our sewing operators can apply almost any shape emblem to your garments at time of order. There is no charge to store your emblems at our warehouse. Emblems are kept in a secured area and are applied at time of order, giving you the flexibility to decorate garments with different combinations and placements of emblems. We can also assist you with the development and procurement of new emblems. Lead time for custom emblems is 6 to 8 weeks

## All State Patches

**MSSTX** - Texas State Flag  
with Gold Trim 3 1/2" x 2"

**MSSLA** - Louisiana State Flag  
with Gold Trim 3 1/2" x 2"

**MSSOK** - Oklahoma State Flag  
with Gold Trim 3 1/2" x 2"

**MSSAR** - Arkansas State Flag  
with Gold Trim 3 1/2" x 2"

**MSSUS** - American Flag  
with Gold Trim 3 1/2" x 2"

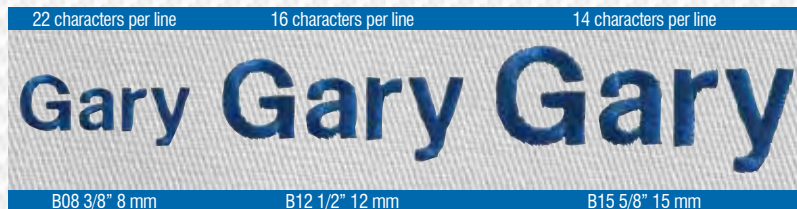

# Direct Embroidery

Four fonts are offered for direct embroidery, with several sizes in each (3/8" - 1"). Embroider text directly on a garment, an emblem, or on a name strip. This option is most often used for names, titles, accredits, etc. and can be done easily without the need for digitization.

- Multiple lines of type, in the same or different sizes, can easily be added to a garment. To add more than one line, please contact a Customer Service Representative at 1.800.330.9240 to order this option.
- Please specify if all CAPS are required. Using all caps will reduce the number of characters per line. The characters listed below are based on lower case.

- Include spaces and punctuation when counting characters per line.
- Collar tip and cuff embroidery locations require 8mm font and are limited to 3 characters.

All fonts also available in 10mm (not shown).  
Call for more information.

# Trim Choices

## EMBROIDERY THREAD OPTIONS

### Classic Rayon 100% Viscose

Due to their superior quality and color fastness, Madeira rayon embroidery threads can be washed at 203°F with heavy duty detergents. (Use only those which contain no bleaching agents, peroxide, or optical brighteners as discoloration may result.)

While every attempt is made to reproduce thread colors accurately, colors on your monitor or print out may not precisely match actual thread colors.

# Reflective Striping

Enhanced visibility can be critical when working in high-traffic areas, on construction sites or around equipment operation. Adding reflective striping to your uniform can make a lifesaving difference. Select from the many trim widths, colors and placements to make your enhancements have the highest impact. These distinctive stripings can be added to most garments. Flame-resistant striping is also available. The garments and striping you select should depend on the end use requirements.

The following front and back images on page 21 indicate all single reflective stripe locations for most products. With a few exceptions, stripes shown above the waist can be applied to a shirt, jacket or coverall. Stripes shown below the waist can apply to a pant, short, or coverall. The specific details of a garment, like the size of a pocket, the placement of closures, an emblem or an additional pocket, may dictate a slight change in the placement from what is shown in these images.

- Striping applied post-manufacturing will always go around a pocket or emblem. Pockets cannot be removed for reflective trim application.
- Stripes on a waistband will be moved up or down if the waistband has elastic sections.

## Reflective Striping Locations

## PRICING • Eyewear Pad Printing

### Imprinting

- ▲ Minimum order quantity of 24.
- ▲ Imprinting available on the temple or lens, depending on the style.
- ▲ One (1) and two (2) colors available.
- ▲ Camera ready artwork required.
- ▲ Not available for all styles. Please contact a Medsafe sales representative for additional details.

Item #	Glass Quantities	1 Color	2 Color
MSSELCOL-24	24-47	\$3.20	\$6.40
MSSELCOL-48	48-95	\$1.99	\$3.98
MSSELCOL-96	96-155	\$1.38	\$2.76
MSSELCOL-156	156-287	\$1.14	\$2.28
MSSELCOL-288	288-503	\$0.97	\$1.98
MSSELCOL-504	504-UP	\$0.89	\$1.78
Item #	# Colors	Setup Fee	
MSSPADSETUP	1 Color	\$20.00	

## PRICING • Hard Hats Pad Printing

### Imprinting

- ▲ Minimum order quantity of 20.
- ▲ Imprinting available on the front, back, or sides.
- ▲ Up to 4 colors available in 4 hat locations.
- ▲ Camera ready artwork required.
- ▲ Not available for all styles. Please contact a Medsafe sales representative for additional details.

Item #	Quantities	Position 1 Up To 4 Colors	Position 2 Up To 4 Colors	Position 3 Up To 4 Colors	Position 4 Up To 4 Colors
MSALOGOMIN20	20	\$5.01	\$10.02	\$15.03	\$20.01
MSALOGOMIN40	40	\$3.34	\$6.68	\$10.02	\$13.36
MSALOGOMIN60	60	\$2.85	\$5.70	\$8.55	\$11.40
MSALOGOMIN80	80	\$2.37	\$4.74	\$7.11	\$9.48
MSALOGOMIN100	100	\$1.40	\$2.60	\$3.90	\$5.20
Item #	# Colors	Setup Fee			
MSALOGO1	1 Color	\$100.00			
MSALOGO2	2 Color	\$125.00			
MSALOGO3	3 Color	\$150.00			
MSALOGO4	4 Color	\$175.00			

A digital proof will be provided so that the customer can sign off and approve the artwork before orders are processed and started.

### CAMERA READY ARTWORK

Camera ready artwork must be supplied. If the artwork has to be recreated additional charges apply. The definition of camera ready artwork is black art on white background. The images/letters must be clear and must be the exact representation of the desired logo. For multi-color logos, artwork must have individual color separations with registration marks. Photocopies, business cards, decals, faxes, etc. are not considered Camera Ready.

**\*\* For vests, a 300 dpi JPG closer to the final imprinting size is preferable\*\*.**

*Medsafe may have resources for other product personalization that you might need. Please contact your Medsafe representative for more information.*

**MEDSAFE**

***Screen Printing Services***

## PRICING • Silk Screen

Medsafe has the capability to silk screen a variety of products such as safety vests, rainwear, T-shirts and promotional items.

- ▲ Minimum order quantity of 24.
- ▲ Screening available on the back and front (some styles).
- ▲ Up to four (4) colors available.
- ▲ Camera ready artwork required.
- ▲ Not available for all styles. Please contact a Medsafe sales representative for additional details.

Note: The Logo Department will make final determination on number of logo colors after receiving vector art files. Must receive ai or eps vector logo files, or an additional \$50 logo set-up fee may apply, which may also delay the order. Must also receive PMS colors if exact color match is required, \$35 fee. Otherwise colors will be matched as close as possible. A digital proof will be provided so that the customer can sign off and approve the artwork before orders are processed and started.

### CAMERA READY ARTWORK

Camera ready artwork must be supplied. If the artwork has to be recreated additional charges apply. The definition of camera ready artwork is black art on white background. The images/letters must be clear and must be the exact representation of the desired logo. For multi-color logos, artwork must have individual color separations with registration marks. Photocopies, business cards, decals, faxes, etc. are not considered Camera Ready.

**\*\* For vests, a 300 dpi JPG closer to the final imprinting size is preferable\*\*.**

Item #	# Colors	Setup Fee
MSSLCSETUP1	1 Color	\$25.00
MSSLCSETUP2	2 Color	\$50.00
MSSLCSETUP3	3 Color	\$75.00
MSSLCSETUP4	4 Color	\$100.00
MSSLCSETUP5	5 Color	\$125.00

Item #	Desc.	Setup Fee
EPRSETUP	Artwork Fee/PMS Color Code Match	\$90.00

*Fee may be waived if approved artwork is provided by customer.*

Item #	Quantities	Cost For 1-Color Logo	Cost Per Additional Color Up To 7 Colors
MSSLCOL-24	24-71	\$1.85	\$1.33
MSSLCOL-72	72-119	\$1.40	\$1.13
MSSLCOL-144	120-287	\$1.33	\$0.80
MSSLCOL-288	288-50	\$0.90	\$0.67
MSSLCOL-504	504 and Up	\$0.75	\$0.53

## PRICING • Direct Embroidery

Four fonts are offered for direct embroidery, with several sizes in each (3/8" - 1"). Embroider text directly on a garment, an emblem, or on a name strip. This option is most often used for names, titles, accredits, etc. and can be done easily without the need for digitization.

Item #	Description	Pricing
MSSEMBRDIR	Direct Name Embroidery on Front Chest	\$6.00
MSSEMBRO	Company Name/Title Direct Embroidery on Front Chest	\$6.00
MSSEMBDFC	Company Logo Direct Embroidery Front Chest (1-8,000)	\$8.50
MSSEMBDBK1	Company Logo Direct Embroidery Bk (1-12,000 stitches)	\$12.50
MSSEMBDBK2	Company Logo Direct Embroidery Front or Back (12,001 + stitches)	Call for Pricing

# Fall Protection

Reliance Fall Protection began operations in the year 2000 by patenting a revolutionary new technology for the design of horizontal lifeline systems that allowed the reduction of fall height requirements without increased end-loadings. These TunedCable™ horizontal lifelines are one of those “it can’t be done” innovations that suddenly appear simple once the science behind them is understood. The lifelines were followed by unique anchorages, the concrete embed system with remote connection, beam clamps and trolleys, and other engineered products.

Reliance has now turned attention to harnesses and lanyards, with the patent pending “TattleTale®” webbing, the “FatPack™” two-in-one shock absorbing lanyard, and especially the Steelhead® tieback hook. The SteelHead® is another “it can’t be done” product, a standard-layout true double-action locking snap hook that makes it possible for workers to safely tie

back into their own lanyards. And with these additions Reliance has assembled a complete range of cutting-edge fall protection products that represent the very Highest Standards in Personal Fall Protection Equipment.

Reliance Fall Protection is quickly becoming the go-to organization for custom and unique industry solutions. With a full in house engineering staff, product development department, testing facility and vertically integrated manufacturing process, difficult fall protection solutions can go from concept to application in a single streamlined process.

For more information about Reliance Fall Protection products, visit us at [www.relsafe.com](http://www.relsafe.com) or call us at 1-800-330-9240.

*\*PLEASE NOTE : Items purchased may vary in appearance from those pictured in this catalog. Reliance reserves the right to change product descriptions and specifications without notice.*

**“Dedicated to Raising the Standards  
In Personal Fall Protection Equipment”**

Reliance Fall Protection is proud to offer premier fabrication and production facilities in both Wheat Ridge, Colorado and Deer Park, Texas. Incorporating the latest technology for our industry allows Reliance to maintain our commitment to "Higher Standards." Lifeline production facilities utilize, mig welding processes, industrial CNC controlled milling machines, plate shearing and breaking, as well as plasma cutting and water jet processes. Within our textile processing plant, CNC controlled sewing machines, CNC cutting and marking machines, as well as automated grommet machines assist in the quality and dependability of our products. Reliance is dedicated to providing higher standards through

our engineering department as well as research and development. Autocad™, SolidWorks™, and Autodesk Inventor™ are just a few of the software programs incorporated into the engineering and design process. The Reliance Industries manufacturing team offers over 50 years of experience in the fall protection industry. Our team is committed to offering the safest work environment possible. For the "at risk" worker as well as within our own family, engineering a safe workplace is our responsibility and future.

The Reliance Testing Laboratory is a division of Reliance Fall Protection, is ISO 17025 accredited and is utilized to perform Qualification and Verification Testing as required by ANSI Z359.7-2011. The Lab features ANSI compliant, certified test towers as well as all of the certified equipment required to perform dynamic and static tests necessary to demonstrate compliance with the applicable ANSI standards for fall protection.

Reliance Testing Laboratory operates equipment that can perform tensile testing up to 20,000 lbs (88.8kN), and drop towers that capture data via DasyLab™ software which translates the information to spreadsheets and graphs. Through the analysis produced, Reliance is able to uncover opportunities to improve product performance and service life.

With state of the art equipment and processes, Reliance is able to provide users with test results from real tests verifying your equipment's performance and conformity. Whether we are verifying quality and conformity on our current selection of products or developing and qualifying new solutions, Reliance truly raises the bar by testing products to meet existing the standards and then going a step further to ensure they meet our requirements for a higher standard in fall protection.

## Training

Training your employees in fall protection is a great way to increase awareness about the hazards of falling from heights. At Reliance, we offer several training courses that help users identify hazards, understand the risks, develop inspection procedures and programs, and implement procedures to mitigate the hazards associated with fall protection. Knowledge is truly the key to providing a safe work place for your employees. Reliance offers a monthly training program for Competent Inspectors of Fall Protection Equipment, as well as quarterly courses for Fall Protection Competent Persons.

## Training Classes Available

### Competent Inspector (Monthly)

The Competent Inspector's course builds upon a student's practical knowledge of fall protection through the discussions of in-house testing and literature review; UV and chemical exposure to synthetic strapping and is designed to increase personal skill level through a variety of hands-on inspection exercises.

### Competent Person (Quarterly)

The Competent Person training is an intensive program that develops a strong overall knowledge of how to use, select and install conventional and non-conventional fall protection equipment. In class lectures including slides and video, hands on scenarios applying practical workplace situations.

*For more information on Fall Protection Training from Reliance, please see page 98.*

Working at heights is inherently dangerous. While it is impossible to eliminate every risk, Reliance fall protection equipment has been designed to substantially reduce the risk of injury. Most fall related injuries are the result of faulty or abused equipment, lack of training, failure to follow the manufacturer's instructions, or simple failure to use good judgment. No manufacturer can accept the liability for damages that result from equipment that has been improperly used or abused - that remains the responsibility of the user.

Choosing fall protection equipment that effectively protects workers from hazards while remaining in compliance with government regulations can be an intimidating task. OSHA 1926.501(b)(1) states: "Each employee on a walking/working surface (horizontal and vertical surface) with an unprotected side or edge which is 6 feet (1.8M) or more above a lower level shall be protected from falling by the use of guardrail systems, safety net systems, or personal fall arrest systems".

The regulations cover many specific instances pertaining to fall hazards. In each case, the Personal Fall Arrest System is mentioned as a form of protection. When assembling a Personal Fall Arrest System, or "PFAS", it is imperative to know and remember the components necessary to complete a system. Those components are:

### **A = Anchorage Device B = Body Harness C = Connecting Device D = Deceleration Device**

*\*PLEASE NOTE: The regulations quoted here represent only a fraction of the regulations in place which govern fall protection. They are meant to serve as a general guideline, and there may be more specific or more stringent regulations in effect beyond those quoted here that apply to your specific application.*

**ANCHORAGE** means a secure point of attachment for lifelines, lanyards or deceleration devices. "Anchorages used for attachment of personal fall arrest equipment shall be independent of any anchorage being used to support or suspend platforms and capable of supporting at least 5,000 lbs. (22 kN) per employee attached, or shall be designed, installed, and used as follows:

[OSHA 1926.502(d)(15)(i)] : As part of a complete personal fall arrest system which maintains a safety factor of at least two; and [OSHA 1926.502(d)(15)(ii)] : Under the supervision of a qualified person.

When choosing an anchorage point, be certain it is appropriate for the system being attached - Personal Fall Arrest Systems utilizing a standard shock absorbing lanyard as a deceleration device must be capable of supporting a 310 lb. person after free falling for 6 feet (5,000 lb. requirement). PFAS's utilizing a self retracting lifeline must be capable of supporting twice the potential impact energy generated by a 310 lb. person who has fallen (3,600 lb. requirement).

**CONNECTOR** means a device which is used to couple (connect) parts of the personal fall arrest system and positioning device systems together. It may be an independent component of the system, such as a carabiner, or it may be an integral component of part of the system (such as a buckle or D-ring sewn into a body belt or body harness, or a snap-hook spliced or sewn to a lanyard or self-retracting lanyard). "Connectors shall be drop forged, pressed, or formed steel, or made of equivalent materials" [OSHA 1926.502(e)(3)]. "Connecting assemblies shall have a minimum tensile strength of 5,000 lbs. (22 kN)." [OSHA 1926.502(e)(5)].

Connectors come in a wide variety of shapes and sizes, and; as stated above, may be an independent part of the PFAS, or an integral part of one of the PFAS components. Connectors should be selected with respect to their potential attachment point-i.e. : will the connectors allow the components to fit together properly, and is there a potential for accidental disconnection. NEVER CONNECT TWO SNAPHOOKS TO ONE ANOTHER, HOOK-TO-HOOK. Independent connectors used as attachments to anchorage points or anchorage devices should be considered along the same guidelines. The most important aspect of connectors is inspection before use. Damaged, abused, or worn out connectors will render the PFAS component useless, and it must be immediately withdrawn from service.

**BODY HARNESS** means straps which may be secured about the employee in a manner that will distribute the fall arrest forces over at least the thighs, pelvis, waist, chest and shoulders with means for attaching it to other components of a personal fall arrest system.

*"Personal fall arrest systems, when stopping a fall, shall limit maximum arresting force on an employee to 1,800 lbs. when used with a body harness" [OSHA 1926.502(d)(16)(2)].*

Full Body Harnesses are designed to protect a worker from falling while limiting the extent of potential injury resulting from a fall. To accomplish this task the harness should be adjusted to fit the wearer properly. A harness should be snug but comfortable, and should not bind the wearer. The sub-pelvic strap should be positioned under the buttocks. This is crucial, as it is the sub pelvic strap that dissipates much of the energy generated in a fall. All connectors must be fastened properly, the chest strap fastened securely, and the dorsal D-ring should rest between the wearer's shoulder blades.

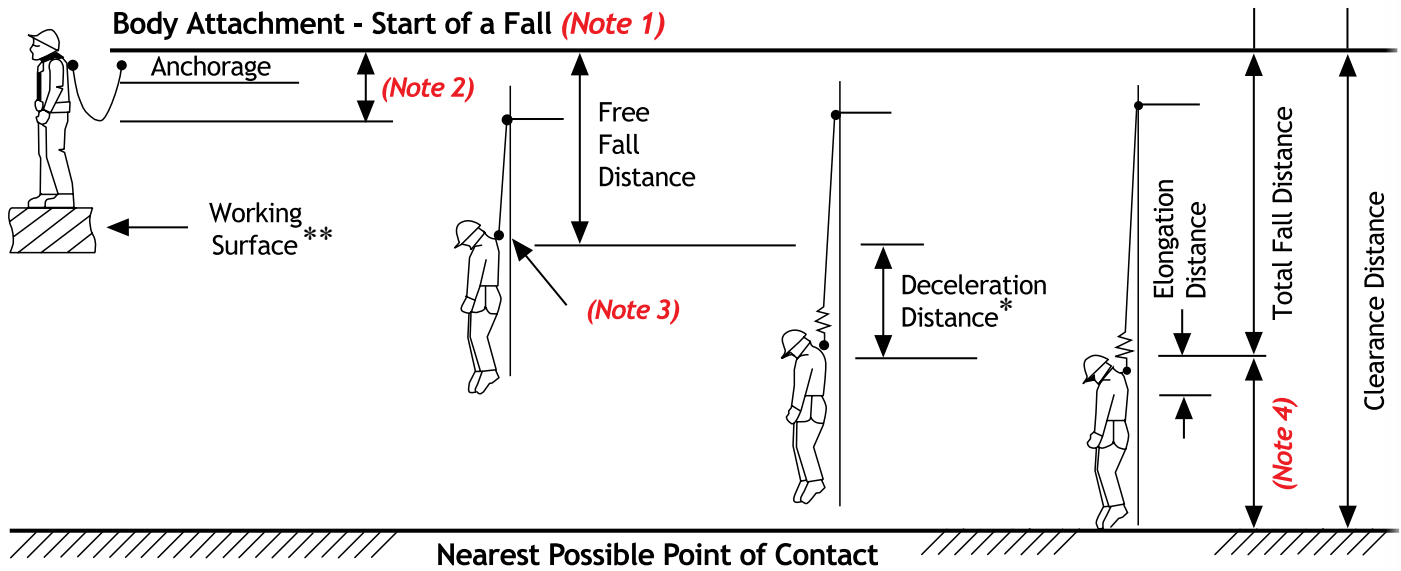

**DECELERATION DEVICE** means any mechanism, such as a rope grab, rip-stitch lanyard, specially-woven lanyard, tearing or deforming lanyards, automatic self-retracting lifelines/lanyards, etc., which serves to dissipate a substantial amount of energy during a fall arrest, or otherwise limit the energy imposed on an employee during fall arrest. "Personal fall arrest systems, when stopping fall, shall: limit maximum arresting force on an employee to 1,800 lbs. (8 kN) when used with a body harness; be rigged such that an employee can neither free-fall more than 6 feet (1.8 m), nor contact any lower level." [OSHA 1926.502(d)(16)(iii),(iv),(v)]

Choice of a deceleration device should be determined by the amount of clear free fall space below the user. All users of fall protection equipment should be competently trained in how the equipment works and how to calculate free-fall, deceleration, elongation, total fall distance, and total clearance distance. Self retracting lifelines are recommended when there is a limited fall distance to the next level or the ground. Regardless of device, it is important that the anchorage point be located as close to directly above the user's head as possible. Travel more than 15° in any direction from the anchorage point increases the possibility of a "pendulum" effect wherein the user falls, and the arc of travel after complete arrest allows contact with the lower level.

### Computing Free-Fall Distance with a Shock Absorbing Lanyard

#### Note 1

The anchorage should be above the body attachment point; however, this may not always be possible (i.e. when no structure exists overhead).

#### Note 2

The lanyard slack and distance between the body and anchorage attachments shall be included in the fall arrest system design for each specific use.

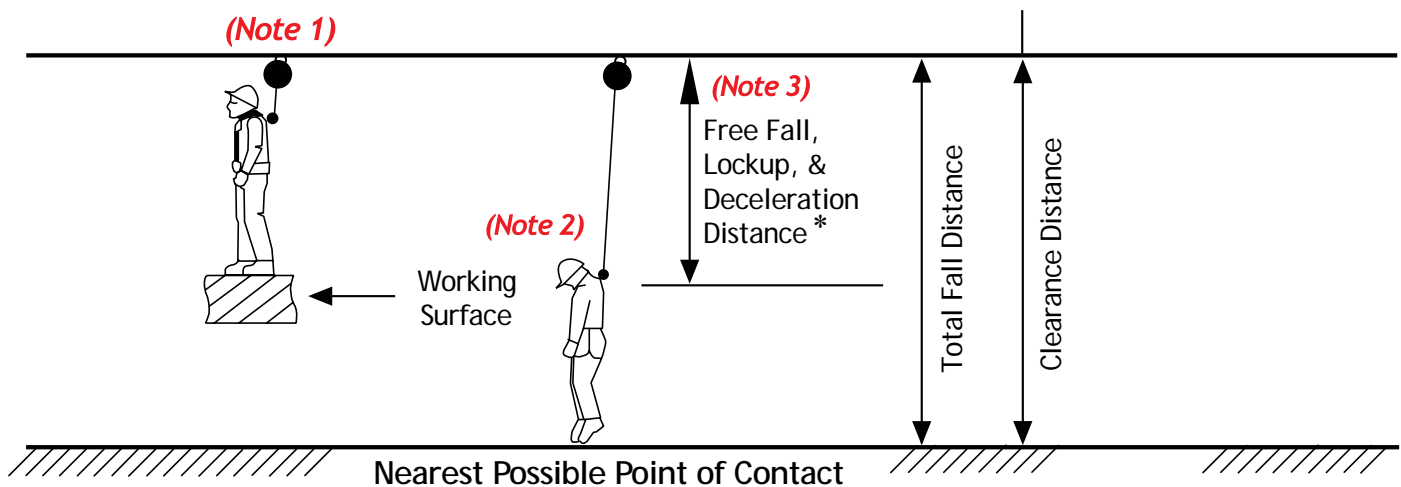

#### Note 3

The movement of the harness attachment from rest to load shall be included in the free fall distance.

#### Note 4

The elongation distance plus the distance from the body attachment to the body impact area shall be included in the fall arrest system design for each specific use.

### Computing Free-Fall Distance with a Self Retracting Lifeline

#### Note 1

The anchorage should always be above the body attachment point at no more than 15° from vertical.

#### Note 2

The movement of the harness attachment from rest to load shall be included in the total fall distance.

#### Note 3

The deceleration distance plus the distance from the body attachment to the body impact area shall be included in the fall arrest system design for each specific use.

\* Instruction manuals for each product contain detailed information regarding deceleration distances for those specific products

\*\* Consideration must also be given to the distance below the walking/working surface

All Skyline<sup>®</sup> horizontal lifeline systems use Tuned Cable<sup>®</sup> technology. Cable tuning (or the use of high pre-tensioned cables) has been shown to significantly reduce fall arrest distances and line tensions during fall arrest. This is accomplished by the fact that a scientifically tuned HLL cable reduces the input momentum of a falling weight and at the same time forces the cable to absorb the energy generated during a fall at a higher rate. This allows the design of systems with longer line lengths and lower final line tensions than previously thought possible. This creates the need for fewer bypass supports to reduce line tension, thus lower overall system cost.

### Tuned Cable<sup>®</sup> technology permits:

- Free spans up to 200' (61m) without intermediate supports
- Lower end loads, which means easier installations in more and different locations
- Multiple end-anchor choices for every situation: rebar clamps, concrete beam straps, anchors, concrete inserts, weld-on lugs, bolt-on clamps, I-Beam clamps and more.
- Available with a choice of stanchions to raise the lifeline above the walkway or with in-line clamps where overhead structure exists.
- All systems are available with bypass supports to reduce line tension and limit fall distances.

Reliance systems are engineered, so you're assured they will comply with all applicable OSHA and ANSI requirements and standards. They're supplied with complete documentation so they will meet the requirements for anchorage performance, design and component traceability for OSHA inspections. And at a reasonable price.

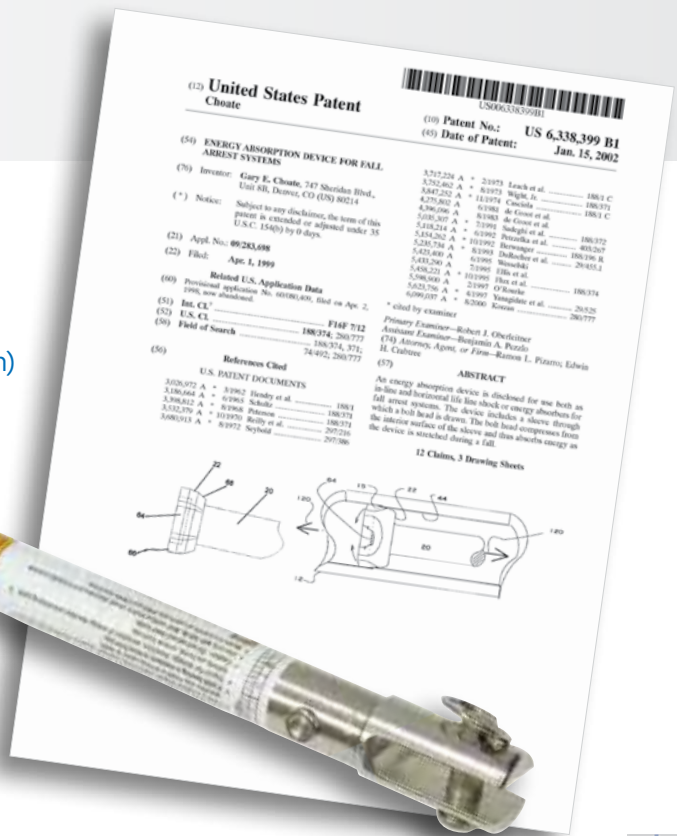

**Skyline<sup>™</sup> Horizontal Lifeline Shock Absorber**

The key to the "Tuned" Horizontal Lifeline System is the Skyline<sup>™</sup> high pre-tension shock absorber. It features all stainless steel construction and has a built-in tension indicator to verify the horizontal lifeline is at the proper line tension.

- Overall dimensions : 12.5" L X 2.5" W X 2" H (31.75 X 6.35 X 5cm)
- Weight : 2 lb. (.9Kg)
- Construction : All stainless steel construction
- Activation Force : 2,000 lb. (8.8kN)
- Elongation: 5-1/4" (13.3cm)
- Ultimate Strength : 14,500 lb. (64kN)
- Initial Line Tension : 1,000 lb. (4.4kN)

*Notes: Skyline Shock Absorbers are not re-usable after deployment.*

US Patent # 6,338,399

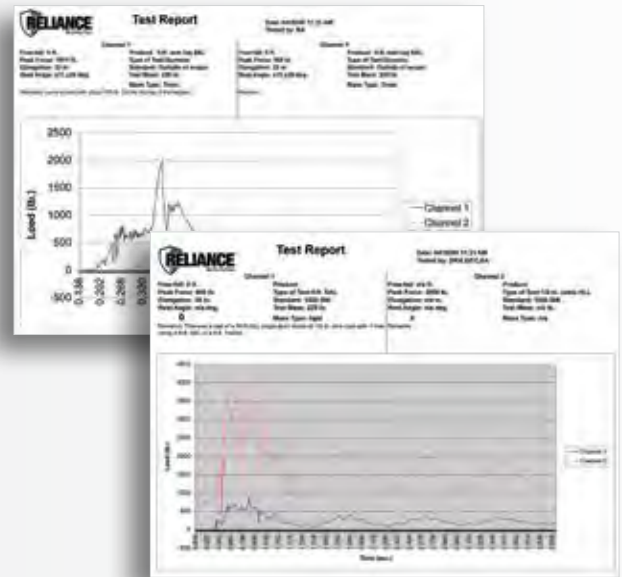

Reliance has developed a computer program to aid in quickly determining the viability of a horizontal lifeline installation. This program provides traceability to actual test results obtained in extensive testing on single and multi span systems (systems up to 200' (61m) in length which support up to 4 users). The Reliance "Horizontal Lifeline Wizard™" program is accessible to registered users of our website, located at [www.relsafe.com](http://www.relsafe.com).

Anticipated lifeline tension and minimum required clearance beneath the walking surface are determined instantly by entering the following five items :

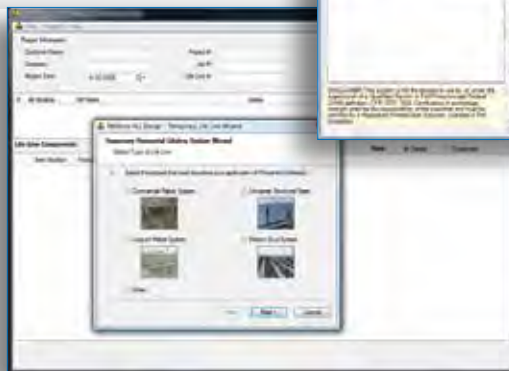

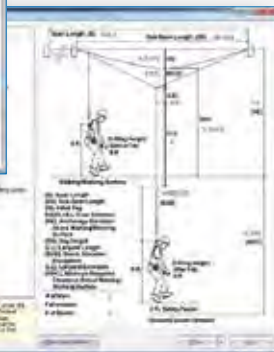

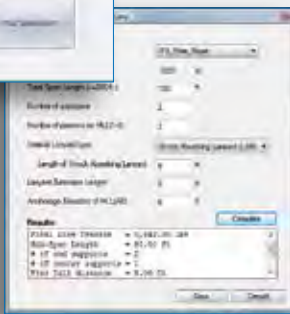

- Number of system users required
- Total lifeline length
- Number of intermediate supports
- Elevation of the lifeline above the walking surface
- The type of deceleration device used

Horizontal Lifeline Wizard end loading and deflection data is based on empirical test results like those shown above

The Horizontal Lifeline Wizard™ steps through creation of a viable horizontal lifeline system.

Item No.	Item Name	Quantity	Unit	Description
0001	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0002	3/4" Dia. Steel Cable (304 Stainless)	1	ft	100'
0003	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0004	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0005	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0006	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0007	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0008	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0009	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'
0010	1/2" Dia. Steel Cable (304 Stainless)	1	ft	100'

## "Intuitive Horizontal Lifeline design"

Since the calculations are almost instant, many design combinations may be viewed to obtain the best design for protection of the affected worker(s). The program will automatically invalidate the system if it is not viable based on the entries. When a viable system is configured, the user can generate a bill of material based on the components required for the system designed.

The Horizontal Lifeline Wizard™ also gives users the ability to :

- Adjust variables for changing workplace geometry
- Automatically generate design documents for traceability and identification
- Preview performance data
- Create site specific designs
- Analyze comparable designs
- Invalidates system configurations that do not maintain the 2:1 Safety Factor required by OSHA.

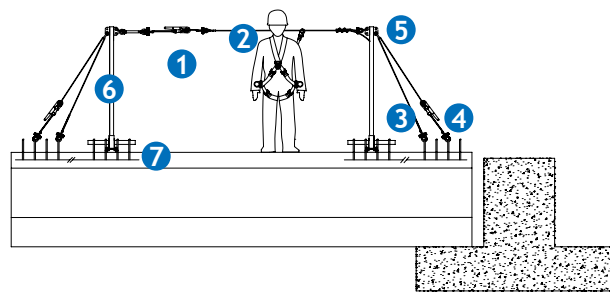

Reliance offers a variety of engineered horizontal lifeline systems that are specifically designed to address the fall protection hazards associated with the construction and maintenance of roadways and bridges. These systems use components that were developed to meet the standard requirements of road and bridge work environments, and have been thoroughly field tested on actual jobsites.

Reliance Horizontal Lifeline Systems for Road and Bridge work share a common horizontal lifeline system, but use different anchor, stanchion, and other elements specific to the environment in which they are installed. On the opposite page is a breakdown of the lifeline cable component common to each system, along with a listing of individual components specific to the systems listed in this section. Components are called out numerically on the system illustrations.

## Looped Rebar System

Stanchions attach to rebar loops in concrete bridge beams. Loop dimensions are 2-1/2" min ID and 9" (6.3/22.8 cm) max height. Use #4 rebar, minimum half inch, grade 40 or 60. Stanchions are the same as those used in the Universal System and are available in 5, 6 or 7' (1.5, 1.8, 2.1 m) heights. The looped rebar system uses the 6310 Portable horizontal lifeline. These systems require tiebacks made of 2" 18,000 lb. (5cm/80kN) sling webbing with ratchet tensioners. Stanchions can pivot 7 degrees left or right to allow clearance for decking panels.

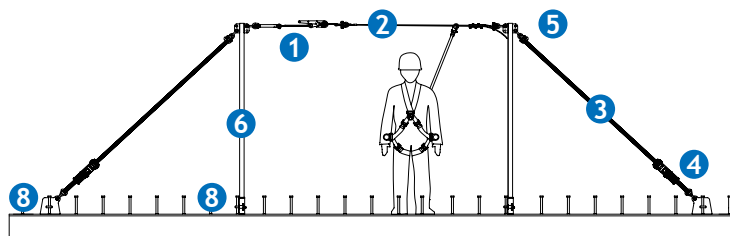

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable-specify length (6072=stainless cable)
- 6120 X 2 2" X 15' (50mm X 4.5m) tieback strap
- 6122 X 2 Tieback Ratchet Assembly
- 6066 X 6 Stainless Bow shackles

- At least two of each of the following :
- 6151 60" (1.5m) Combo End/Bypass Stanchion\*
  - 6170 Looped Rebar Base Stanchion Receiver Bracket

\*Additional bases and stanchions may be used for intermediate supports if necessary

## Nelson Stud System

Receiver and tie-back brackets are designed to clamp directly to Nelson Studs. Brackets are designed to allow enough space on beams to allow decking panels to be flown in to place without interference from brackets.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless cable)
- 6127 X 2 2" X 15' (50mm X 4.5m) tieback strap
- 6122 X 2 Tieback Ratchet Assembly
- 6066 X 6 Stainless Bow shackles

- At least two of each of the following :
- 6151 60" (1.5m) Combo End/Bypass Stanchion\*

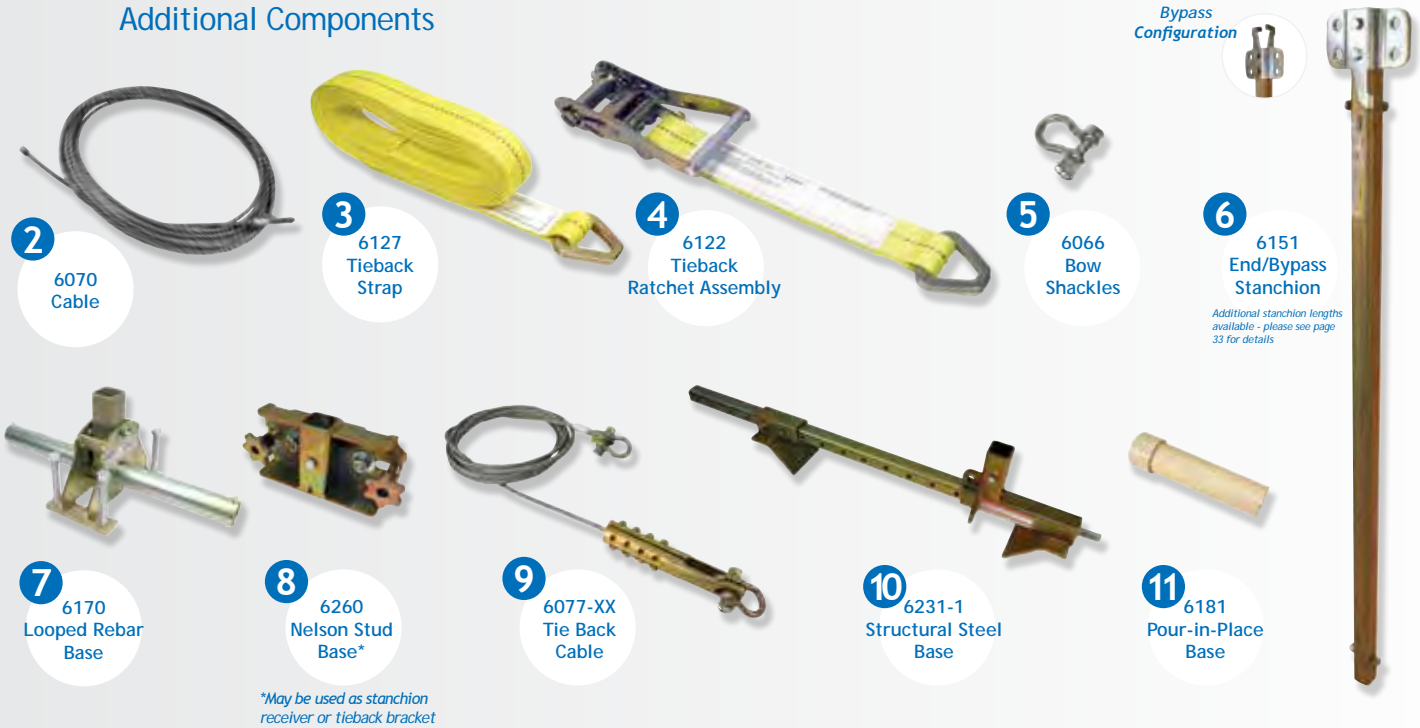

- At least two of each of the following (4 per system):
- 6260 Nelson Stud Base
  - Standard of 7-3/8" to 7-5/8" (18 to 18.3cm) stud length. Other sizes available - contact Reliance for more information

\*Additional bases and stanchions may be used for intermediate supports if necessary

## Road & Bridge Systems : System Components

### Additional Components

## Structural Steel for Bridge Beams Systems

Designed to clamp to existing beams without modification or welding. Most beams can be accommodated with the 6230 or 6231 clamp.

Custom sizes available.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable-specify length (6072=stainless cable)
- 6077-XX X 2 Tie-Back Cable
- 6066 X 4 Stainless Bow shackles

At least two of each of the following :

- 6151 60" (1.5m) Combo End/Bypass Stanchion\*

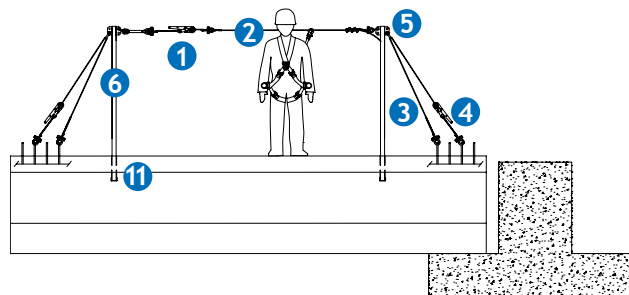

At least two of each of the following (4 per system):

- 6231 11" - 38" (28 - 96.5cm) capacity base (additional sizes available)

\*Additional bases and stanchions may be used for intermediate supports if necessary

## Pour-In-Place Concrete Insert System

6181 PVC Sleeves may be poured in place in the beams, end caps or other support structure. Sleeve is set 12" (30cm) into concrete. Please compensate stanchion height for the 12" insert.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable-specify length (6072=stainless cable)
- 6127 X 2 2" X 15" (50mm X 4.5m) tieback strap
- 6122 X 2 Tieback Ratchet Assembly
- 6066 X 6 Stainless Bow shackles

At least two of each of the following :

- 6151 60" (1.5m) Combo End/Bypass Stanchion\*
- 6181 Pour-in-Place Base

\*Additional bases and stanchions may be used for intermediate supports if necessary

Structural steel systems are designed for installation on existing structures. Utilizing off the shelf components, most all structures can be accommodated. System height is 5, 6, or 7' (1.5, 1.8, 2.1m) above the walking surface or can be configured to hang from above. System stabilization is maintained with tie-back cables or strong back struts when stanchions are utilized. On structures (piperacks) where clamping on the top flange of I- beams is not feasible, under slung clamps may be used.

## Clamp On System

Designed for direct clamping to existing beams without modification or welding. May be used in line with beams or mounted perpendicular. 6140 Strong Back or the 6141 Adjustable strong back may be used if tie backs are not available or work must be done up to the leading edge.

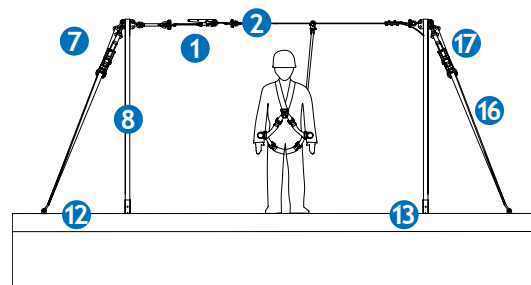

\*Additional bases and stanchions may be used for intermediate supports if necessary

- 6310 Horizontal Lifeline Kit
  - 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless cable)
- At least two of each of one the following :
- 6230/6231/6235/6240 structural steel base for stanchion support
  - 3093 structural steel anchor or 6231/6235/6240 structural steel base for tie-back anchor
- At least two of each of the following :
- 6151 60" (1.5m) H Combo End/Bypass Stanchion\*
  - 6077-XX Tie-Back Cable (XX = cable length)

## Weld On System

Designed for flat structures where beams are not available for clamping. May be installed at foot level or overhead. May be suitable for more permanent installations.

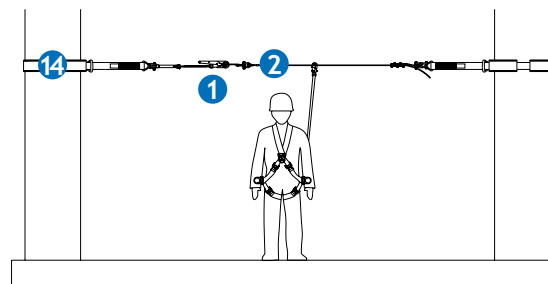

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless cable)
- 6077-XX Tie-Back Cable (XX = cable length)
- 6066 X 6 Stainless Bow shackles

- At least two of each of the following :
- 6151 60" (1.5m) H Combo End/Bypass Stanchion\*
  - 6158 Weld-On anchor lug
  - 6154 Weld-On Receiver for stanchions

\*Additional bases and stanchions may be used for intermediate supports if necessary

## Choker Strap System

Quick and simple installation on to existing structure. Anchor straps can wrap around square or round structure. Lifeline elevation can be quickly changed or moved to a new location.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless cable)

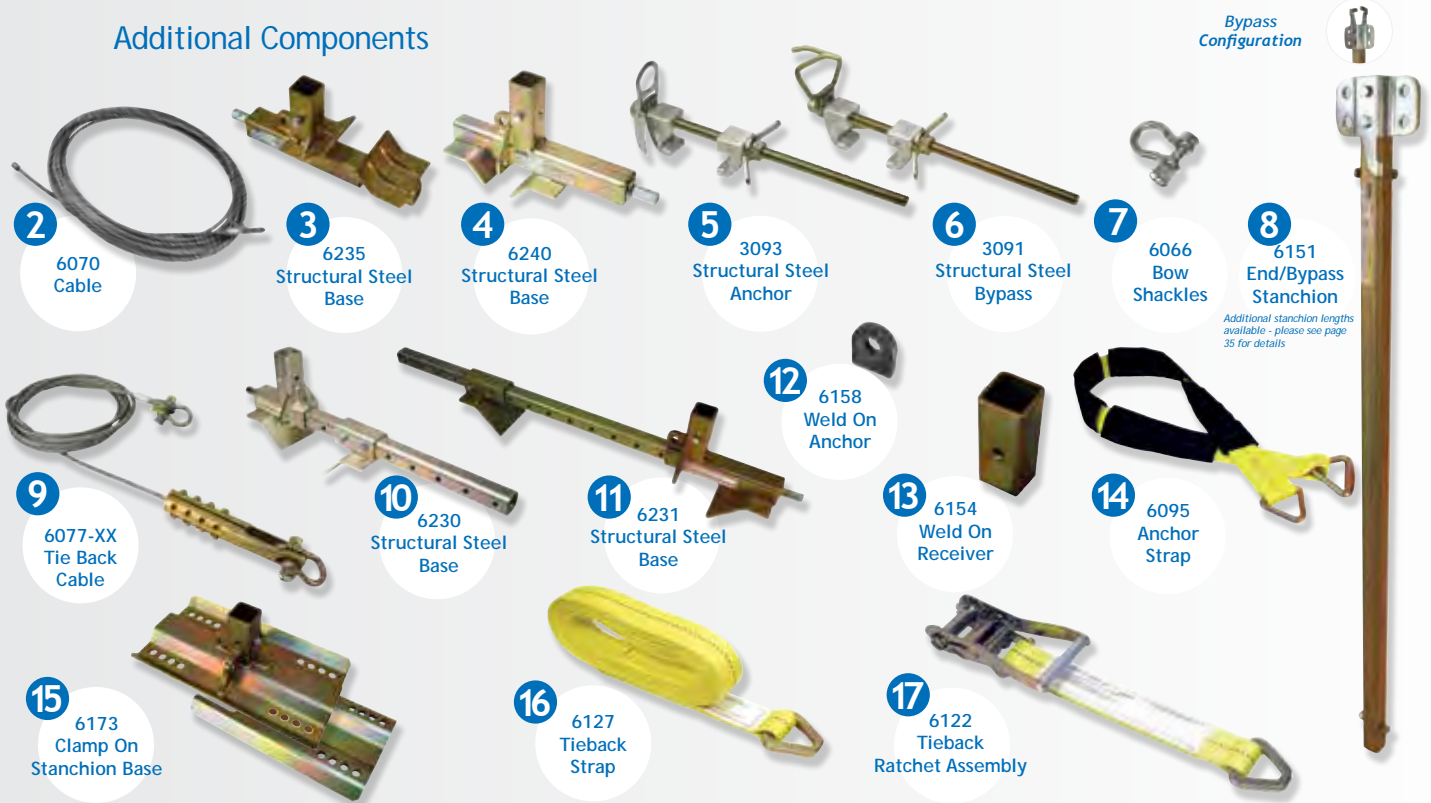

- Two each of the following :
- 6095 Anchor Strap (custom lengths available)

## Structural Steel Systems : System Components

**1** 6310 Horizontal Lifeline System Components

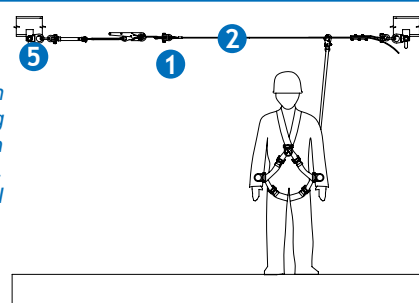

### Additional Components

Bypass Configuration

Additional stanchion lengths available - please see page 35 for details

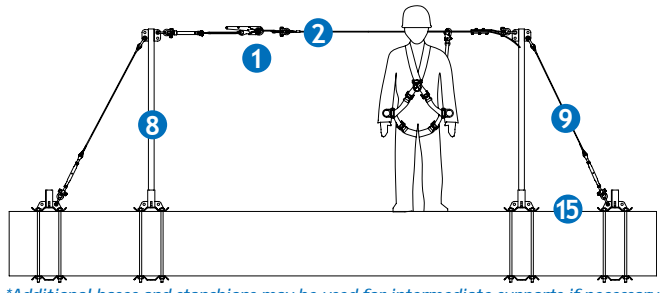

### Overhead System

Utilizing the 3093 clamps, horizontal lifelines can be mounted overhead or adjacent to the walking working surface. Deflection can be reduced with the 3091 Intermediate Bypass support clamp. Long runs can be accomplished with the 3098 dual anchor clamp (not pictured).

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless cable)
- Two each of the following :
  - 3093 Structural Steel Beam Anchor

### Fireproofed or Box Beam System

Installation of horizontal lifelines on enclosed beam and structure can be accomplished with the 6173 brackets. Most any thickness of beam can be accommodated using threaded rod. May be installed overhead.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless cable)
- At least two of each of the following :
  - 6151 60" (1.5m) H Combo End/Bypass Stanchion\*
  - 6077-XX Tie-Back Cable (XX = cable length)
- At least four of the following :
  - 6173 Clamp-On Stanchion Base (user supplies threaded rod for connecting upper & lower plates)

\*Additional bases and stanchions may be used for intermediate supports if necessary

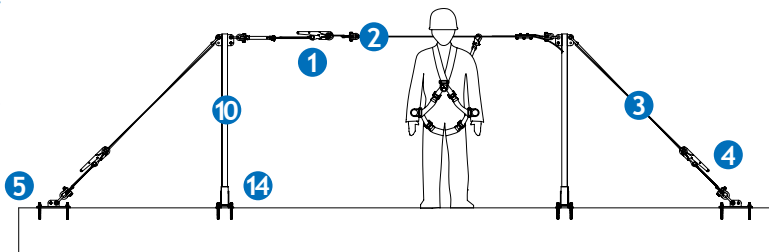

Construction projects utilizing concrete foundations are among the most common in building sites worldwide. The nature of concrete construction projects presents a unique set of challenges for fall protection and horizontal lifeline setup and use. Reliance has extensive experience in this area, and offers a variety of systems and solutions for concrete construction projects.

Reliance has invested a great deal in engineering and Research and Development geared towards meeting the needs of our customers. Currently, Reliance offers several off the shelf systems which effectively address most concrete construction applications. Since each project has unique challenges, custom fabrication of brackets and structural interfaces are available upon request.

## Bolt In System

Threaded inserts or rods may be poured in place; or, on an existing structure, mechanical concrete fasteners may be drilled and installed to accept stanchion brackets and tie-back brackets. Can also be used with 6140 and 6141 StrongBacks™.

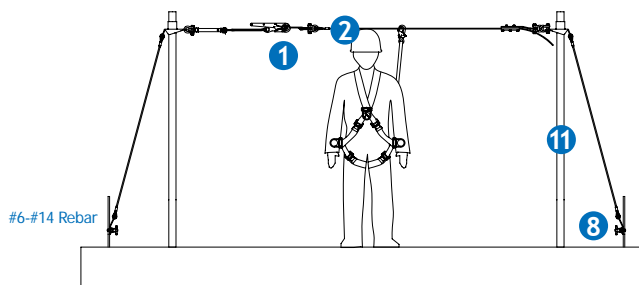

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)
- 6127 X 2 2" X 15' (50mm X 4.5m) tieback strap
- 6122 X 2 Tieback Ratchet Assembly
- 6066 X 6 Stainless Bow shackles

- At least 2 of each of one the following :
- 6151 60" (1.5m) Combo End/Bypass Stanchion\*
  - 6185-10 Stanchion Receiver For Rebar Dowel
  - 6200-22 Bolt-In Anchor Plate
- \*Additional bases and stanchions may be used for intermediate supports if necessary

## Commercial Rebar System

The Commercial Rebar System is designed to be installed on columns, piers or beams where rebar has been left stubbed up or protruding from the structure. 6166-1 Intermediate By-Pass Supports may be utilized to clamp to rebar to reduce deflection and end loading.

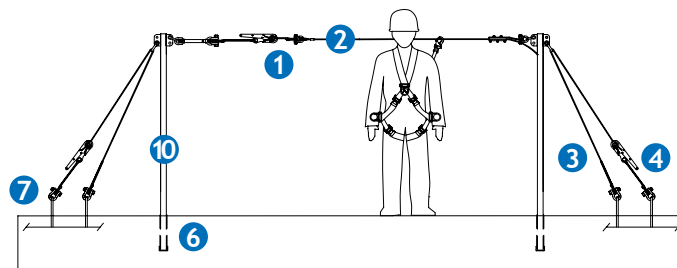

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)

- At least 2 of each of the following :
- 6200-23 - 60", 6210-23 - 72", or 6220-23 - 84" (1.5, 1.8, 2.1m) Stanchion Load Tubes
  - 6200-21 - 60", 6210-21 - 72", or 6220-21 - 84" (1.5, 1.8, 2.1m) Rebar Anchor Stanchion Head Assembly

## Drop In Sleeve System

6181 PVC sleeves may be poured in place on most any structure to accept stanchion tubes. Tie-back can be accomplished with exposed rebar, 6200-22 plates or 2250 concrete embed receivers.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)
- 6127 X 2 2" X 15' (50mm X 4.5m) tieback strap
- 6122 X 2 Tieback Ratchet Assembly
- 6062-1 X 4 Stainless Bow shackles
- 6066 X 2 Stainless Bow shackles

- At least 2 of each of one the following :
- 6151 60" (1.5m) Combo End/Bypass Stanchion\*
  - 6181 Pour-In-Place Base

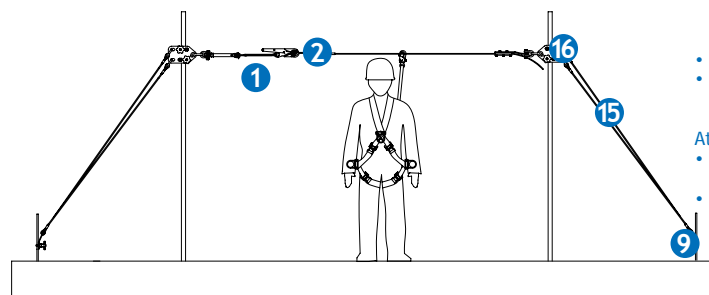

\*Additional bases and stanchions may be used for intermediate supports if necessary

## Concrete Systems : System Components

### Rebar Direct Connect System

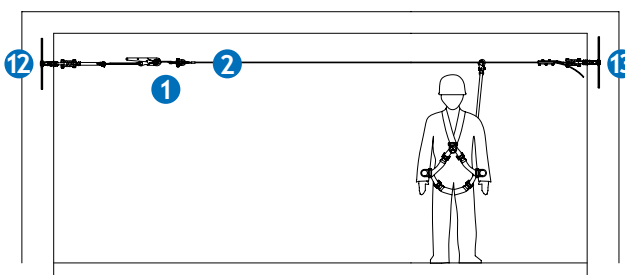

Exposed rebar may be used to connect a Horizontal Lifeline System to a structure while installing or removing forms. Utilizing the 6200-11 or -14 anchor and the 3800-xx tie back anchor plates, system installation is simple and flexible.

- 6310 Horizontal Lifeline Kit
  - 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)
- At least 2 of each of the following :
- 6200-011 (#8-#11 Rebar) or 6200-014 (#12 #14 Rebar) Rebar Tie-Back Anchor Plate
  - 3088-011 (#8-#11 Rebar) 3088-014 (#12 #14 Rebar) HLL Rebar Anchor Assembly

### Embedded System

The concrete embed system is a cast in place concrete anchor system for personal fall arrest and horizontal lifeline anchorage applications. It is composed of a receiver that is cast into the concrete and secured with rebar to provide over 10,000 lbs of pull out strength when loaded in any direction. Receivers can be installed on any type of concrete forming applications from metal decking to columns, ceiling beams, rooftops, and exterior siding.

- 6310 Horizontal Lifeline Kit
  - 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)
- At least 2 of each of the following :
- 2260 Concrete Embed connector
  - 2250 Zinc Receiver (2252 Stainless)

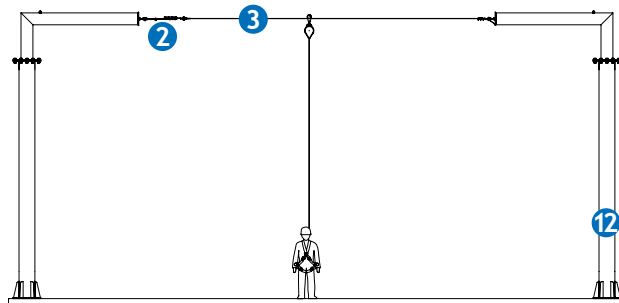

With our large selection of off the shelf components, most any structure may be fitted with a permanent or temporary Reliance horizontal lifeline. With the ability to “tune” our lifeline systems, Reliance can accommodate clearance and span geometries that our competitors have difficulty with.

## Inverted 'L' System

Inverted “L”s are a permanent HLL solution for rail car and over the road tanker loading and unloading terminals. With enough clearance, spans of up to 200' (61m) can be accomplished.

Note: Reliance is not the manufacturer of the 'L' structures. We provide for purchase, a complete set of PE stamped engineering and shop drawings for local fabrication by the customer.

- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)
- 6300 Shock absorber
- 6021-1 Rigging Screw
- 6055-1 Combo clamp
- 2 each 6062-1 1/2" (12mm) bow shackle
- 6066 5/8" (15mm) bow shackle
- 6082-1 3/8" (10mm) wire rope clip & at least 2 of the inverted L's

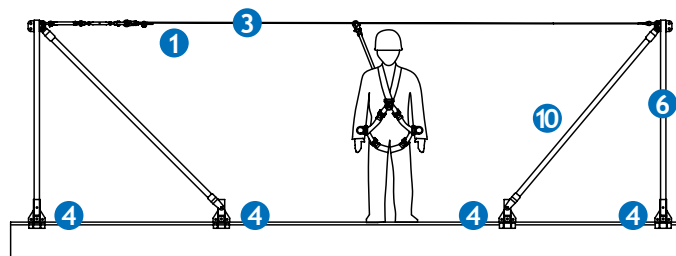

"Inverted L" Installation

"StrongBack™" Rooftop Installation

## "StrongBack™" System

StrongBack™ installation allows for horizontal lifeline installation when the use of tie back cables is not possible. Strongbacks can also be utilized with weld on receivers, and allow for leading edge access.

- 6310 Horizontal Lifeline Kit
- 6070-XXX 3/8" (10mm) 7x19 galvanized cable - specify length (6072=stainless)
- 4 each 6230, 6231, 6235, or 6240 clamps
- 2 each 6140 or 6141 StrongBack™
- 2 each 6151 Stanchion

# Horizontal Lifeline System Components

## Universal System Components

Items listed on the following two pages are system components that are used in virtually every type of Reliance Horizontal Lifeline System, regardless of application. Please note that many of these items are NOT sold individually, only as part of a system. Contact Reliance for more details.

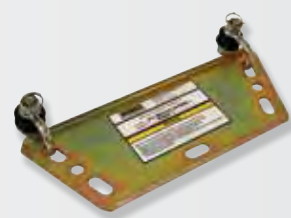

5100 - 3/8" (10mm) Pulley with Stainless Steel Side Plates

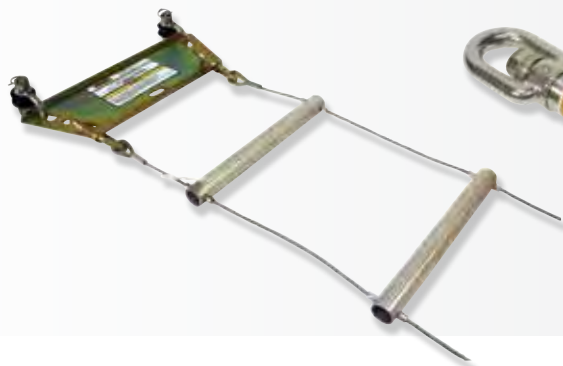

5102-1 - 1/2" (13mm)  
5103 - 5/8" (16mm)  
3/8" (10mm) Cable Bow Shackle Pulley

3074 - Bolt-On D-Ring Anchor

5200 - HLL Rescue Ladder Mounting Bracket

5230 - 30' (9.1m) Wire Rope Ladder for HLL rescue (bracket not included)

6000-1 - Skyline Shock Absorber

6021 - Stainless  
6022-1 - Galvanized  
20mm Jaw & Jaw Rigging Screw

6050 - Inline Cable Clamp, Yellow Zinc

6051 - 1/2" (13mm) Inline Clamp, Cast (bow shackle not included)

6052 - Inline Cable Clamp, Stainless

6055 - 3/8" (10mm) Combination Clamp

# Horizontal Lifeline System Components

6062-1 - 1/2" (13mm) Stainless  
6066 - 5/8" (16mm) Stainless  
6063 - 1/2" (13mm) Galvanized  
6067-1 - 5/8" (16mm) Galvanized  
Forged Bow Shackle

6070-XX Galvanized  
6072-XX Stainless  
(XX denotes length)  
3/8" (10mm) -7x19 Cable

6077-XX - Adjustable Tie-back Cable, 1/2" (13mm) - 6x19 (XX denotes length)

6082 - 3/8" (10mm) Stainless Wire Rope Clip

6090 - 3" (7.6cm) Ratchet with strapping and anchor triangle hardware

6092 - 3" (7.6cm) Ratchet Strap

6122 - 2" (5cm) Ratchet With Strapping and Anchor Triangle Hardware

6127 - 2" x 10ft (5cm X 3m) Ratchet Strap

\*6076 - Kit that contains both 6120 & 6122

Bypass Configuration

6151 - 60" (1.5m)  
6178 - 72" (1.8m)  
6163 - 84" (2.1m)  
End / By-Pass Stanchion

6096 - 15' (4.5m)  
6095 - 6' (1.8m)  
Anchor Strap

6125 - 3" (7.6cm) Ratchet with 6000 -1 Shock Absorber & 2 ea. 6062-1 - Bow Shackles

6461 - Stainless Dual Wheel, Hands-Free Traveler

6452 - Stainless Steel Hands Free By-Pass Support

# Horizontal Lifeline System Components

## Concrete System Components

Items listed here are system components that are typically used in Reliance's Concrete Horizontal Lifeline Systems. Please note that these items may not be sold individually, only as part of a system. Contact Reliance for more details.

6166 - Rebar By-Pass Assembly

6181 - Drop-In Sleeve for Stanchion

6170 - Looped Rebar Receiver Bracket

6173 - Concrete Beam Receiver Base (Upper And Lower Plate)

6172 - Ratchet Strap Bypass Assembly

6260 - 7-3/8" to 7-5/8" (18.7 to 19.3cm) Nelson Stud Bracket Base  
*Large selection of sizes available*

6200-23 - 60" (1.5m)  
6210-23 - 72" (1.8m)  
6220-23 - 84" (2.1m)  
Concrete Rebar Stanchion

6200-21 - 60" (1.5m)  
6210-21 - 72" (1.8m)  
6220-21 - 84" (2.1m)  
Rebar Stanchion Cable Head assembly

6200-011 - #6-#11 Rebar  
6200-014 - #14 Rebar  
Rebar Tie-Back Anchor Plate

3088-011 - #6-#11 Rebar  
3088-014 - #12-#14 Rebar  
HLL Rebar Anchor Assembly

## Structural Steel System Components

Items listed here are system components that are typically used in Reliance's Structural Steel Horizontal Lifeline Systems. Please note that these items may not be sold individually, only as part of a system. Contact Reliance for more details.

3091 - HLL Bypass Beam Clamp fits  
4" - 16 5/8" width  
1/4" - 1 3/4" thick  
(4 - 41.5cm width  
.6 - 4.4cm thick)

3092 - HLL Foot Rest Beam Clamp fits  
4" - 16 5/8" width  
1/4" - 1 3/4" thick  
(4 - 41.5cm width  
.6 - 4.4cm thick)

3093 - HLL Anchorage Beam Clamp fits  
4" - 16 5/8" width  
1/4" - 1 3/4" thick  
(4 - 41.5cm width  
.6 - 4.4cm thick)

3098 - HLL Double End Anchorage Beam Clamp fits  
4" - 16 5/8" width  
1/4" - 1 3/4" thick  
(4 - 41.5cm width  
.6 - 4.4cm thick)

6230 - HLL Stanchion Beam Clamp fits  
6" - 28" width  
1/2" - 2" thick  
(28 - 71cm width  
(1.2 - 5cm thick)

6231 - HLL Stanchion Beam Clamp fits  
11" - 38" width  
1/2" - 3" thick  
(28 - 96cm width  
1.2 - 7.6cm thick)

6240 - HLL Stanchion Beam Clamp fits  
4 1/2" - 14" width  
1/2" - 1 1/2" thick  
(11.4 - 35.5cm width  
1.2 - 3.8cm thick)

6235 - HLL Stanchion Inverted Beam Clamp fits  
4 1/2" - 14" width  
1/2" - 1 1/2" thick  
(11.4 - 35.5cm width  
1.2 - 3.8cm thick)

6167 - Weld-On By-Pass

6158 - Galvanized  
6160 - Stainless  
Single Hole Weld-on Anchorage Lug

6161 - Galvanized  
6162 - Stainless  
Double Hole Weld-on Anchorage Lug

6140-1 - Standard  
6142-1 - Narrow  
Strong Back, 82" (2m)

6141-1 - Adjustable  
Strong Back, 82" (2m)

REL6260	7-3/8" to 7-5/8" (18.7 to 19.3cm) Nelson Stud Bracket Base	EA	\$225.00
REL6452	Stainless steel hands free by-pass support	EA	\$187.98
REL6461	Stainless dual wheel, hands- free traveler	EA	\$525.82

## *Inspectable*

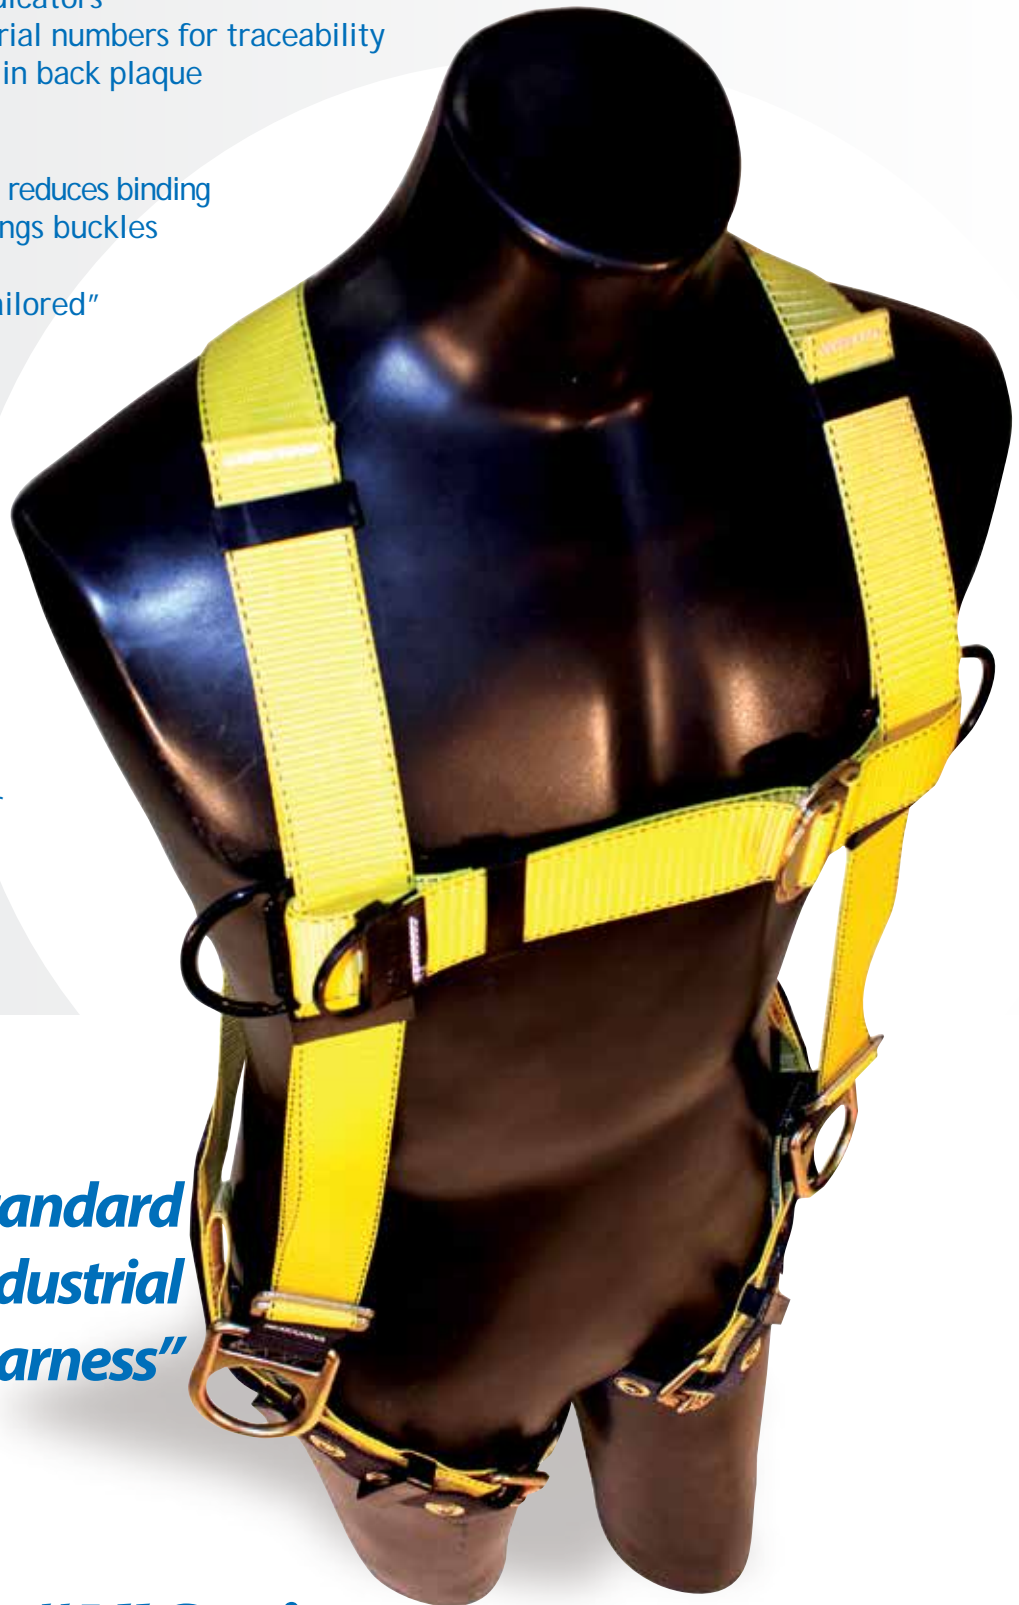

- Tattletale® webbing has an interior ply of contrasting bright red "strength" yarns that increase webbing strength to 7000 lbs (31kN) and instantly reveal cuts or abrasion (see opposite page).
- Built-in impact load indicators
- Bar-coded individual serial numbers for traceability
- Indelible serial number in back plaque

## *Comfortable*

- "Floating" thigh stitching reduces binding
- Improved geometry brings buckles to front of thigh
- Angled stitching for "tailored" sub-pelvic fit
- Extra large back pad eliminates dangerous "D-ring droop"

## *Durable*

- No elastic webbing
- Heat-set labels won't come off
- Corrosion resistant grommets
- Extra thick woven (not sewn) seat webbing for added durability

***"The industry standard  
construction & industrial  
Full Body Harness"***

## ***The "A" Series***

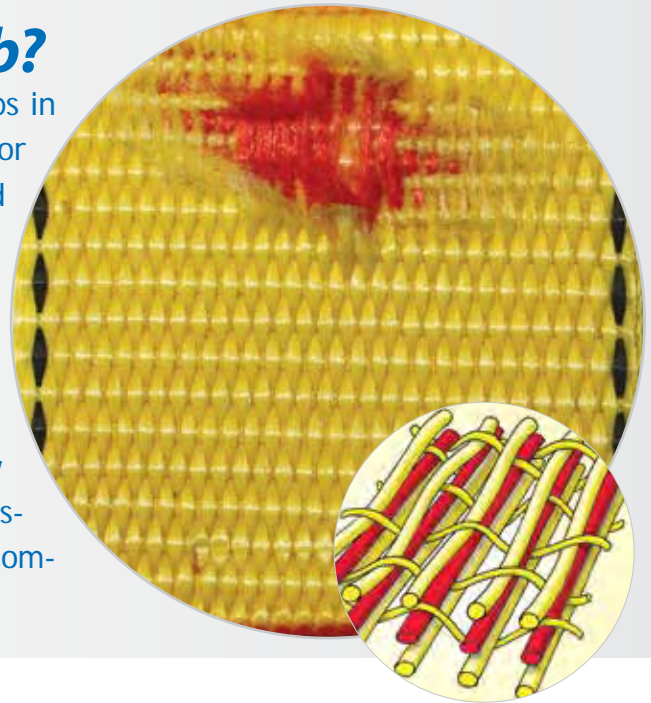

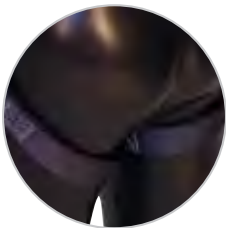

## What is TattleTale® Web?

TattleTale® web is inspectable web. All load-bearing straps in Reliance harnesses and lanyards have a red inner core (or a yellow core in black webbing) which becomes exposed when the web becomes damaged by cuts or abrasion. Red that shows through is not a "red light" signalling the user to stop using the equipment, it simply "tells" the user that the equipment needs closer inspection, and where to look. The webbing helps again by giving the Competent Person (the expert) the information needed to judge how deep the cuts or abrasions are, so the seriousness of the issue can be determined. Call Reliance at 800.330.9240 for complete inspection procedures.

## "A" Series Harness Features

Extra-thick woven seat webbing

Extra-Large Back Pad

Corrosion Resistant Grommets

Improved Geometry

Built-In Impact Load Indicators

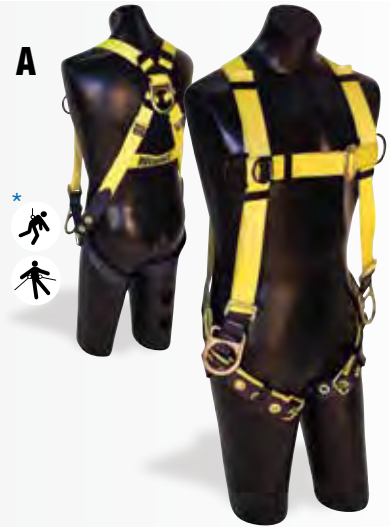

Lanyard Keepers on Chest Strap

## Harness Buckle Types

All Reliance 'A' Series and Ironman™ Series full body harnesses utilize one of two types of fasteners to secure the lower leg portion of the harness (all chest straps are secured using pass-thru buckles)

**Tongue Buckle Fasteners**

Tongue buckle and grommet fasteners are corrosion resistant to ensure smooth, consistent operation. Grommets are inserted through an opening in the web as opposed to a punched hole to maintain webbing integrity. Consistent spacing ensures a custom fit regardless of user size. Harness sizing adjustment is easy, especially when wearing gloves.

**Pass-Thru Fasteners**

Pass-Thru buckles are zinc-coated and smooth for a precise fit. Placement of the web through the buckle provides for a higher degree of custom adjustment than grommet and tongue buckle fasteners, and use of Pass-Thru buckles reduce the overall weight of the harness. Pass-Thru buckles are standard chest strap fasteners on all Reliance harnesses.

# IRONMAN LITE

**The Ironman™ Lite Harness  
from Reliance. Designed for  
hard work - and now 10% -  
30% lighter...**

***Higher Standards in Fall Protection***

## The Reliance Ironman™ Lite series: Ideal for use in heavy construction, maintenance, and in harsh environments.

### Inspectable

- TattleTale® webbing has an interior ply of contrasting black “strength” yarns that increase webbing strength to 7000 lbs (31kN) and instantly reveal cuts or abrasion
- Built-in impact load indicators
- Bar-coded individual serial numbers for traceability

### Comfortable

- Removable back support/tool belt, shoulder padding
- Reliance Quick-Adjust™ torso adjustment buckles
- Quick-Connect chest buckle
- “Floating” thigh stitching reduces binding
- Improved geometry places buckles on front of thigh
- Angled stitching for “tailored” sub-pelvic fit
- Extra large back pad eliminates dangerous ‘D-ring droop

### Durable

- No elastic webbing
- Heat-set labels won't come off
- Extra heavy-duty corrosion and abrasion resistant leg grommets
- Extra thick woven (not sewn) seat webbing for added durability
- Premium anodized aluminum alloy hardware for high strength and reduced weight

*Ideal for use with the*

*Reliance StopLite®*

## Ironman™ Lite Features

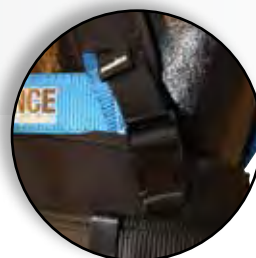

**Aluminum Torso Adjustors**

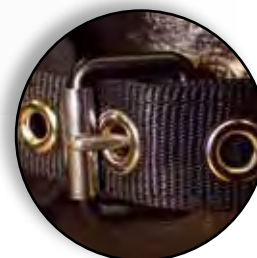

**Aluminum Positioning D-Rings (802000)**

**Integrated Back Belt (812000)**

**Back Belt Position Adjustors**

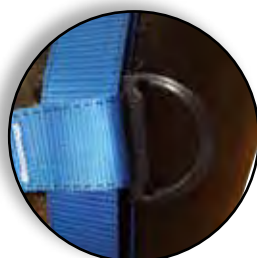

**Anodized Aluminum Tongue Buckles**

**Stand-Up Aluminum Dorsal D-Ring**

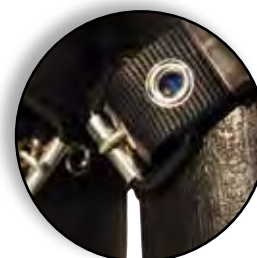

**Aluminum Positioning D-Rings (812000)**

**Dual Lanyard Keepers**

**Slim Profile Quick Connect Chest Buckle**

**Silver Aluminum Grommets**

# Ironman™ Lite Harness

Ironman™ Lite is a new grade of harness designed for the power-user, combining premium features with the classic utility of Reliance Full Body Harnesses. The aluminium alloy hardware provides the strength of steel without the weight, ensuring greater comfort and increased compliance and productivity.

## How to Don a Harness

**1** Grasp harness by back D-ring and back plaque. Be certain straps are not twisted, and inspect for damage.

**2** Place harness over arms and on to shoulders. Shoulder straps should remain vertical on chest.

**3** Grasp leg straps and connect to buckles attached to straps on each hip. Insert excess strap through keepers. Leg straps should be snug.

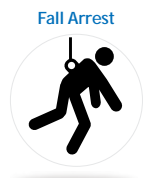

**4** Attach chest strap by passing male buckle through female buckle. Strap should be at upper chest level. Retain excess strap with keeper.

**5** To tighten shoulders, pull up on free ends of straps. To loosen, push down on adjuster. Straps should be adjusted to the same length.

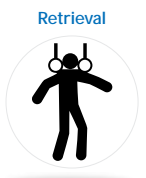

**6** Back D-ring should be centered between shoulder blades. To adjust, slide D-ring and plaque up or down along the webbing.

**7** A properly fitted harness should be snug, but not tight enough to prevent normal movement. ALWAYS properly adjust harness before use.

## Harness Icon Guide

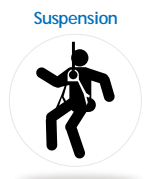

**Fall Arrest**  
Single dorsal (back) mounted D-Ring can be used in all fall arrest and fall (work) restraint scenarios. Personal Fall Arrest Systems (PFAS) should be configured to prevent free falls greater than 6' (1.8m). When PFAS cannot be configured to limit free fall's to 6' or less, equipment selection is critical and should be performed by a competent person. D-Ring should be centered between the user's shoulder blades.

**Retrieval**  
For use in confined space rescue, insertion and extraction. Must be used in conjunction with a PFAS.

**Positioning**  
Positioning D-Rings can be used for work positioning and fall (work) restraint in some scenarios. Positioning systems must be rigged to prevent free fall's not to exceed 2' (.6m) and a PFAS must be used with work positioning systems.

**Suspension**  
Designed to provide body support and permits leaning or sitting while working. Must be used in conjunction with a PFAS.

**Climbing**  
Frontal/Sternum: Climbing D-Ring (or other attachment element) may be used for ladder climbing fall arrest provided the connection between the harness and fall arrester does not exceed 9" (23cm). May be also used for fall arrest provided free fall is limited to 2' (.6m) or less and maximum arrest force does not exceed 900 lbs (4kN) Can also be used for rescue, controlled descent and work positioning in certain scenarios.

**Dielectric**  
Complies with ASTM F 887-04 Type A Full Body Harness. 40 cal/cm<sup>2</sup> ± 5 cal/cm<sup>2</sup> arc flash.

## Polyurethane Coated Full Body Harnesses & Shock Absorbing Lanyards

These products have been specifically designed for use in harsh work environments. With a .05" Polyurethane coating encapsulating the web, these products are easier to clean and more resilient to cuts and burns in harsh work environments than our standard, uncoated products.

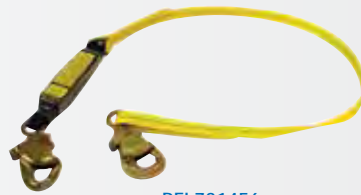

REL800005

REL800055

REL802005

REL731456

REL741426

REL741256

\*REL761426

### Polyurethane Coated Harnesses

- .05" Polyurethane coating on webbing increases durability and eases cleaning
- Tattletale® webbing has an interior ply of contrasting bright red "strength" yarns that increase webbing strength to 7000 lbs (31kN) and instantly reveal cuts or abrasion
- Built-in impact load indicators
- Bar-coded individual serial numbers for traceability
- Indelible serial number in back plaque
- "Floating" thigh stitching reduces binding
- Improved geometry brings buckles to front of thigh
- Angled stitching for "tailored" sub-pelvic fit
- Extra large back pad eliminates dangerous 'D-ring droop'
- No elastic webbing
- Heat-set labels won't come off
- Corrosion resistant grommets
- Extra thick woven (not sewn) seat webbing for added durability

### Available Models - Harnesses

SKU	Description	UOM	Price
REL800005	Dorsal D-ring, Tongue Buckle legs	EA	\$119.51
REL800055	Dorsal D-ring, Pass-Thru legs	EA	\$119.51
REL802005	Dorsal & Positioning D-rings, Tongue Buckle legs	EA	\$104.08

### Polyurethane Lanyards

- .05" Polyurethane coating on webbing increases durability and eases cleaning
- Designed to withstand exposure to the harshest of work environments
- Limits arresting forces to less than 900 lbs (4kN) in a 6' (1.8m) free fall (\*761426 BigBoy™ limits forces to 1800 lbs (8kN) in same distance)
- Lanyard elongation will not exceed 42" (1.07m) in a 6' 1.8m) free fall arrest
- Clear Shrink tubing for shock pack and label inspec ability
- Serialized and barcoded for traceability
- All hooks comply with the stringent ANSI Z359.1-2007

### Available Models - Lanyards

SKU	Description	UOM	Price
REL741426	Dual leg, 1 Pelican, 2 Steelhead™ Tie-back hooks	EA	\$171.20
REL741256	Dual leg, 1 Pelican, 2 Rebar hooks	EA	\$184.66
REL761426	BigBoy™ Dual leg, 1 Pelican, 2 Steelhead™ Tie-back hooks	EA	\$162.78

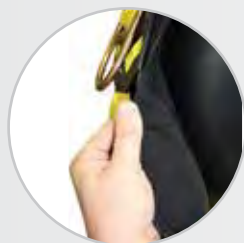

\*Steelhead™ Tie-Back hooks can be used to tie the lanyard back on to itself when necessary. Only approved anchorage points may be used.

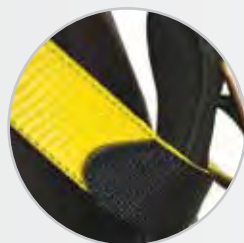

# 'Comfort Series' Full Body Harnesses

Based on the standard "A"™ Series and Ironman™ harnesses, the Comfort Series harnesses come with the 880082 "X" Comfort Pad and the 880092 Thigh Comfort Pads pre-installed. Pads are made from a durable nylon outer fabric, a soft, breathable foam center and a moisture wicking lining to provide all day comfort. Comfort Pads are designed to distribute the harness contact points over a larger surfaced area, and reduce fatigue throughout the day - even when used with heavy tool belts. Pads are removable, machine washable, and can be ordered separately and installed on most any harness.

Moisture Wicking Lining

Washable Aearated Foam

Field Installable

'X' Padding Available Separately

Leg Padding Available Separately

## "A"™ Series

- "X" pad assists in harness donning by keeping shoulder straps separated and preventing entanglement
- Thigh pads provide comfort to the wearer in the event of extended after-fall suspension

## Ironman™ Series

Clean harness with lukewarm water and a mild laundry detergent solution. (no bleach solutions). Dry hardware with a clean, dry cloth, and hang to air dry. Do not machine launder. Do not attempt to disassemble the unit. A buildup of dirt, solvents, paint, etc. may prevent the harness from working properly, and in severe cases degrade the webbing to a point where it weakens and should be removed from service.

Store in a cool, dry, clean environment out of direct sunlight. Avoid contact with heat, oil, or harsh chemicals. Thoroughly inspect after extended storage. Store unusable product separately from usable product. If you have questions concerning the condition of your harness, or have any doubt about putting it into service contact RELIANCE.

### A. INSPECTION FREQUENCY

- 1) The harness must be inspected by the user prior to each use.
- 2) A competent person other than the user must inspect the harness thoroughly at least annually. Extreme working conditions (harsh environments that might degrade the webbing or corrode the hardware, prolonged use, etc.) may require increasing inspection frequency. Record the results of each formal inspection in the inspection and maintenance log as described below.

### B. INSPECTION PROCEDURE

- 1) Inspect all webbing (straps) and stitching for cuts, fraying, pulled or broken threads, abrasion, excessive wear, altered or missing straps, burns, and heat and chemical degradation. Broken stitches on the load indicator folds located below the back D-ring may be an indication that the harness has been impact loaded and must be removed from service. Observe the "Tattletale<sup>®</sup>" carrier ply webbing for surface areas with the brightly contrasting red colored yarns (or sometimes other brightly contrasting colors, depending the color of the outside web), indicating that excessive abrasion has occurred. For more details on the "Tattletale<sup>®</sup>" webbing as an inspection tool, contact RELIANCE.

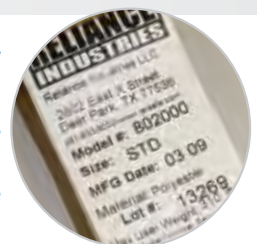

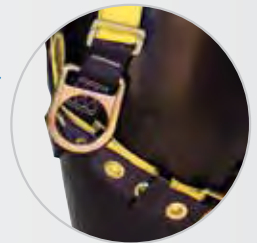

- 2) Inspect all metallic hardware (i.e. D-rings, adjuster/buckles, tongue buckles and grommets) for deformation, fractures, cracks, corrosion, deep pitting, burrs, sharp edges, cuts, deep nicks, missing or loose parts, improper function, and evidence of excessive heat, chemical, or electrical exposures. Ensure buckles work & mate freely.

- 3) All labels should be present and fully legible. Record the inspection on the label area by punching a hole or marking. Harness instruction booklets contain an independent inspection log that should be maintained in conjunction with the inspection label on the harness to ensure that a) the inspections have been performed on a regularly scheduled basis and b) the inspection log will not become lost or misplaced. RELIANCE will be happy to provide additional forms or suggest other methods of electronically documenting this process.

- 4) Inspect all plastic parts (i.e. back D-ring locator, chest strap guide, strap collars, label) for cut, broken, excessively worn, missing and loose parts. (Labels are to be additionally checked in accordance with Step 3 above).

- 5) Verify each component or subsystem of the complete PFAS are inspected according with the associated manufacturer's instructions.

- 6) If inspection reveals a defective condition or improper maintenance remove unit from service immediately and destroy or label it as "UNUSABLE" until formal inspection by competent person. Defects, damage, excessive wear and/or aging are generally not repairable. Only RELIANCE or parties with written authorization from RELIANCE may make repairs to the harness.

## “The industry standard in load-rated gates”

For over five years, Reliance has been leading the way in snaphook design, development, production, and implementation. We proudly design and manufacture our own snaphooks and carabiners, and have been exceeding the new ANSI requirements for a 3,600 lb. (16kN) gate for over five years. The SteelHead® Tie-Back snap hook set the standard, and the Pelican™ and Pelican™ II followed closely behind. All Reliance snaphooks are 100% proof-loaded to 3,600 lbs. and incorporate our patented FanGate™ design. FanGate design ensures proper axial loading and prevents webbing and hardware from being trapped behind the gate. The design prevents gate loading, and guards against potential rollout or burstout (accidental disengagement), and the dimensional design of the hook body makes false engagement impossible.

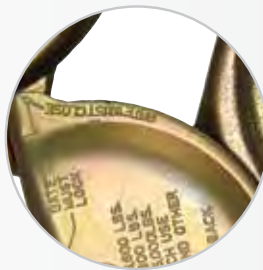

Reliance snaphooks are manufactured with patented design features

### Reliance® Snaphook Features

Alloy Steel Forged Bodies

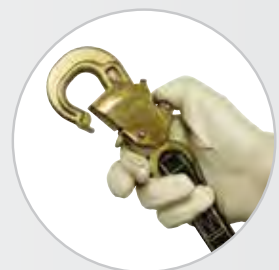

Patented FanGate™

Anti-Rollout Feature

Gate 'Wings' Protect Rivets

Ergonomically Friendly

### Requirements for ANSI Z359.1-2007 Snaphook Compliance

Under the previous Z359 standard, the gate strength load required 220 lbs. (.97kN) on the gate face, and 350 lbs. (1.5kN) on the gate side. Effective October 15, 2007, ANSI Z359.1-2007 required that all snaphook gates be capable of withstanding a gate side and face load of 3,600 lbs. (16kN) Ultimate strength of a snaphooks must be 5,000 lbs. (22kN) when loaded on the long axis of the hook.

All Reliance snaphooks meet the new standard. Some connection risks remain due to interference with the intended operation of the connector's gate or gate lock. Some known higher risk connections are listed below and should be avoided even when using the new ANSI hooks:

- Attaching more than one hook into a single connecting element is not recommended.
- Connecting combinations of hooks together is not recommended. This includes connecting two hooks together or one hook and one carabiner.
- Making connections where the hook lock can easily come into contact with another piece of equipment or structural member and potentially release the hook lock.

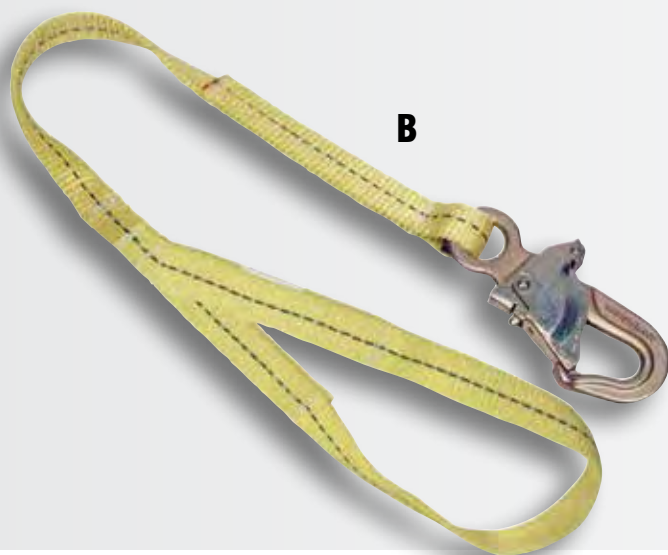

Our positioning devices are ideal for all types of work positioning and fall restraint applications, and effectively limit a worker's exposure to potential fall hazards. Each includes durable, easy-opening hardware and is designed to perform in the toughest of environments.

# Shock Absorbing Lanyards

Reliance offers a wide variety of shock absorbing lanyards; each designed to meet your specific fall protection requirements. Below are the five categories of lanyards available.

## Skyline™

The Skyline™ shock absorbing lanyard represents the industry standard in single-leg shock absorbers. They feature Reliance's patented "Tattletale®" webbing, making inspection quick and easy. Skyline™ lanyards are rigorously tested to comply with the most stringent ANSI standards, and are available with a variety of hooks for use in all types of environments.

The FatPack™ gets that name because it has two complete and independent shock absorber assemblies inside the same shock pack, making it fatter than a normal single shock pack. With two independent shock absorbers in the same shock pack the Reliance FatPack™ lanyards are able to absorb this "second" impact, reducing the possibility and severity of injury.

## FatPack™

## BlackMAX™

The BlackMAX™ shock-absorbing lanyard is the first of its kind. It "knows" how far the worker has fallen and can regulate the arresting force depending on the circumstances. It is designed to arrest falls in both "Force Level 1" (6' free-fall) and "Force Level 2" (12' free fall) (1.8 & 3.6m) conditions. This eliminates the need for 2 styles of shock-absorbing lanyards for employees that may be exposed to both potential fall conditions throughout the workday.

The BigBoy™ series of shock absorbing lanyards was designed for use by persons with a total body and tool weight greater than 310 lbs. (140kg) If deployed, the Maximum Arresting Force (MAF) will not exceed 1800 lbs. (8kN), and lanyard elongation will not exceed 42" (1.1m) - in adherence with existing requirements for equipment designed for users with a total body and tool weight of less than 310 lbs.

## BigBoy™

## QuickStop™

The QuickStop™ series of shock absorbing lanyards is "Tuned" to greatly reduce deceleration distance in the event of a fall. These lanyards are designed for use in areas where clearance to the next lower level is less than 14' (4.2m). Maximum Arresting Force (MAF) will not exceed 1800 lbs (8kN).

The Skyline™ shock absorbing lanyard represents the industry standard in single-leg shock absorbers. They feature Reliance's patented "Tattletale®" webbing, making inspection quick and easy. Skyline™ lanyards are rigorously tested to comply with the most stringent ANSI standards, and are available with a variety of hooks for use in all types of environments.

c - Leg-End Hooks: 3/4" (19mm) = Pelican™; 2-1/4" (57mm) = 2-1/4" opening rebar hook; O-ring = 2" or 3" (50 or 76mm) forged O-ring; 3/4" (19mm) TB = SteelHead® Tieback Hook

d - Usage: P = Positioning, R = Restraint, A = Anchorage, F= Fall Arrest, 100 = Y-lanyard for 100 percent tie-off

Reliance twin-leg lanyards use a FatPack™ shock absorber. The FatPack™ gets that name because it has two complete and independent shock absorber assemblies inside the same shock pack, making it fatter than a normal single shock pack. Most manufacturers make twin lanyards with both legs attached to just one shock absorber, so isn't that "good enough"? Why do Reliance twin lanyards have two independent shock absorbers?

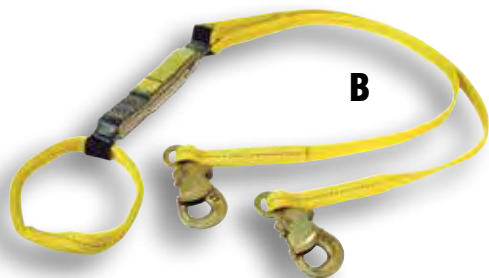

The answer is that Reliance designs products for worker safety, not just to meet the minimum required by the OSHA or ANSI standards. As an example with three D-ring harnesses and twin-legged lanyards it's common to see workers use one of the harness hip D-rings as a lanyard keeper, while the other lanyard leg is connected to an anchorage. Even though this is common it's not a safe practice. In a fall event the leg of the lanyard that is connected to the anchorage will extend up to 42" (1.1m) as the webbing absorbs the impact.

If both lanyard legs are connected to just one shock pack the leg that is extending will pull the other lanyard leg with it. If that other leg of the lanyard is connected to the worker at the harness hip D-ring, that hip will be jerked instantly upward toward the anchorage point by the extending shock absorber. With two independent shock absorbers in the same shock pack the Reliance FatPack™ lanyards are able to absorb this "second" impact, reducing the possibility and severity of injury. This is not something currently required by OSHA or ANSI standards, it is something done by Reliance because we feel it should be.

While this kind of issue can be addressed through worker training, the Reliance philosophy is that it's best to address equipment issues through product design whenever possible. The less a worker needs to think about how to use his equipment correctly the more likely it is he will actually use it safely.

d - Usage: P = Positioning, R = Restraint, A = Anchorage, F= Fall Arrest, 100 = Y-lanyard for 100 percent tie-off

The BlackMAX™ shock-absorbing lanyard is the first of its kind. It has the capability to determine how far a worker has fallen and can regulate the arresting force depending on the circumstances, a first in the industry. This is a unique feature to the lanyard and what makes it “smart.”

The BlackMAX™ shock-absorbing lanyard is designed to arrest falls in both “Force level 1” and “Force level 2” conditions. This eliminates the need for 2 styles of shock-absorbing lanyards for employees that may be exposed to both potential fall conditions throughout the workday.

If a worker has fallen 6’ (1.8m) or less, the lanyard arrests the energy at 900 lbs. (4kN). However, if a worker has fallen at a height greater than 6’, the lanyard will arrest the energy at 1,800 lbs. (8kN). In both cases, the lanyard does not allow the extension to exceed 42” (1.1m).

Another feature of the BlackMAX™ lanyard is that it comes standard with a 5,000 lb. (22.2kN) Gateload snaphook. With Gateload snaphooks, workers are able to tie back to the lanyard around a structure and still stay within regulation, connect at feet level with the added security of the 5,000 lb. gate to prevent gate loading disconnection.

# Shock Absorbing Lanyards - BigBoy™

The BigBoy™ series of shock absorbing lanyards was designed for use by persons with a total body and tool weight greater than 310 lbs. (140kg). If deployed, the Maximum Arresting Force (MAF) will not exceed 1800 lbs. (8kN), and lanyard elongation will not exceed 42" (1.1m) - in adherence with existing requirements for equipment designed for users with a total body and tool weight of less than 310 lbs.

Under OSHA standards (1926.502(d)(6)) snap hooks shall not be engaged to a D-ring to which another snaphook or other connector is attached unless the snaphook is a locking type and designed for the connection. While the Steelhead® snap has two opposing independent locking & unlocking mechanisms and is rated 5000 lbs. (22,.2kN) based on ANSI format tests, it is deemed compatible to engage two Steelhead® snaphooks to a D-ring with special training considerations. A co-worker should attach the snaphooks to the D-ring to prevent interlocking of the snaps - this decreases the risk of false engagement. The snaphooks should be free to rotate in the D-ring and the right bearing snaphook lanyard should be used on the right and the left bearing snaphook lanyard should be used on the left side.

REL4015

REL4020

Self retracting lanyards are among the best options for both fall arrestor and deceleration devices. Skyloc™ self retracting lanyards are designed to arrest a fall in 2' (.6m) or less and limit the maximum arresting force (MAF) to 900 lbs (4 kN). Deceleration distance will not exceed 42" (1.1m). With short fall arrest distances and lower MAF's the Skyloc™ is the best option where fall clearance is a concern.

- Lightweight thermoplastic case
- Two fast and positive cam-driven locking pawls.
- Available with cable or polyester web
- Forged steel Pelican hook

## The SkyLoc II Series SRL from Reliance. Redesigned - inside AND out.

The SkyLoc name has always been synonymous with durable, reliable performance. The new SkyLoc II Series is built on that reputation, but we've added features that make this series safer, and easier to use than ever before.

Reliance's new lightweight, fiberglass reinforced, stackable nylon housings include things like a big carry handle opposite a flat surface, making the units easier to transport and store. A swivel connection on top combined with a swivelling snap hook means no twisting on your anchorage. And a rubberized, form-fitted cable grip makes feeding out cable a snap. That's not all - additional features include :

- *Fiberglass reinforced nylon housing*
- *Load-bearing steel frame*
- *Over-sized steel anchor swivel*
- *Patented, non-centrifugal Fail-Safe locking mechanism*
- *Lightweight and incredibly rugged*
- *Exceeds the Class A requirements of ANSI Z359.14*
- *Exceeds the requirements of OSHA 1910 and 1926.*

REL5010	Vertical lifeline 600' w/ carabiner	EA	\$520.33

REL5010 Series

B

Vertical Lifeline Fall Arrestor's should only be used with shock absorbing lanyards 3' (.9m) in length or less. Lanyards greater than 3' may produce free falls greater than 6' (1.8m) and produce a MAF greater than 1,800 lbs. (8kN) We recommend a Reliance 731103 shock absorbing lanyard.

## A. Vertical Ladder Stanchion

The 6512 Vertical Ladder Stanchion is designed to anchor a Self Retracting Lifeline that a single worker can use to climb or descend a fixed metal ladder. The Ladder Stanchion uses adjustable rung clamps to attach to any OSHA standard ladder. Once installed, an SRL with a Maximum Arrest Force of 900 lbs may be attached to the head assembly of the Stanchion providing fall protection for a single individual (the Stanchion is designed to be used by one individual at a time only).

- Ladder Stanchion Tube, Rung Clamps, Bolts, washers and nuts : Zn plated steel
- Height : 6' (1.8m) - Weight : 40 lbs (18kg)
- Accommodates any size SRL
- Durable Zinc plated steel construction
- Attaches to any OSHA compliant fixed metal ladder

SKU	Description	UOM	Price
REL6512	Vertical Ladder Stanchion	EA	\$342.40

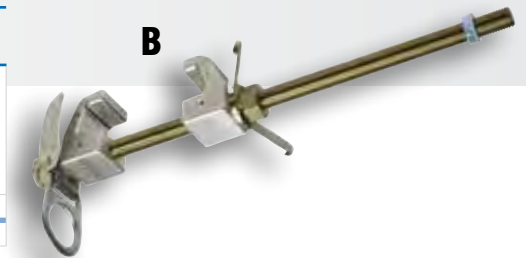

## Adjustable Width Beam Anchors

Adjustable Width Beam Anchors are temporary (movable) anchorages designed for use in steel erection. The steel bar, aluminium jawed HLL anchor clamp can be used to anchor a Horizontal Lifeline System, or as an anchor point for a personal fall arrest system.

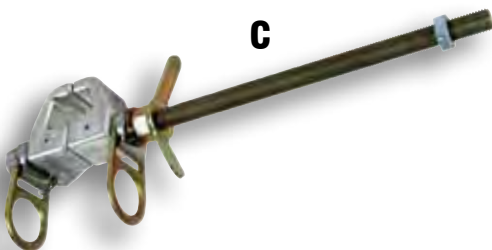

## B. Reliance® Adjustable Width Beam Anchor 3093

- Temporary (Movable) Anchorage
- 14,500 lbs. Maximum Breaking Strength
- Attaches to I-Beams with 4" to 16-5/8" flanges and 1/4" to 1-3/4" flange thickness (4 - 41.5cm width, .6 - 4.4cm thick)

SKU	Description	UOM	Price
REL3093	Adjustable width beam anchor	EA	\$384.27

C

## C. Reliance® Adjustable Width Beam Anchor 3098

- Dual anchor ring for personal fall arrest equipment or engineered Horizontal Lifeline

SKU	Description	UOM	Price
REL3098	Adjustable width beam anchor, dual anchor ring	EA	\$397.42

## Adjustable Width Sliding Beam Anchors

These anchors combine freedom of movement and dependable fall protection. When attached to a beam, the anchor trails behind the user through attachment of a shock absorbing lanyard. Anchors are simple to install, remove, and size, with no pins or chains. Dual beam grip adjustment prevents twisting and turning as it moves along the beam, and synthetic wear pads are replaceable.

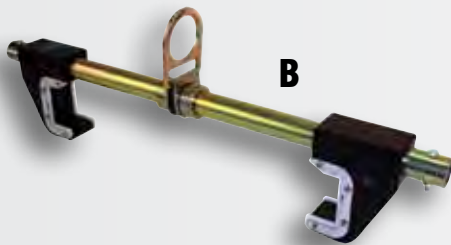

*Easy Adjustment*

### A. Reliance® Adjustable Width Sliding Beam Anchor 3096

- Fits flange 3-3/4" to 12-1/2" wide and 1/4" up to 1-1/4" thick (9.5cm to 32cm wide, 6 - 32mm thick)

SKU	Description	UOM	Price
REL3096	Adjustable width sliding beam anchor 3-3/4" to 12-1/2" wide	EA	\$357.16

### B. Reliance® Adjustable Width Sliding Beam Anchor 3097

- Fits flange 5-1/2" to 18" wide and 1/4" up to 2-1/2" thick (14 - 46cm wide, 6mm - 60mm thick)

SKU	Description	UOM	Price
REL3097	Adjustable width sliding beam anchor 5-1/2" to 18" wide	EA	\$403.78

### C. Reliance® Adjustable Width Sliding Beam Anchor 3104

- Fits flanges 5-1/2" to 26" wide and 1/2" to 3" thick. (14 - 66cm wide, 13-76mm thick)

SKU	Description	UOM	Price
REL3104	Adjustable width sliding beam anchor 5-1/2" to 26" wide	EA	\$867.16

### D. Reliance® Easy Slider Beam Anchor

- Light-weight, easy to install and remove and allows for safe, dependable tie-off without restricting mobility.
- Easy Slider is ideal for use on smaller I-beam profiles.
- Durable construction and simple operation put this product in a class by itself.

SKU	Description	UOM	Price
REL3105-1	Easy Slider Beam Anchor	EA	\$214.88

*Anchors may be used over head or at foot level when used with the BlackMax™ shock absorber*

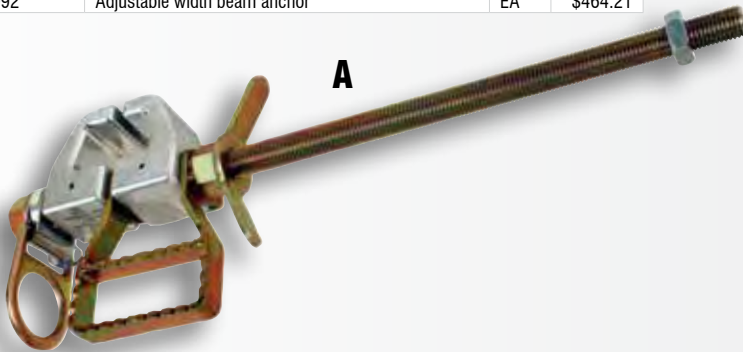

## Adjustable Width Beam Anchors

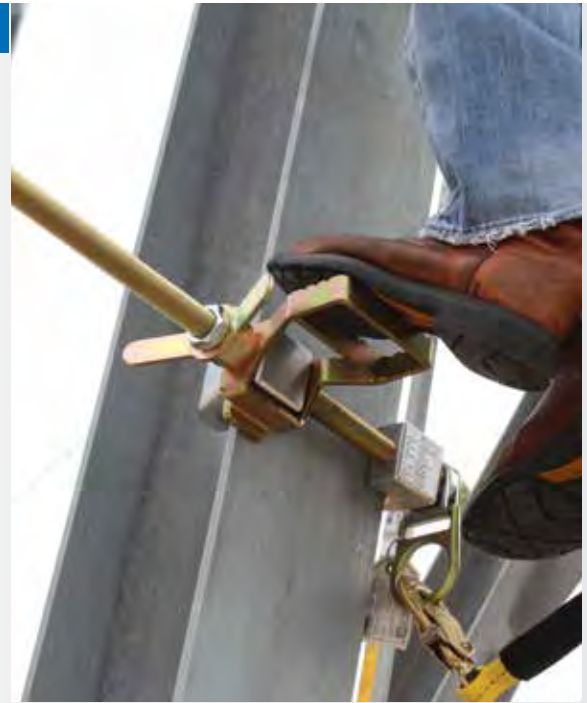

### A. Reliance® Adjustable Width Beam Anchor 3092

- Attaches to I-beams 4" to 16-5/8" wide with a 1/4" to 1-3/4" flange thickness (4 - 41.5cm width, .6 - 4.4cm thick)
- Rated 14,500 lbs. (64.4kN) at ring
- Integrated folding step (may not be used as a point of attachment)

SKU	Description	UOM	Price
REL3092	Adjustable width beam anchor	EA	\$464.21

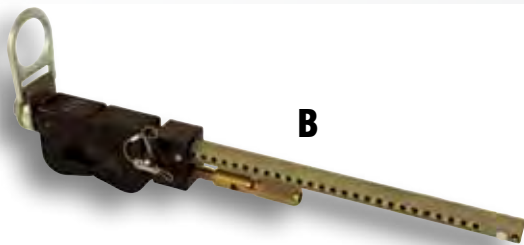

*\*Must be used with the BlackMax™ shock absorber when anchored at foot level*

## Screwjack™ Personal Fall Arrest Anchor Clamps

The Screwjack™ Personal Fall Arrest Anchor Clamp is a lightweight adjustable anchor designed to clamp directly to the flanges of various size 'I' and 'W' style beams. A swivelling D-ring allows for a compatible attachment point of a personal fall arrest system (PFAS) for a single user. The sliding jaw can be adjusted to the needed width and placed over the beam and then secured in place with the locking detent pin. With the screw adjustment feature, the clamp can then be securely attached to vertical or inclined beams to prevent movement.

- Machined & Anodized 6161-T6 AL Aluminium & Zinc plated Alloy Steel
- Connector- Drop forged D-Ring proof loaded to 3,600 lbs. (16kN)
- Maximum Load : 5,000 lbs. (22.2kN)
- Rate for a single user
- Flange Thickness- 1/4" minimum / 1-1/8" maximum (6 - 29mm) (except 3102 - see below)

### B. Reliance® Screwjack™ Personal Fall Arrest Anchor Clamp 3100

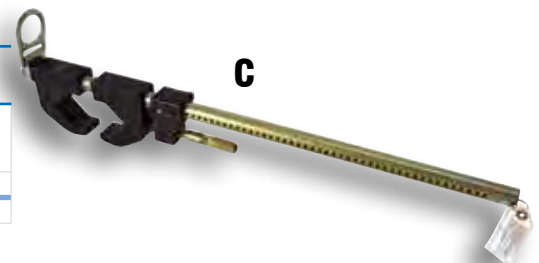

- Fits flange widths: 3-3/4" minimum / 14" Maximum (95mm - 36cm)

SKU	Description	UOM	Price
REL3100	Screwjack™ Personal Fall Arrest Anchor Clamp 3-3/4" to 14"	EA	\$367.88

### C. Reliance® Screwjack™ Personal Fall Arrest Anchor Clamp 3102

- Fits flange widths: 5-1/4" minimum / 24" Maximum (13.3 - 61cm)
- Fits flanges from 1/4" to 3" thick 6 - 76mm)

SKU	Description	UOM	Price
REL3102	Screwjack™ Personal Fall Arrest Anchor Clamp 5-1/4" to 24" wide	EA	\$642.68

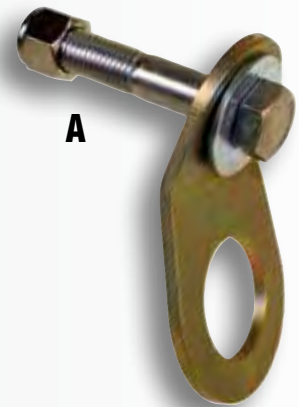

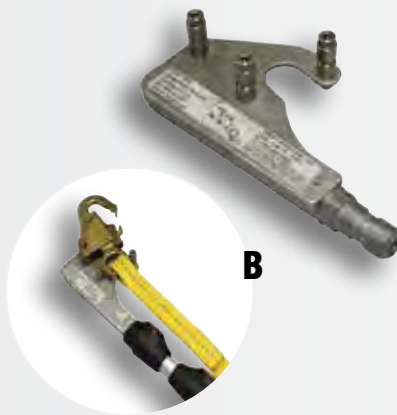

## A. Permanent (Fixed) Anchorage

Attaches to the side of vertical beams or structural steel supports. Zinc plated carbon steel.

SKU	Description	UOM	Price
REL3071	Permanent anchorage	EA	\$60.76

**A**

**B**

## B. Remote Snaphook Connector Tool

Attaches to end of 3022-1 pole and allows user to attach 3006 snaphook to overhead anchorage point. May also be used for a remote connection in rescue scenarios.

SKU	Description	UOM	Price
REL3021	Remote snaphook connector tool	EA	\$74.56

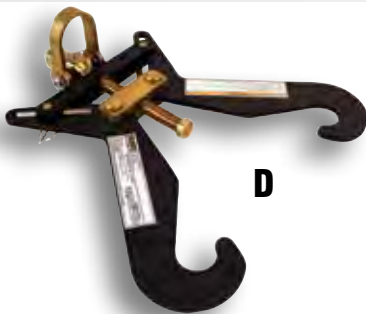

## C. Socket

Socket used with 3040 and 3022 pole.

SKU	Description	UOM	Price

REL2270	Concrete Embed Bypass Ring	EA	\$136.68

## A. Concrete Embed Receiver and Connector

The Concrete Embed Receiver in carbon (2250) or stainless steel (2252) for outdoor or rooftop applications. Rebar passes through hole to give added strength. The Concrete Embed Connector, provides up to 10,000 lb. (44.4kN) anchor when attached to receiver. May be used for one or two man anchor or to anchor horizontal lifelines.

SKU	Description	UOM	Price
REL2250	Concrete embed receiver in zinc plated carbon steel	EA	\$30.32
REL2252	Concrete embed receiver in stainless steel	EA	\$170.40
REL2260	Concrete embed connector	EA	\$594.00

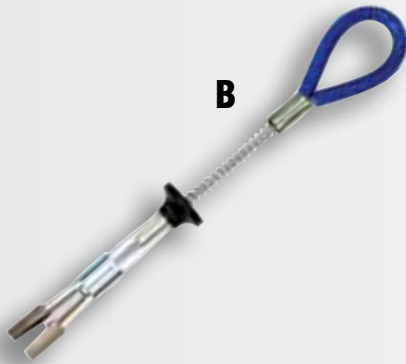

## B. Removable Concrete Anchor

These removable concrete wedge anchors are an industry staple and have been tested to meet ANSI Z359.1 and CE - EN 795. They have a long list of advantages over competitive products. A few include:

- Ease of use - simply drill the proper size hole into your concrete or rock surface, blow the dust out with compressed air, and insert the unit.
- Multi-directional attributes - RB anchors work in horizontal, vertical and overhead surfaces.
- Reusability - when your job is done, simply fill in the drilled hole if necessary and reuse at your new desired location.
- Multi-Industry -Removable Anchors can be used in construction and industrial fields wherever a substantial concrete structure is available to be utilized as an anchorage.

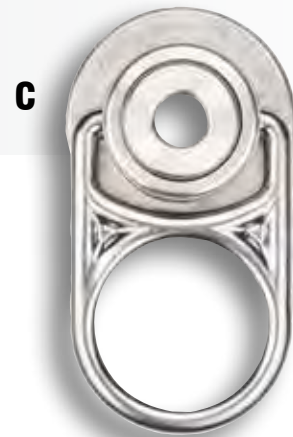

SKU	Description	UOM	Price
REL2267-1	Removable Concrete Anchor - 5,000 lb capacity	EA	\$130.00
REL2268-1	Removable Concrete Anchor - 10,000 lb capacity	EA	\$225.00

## C. Mega Swivel Anchor, Stainless Steel

The Mega-Swivel Anchor is a bolt-on d-ring anchorage connector that allows 360° of rotation and 180° of deflection to help maintain the alignment of your PFAS and to reduce incompatibility risks.

SKU	Description	UOM	Price
REL3078-1	Mega Swivel Anchor, Stainless Steel, - 5,000 lb. capacity	EA~N~	\$229.45

## D. Weld-on Puck Kit for Mega Swivel

The kit includes a 5/8" X 3-3/4" 304 stainless bolt, washer and lock nut and is ideal for harsh environments where corrosion is a concern.

SKU	Description	UOM	Price
REL3079-1	Weld-on Puck Kit for Mega Swivel	EA	\$69.95

## A. Specialty Anchor

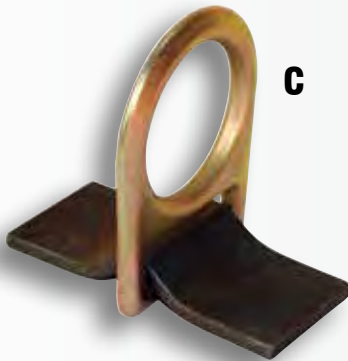

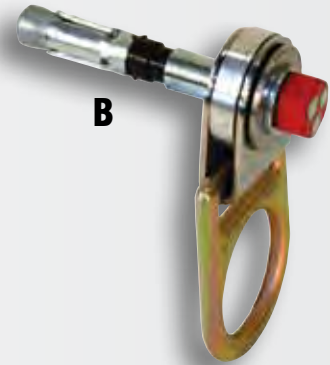

Specialty stainless steel bolt-on anchorage connector designed specifically for cooling towers constructed of wood or fiberglass. May also be used effectively on steel or wood structures meeting anchorage strength requirements of 5,000 lbs or better. Anchorage connector mounts with galvanized or stainless 1/2" bolts, grade 5 or better (not included).

SKU	Description	UOM	Price
REL3107	Stainless steel specialty anchor	EA	Call for Pricing

## B. Concrete D-Ring Anchor

The Reliance Concrete D-Ring Anchor Simple, versatile and safe. Use in temporary or permanent applications. Re-usable D-ring assembly (New bolts must be used during reinstallation). Rugged design for harsh environments with no fragile parts. Safe connection indicator notifies user that anchor has been installed properly. Installs into 1 1/16", 3/4", or 18mm holes - only standard drill bits needed.

SKU	Description	UOM	Price
REL3070	Concrete D-Ring anchor	EA	\$99.44

## C. Weld-on D-ring Anchor

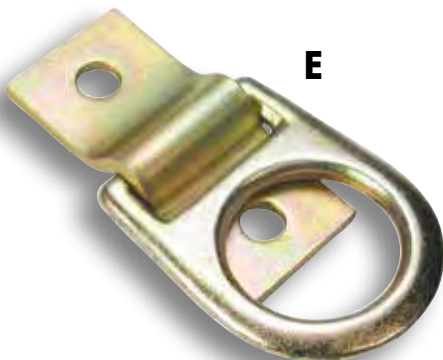

Can be welded to structure for a permanent, rated anchor point. Formed flat bar can be painted after welding.

SKU	Description	UOM	Price
REL3068	Weld-on D-ring anchor	EA	\$21.14

## D. Single & Double-Hole High Strength Weld-On Lug

Single & double-hole high strength weld-on lug for HLL or tie-back anchorages. 14,500 lb. (64.4kN) proof load. Available in stainless or alloy steel

SKU	Description	UOM	Price
REL6158	Single-hole weld-on lug, alloy steel	EA	\$14.74
REL6160	Single-hole weld-on lug, stainless steel	EA	\$51.25
REL6161	Double-hole weld-on lug, alloy steel	EA	\$16.94
REL6162	Double-hole weld-on lug, stainless steel	EA	\$93.82

## E. Bolt-On D-Ring Anchorage

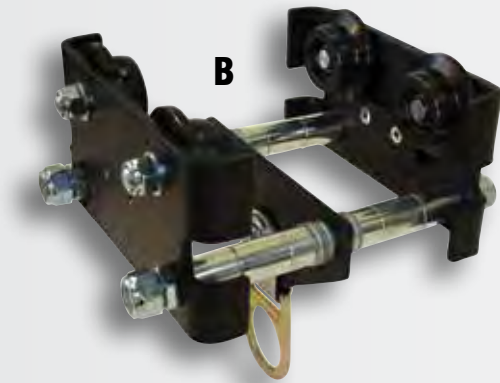

Bolts into two 1/2" (13mm) diameter drilled holes in I-beams or other structure. 5,000 lb. (22.2kN) anchorage, zinc plated carbon steel.

SKU	Description	UOM	Price
REL3066	Bolt-on D-ring anchorage	EA	\$38.67

## A. Bow Shackles

Bow shackles available 1/2" or 5/8" and in stainless steel or galvanized.

SKU	Description	UOM	Price
REL6062-1	Bow shackle 1/2" stainless steel	EA	\$23.08
REL6066	Bow shackle 5/8" stainless steel	EA	\$46.94
REL6063	Bow shackle 1/2" galvanized	EA	\$17.72
REL6067-1	Bow shackle 5/8" galvanized	EA	\$32.58

## B. Beam Trolley

Beam Trolley use on beam flanges 3 - 8.7" (76 - 220mm) wide and from 3/16 - 3/4" (4.7 - 19mm) thick. Minimum distance between flanges is 5" (13cm).

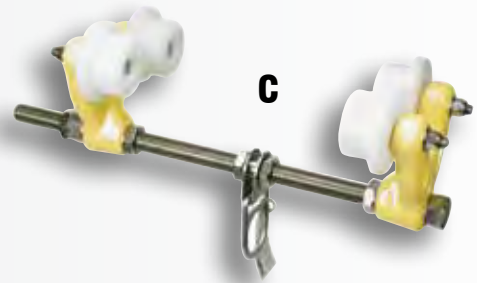

Side & Anchor Plates: Plated Alloy Steel  
 Load Bar: Zinc Plated Alloy Steel  
 Wheels: Cast Alloy Steel, Sealed Ball Bearings  
 Bow Shackle: 316 Stainless Steel (When Supplied)  
 D-Ring: Zinc Plated Alloy Steel  
 Capacity: 1 Person (310 lbs - 140kg)  
 Rated: 5,000 lbs (22.2kN)

SKU	Description	UOM	Price
REL4800-1	Beam trolley	EA	\$461.68

## C. Beam Trolley For Permanent Installation

The Beam Trolley for permanent installation on 4" to 16.5" (10.1 - 42cm) beam flanges. Complete corrosion resistant, UHMW wheels, SS bearings, powder coated aluminium body. Use anywhere: Water and steam resistant, FDA approved for contact with food products. 5,000 lb (22.2kN) single person fall arrest.

SKU	Description	UOM	Price
REL4850	Beam trolley for permanent installation	EA	\$574.71

## D. Web Anchor Sling

Web Anchor Sling 9,600 lb. web sling with abrasion protector, 3" and 2" (76 & 50mm) D-rings. Available in various lengths.

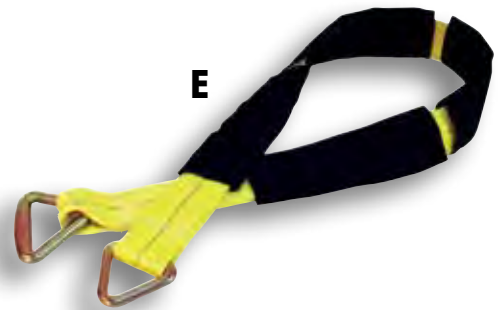

SKU	Description	UOM	Price
REL680002	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 2 ft	EA	\$35.48
REL680003	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 3 ft	EA	\$35.48
REL680004	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 4 ft	EA	\$35.48
REL680005	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 5 ft	EA	\$35.48
REL680006	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 6 ft	EA	\$35.48
REL680007	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 7 ft	EA	\$43.58
REL680008	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 8 ft	EA	\$45.35
REL680009	Web anchor sling, 1ea large D-ring, 1 ea small D-ring, 9 ft	EA	\$48.08

## E. I-Beam And Concrete Beam Anchor Strap With Wear Sleeves

I-Beam Anchor Strap with wear sleeves. 3" - 28,000 lb. polyester web with four movable wear sleeves for corner protection. 6' length (6095)

Concrete Beam Anchor Strap with wear sleeves 3" - 28,000 lb. (76mm, 124.4kN) polyester web with four movable wear sleeves for corner protection. 15' length (4.5m) (6096)

SKU	Description	UOM	Price
REL6095	I-beam anchor strap with wear sleeves	EA	\$121.53
REL6096	Concrete beam anchor strap with wear sleeves	EA	\$166.05

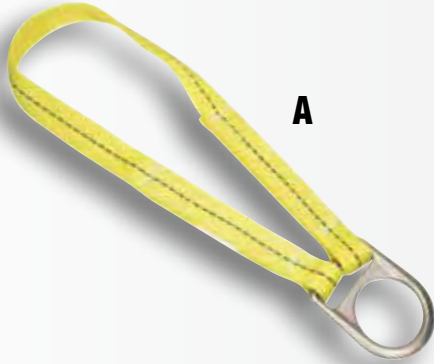

## A. 17" (43cm) Scaffold Anchor Sling with D-Ring

- 9,800 lbs strength (43.5kN)
- 1" (25mm) Tattletale® web construction

SKU	Description	UOM	Price
REL687000	17" (43cm) scaffold anchor sling with D-ring	EA	\$28.26

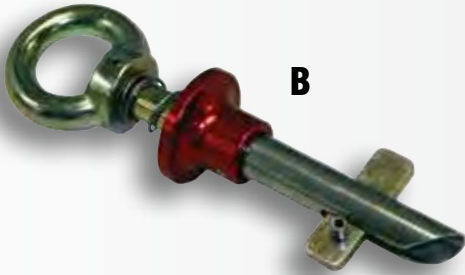

A

## B. Structural Steel Anchor

Easy, one hand operation. Fits holes with a diameter ranging from 13/16" to 7/8" (20.6 - 22mm) and a wall thickness of 3/8" to 1-9/16" (10 - 40mm). 5,000 lb. (22.2kN) rated anchorage point. Drop forged eye bolt.

SKU	Description	UOM	Price
REL3069-11	Structural steel anchor	EA	\$242.16

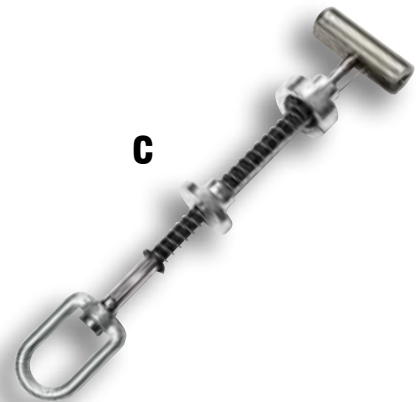

B

## C. Modified Toggle-Lock Anchor

This versatile anchorage connector was developed exclusively for Reliance to provide a secure connection in steel I-beam flanges and in hollow pre-cast concrete applications. It meets all applicable standards requirements and is rated for use by a single user.

SKU	Description	UOM	Price
REL2269-1	Modified Toggle-Lock Anchor - 2-1/8" Locking Bar	EA	\$148.25

C

## A. Wire Rope Sling Anchors

Cable anchor slings are primarily designed to serve as anchor points for Personal Fall Arrest Systems. Reliance anchor slings are available in a large variety of styles, lengths, and configurations, and are suited for a variety of environments.

- Cable : 1/4" 7X19 GAC with blue vinyl coating
- Snap Hook : 3006 3,600 lb. Gateload
- Pass-Thru Rings : Zinc coated steel

SKU	Description	UOM	Price
REL714002	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 2ft	EA	\$43.78
REL714003	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 3ft	EA	\$43.78
REL714004	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 4ft	EA	\$43.78
REL714005	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 5ft	EA	\$43.78
REL714006	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 6ft	EA	\$43.78
REL714007	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 7ft	EA	\$47.05
REL714008	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 8ft	EA	\$47.95
REL714009	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 9ft	EA	\$48.98
REL714010	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 10ft	EA	\$50.71
REL714012	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 12ft	EA	\$52.03
REL714015	Cheater Cable, Anchor Extender, Pelican Hook and O-ring, 15ft	EA	\$54.84
REL714603	Cheater Cable, Pass-Thru Anchor Sling, Small and Large O-ring, 3ft	EA	\$46.92
REL714604	Cheater Cable, Pass-Thru Anchor Sling, Small and Large O-ring, 4ft	EA	\$46.92
REL714606	Cheater Cable, Pass-Thru Anchor Sling, Small and Large O-ring, 6ft	EA	\$46.92
REL714608	Cheater Cable, Pass-Thru Anchor Sling, Small and Large O-ring, 8ft	EA	\$48.92
REL714610	Cheater Cable, Pass-Thru Anchor Sling, Small and Large O-ring, 10ft	EA	\$52.92
REL714615	Cheater Cable, Pass-Thru Anchor Sling, Small and Large O-ring, 15ft	EA	\$54.92
REL714704	Cheater Cable, Basket Anchor Sling, Pelican Hook and 2 O-rings, 4ft	EA	\$54.29
REL714706	Cheater Cable, Basket Anchor Sling, Pelican Hook and 2 O-rings, 6ft	EA	\$56.37
REL714708	Cheater Cable, Basket Anchor Sling, Pelican Hook and 2 O-rings, 8ft	EA	\$58.45

## B. 5-Piece Confined Space Entry System

Designed for manhole and confined space entry/retrieval and fall arrest applications. System breaks down into 5 lightweight aluminium components for easy storage, transport and set-up. No tools required for assembly. Modular design allows the use of various fixed and portable bases and an optional mast with extensions. Multiple winches and/or vertical lifeline systems may be mounted as required.

SKU	Description	UOM	Price
REL4600	5-Piece confined space entry system	EA	\$4135.81

## C. Rescue Wristlets

Designed for confined space extraction. Straps can be fitted over wrists or ankles.

SKU	Description	UOM	Price
REL722001	Rescue wristlets	EA	\$41.80

C

**A**

## A. Retrieval Lanyard

Designed for use with the 804XXX and the 814XXX series harness's from Reliance Industries. The encapsulated steel spreader bar is intended to keep the shoulder D-Rings properly spaced to prevent pinching of the neck during confined space rescue and retrieval operations.

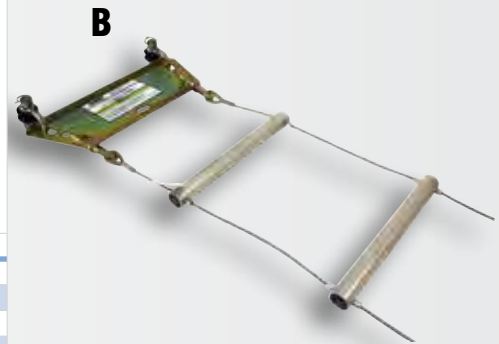

SKU	Description	UOM	Price
REL722000	Retrieval lanyard	EA	\$80.10

## B. Rescue Ladder and Ladder Bracket

Rescue Ladder Bracket (5200) is designed to travel on a horizontal with the 2 supplied cable pulleys. Ladder can be sent to a fallen worker for rescue. Once on the ladder the worker can be hauled back to safety.

Rescue Ladder (5230) 52XX Rescue ladders are made from 1-1/4" (32mm) extruded aluminium rungs and 3/16" (4.7mm) stainless steel wire rope side rails. Comes with 2 3062-36 carabiners. Meets ANSI E1.1 Standard lengths: 10', 20', 30', 40', 50' and 60' (3, 6, 9, 12.2, 15, 18.3m). Custom lengths available.

SKU	Description	UOM	Price
REL5210	Rescue ladder 10'	EA	\$444.05
REL5220	Rescue ladder 20'	EA	\$739.37
REL5230	Rescue ladder 30'	EA	\$1148.11
REL5240	Rescue ladder 40'	EA	\$1475.53
REL5250	Rescue ladder 50'	EA	\$1800.81
REL5260	Rescue ladder 60'	EA	\$2087.98
REL5200	Rescue ladder bracket	EA	\$245.57

Select excerpts from applicable OSHA Standards - For Reference Only

#### Fall Protection Requirements for Steel Erection

(OSHA Subpart R1926.760)

(a) General requirements. (1) Except as provided by paragraph (a) (3) of this section, each employee engaged in a steel erection activity who is on a walking/working surface with an unprotected side or edge more than 15 feet (4.6m) above a lower level shall be protected from fall hazards by guardrail systems, safety net systems, personal fall arrest systems, positioning device systems or fall restraint systems.

#### Safety Standards for Fall Protection in the Construction Industry

(OSHA 1926.501 - Duty to have fall protection)

(a) General. (1) This section sets forth requirements for employers to provide fall protection systems. All fall protection required by this section shall conform to the criteria set forth in 1926.502 of this subpart. (b)(1) Unprotected sides and edges. Each employee on a walking/working surface (horizontal and vertical surface) with an unprotected side or edge which is 6 feet (1.8m) or more above a lower level shall be protected from falling by the use of guardrail systems, safety net systems, or personal fall arrest systems.

#### (OSHA 1926.502 - Fall protection system criteria and practices)

(a) General. (1) Fall protection systems required by this part shall comply with the applicable provisions of this section. (2) Employers shall provide and install all fall protection systems required by this support for an employee, and shall comply with all other pertinent requirements of this subpart before that employee begins the work that necessitates the fall protection. (d) Personal fall arrest systems. Personal fall arrest systems and their use shall comply with the provisions set forth below. Effective January 1, 1998, body belts are not acceptable as part of a personal fall arrest system. Note: The use of a body belt in a positioning device system is acceptable and is regulated under paragraph (e) of this section. (5) Snaphooks shall be sized to be compatible with the member to which they are connected to prevent unintentional disengagement of the snaphook by depression of the snaphook keeper by the connected member, or shall be a locking type snaphook designed and used to prevent disengagement of the snaphook by the contact of the snaphook keeper by the connected member. Effective January 1, 1998, only locking type snaphooks shall be used. (15) Anchorages used for attachment of personal fall arrest equipment shall be independent of any anchorage being used to support or suspend platforms and capable of supporting at least 5,000 pounds (22.2 kN) per employee attached, or shall be designed, installed, and used as follows: (i) as part of a complete personal fall arrest system which maintains a safety factor of at least two; and (ii) under the supervision of a qualified person. (16) Personal fall arrest systems, when stopping a fall, shall: (i) limit maximum arresting force on an employee to 900 pounds (4 kN) when used with a body belt; (ii) limit maximum arresting force on an employee to 1,800 pounds (8 kN) when used with a body harness; (iii) be rigged such that an employee can neither free fall more than 6 feet (1.8m), nor contact any lower level; (iv) bring an employee to a complete stop and limit maximum deceleration distance an employee travels to 3.5 feet (1.07m); and, (v) have sufficient strength to withstand twice the potential impact energy of an employee free falling a distance of 6 feet (1.8m), or the free fall distance permitted by the system, whichever is less. (e) Positioning device system. Positioning device systems and their use shall conform to the following provisions: (1) Positioning devices shall be rigged such that an employee cannot free fall more than 2 feet (.9m). (2) Positioning devices shall be secured to an anchorage capable of supporting at least twice the potential impact load of an employee's fall or 3,000 pounds (13.3 kN), whichever is greater.

#### (OSHA 1926.503 - Training requirements)

(a) Training Program. (1) The employer shall provide a training program for each employee who might be exposed to fall hazards. The program shall enable each employee to recognize the hazards of falling and shall train each employee in the procedures to be followed in order to minimize these hazards.

Fixed Ladders (OSHA 1910.27) (d.5) Ladder safety devices may be used on tower, water tank and chimney ladders over 20 feet in unbroken length in place of cage protection. No landing platform is required. All ladder safety devices, such as those that incorporate life belts, friction brakes, and sliding attachments, must meet the design requirements of the ladders they serve.

Powered Platforms For Building Maintenance (OSHA 1910.66) (j) Personal Fall Protection. Employers must provide personal fall arrest systems meeting the requirements outlined. Requirements include the following: Anchorages to which personal fall arrest equipment is attached shall be capable of supporting at least 5,000 pounds (22.2 kN) per employee attached, or shall be designed, installed and used as part of a complete personal fall arrest system which maintains a safety factor of at least two, under the supervision of a qualified person. Personal fall arrest systems shall, when stopping a fall: 1) limit maximum arresting force on an employee to 900 pounds (4 kN) when used with a body belt; and 2) limit maximum arresting force on an employee to 1,800 pounds (8 kN) when used with a body harness. Personal fall arrest systems shall be rigged such that an employee can neither free fall more than 6 feet (1.8m), nor contact any lower level. Personal fall arrest systems or components subjected to impact loading shall be immediately removed from service and shall not be used again for employee protection unless inspected and determined by a competent person to be undamaged and suitable for reuse. Before using a personal fall arrest system, and after any component or system is changed, employees shall be trained in accordance with the requirements of paragraph 1910.66(i)(1), in the safe use of the system. Personal fall arrest systems shall be inspected prior to each use for mildew, wear, damage and other deterioration. Defective components shall be removed from service if their strength or function may be adversely affected.

#### Permit-Required Confined Spaces (OSHA 1910.146)

(a) Scope and application. This section contains requirements for practices and procedures to protect employees in general industry from the hazards of entry into permit-required confined spaces. (k)(3) To facilitate non-entry rescue, retrieval systems or methods shall be used whenever an authorized entrant enters a permit space, unless the retrieval equipment would increase the overall risk of entry or would not contribute to the rescue of the entrant. Retrieval systems shall meet the following requirements: (i) Each authorized entrant shall use a chest or full body harness, with a retrieval line attached at the center of the entrant's back near shoulder level, above the entrant's head, or at another point which the employer can establish presents a profile small enough for the successful removal of the entrant. Wristlets may be used in lieu of the chest or full body harness if the employer can demonstrate that the use of a chest or full body harness is infeasible or creates a greater hazard and that the use of wristlets is the safest and most effective alternative.

Applicable ANSI Standards (ANSI Does not allow for reproduction of standards for reference)

- Definitions and Nomenclature Used for Fall Protection and Fall Arrest (ANSI Z359.0-2007)
- Safety requirements for Personal Fall Arrest Systems, Subsystems and Components (ANSI Z359.1-2007)
- Minimum Requirements for a Comprehensive Managed Fall Protection Program (ANSI Z359.2-2007)
- Safety Requirements for Positioning and Travel Restraint Systems (ANSI Z359.3-2007)
- Safety Requirements for Assisted-Rescue and Self-Rescue Systems, Subsystems and Components (ANSI Z359.4-2007)
- Ladder Safety Devices (ANSI A14.3-2002)
- Standard for Personal Fall Protection Used in Construction and Demolition Operations (ANSI A10.32-2004)
- ASTM F887-04 Standard Specifications for Personal Climbing Equipment
- ANSI E1.1-1999 Wire Rope Ladders

### SafetyRail 2000

Meet the World's Most Versatile and Non-Penetrating Guardrail System! Companies are using SafetyRail 2000 for: Fall Protection, Temporary Fall Protection, Roof Edge Protection, Roof Hatches, Skylights, Hazard Barriers, Warehouse Dock Doors, Warehouse Traffic Lanes, Cell Workstations, Construction Dig Sites, Dock Platforms, New Building Construction, Drive-In Truck Pits, Rail Car Platforms, Mezzanines, Break Areas, Assembly Areas, Conveyors and many more.

### The Grab Bar Roof Hatch Fall Protection

The Grab Bar allows for easy egress and ingress of roof hatches and floor hatches. Install the Grab Bars as an option to the Fall Protection Hatch Kits and make it easier and safer for workers. The Grab Bar mounts to an open receiver on the SafetyRail 2000 base. Adjust the width of the bars to the width of the ladder inside the hatch or a little wider. Lock the Grab Bars into place with the securing pin and tighten the friction collar and your done.

### Versa Clamp Portable Guardrail System

The Versa Clamp is the most versatile guardrail C-Clamp in the market place for Fall Protection. Use it on parapets as well as concrete slabs to provide the Fall Protection the workers deserve. The compression plates are off-set so not to damage copings or flashings on parapets. Its unique compression locking system makes it simple and fast to install.

Fall arrest track is available with two sizes of steel and two sizes of aluminium track in the standard fall arrest track systems. SPANCO fall arrest track equipment is designed for indoor or outdoor use. The low profile design on our fall protection system saves up to 3' (.9m) of headroom versus wire systems and the unique truss track fall arrest design enables greater distance between supported points with minimum loss of headroom. Fall arrest track systems are available in one or two man systems. Two man/two track fall protection systems allow workers to pass by each other for greater versatility.

able in one or two man systems. Two man/two track fall protection systems allow workers to pass by each other for greater versatility.

SPANCO Ceiling Mounted Fall Protection System mounted to a grain dispensing silo. System protects workers as they climb on top of rail cars to fill them with grain.

SPANCO Freestanding Fall Protection system with Long Span design. This particular system has 70' (21m) spans between supports. The system is used by workers who must access hatches on top of the rail cars.

SPANCO Rigid Lifelines Fold-Away Fall Protection System with optional motorization inside of a steel furnace bay. System shown in closed position. System utilizes dual track design, allowing two employees to pass each other without detaching from the system.

SPANCO Portable Gantry Fall Protection system used inside a large generator fabrication plant. Rolling portable gantry's gives the ability to use as needed.

SPANCO Freestanding Fall Protection system used for truck washing and tarping.

SPANCO Wall Traveling Fall Protection system with all steel construction. The system was designed for use inside of a steel mill. System is on wall mounted tracks for mobility and jib swings away when not in use.

Two SPANCO Ceiling Mounted Fall Protection systems are used to protect workers as they climb on top of large yachts.

SPANCO Rigid Lifelines Fold-Away Fall Protection system that was mounted to the outside of an existing building structure.

Today, safety on the job is considered a fundamental human right, but in the recent past, many people worked daily in dangerous conditions with little or nothing to protect them from injury. As a result, workers routinely were seriously hurt or even killed in job-related accidents. It was common practice when bidding a job to factor in fatalities or serious injuries. With the advent of OSHA in the 70's, many of the standards were not performance driven and when a worker fell from elevated heights, post investigation stated, "He was not tied-off". It took safety-minded visionaries and drive to introduce into the workplace the equipment that now allows men and women to work safely at elevated heights. Today, much progress has been made but many questions remain for applications and higher performing soft-goods and mechanicals. Our product line will continue to expand and respond to client driven needs.

Although we design and manufacture the very best in fall arrest equipment, we believe it should be the last resort. From our perspective, the at-risk worker and employer need something different if they wish to increase safety and productivity.

Our first concern, like yours, is worker safety. The lower the injury rate, the higher your profits and employee morale. The traditional safety solution is equipment oriented. But Reliance has a different idea, we believe the best way of delivering safety at heights and in confined spaces, is to find solutions that eliminate the hazards or avoid exposures to them. This reduces training and re-training burdens, provides permanent results, and increases productivity. What better way to provide safety! What other companies would rather not discuss, we put first.

But what good are the best equipment and hazard solutions if your organization and workers aren't prepared to use them and go forward independently? Reliance has developed a professional training group devoted to helping you implement your own corporate program for safety at heights and confined space entry and rescue. We can train workers, engineers, trainers and safety management personnel at your site or ours.

The Reliance perspective is simple: "the person at risk comes first." And we back that up with innovative first-rate equipment, application engineering, professional training, and corporate Fall Hazard Control programs. In short, we provide solutions, not just equipment.

Reliance offers several training options designed to take advantage of our state-of-the-art facilities and experienced training staff. Options are listed on the facing page - please contact Reliance for information regarding class dates, availability, and pricing.

## Fall Protection Competent Person • Duration : 3.5 Days

An intensive program that develops a strong overall knowledge of how to use, select, and install conventional and non-conventional fall protection equipment. Classroom lecture including slides and video, hands on scenarios applying practical workplace situations. Attendees will observe performance testing of selected components and systems. Competent person training is a pass/fail program incorporating both written and practical examinations.

### Topics Discussed:

- Fall protection theory/application per the detailed skills course
- Fundamentals of Fall Protection
  - Hierarchy of Fall Protection
  - Anatomy of a fall, 6-ft and beyond
  - Fit, form, and function of a PFAS
  - Energy Absorbers
  - Anchorage requirements
- Standards and regulations relating to Fall Protection
  - Discussion of proposed new standards
- Recognition and identification of fall hazards
- Development & implementation of Fall Protection plans & programs
- Fall Prevention Systems (e.g. handrails, guardrails, etc.)
- Fall Restraint systems (work positioning / travel restricting)
- Fall Arrest systems
- Detailed Equipment inspection & care
  - Hardware compatibility
- Transitional Fall Protection
  - Vertical and Horizontal Lifelines
  - Rigid Rails
  - Protected Access and egress
- Rescue Basics as a component of a comprehensive fall protection program.

Recommended Attendance: Managers, supervisors, safety professionals or other key personnel that may be required to develop or regulate fall protection programs, procedures and/or make on site assessments of related hazards. Participants will receive a certificate of completion and a copy of Reliance's "Competent Fall Protection Person Reference Manual" and the new ANSI Z359.1(07) standard manual.

## Fall Protection Competent Inspector • Duration : 1/2 Day (4 hours)

This course builds upon a student's practical knowledge of fall protection through the discussions of in-house testing and literature review; UV and chemical exposure to synthetic strapping and is designed to increase personal skill level through a variety of hands-on inspection exercises. This 4-hour course deals with the process of developing an inspection program and applying that to practical equipment inspection. Participants completing the course will be given the tools needed to be able to conduct competent person inspections of fall protection equipment. This course does not provide the knowledge base required for re-certification of complex hardware such as SRL's and mechanicals. Students will be provided with an inspection manual with checklists and a certificate upon completion of the course.

### Topics Discussed:

- The regulations and standards for inspection of fall arrest systems are covered in detail along with the record-keeping requirements.
- Inspection premise for harnesses, lanyards & shock absorbers, carabiners, anchorage connectors, and SRL's
- Skyline Horizontal Lifelines
- Equipment logs and recording the inspection
- Practical equipment inspections of faulty gear
- Review of technical bulletins

Participants receive a wallet-sized certificate and a copy of Reliance's "Fall Protection Equipment Inspector Manual."

## Fall Protection Competent Installer • Duration : 1/2 Day (4 hours)

An alternative to on site training. Requires a minimum of one half day of training at our Deer Park Facility. We will provide you with the necessary training and skills to take back to your facility. No-charge to users of the Skyline portable system and we will provide lunch.

### Topics Covered:

- Erect lifelines in different configurations, so that you can develop a team of installers and supervise them in proper techniques and skills. All team members expect strict maintenance of quality assurance through a continuous audit process. Installers may attend this portion of the class and continue to improve their skills while we continue with designer skills development.
- Examine plant take-off designs required to develop a transitional fall protection plan with respect to Skyline HLL and other appropriate static anchorage tools. After learning how to utilize our on-line lifeline designer, you will learn how to develop a needs assessment for your project related to required equipment components to order.
- Briefly review rescue plans in the event of a fall.
- Brief test, review, and certification.
- Provide you with PowerPoint presentation for training your installers.

### Tool & Equipment Safety Tether System

Falling object hazards from elevated locations is a serious jobsite safety concern. Reliance recognizes this hazard, and developed T.E.S.T.S. to assist in jobsite dropped object protection.

A 15 lb (6.8kg) tool dropped a distance of 6 ft (1.8m) can generate forces greater than 1000 lbs (4.4kN) when arrested with no energy absorption. To combat this issue, Reliance has developed a series of tool lanyards (patent pending) that can limit a fallen tool's arresting forces to 450 lbs (2kN) or less. Tools and equipment weighing up to 50 lbs (22.6kg) can be accommodated with this technology.

Not all tools and equipment have adequate connection points for lanyard connection. T.E.S.T.S. provides several field installable tool/equipment connectors that can withstand the potential forces that heavier dropped tools can generate.

#### Selecting the Proper Tool Connection

The method of lanyard connection to your tool or equipment is essential for safe use and operation. Reliance has tested and developed several methods for connection. The connection must have adequate strength to retain the tool or equipment when dropped. Connections may see forces as high as 450 lbs (2kN). Reliance recommends that connections be capable of withstanding forces of 1,000 lbs (4.4kN) or higher to allow for a factor of safety. Anchor point must also be capable of withstanding 1,000 lbs (4.4kN).

#### T.E.S.T.S.™ Components & Connection Methods

REL799955 Tool Lanyard  
For tools up to 50 lbs (23kg)

REL799953 Tool Lanyard For  
tools up to 15 lbs (7kg).

#### Direct Connect

Tools and equipment with connection points of adequate size and strength can be connected directly to the lanyard with the supplied spring hook. When using Tool Lanyard REL799955, the label end should be connected to an acceptable anchor point.

REL799971 Light / REL799973 Heavy Rings  
For tools up to 20 lbs (9kg) [REL799971]  
& 50 lbs (23kg) [REL799973] that have  
no adequate means for connecting the  
tool lanyard. REL799971 installed using  
the REL799960 3/8" (9.6mm) banding;  
REL799973 installed using the REL799962  
1/2" (13mm) banding. (sold in pks of 10)

#### Anchor Ring Connect

Tools or equipment that do not have a built in method of connection can be retrofitted with an Anchor Ring.

REL799980 Anchor Loop  
For tools or equipment that have an anchor  
hole or slot, but too small or positioned  
where the standard spring hook cannot be  
inserted.

#### Anchor Loop

Tools or equipment with holes or slots that are not sized to allow for the direct connect method may use the REL99980 anchor loop. Simply insert loop through hole or slot and pass aluminum swage button through loop. Pull button tight to choke wire rope around the tool. \*May only be used on tools weighing 30 lbs or less

REL799952 Tool Lanyard  
For tools up to 5 lbs (2.3kg)

#### Multiple Anchor Rings

In some cases more than one anchor ring may be needed and installed on the same tool. For example, cordless tools with removable battery packs need Anchor Rings on both the tool and battery pack. Items weighing 5 lbs (2.3kg) or less may be secured with the REL799952 tool lanyard as shown.

# RELIANCE™

fall protection

## T.E.S.T.S.™ Tool Lanyard Series

### Tool & Equipment Safety Tether System

Anchor rings are installed on an irregular shaped tools (or tools that lack an appropriate connector slot) utilizing the REL799990 tool shown here. Banding is available in both the 3/8" and 1/2" (9.6mm & 13mm) sizes, for connection to tools or equipment weighing up to 20 lbs and 50 lbs (9kg & 23kg) respectively. Scru-Lok Buckles secure the banding, and both banding and buckles are available

#### T.E.S.T.S.™ Fastening Equipment

REL799990 Tension Tool  
For application of banding to irregular shaped tools.

REL799962 1/2" (13mm) Banding  
Used on tools up to 30 lbs (13kg) with a single wrap and up to 50 lbs (23kg) with a double wrap of banding. Banding is tensioned using the REL799990 Tension Tool and locked in place with the REL799963 1/2" (13mm) Scru-Lok Buckle. Available in 100' (30m) rolls.

REL799960 3/8" (9.6mm) Banding  
Used on tools weighing up to 20 lbs (9kg). Banding is tensioned using the REL799990 Tension Tool and locked in place with the REL799961 3/8" (9.6mm) Scru-Lok Buckle. Available in 100' (30m) rolls.

REL799963 - Box of 25 1/2" (12.7mm) Scru-Lok Buckles  
REL799961 - Box of 50 3/8" (9.4mm) Scru-Lok Buckles  
*\*Allen wrench included in box*

REL799971 - Bag of 10 Light Duty Anchor Rings  
REL799973 - Bag of 10 Heavy Duty Anchor Rings

*Banding with anchor ring - shown with Scru-Lok buckle attached*

*Banding with anchor ring installed, ready for sizing, tightening, and trimming. Please see instruction manual for full details.*

### A. Reliance® T.E.S.T.S.™ Elastic Tool Lanyard

The REL799950 Elastic Tool Lanyard is designed to secure tools to a person or object to prevent inadvertent dropping. Initial length is 26" and can elongate to 42". Comes with an 80 mm carabiner and rubberized loop with a ball lock for additional anchoring/attachment options.

SKU	Description	UOM	Price
REL799950	Elastic tool lanyard	EA	\$11.29

### B. Reliance® T.E.S.T.S.™ Coiled Tool Lanyard

The REL799952 Coiled Tool Lanyard is designed to secure tools to a person or object to prevent inadvertent dropping. Comes with an 80 mm carabiner and rubberized loop with a ball lock for additional anchoring/attachment options. 5 lb max tool weight.

SKU	Description	UOM	Price
REL799952	Coiled tool lanyard	EA	\$8.72

### C. Reliance® T.E.S.T.S.™ Tool Lanyard

The REL799953 Tool Lanyard is designed to secure tools to a person or object to prevent inadvertent dropping. Initial length is 38" and can elongate to 63". Comes with 2 spring hooks for anchoring/attachment options. Up to 15 lb max tool weight.

SKU	Description	UOM	Price
REL799953	Tool lanyard up to 15 lb max tool weight	EA	\$20.06

### D. Reliance® T.E.S.T.S.™ Tool Lanyard

The REL799955 Tool Lanyard is designed to secure tools to a structure capable of supporting 1,000 lbs to prevent inadvertent dropping. Initial length is 38" and can elongate to 63". Comes with 2 spring hooks for anchoring/attachment options. Up to 50 lb max tool weight.

SKU	Description	UOM	Price
REL799955	Tool lanyard up to 50 lb max tool weight	EA	\$27.80

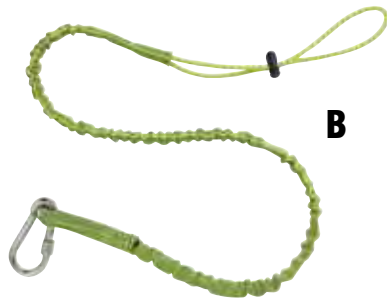

### A. Squids® 3100 Single Carabiner Tool Lanyard - 10lb

Tool Lanyard-Single Carabiner: Tethers tools to help worker prevent injury, damage and lost productivity from dropped tools.

SKU	Description	UOM	Price
ERG3100STD	Single Carabiner Tool Lanyard 35" - 42"	EA	\$8.46
ERG3100EXTD	Single Carabiner Tool Lanyard Extended 42" - 54"	EA	\$8.70

### B. Squids® 3101 Stainless Steel Carabiner Tool Lanyard - 15lb

Stainless Steel Screw Gate Tool Lanyard - Single Carabiner: Stainless steel carabiners with locking screw gates for a sure connection in more corrosive environments.

SKU	Description	UOM	Price
ERG3101	Stainless Steel Carabiner Tool Lanyard 35" - 42"	EA	\$14.97

### C. Squids® 3110 Dual Carabiner Tool Lanyard - 10lb

Tool Lanyard-Dual Carabiners tethers tools to help worker prevent injury, damage and lost productivity from dropped tools.

SKU	Description	UOM	Price
ERG3110STD	Dual Carabiner Tool Lanyard 35" - 42"	EA	\$10.41
ERG3110EXTD	Dual Carabiner Tool Lanyard Extended 42" - 54"	EA	\$10.74

### D. Squids® 3115 Wrist Tool Lanyard - 2lb

Wrist Tool Lanyard: Tethers tools to help worker prevent injury, damage and lost productivity from dropped tools.

SKU	Description	UOM	Price
ERG3115	Wrist Tool Lanyard Tether Length 7.5"	EA	\$2.11

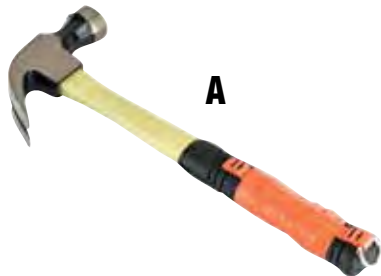

### E. Squids® 3155 Elastic Hard Hat Lanyard With Clamp

Elastic Hard Hat Lanyard with Clamp: Easily and comfortably secures a hard hat to a worker to prevent the item from falling.

SKU	Description	UOM	Price
ERG3155	Elastic Hard Hat Lanyard With Clamp	EA	\$3.82

### A. Squids® 3700 Web Tool Tails™ - 2lb

Web Tool Tails™ provide retrofit attachment points to a variety of tools and equipment up to 2lbs (0.90kg) using Squids® Tool Traps™.

SKU	Description	UOM	Price
ERG3700	Web Tool Tails™ - 2lb	EA	\$6.91

### B. Squids® 3703 Elastic Loop Tool Tails™ - 15lbs

Elastic loop Tool Tails™ provide retrofit attachment points to a variety of tools and equipment up to 15lbs (6.8kg) using Squids® Tool Traps™. These Tool Tails can also be used as an anchor point on belt, harness or separate structure.

SKU	Description	UOM	Price
ERG3703	Elastic Loop Tool Tails™ - 15lbs	EA	\$8.86

### C. Squids® 3713 Elastic Loop Tool Tails™ Swivel - 10lbs

Elastic loop Tool Tails™ provide retrofit attachment points to a variety of tools and equipment up to 10lbs (4.6kg) using Squids® Tool Traps™. These Tool Tails can also be used as an anchor point on belt, harness or separate structure.

SKU	Description	UOM	Price
ERG3713	Elastic Loop Tool Tails™ Swivel - 10lbs	EA	\$11.31

### D. Squids® Cold Shrink Trap™

Cold Shrink Traps capture Squids® Elastic Tool Tails™ creating a retrofit connection point for tethering. Maximum capacity depending on tool, tail and lanyard used.

SKU	Description	UOM	Price
ERG3723	Cold Shrink Trap™ Tool Diameter 0.75" - 1.50" Max. Cap. 5lbs	EA	\$8.38
ERG3724	Cold Shrink Trap™ Tool Diameter 1.25" - 1.75" Max. Cap. 10lbs	EA	\$10.00
ERG3726	Cold Shrink Trap™ Tool Diameter 1.75" - 2.50" Max. Cap. 15lbs	EA	\$14.56

### E. Squids® Tape Trap™

Captures Squids® Tool Tails™ securing a safe connection to tools like no other tool attachment tape on the market. Quickly wraps on a variety of hand tools, power tools and other equipment providing security and added grip.

SKU	Description	UOM	Price
ERG3750S	Tape Trap™ 12ft Roll	RL	\$16.19
ERG3750M	Tape Trap™ 30ft Roll	RL	\$37.35

**A. Arsenal® Leather Bottom Buckets**

Leather Bottom Bucket: High wall, heavy duty bucket for strength and durability. Rope handle.

SKU	Description	UOM	Price
ERG5730	Leather bottom bucket	EA	\$85.68
ERG5740	Leather bottom bucket with swivel snap	EA	\$94.47
ERG5738	Canvas safety top 12.5" dia	EA	\$26.52

**B. Arsenal® Small Plastic Bottom Bucket**

Small Plastic Bottom Bucket: Small size for easy toting and lighter loads. Rope handle.

SKU	Description	UOM	Price
ERG5734	Small plastic bottom bucket	EA	\$45.97
ERG5744	Small plastic bucket with swivel snap	EA	\$54.19
ERG5739	Canvas safety top 10" dia.	EA	\$23.27

**C. Arsenal® 5725 Topped Bolt Bag**

Topped Bolt Bag with Loop Design: Wide body and one-handed cinch-up top for keeping gear safe and secure.

SKU	Description	UOM	Price
ERG5725	Topped Bolt Bag	EA	\$32.30

**D. Arsenal® Topped Parts Pouch**

Topped Parts Pouch has a hands-free, self-closing trap door closure that prevents small parts, hardware, and tools from falling when working at heights.

SKU	Description	UOM	Price
ERG5538	Topped Parts Pouch - Orange Tarpaulin	EA	\$35.00
ERG5528	Topped Parts Pouch - Black Canvas	EA	\$35.00

**E. Arsenal® 5516 Topped Tool Pouch - Strap Attachment**

Topped Tool Pouch easily attaches to any fall protection harness while keeping tools and fasteners secure.

SKU	Description	UOM	Price
ERG5516	Topped Tool Pouch - Strap Attachment	EA	\$57.20

### A. Python Trigger2Trigger Tool Lanyards

Used in combination with Python Safety D-Rings and Quick Rings, Trigger2Trigger Tool Lanyards are an economical tethering solutions for most hand tools. Pull down on the trigger to open the dual-hooked connector, then release once latched to a tool. Trigger2Trigger Tool Lanyards come in varying lengths, and are third-party load-rated for 10 lbs.

SKU	Description	UOM	Price
PYTEXT2T12	Double Trigger EXT 0.5 X 12	EA	\$10.72
PYTEXT2T24	Double Trigger EXT 0.5 X 24	EA	\$11.39
PYTEXT2T2410	Double Trigger EXT 0.5 X 12 10/pk	PK	\$113.82
PYTEXT2T36	Double Trigger EXT 0.5 X 36	EA	\$12.73

### B. Python Hook2Loop Bungee Tether

The Hook2Loop Bungee Tether is a very versatile extension that can be used with virtually anything under 10 lbs: spud wrenches, scaffold wrenches, adjustable wrenches, etc.

SKU	Description	UOM	Price
PYTEXTH2LB	Hook2Loop Bungee Tether	EA	\$18.70
PYTEXTH2LB10	Hook2Loop Bungee Tether 10/pk	PK	\$186.16
PYTEXTH2LBUN	Hook2Loop Bungee Tether Medium Duty	EA	\$40.13

PYTDR0510PK PYTDR1X3510

### C. Python D-Rings

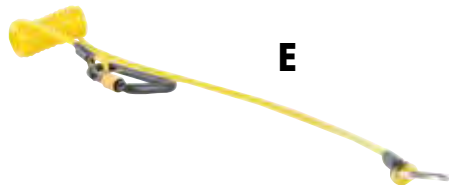

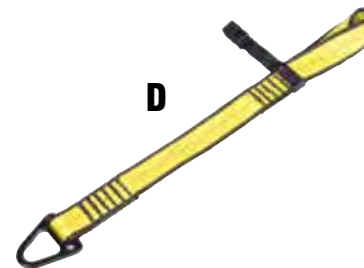

D-Ring Attachment Points are used together with Quick Wrap and Heat Shrink to create attachment points for a huge collection of tools. D-Rings come in a wide variety of sizes, and are each third-party load-rated.

SKU	Description	UOM	Price
PYTDR0510PK	D-Rings D-Ring 0.5" X 2.25", Max Load:2 lbs (0.9 kg) 10/pk	PK	\$42.94
PYTDR1X3510	D-Rings D-Ring 1" X 3.5", Max Load:5 lbs (2.7 kg) 10/pk	PK	\$46.62
PYTDR05NC10	D-Rings D-Ring 0.5" X 2.25" Non-Conductive, Max Load:2 lbs (0.9 kg) 10/pk	PK	\$42.94

### D. Python Tool Cinch MD Attachments

Python Safety Tool Cinch MD Attachment Points feature a unique cinch design that allows users to quickly secure even the most difficult to tether tools, and continue their work. Simply cinch the tool, and secure the stabilization wings using Quick Wrap Tape to create an instant attachment for virtually any tool up to 35lbs.

SKU	Description	UOM	Price
PYTVR2ATTM	Tool Cinch MD Attachments	EA	\$26.74
PYTVR2ATTM10	Tool Cinch MD Attachments 10/pk	PK	\$266.55

### E. Python Hook2Quick Ring Coil with Tail

Designed to be used with hammers and the Python Safety Hammer Holster, the Hook2Quick Ring Coil with Tail is the ideal tether for hammers. Vinyl-coated braided steel makes the tether durable, easy to clean, and work well around heat.

SKU	Description	UOM	Price
PYTEXTH2QR	Hook2Quick Ring Coil with Tail	EA	\$22.72
PYTEXTH2QR10	Hook2Quick Ring Coil with Tail 10/pk	PK	\$214.30

### F. Python Adjustable Wristband

Wristband adjusts in size with hook and loop. 1" ballistic nylon D-Ring, 2" wide elastic webbing

SKU	Description	UOM	Price
PYTWBADJ10	Adjustable Wristband 10/pk	PK	\$199.56
PYTWBADJRE10	Adjustable Wristband with Retractor 10/pk	PK	\$333.53

### A. Python Hard Hat Tether

Heavy-duty steel industrial clip with simple flip-up snap allows for easy one-handed operation. 5 1/2" tail with loop makes the Hard Hat Tether easy to attach to any hard hat. Compact design keeps the tether out of the way when not in use.

SKU	Description	UOM	Price
PYTEXTHH10	Python Hard Hat Tether 10/pk	PK	\$132.57
PYTEXTHH100	Python Hard Hat Tether 100/pk	PK	\$1065.07

**B**

### B. Python Heat Shrink Link

After using Python Safety Quick Wrap Tape and D-Rings to create an attachment point, Heat Shrink is used to create an even stronger connection that is more resistant to abrasives and harsh environments. Links shrink 300% in size, while an inner adhesive securely fastens itself to whatever is being wrapped.

SKU	Description	UOM	Price
PYTHS075X175	Heat Shrink Link 0.75 X 1.75 25/pk	PK	\$30.14
PYTHS15X2	Heat Shrink Link 1.5 X 2 25/pk	PK	\$36.84
PYTHS15X3	Heat Shrink Link 1.5 X 3 25/pk	PK	\$48.57
PYTHS1X175	Heat Shrink Link 1 X 1.75 25/pk	PK	\$31.83
PYTHS2X4	Heat Shrink Link 2 X 4 10/pk	PK	\$57.61
PYTHS3X4	Heat Shrink Link 3 X 4 10/pk	PK	\$81.72

### C. Python Quick Wrap Tape

Made from a self-fusing silicone rubber, Python Safety Quick Wrap Tape is capable of creating instant attachment points for nearly any tool in a matter of seconds. Quick Wrap Tape conforms to the shape of whatever it is applied to, making it ideal for even the most irregular shaped tools.

SKU	Description	UOM	Price
PYTQWHDBL1	Quick Wrap Tape blue 1" x 108"	EA	\$22.07
PYTQWHGDN1	Quick Wrap Tape green 1" x 108"	EA	\$22.07
PYTQWHDYL1	Quick Wrap Tape yellow 1" x 108"	EA	\$22.07

**D**

### D. Python Safe Buckets

Sewn into the bottom of every Safe Bucket is hard composite plating that protects the bucket from accidental punctures. A protective leather sleeve covers the inserts that is resilient to the elements and harsh work environments.

SKU	Description	UOM	Price
PYTBKT100DRA	Safe Bucket 100lb with Drawstring	EA	\$133.90
PYTBKT100HLC	Safe Bucket 100lb Load Rated	EA	\$133.91
PYTBKT250DRA	Safe Bucket 250lb with Drawstring	EA	\$133.39
PYTBKT250HLV	Safe Bucket 250lb Load RATED	EA	\$133.91

### E. Python Small Parts Pouches

Designed with Drop Prevention in mind, the patented Python Safety Small Parts Pouch stops accidental drops the moment something is put inside. With an innovative self-closure system that traps objects inside, the Small Parts Pouch makes it nearly impossible for objects to fall out once placed in the bag, while making it easy for retrieval by the user since no opening or closing is necessary.

SKU	Description	UOM	Price
PYTPCHPARTCB	Small Parts Pouches Canvas Black	EA	\$80.33
PYTPCHPARTCC	Small Parts Pouches Canvas Camo	EA	\$80.33
PYTPCHPARTCO	Small Parts Pouches Canvas Orange	EA	\$80.33

**A**

### A. Python Tool Pouches

The Python Safety Tool Pouch comes in two sizes, with three variants of each size. Constructed from a heavy duty canvas, with an inner lining to help prevent punctures, this rugged tool pouch is engineered to last. Multiple inner pockets accommodate a number of tools, while built in D-Rings makes tethering tools incredibly easy.

SKU	Description	UOM	Price
PYTPCHTOOLRE	Tool Pouches with D-rings and Retractors	EA	\$100.42
PYTPCHTOOLTR	Tool Pouches with D-rings and Triggers	EA	\$87.02

### B. Python Tool Holster (Belt)

Constructed from a premium heavy duty ballistic denier fabric and high density webbing, the Belt Holster is engineered to withstand punishing environments. Heavy-duty 1" D-Rings are built into both sides of the holster and are load-rated for 5lbs. A neoprene pocket on the front of the holster accommodates an optional retractor. *Note: Tool lanyards not included.*

SKU	Description	UOM	Price
PYTHOL1TBLTR	Single Tool Holster Ret (Belt)	EA	\$68.27
PYTHOL1TOOLB	Single Tool Holster (Belt)	EA	\$60.23
PYTHOL2TBLTR	Dual Tool Holster Ret (Belt)	EA	\$93.72

**B**

PYTHOL1TBLTR

PYTHOL2TBLTR

**C**

### C. Python Adjustable Radio Holster

The Python Safety Adjustable Radio Holster is specially designed to adjust perfectly to the size of virtually any portable radio, as well as other small devices such as cell phones and cameras. A unique mounting system allows the holster to attach easily to harnesses and tool belts.

SKU	Description	UOM	Price
PYTHOLARAD	Adjustable Radio Holster	EA	\$22.07
PYTHOLARADCO	Adjustable Radio Holster Combo with Clip2Loop Tether	EA	\$30.65

### D. Python Scaffold Wrench Holster

The Python Safety Scaffold Wrench Holster offers a rear feed retractor system that allows the worker to safely work off of the belt with the added convenience of a retractable lanyard that is third party tested for 1.5lbs (0.7kg). D-Rings on the holster allow heavier tools to be secured using a tool lanyard. A pull down security strap prevents the scaffold wrench from leaving the holster during transit.

SKU	Description	UOM	Price
PYTHOLSCAFFC	Scaffold Wrench Holster with Hook2Loop Bungee Tether	EA	\$61.35
PYTHOLSCAFFW	Scaffold Wrench Holster with Retractor	EA	\$53.53

**D**

**E**

### E. Python Dual Tool Holster

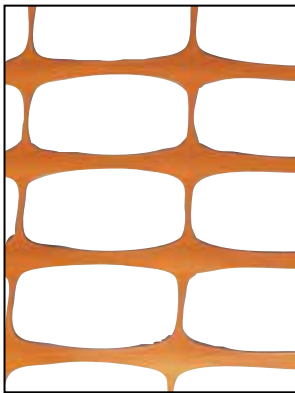

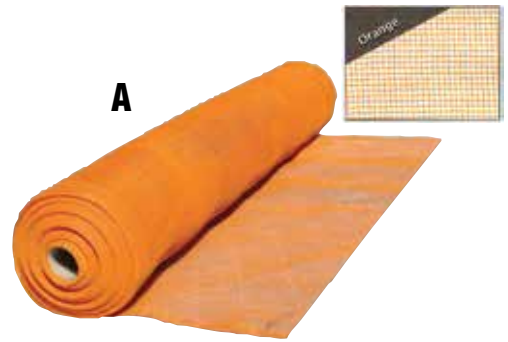

Constructed from a premium heavy duty ballistic denier fabric and high density webbing, the dual tool holster for the belt is engineered to withstand punishing environments. Two heavy-duty 1" D-Rings are built into both sides of the holster and are load-rated for 5lbs. A pocket on the front of the holster accommodates up to two optional retractors.

SKU	Description	UOM	Price
PYTHOL2TOOLB	Dual Tool Holster (Belt)	EA	\$55.22
PYTHOL2THARR	Dual Tool Holster with Retractor (Harness)	EA	\$93.72

**A. Vertical Debris Netting, FR Treated**

High-density knitted polyethylene mesh with open mesh, approximately 1/4". Built with reinforced selvaged edges. Lightweight and easy to Install. U.V. treated, flame retardant and fluorescent orange.

SKU	Description	Mesh Size	Roll Size	Color	UOM	Price
STRSB	Vertical debris netting	Approx 3/8"	5' 6" x 150'	Flor. Orange	RL	\$260.53
STRSBN22-8	Vertical debris netting	Approx 3/8"	8'6" x 150'	Flor Orange	RL	\$315.70

**B**

**B. Perimeter Plus™**

Plastic fencing that combines the best in visibility and versatility. The fencing has been carefully developed to meet your needs for durable, highly visible temporary barriers. temperature service range 0 °F to 200 °F. Ultraviolet stabilized for extended outdoor use. Mesh opening is 1.8 x 3.38".

SKU	Description	Roll WT	Roll Size	Color	UOM	Price
X05650-002	Perimeter Plus	13 lbs	4' x 100'	Orange	RL ~N~	\$27.06

### A. Lynx® Rescuer

Lynx Rescuer is a Self Retracting lanyard with emergency retrieval capabilities. Users are able to reset device from retrieval mode to fall arrest mode making it the easiest, quickest field-reset mechanism on the market. Lock feature with key allows more control over who can reset unit to fall arrest mode. Same unit can be used in the field and for training situations. Meets all applicable ANSI standards and OSHA regulations.

SKU	Description	Length	UOM	Price
ROS10011744	Lynx rescuer	50'	EA	\$2125.81
ROS10011745	Lynx rescuer	95'	EA	\$2524.41

### B. Lynx Confined Space Entry Kits

Confined space entry kits make it easy for you to order the confined space system which best suits your needs. Features include:

- 3 tripod kits and 2 folding davit kits
- Single part number for simplified ordering
- Confined space kits with Lynx Rescuer allows for non-entry rescue of a confined space entrant
- Tripod and davit kits allow for great portability

SKU	Description	Rescuer	Lynx Hoist	UOM	Price
ROS10023969	Lynx davit confined space entry kit #1	-	X	EA	\$3746.81
ROS10024020	Lynx davit confined space entry kit #2	X	X	EA	\$6101.96
ROS10016569	Side mount Lynx hoist w/emergency drive			EA	\$2211.40
ROS506222	Split mount pulley			EA	\$112.95
ROS506232	Bracket for Lynx rescue mount 30' & 50'			EA	\$290.73
ROS506473	Pulley/bracket assembly			EA	\$254.06
ROS507151	Carrying bag for Lynx rescue hoist			EA	\$103.80

**C**

### C. Suretyman™ Rescue Utility System

4 to 1 rescue pulley system with anti-reversing pulleys for means of rescue in a confined space application or rescue from heights. The Suretyman Rescue Utility System incorporates all the features professionals have come to expect from a first class rescue system. The system is primarily used for raising and lowering people or equipment in rescue and industrial work access and is ideal for confined space applications. Rated capacity of 600 lb for personnel and materials. Standard rope length of 200' with a maximum rope length of 600'.

SKU	Description	UOM	Price
ROSSRS15200	Suretyman rescue utility system	EA	\$1445.17

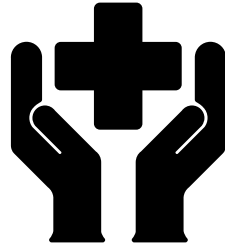

### D. Dyna-Line® Horizontal Lifeline

The Dyna-Line Horizontal Lifeline system is used as an anchorage connector in a personal fall arrest system. It is designed for quick and easy installation and removal. It's made with a 12-strand rope that will not hockle and that has very low stretch properties. It is available in single worker and two worker systems, and in standard lengths of 30' or 60'. Up to 200' Dyna-Line lengths are available by special order. The Dyna-Line comes in bucket for easy transportation and storage. The Dyna-Line can be mounted to any suitable 5,000 pound rated anchorage point. The lifeline has an integral line tensioner that allows proper tensioning of the lifeline before use. Meets all applicable OSHA and ANSI standards. Kit includes: Lifeline, Line Tensioner, Snaphook Attachments, Connecting Ring, Handy Bucket carrying container.

## Cut Resistant

### Terms and Definitions

**ANSI/ISEA 105** - American National Standard for Hand Protection: Voluntary US standard for gloves.

**ASTM F1790** - Test method specified under ANSI/ISEA 105 to measure cut resistance.

**CPPT** - Cut Protection Performance Test: Test machinery used to perform ASTM F1790. A test sample is cut by a straight edge blade, under load, that moves along a straight path. The sample is cut five times each at three different loads and the data is used to determine the required load to cut through the sample at a reference distance of 20 mm. (0.8 inches). This is referred to as the Rating Force or Cutting Force. The higher the Rating Force, the more cut resistant the material. Cut resistance is measured in grams and converted to levels.

**CE** - Committee de European

**EN 388** - Set of CE Test Standards for Mechanical Hazards: Abrasion Resistance, Blade Cut Resistance, Tear Resistance and Puncture Resistance.

**Couptest Tester** - Machinery used to determine cut resistance under CE/EN 388. A circular blade, under a fixed load, moves back and forth across the sample until cut-through is achieved. A cotton canvas fabric is used as the reference material. The reference material and test sample are cut alternatively until at least five results are obtained. The cut resistance is a ration of the number of cycles needed to cut through the test sample vs. the reference material. This is referred to as the cut index. The higher the cut index, the more cut resistant the material. The cut index is converted to levels.

#### Washing Instructions

Wash using warm water and commercial laundry detergent. Water temperature not to exceed 50° C/ 122° F. Air-dry or tumble-dry with low heat. Do not disinfect with bleach.

### A. HyFlex® 11-500 CR with Kevlar® Glove

HyFlex® CR has a cut-resistant stretch Kevlar® liner; is coated with unique, foam nitrile; and is an excellent choice when working with sharp-edged materials and tools. The stretch Kevlar® lining provides a comfortable fit with excellent protection from nuisance nicks and abrasion and the extended cuff offers extra cut protection around the wrist. The foam nitrile coating channels away oil from the surface of the gloves, providing a sure grip in light oil applications and features a soil-hiding black palm coating. ANSI/ISEA 105 - Cut Level 2, EN 388 - Cut Level 2

SKU	Description	Size	UOM	Price
ANS11-500	HyFlex CR with Kevlar Glove	6-11	DZ	\$72.60

### B. HyFlex® 11-501 CR+ Intercept Technology Glove

Featuring Intercept Technology, jointly developed by Ansell and DuPont, this yarn incorporates Kevlar® Stretch Armor Technology for an unprecedented combination of superior cut resistance and outstanding dexterity. Superior HyFlex oil grip, tactile sensitivity, dexterity and comfort. Cut prevention improves productivity, profitability and employee morale. ANSI/ISEA 105 - Cut Level 4, EN 388 - Cut Level 4

### C. HyFlex® 11-510 DuPont™ Kevlar® Stretch Liner With Spandex

The Ansell 11-510 DuPont™ Kevlar® stretch liner with spandex glove features a patented Nylon and Kevlar® zonal plaiting on palm and back. To give the wearer a soft feel it also incorporates the ComfortFlex cuff. The black foam nitrile coated palm provides enhanced grip in light oil conditions and is silicone-free and latex-free for worker and product protection. ANSI/ISEA 105 - Cut Level 2, EN 388 - Cut Level 3

SKU	Description	Size	UOM	Price
ANS11-510	HyFlex DuPont Kevlar stretch liner with spandex	6-11	DZ	\$83.58

### D. HyFlex® 11-624 Dyneema Glove

HyFlex® 11-624 gloves feature an exclusive yarn combination of DSM Dyneema®, Spandex and nylon. HyFlex® 11-624 gloves offer the highest degree of cut protection, yet they are lightweight, cool, comfortable and highly flexible. A polyurethane black coating provides a medium high level of abrasion resistance while promoting a sure-grip in dry and wet applications and extending product life by not showing strains from wear. ANSI/ISEA 105 - Cut Level 2, EN 388 - Cut Level 3

SKU	Description	Size	UOM	Price

# Hand Protection

## Cut Resistant

### A. White Dyneema® Shell/Polyurethane Palm Coated Gloves

Cut resistant gloves feature high performance Dyneema fiber, and string knit shell construction with polyurethane coated palms. They are more flexible, comfortable and conduct heat and moisture better than others. Because Dyneema is unaffected by water or detergents, and is highly-resistant to abrasion, these gloves can be washed and re-used without any loss of cut resistance. Made with USDA/FDA accepted materials for use in food processing applications.  
 MSG3700: ASTM F1790 (CPPT) - Cut Level 1, CE/EN 388 - Cut Level 3  
 MSG3710: ASTM F1790 (CPPT) - Cut Level 1, CE/EN 388 - Cut Level 3

## D. Chrome Core Oasis™ 4035

Comfort shouldn't be a luxury, and we at HexArmor® know that safety certainly isn't. That's the reasoning behind our Chrome Core Oasis™ 4035 – a sleek, hi-vis mechanic's glove with a SuperFabric® brand material palm and a HexVent® back of hand. Built to beat the heat, the Chrome Core Oasis™ 4035 also beats laceration hazards with the most advanced technology on the market. With features such as our pre-curved design and double-stitched side seams, you won't have to give up dexterity for the highest level of safety. Our patented SlipFit® cuff also means an easy on and off between jobs.

## C. Rig Lizard® 2021

The Rig Lizard® sets a new precedent for oil, gas, and mining safety gloves. HexArmor's advanced TP-X™ technology combines the unmistakable grip advantages of a synthetic palm with the scientific innovation that made HexArmor® the thought leader in PPE development. After safety supervisors across the industry helped identify common on-site hazards, anything less than our full-hand Impact Exoskeleton™ simply would not suffice. Combine these features with a pre-curve design, double palm stitch, and HexArmor's maximum-comfort fingertip design, and you've unlocked the dexterity and protection needed for optimum performance.

### A. HyFlex® 11-801 Glove Black Foam Nitrile Glove

Offering the same outstanding light oil grip as HyFlex Foam 11-800, the new HyFlex Foam 11-801 provides exceptional comfort using Ansell's patented Knitted Variable Stitch Design. Its foam nitrile coating reduces hand fatigue and promotes maximum dexterity, while its gray colored knit liner stays clean longer, making these gloves more industrial friendly. ANSI/ISEA 105 - Cut Level 1, EN 388 - Cut Level 1

SKU	Description	Size	UOM	Price
ANS11-801	HyFlex foamed nitrile	6-11	DZ	\$36.85

### B. HyFlex® 11-800 Gray Foam Nitrile Glove

Knit-lined, dipped, color-coded cuff HyFlex foam glove provides your workers with the highest level of comfort and protection. The foam coating is resistant to snags and abrasions, and it provides excellent grip in light oil applications by channelling the oil away from the glove surface. Ideal for automotive assembly and small parts handling. ANSI/ISEA 105 - Cut Level 1, EN 388 - Cut Level 1

SKU	Description	Size	UOM	Price
ANS11-800	HyFlex glove	6-11	DZ	\$48.40

### C. HyFlex® 11-600 Lite Glove

Where dexterity is the key factor, light duty, coated, multi-purpose, palm coated, white polyurethane, knitwrist, safety without sacrificing performance. ANSI/ISEA 105 - Cut Level 1, EN 388 - Cut Level 1

SKU	Description	Size	UOM	Price
ANS11-600	HyFlex Lite fine	6-11	DZ	\$33.26

### D. HyFlex® 11-920 Glove with Ansell Grip Technology™

In oily, slippery conditions, the HyFlex® 11-920 glove provides optimal control along with durable protection. Our patent-pending Ansell Grip Technology™ coating channels fluid away from the glove's surface, enabling workers to effectively grip wet or moderately oily objects with less force. The blue nitrile coating provides high abrasion resistance and prevents oil penetration, reducing the risk of dermatitis and liquid exposure. Ultimately, hand fatigue is reduced for increased comfort and productivity. ANSI/ISEA 105 - Cut Level 1, EN 388 - Cut Level 1

SKU	Description	Size	UOM	Price
ANS11-920	HyFlex blue nitrile	6-11	DZ	\$49.89

**C. Sol-Vex®**

Sol-Vex gloves are made of a high-performance nitrile compound which provides an outstanding combination of strength and chemical resistance. When exposed to aromatic and petroleum solvents, as well as caustics and animal fats, Sol-Vex gloves have proven to be a superior choice over rubber or neoprene. Sol-Vex gloves won't swell, weaken or degrade, and they offer better protection against snags, punctures, abrasions and cuts. And, as added benefits, Sol-Vex gloves do not promote contact dermatitis, and their component materials comply with FDA regulations for food contact.

### A. TNT® Blue Thin Nitrile Gloves

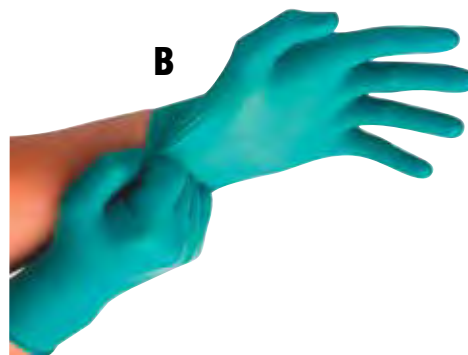

Disposable nitrile gloves set a whole new standard in durability and chemical splash protection. Features textured finger tips for exceptional grip. Recommended for manufacturing, light-duty maintenance, automotive, intricate parts handling, laboratory analysis and technical work. Lightly powdered in a clean polybag. Superior flexibility, puncture resistance, made of 100% nitrile. The glove contains absolutely no fillers, additives, silicones or plasticizers. Rolled cuff gives additional cuff strength and protects the skin from chemicals running off the glove. Complies with FDA regulations for food contact.

SKU	Description	Thickness	Size	UOM	Price
ANS92575	TNT nitrile gloves lightly powdered	4 mil	S-L	100/BX	\$9.60

**COOL SUIT**

### C. MicroMax® NS Cool Suit

Like the MicroMAX® NS coverall, the MicroMAX NS Cool Suit™ protects against dirt, grease and spills but features increased breathability with an added spunbond polypropylene back panel. A superb pattern design and an elastic back waist offer improved comfort and fit. Front and sides made of microporous film on a polypropylene substrate provide barrier protection and a flap cover over the zipper protects against splashes. The breathable back panel offers only a light particulate barrier. Stay cool while protecting yourself with the MicroMAX NS Cool Suit™.

### A. Pyrolon® Plus 2 Flame Resistant Coverall

Pyrolon® Plus 2 has been thermal mannequin tested according to ASTM F1930. When worn over thermally protective coveralls, garments made of Pyrolon® Plus 2 can reduce predicted body burn injury. Meets the requirements of NFPA 2113, Standard on Selection, Care, Use, and Maintenance of Flame-Resistant Garments for Protection of Industrial Personnel Against Flash Fire. It offers strength, wet or dry, over other traditional FR disposable garments. It is breathable, making this a cool and comfortable garment to wear.

### B. ChemMax® 3

ChemMax® 3 Ideal for the industrial environment as well as emergency responders and law enforcement, ChemMax® 3 uses the latest technology to produce a superior product. Durable and lightweight, ChemMax® 3 provides a barrier against a broad spectrum of toxic industrial chemicals, dual use chemicals, chemical warfare agents and other harmful contaminants. The multi-layer film is applied to a heavy polypropylene nonwoven for increased strength and durability. The barrier film is significantly softer than other products on the market, resulting in a quiet, more comfortable garment. Put your trust in a ChemMax® 3 garment and you will feel confident that you are doing your best to protect your team from the dangers lurking around them.

### B. DuPont™ Tyvek® Lab Coat

Tyvek® garments are composed of flash spun high density polyethylene which creates a unique, nonwoven material available only from DuPont. Tyvek® provides an ideal balance of protection, durability and comfort of any limited use fabric technology. Tyvek® fabric offers an inherent barrier to small size particles. Protection is built into the fabric itself; there are no films or laminates to abrade or wear away. Tyvek® fabric's durability advantage over microporous film fabrics delivers consistently better barrier, even after wear and abrasion. Applications include: lead and asbestos abatement/remediation, general maintenance/operations, spray painting, general clean-up.

B

### B. Seahorse™ Type V Fall Vest

Type V fall vest w/slot in the back facilitates wearing a fall restraint harness. Arrangement allows the snap hook and lanyard to be worn comfortably outside of the life jacket. Durable components are used to insure a long life of service. Flexible Ensolite® foam flotation pads cover a minimum body area to increase ventilation and promote freedom of movement. Closed-cell flotation foam will not absorb water if cut or punctured. Tough, flexible vinyl coating resists caustics, acids, UV light, hydrocarbons, mildew, fading, drilling mud, tears and abrasions and is easy to clean with soap and water. Webbing system is designed to take strains and loads. Innovative chest strap helps to hold the vest on the wearer during falls into the water and prevents the vest from riding up too high. Plastic buckles designed to not accidentally come undone or become a snag hazard. Buoyancy of the vest is greater than the USCG minimum. The bright international orange coating passes UL flame test UL1123. The life jacket can be adjusted to fit most adults (up to 56" chest). USCG Approval 160/053/88/0.

### A. TEGGEN® Select 6.25 oz Coverall

TEGGEN® Select protects you from radiant heat, electric arc fires and flash fires, just like bulkier clothing. Only it isn't bulky. In fact, it's downright comfortable - and stays that way - even as the heat rises, because the patented fiber actually sucks moisture from your skin, where it quickly evaporates keeping you cool. Hey, firefighters wear this kind of stuff. Why shouldn't you? Lightweight 6.25 oz, inherently FR - will never wash or wear away. High air permeability means greater comfort with inherent moisture transport. Available in tan and navy blue. Specify size S - 7X.

**Meets NFPA 2112 requirements. NFPA 70E, CAT 2**

### B. DuPont™ Nomex® IIIA 4.5 oz Coverall

Nomex IIIA Aramid is inherently flame resistant for the life of the garment. The flame resistant properties will not wash or wear out. The 4.5 oz. Contractor's Style Coverall is constructed with a two-way brass zipper front closure, by-swing back, two front, rear and breast pockets and concealed snap closures. This coverall also features an elastic waistband and a five-thread safety stitch. Made in USA. Available in royal blue, spruce green, gray, tan, black, orange and navy blue. Specify size S - 5XL. **UL® certified as a garment that meets NFPA 2112 requirements. NFPA 70E, CAT 1**

### C. Flame-Resistant 9 oz Cotton Insulated Coverall

Insulated coverall is made out of 9 oz flame-resistant, 100% cotton fabric. Sewn throughout with Nomex® thread. All stress points are bar-tacked for reinforcement. Lay-down collar, six pockets, pencil slot on left chest pocket and red FR tag on chest pocket. Snaps on pass-through pockets, double-layer rear pockets, and two-ply rear pocket bottom. Heavy duty (two-way) Nomex, brass zipper, and zipper flap with snap. Sewn bi-swing back, elastic waist-in back, reinforced waistband in front, and finished dress cuff with adjustable snap closure. Insulated for added warmth. Permanent label lists washing instructions, size, fiber content and RN#. Made in USA. Available in navy blue, royal blue and tan. **Meets NFPA 2112 requirements. NFPA 70E, CAT 2**

### D. TECGEN® Select 8.5 oz FR Work Pants

TECGEN SELECT® protects you from radiant heat, electric arc fires and flash fires, just like bulkier clothing. Only it isn't bulky. In fact, it's downright comfortable - and stays that way - even as the heat rises, because the patented fiber actually sucks moisture from your skin, where it quickly evaporates keeping you cool. Hey, firefighters wear this kind of stuff. Why shouldn't you? Lightweight 8.5 oz, inherently FR - will never wash or wear away. High air permeability means greater comfort with inherent moisture transport. **Meets NFPA 2112 requirements. NFPA 70E, CAT 2**

### A. Pyrolon® Plus 2 Flame Resistant Coverall

Pyrolon® Plus 2 has been thermal mannequin tested according to ASTM F1930. When worn over thermally protective coveralls, garments made of Pyrolon® Plus 2 can reduce predicted body burn injury. Meets the requirements of NFPA 2113, Standard on Selection, Care, Use, and Maintenance of Flame-Resistant Garments for Protection of Industrial Personnel Against Flash Fire. It offers strength, wet or dry, over other traditional FR disposable garments. It is breathable, making this a cool and comfortable garment to wear.

SKU	Description	Seams	Color	Size	UOM	Price

### B. Pyrolon® CRFR

Pyrolon® CRFR protective wear is unique. It's disposable, chemical resistant, and flame-resistant, meeting NFPA 2113 requirements. Imagine all these qualities in one protective garment. Pyrolon® CRFR garments bar contaminating flammables like paint, oil, and grease, hazardous liquids, dry particulates, and other harmful contaminants from penetrating to inner clothing.

**A. Eclipse™**

Tingley's Eclipse is designed to meet the special demands of workers that may be exposed to momentary electric arc or flash fire hazards. Ideal Applications: All electric and gas utilities, power generation, pipeline, construction work, and petrochemical applications. The Eclipse features Overhead shoulder design for complete freedom of movement while working overhead, Therm-O-Rad sealed seams for 100% liquid proof protection and Flame resistant corduroy collar with roll-a-way hood for comfort and convenience. ANSI/ISEA 107 Class 3 compliant suit, jacket and coat for flame resistance and high visibility. Conforms to ASTM F1891 for Arc Thermal Performance and NFPA 70E - CAT 2. Jacket and overall styles conform to ASTM F2733 for Flash Fire Performance.

**ANTI-FOG RE-ENGINEERED**

**Uvex HydroShield™ Anti-Fog Coating**  
**60X LONGER LASTING**  
**Fog-Free Performance**

**CLEARER. LONGER. SAFER.**

\*Anti-Fog performance based on independent lab test results when compared to median test results of competitive anti-fog coated products under EN166 and EN16 testing standards. Competitive lens life test performed using a Bayer Abrasion Test method and may vary between environment and application.

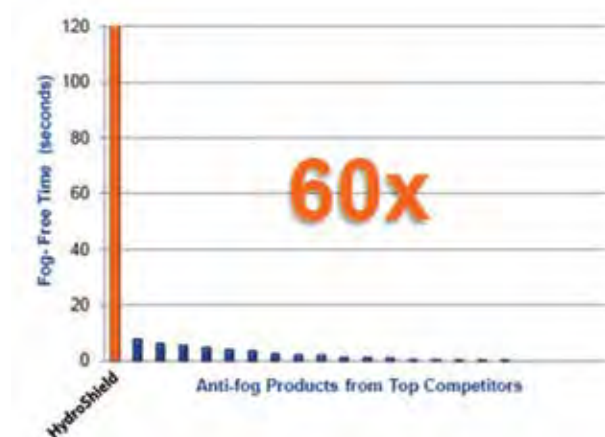

## Uvex HydroShield Anti-Fog Coating

### 60X Longer-Lasting\* Fog-Free Performance

Foggy lenses are the number one challenge that users of safety eyewear face on the job. This revolutionary new lens coating is engineered to keep workers fog free for longer than ever before. HydroShield has been tested against dozens of competitive anti-fog coated products under the most rigorous anti-fog tests in the world. The results are groundbreaking.

**CLEARER. LONGER. SAFER.**

\*HydroShield was tested under the most stringent anti-fog standard in the world, the European EN 166/168 standard. Under this time-lapsed test, a lens is soaked in water for two hours to simulate the cumulative moisture lenses are subjected to over time from sweat, washing and work environments. After drying, steam is projected onto the lens and the time-to-fog is measured. During this test, HydroShield lenses remained fog-free 60X longer than competitive products (for over 2 minutes), while competitive products fogged in a median time of less than two seconds.

### A. Uvex Genesis® Safety Glasses

Uvex Genesis combines cutting edge design with state-of-the-art molding technologies to deliver superior product benefits and a higher level of performance. Benefits include soft elastomeric browguard that cushions forehead and soft flexible nosepiece fingers. Lenses are coated with either Uvextreme® anti-fog coating, or Ultra-dura® enhanced chemical and scratch-resistant coating. The Uvex Genesis exceeds both ANSI Z87+ and CSA Z94.3 standards for impact protection. Made in USA. Meets military Vo ballistic test for impact. Lifetime frame guarantee.

**D. 3M™ Virtua™ Sport CCS Protective Eyewear**

Protective eyewear with a Corded Earplug Control System (CCS). This unique temple design controls and holds the cord of the earplug to keep it securely in place and untangled while in use. The CCS is convenient for workers who are intermittently exposed to noisy areas; when earplugs are not in use the CCS helps prevent the loss of the hearing protector. The CCS feature also allows the corded earplugs to dual as a lanyard - a cord worn around the neck for carrying your protective eyewear. Comfortable, lightweight frame. Clear/gray anti-fog or hard-coat lens. Polycarbonate lens absorbs 99.9% UV. Meets the requirements of ANSI Z87.1-2003

### B. V-Gard® Standard Hard Caps

These MSA hard hats are the number one hard hat for most industrial applications. The shell is made with a durable injection-molded, high-density polyethylene. These MSA hard hats are available with the Fas-Trac® or Staz-On® suspension for superior head protection. In addition, this MSA cap is designed with an accessories slot to accommodate many add-on features and also includes a Cushionaire™ sweatband and adjustable crown straps. Complies with ANSI/ISEA Z89.1-2009 (Class E) standards for a Type I (top impact) helmet.

### C. Vented Advance® Cap with 6-Point Fas-Trac® Suspension

Advance Caps are MSA's latest combination of advanced features - cooling vents for improved air circulation, lightweight design for added comfort, lateral contours above the ear for easy integration of hearing protection, and Glaregard™ underbrim to reduce reflective glare. Advance Caps are not specifically designed to protect against lateral blows from the front, side or rear. These MSA hard hats come with the six-point, Fas-Trac®, ratchet suspension for superior head protection. Meet all applicable requirements for a Type I (top impact) helmet as outlined in ANSI/ISEA Z89.1-2009 (Class C). These caps and hats also meet the ANSI/ISEA Z89.1-2009 voluntary standard for low temperature.

SKU	Description	Suspension	Color	UOM	Price

C

### A. Vanguard™ Cap

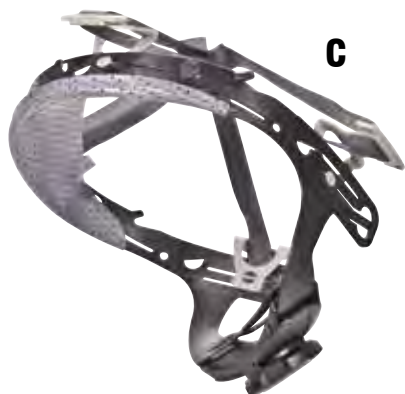

Vanguard (polyethylene) Helmets are designed to provide limited impact and penetration protection in the event of a top or lateral blow to the head, as well as limited protection against contact with high-voltage conductors. Representing the latest generation of protective headwear, they are tested to the same energy level for both top and lateral blows. Meet all applicable requirements for a Type I and II (top and lateral impact) helmet as outlined in ANSI/ISEA Z89.1-2009 (Class E).

SKU	Description	Suspension	Color	UOM	Price
MSA804939	Vanguard Helmet	Fas-Trac®	Yellow	EA	\$75.98

### B. Chinstrap

MSA Chinstraps can be worn to help keep hats and caps stable on the worker's head. They contain no metal parts, so they can be worn on dielectric headwear without affecting dielectric qualifications. Chinstraps attach directly to the MSA V-Gard shell. MSA chinstraps comply with ANSI Standard Z89.1-1997 for Industrial Head Protection. Elastic chinstrap with plastic hooks and buckle (attaches to the shell).

SKU	Description	UOM	Price
MSA88128	Chinstrap	EA	\$5.05

### C. MSA Fas-Trac® III Suspension

Ensuring your workforce wears their safety helmets can be a real headache. MSA, the leading provider of protective helmets, has the perfect remedy: the Fas-Trac® III Suspension. No more pressure headaches. No more pulled hair. No more falling off. No more sacrificing worker comfort for safety. Market-leading MSA helmets now have a comfort-leading suspension!

SKU	Description	UOM	Price

## A. SUPEREIGHT® High Performance Hats and Caps

Fibre-Metal's technologically advanced thermoplastic safety hats and caps are the quality leader in head protection. They combine exceptional protective performance with extraordinary comfort to reduce risk and improve productivity. The unique, smooth crown design eliminates the risk of an impacting object being trapped by ribs, ridges or slots. All hats and caps include an 8-point suspension. Model E-1W full brim hat provides protection from the sun, non-toxic splash, dust, dirt and debris. Models E-1 and E-2 are SEI certified to meet ANSI Z89.1, Type 1, Class E, G or C.

## B. SUPEREIGHT® Heavy-Duty Fiberglass Caps

SUPEREIGHT® ROUGHNECK fiberglass protective caps set the standard for exceptional impact resistance, durability and crack resistance, all in the lightest weight fiberglass cap available. Comes with a unique Impact Energy Control System and extraordinary comfort features for long wearing comfort under tough working conditions. These fiberglass caps also come in an additional formulations for use when extreme hazards and working conditions require an extra margin of performance. Caps designated P-2H provide additional heat resistance. Select the industry's only 360° padded sweatband (model W-2F); the first and still the best strip-proof, crack-proof ratchet headband (model 3-RW2); or patented Swingstrap that combines the benefits of both with the added ability to convert from the front wearing position to the rear wearing position, (and back) without having to reverse the suspension or headband (3-SW2). Complies with ANSI Z89.1-1997, Type I, Class G Standards.

MSS22699	Clear visor 8" X 15-1/2" X 0.040 meets basic impact standard only	EA	\$1.19

by Honeywell

### A. Fibre-Metal Faceshield Brackets

Model F-300 is for light duty, general purpose face protection. Exceptionally lightweight and comfortable. Fits easily over today's spectacles with space for air circulation to prevent fogging. Accommodates a 4118 standard size (11-1/2" x 8") window. Model F-400 has a deep crown protector and wider windows for extended face protection. Deeper 4" crown protector extends protection without increasing weight. Incorporates wide-vision (17" x 8") wraparound windows and screens which provide 40% more protective area than standard size faceshields. Fits easily over required spectacles or respirators. Available with choice of three protective cap mounting mechanisms. High Performance protective faceshields can be equipped with model 5000 Speedy-Loop for easy on/off mounting on protective caps. Patented, adjustable loop fits Fibre-Metal caps and most competitive brands; model 4000 Quick-Lok cups for mounting on Fibre-Metal Caps equipped with Quick-Lok blocks for more permanent mounting.

### B. Cap Peak Mounted Faceshields

Lightweight, dielectric faceshield protective cap mounting bracket mounts on the front peak of the cap. Dual channel mounting system uses one channel to anchor the bracket to the cap while the other channel holds the window so it can lock into the work position and pivot up and out of the way when not needed. The locked channels form a positive seal to keep debris from filtering between the cap and faceshield. Molded from strong, heat-resistant Noryl, ideal for extended outdoor use.

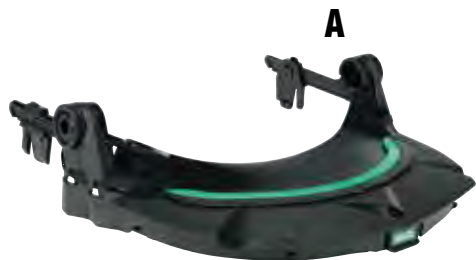

SKU	Description	UOM	Price
FIBFM70	Faceshield bracket, cap style	EA	\$10.92
FIBFM71	Faceshield bracket, full brim style	EA	\$10.92

### C. Dual Crown Faceshield with Chin Guard

North is pleased to introduce our new Fibre-Metal brand Clear Chin Guard for all Dual Crown Faceshields. This new clear poly carbonate chin guard will provide our customers with an even better option for cutting and grinding applications by increasing their field of vision.

SKU	Description	Type	UOM	Price
FIBFM5400DC	Dual Crown Faceshield with chin guard	Speedy Mounting Loop	EA	\$31.70
FIBFM4400DC	Dual Crown Faceshield with chin guard	4001 Quick Lock Caps	EA	\$30.67
FIBFM400DC	Dual Crown Faceshield with chin guard	Ratchet Gear	EA	\$34.29
FIBFM3400CGC	Chin Guard Clear		EA	\$6.67

### A. V-Gard Frame For Slotted MSA Caps

This frame works with any MSA slotted or non-slotted helmet and features our unique sloped design to help material slide off the frame and out of site. Can be used with earmuffs, half-mask respirators and other personal protective equipment. Stays securely on the cap, thanks to the heavy-duty, flat, rubber strap. The elevated temperature model withstands temps up to 350°F (176°C). Each frame meets the applicable requirements for ANSI/ISEA Z87.1-2010

SKU	Description	UOM	Price
MSA10115730	V-Gard Frame for MSA slotted caps, with debris control	EA	\$10.55

### B. V-Gard Universal Frame For Slotted or Non Slotted MSA Caps

This frame works with any MSA slotted or non-slotted helmet and features our unique sloped design to help material slide off the frame and out of site. Can be used with earmuffs, half-mask respirators and other personal protective equipment. Stays securely on the cap, thanks to the heavy-duty, flat, rubber strap. The elevated temperature model withstands temps up to 350°F (176°C). Each frame meets the applicable requirements for ANSI/ISEA Z87.1-2010

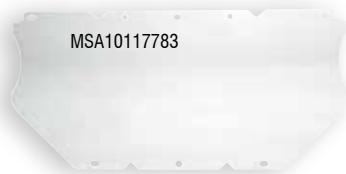

SKU	Description	UOM	Price
MSA10121268	V-Gard Universal Frame for caps, without debris control	EA	\$7.53

### C. V-Gard Visors

These visors are made of durable polycarbonate or mesh, and help protect wearers from flying debris, splash or spray. All V-Gard Visors for general purpose can be worn with cap-mounted earmuffs.

SKU	Description	UOM	Price
MSA10117783	Visor clear, PC flat, nitrometer (non-CSA version) 8" x 17" x .06"	EA	\$6.02
MSA10115853	Visor clear, PC molded, AF/AS, 10.375" x 17" x .098"	EA	\$23.04
MSA10116558	Visor mesh with plastic edge, nitrometer, 8" x 17"	EA	\$81.53
MSA10115856	Visor clear propionate, molded, nitrometer	EA	\$12.77

### D. Retractable Chin Protector

Unique retractable plates allow greater flexibility of head movement both up and down, as well as side-to-side. Opaque material ensures safety and standards compliance with clear, tinted, shaded and coated V-Gard Visors. 3.82" (9.7 cm) in height, when unretracted.

SKU	Description	UOM	Price
MSA10115828	Retractable Chin Protector	EA	\$7.75

### A. Universal Foldback Faceshield Frames

These Universal Foldback Faceshield Frames are designed to fit on any of MSA's protective hats. When properly positioned, they will securely hold faceshields, visors and welding shields. A durable ring of rubber tubing holds the plastic adapters securely on the hat while a metal spring holds the metal brackets in place. The plastic adapters are non-conducting, and can be worn on dielectric hats without affecting the headwear's dielectric qualifications.

SKU	Description	UOM	Price
MSA488159	Metal foldback faceshield frame, hat model (less visor)	EA	\$12.33
MSA488160	Metal foldback faceshield frame, cap model (less visor)	EA	\$11.52

MSA488159

### B. Sellstrom® DP4™ Multi-Purpose Faceshield

The new DP4 faceshield combines a clear anti-fog window with a flip-down IR window, providing uninterrupted protection for grinding, cutting, and brazing operations. The shield curves naturally to fit facial contours; ensuring reliable protection from splash, particles, and flying debris. Ratchet headgear suspension allows user to adjust size and tighten at the turn of a knob. Rugged, polycarbonate shield is impact and splash resistant. Meets ANSI Z87.1 standards and is CUL-certified to meet CAN/CSA-Z94.3 standards.

SKU	Description	Lens	UOM	Price
SEL32010	Multi-purpose faceshield	Clear	EA	\$34.14
SEL32151	Multi-purpose faceshield w/5 IR flip up window	Clear	EA	\$50.07
SEL32155	Replacement 5 IR flip up window	5 IR	EA	\$16.23
SEL32130	Replacement faceshield lens	Clear	EA	\$27.78

### C. 3M™ Faceshield System

An economical system that offers full-face protection. Innovative window system eliminates snaps, cams or bands... allowing replacements in seconds. The crown protector is made of new high-strength thermoplastic, for impact resistance over a wide range of temperatures. High-density polyethylene suspension has adjustable pin-lock mechanism to fit different head sizes. Crown strap also adjusts for additional support and comfort.

SKU	Description	UOM	Price
A082501	Tuffmaster H8A Headgear with crown protector	EA	\$13.76
A082700	Faceshield, propionate .080" X 9" X 14"	EA	\$6.25
A082701	Faceshield, polycarbonate .08" X 9" X 14"	EA	\$6.03

**WARNING!**

These eye and face protection products help provide limited eye and face protection. Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness or death. For proper use, selection, and applications against flying particles, optical radiation and / or splash see supervisor, read User Instructions and warnings on the package or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

### A. Bionic™ Faceshield

The Bionic Faceshield offers enhanced protection from airborne debris while providing excellent optics and increased visibility. The visor is easily replaceable and has dual position choices. The lightweight and balanced, ergonomic design makes this faceshield ideal for extended use. Other features include a comfortable cell foam on back of headgear and a breathable, removable, washable headband. It can be worn comfortably with most goggles and respirators. Faceshield offers secondary protection and must be worn with spectacles or goggles. Passes ANSI Z87+ and CSA Z94.3 standards.

SKU	Description	UOM	Price
S8500	Bionic faceshield, clear uncoated	EA	\$24.47
S8550	Bionic replacement visor, clear uncoated	EA	\$5.33

### B. ProGuard™ System

Elvex top of the line ProGuard System comes equipped with a six point ratchet suspension safety helmet. This model is equipped with Elvex heavy duty cap-mount ear muffs, which provide a Noise Reduction Rating of 27 dB, and Visor Bracket and nylon visor.

SKU	Description	UOM	Price
ELVECU-60	ProGuard System	EA	\$55.27

**B**

### C. Safe-T-Rak®

Easily installs and adjusts to fit most hard hats, even the wide brim designs. Economical way to comply with recommendations for Carrying and Storage of Head Protection (ANSI Z89.1-1986). Protects your safety hard hats and caps from degradation caused by sunlight or damage caused by careless storage. The seat model fits over most vehicle seats and provides easy access to hard hat.

SKU	Description	UOM	Price
SIP002	Seat mount	EA	\$9.81

### D. Deluxe Helmet Storage Bag

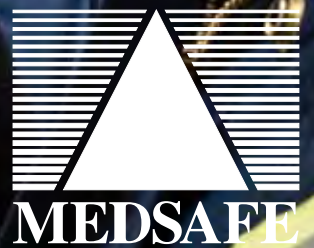

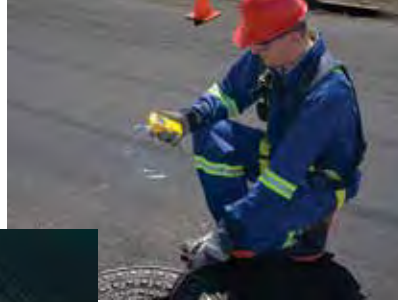

Rugged polyester outer shell with fleece inside is built to protect helmets and shields from scratches. Added features include a breathable PVC mesh covering, drawstring closure and carrying strap designed to be used over the shoulder or for hand carry. Zippered inside and outside pockets allow extra storage for lens protectors and accessories. Hook is provided to hang bag when stored and drain hole is at base of bag. Clear plastic window pouch for personal identification. Will accommodate all sizes of helmets. Size: 13 1/2" cylinder

SKU	Description	UOM	Price
ALLE2025-05	Deluxe helmet storage bag	EA	\$31.49

### A. GasAlertMax XT II Multi-Gas Detector

The GasAlertMax XT II portable multi-gas detector simultaneously monitors and displays up to four gases including hydrogen sulfide (H<sub>2</sub>S) carbon monoxide (CO), oxygen (O<sub>2</sub>) and combustibles (%LEL). The compact and field tough GasAlertMax XT II features an integrated sampling pump designed for performance and reliability. SmartSample pump technology prevents moisture from entering pump and saves time with reliable pump block detection. One-button operation guarantees ease of use even while wearing gloves. Tamper-proof, user adjustable options enable the instrument to be customized to suit your specific application.

SKU	Description	Sensors	UOM	Price
BWXTXWHMYNA	Gas Alert Max XT II 4 gas detector	LEL,O <sub>2</sub> ,CO,H <sub>2</sub> S	EA	\$887.96

### B. GasAlertQuattro Multi-Gas Detector

Rugged and reliable, the GasAlertQuattro combines a comprehensive range of features with simple one-button operation. The GasAlertQuattro displays real-time gas concentrations readings for up to four gas hazards including H<sub>2</sub>S, CO, O<sub>2</sub> and combustible gases. With a durable exterior, reinforced bumpers and a built-in concussion-proof boot, the GasAlertQuattro was designed for harsh, industrial environments. The GasAlertQuattro is always ready for your shift with interchangeable power options - AA batteries or a rechargeable battery pack. The extra large graphic LCD displays a range of easy to identify icons that indicate operational information such as bump test and calibration icons for simplified onsite auditing.

### C. GasAlertMicro 5 Multi-Gas Detector

The GasAlertMicro 5 portable gas detector simultaneously monitors and displays up to five potential atmospheric hazards including oxygen, combustible gases and a range of toxic gases. With an IP65/66 rating to ensure dust and water resistance, the GasAlertMicro 5 comes with audible, visual and vibrating alarms that activate in the event of a Low, High, TWA or STEL alarm condition. User selectable field options include confidence beep, pass code protection, latching alarm, calibration due date, "SAFE" display function, stealth mode, selectable ppm resolution for some gases (e.g. SO<sub>2</sub> 0.1 ppm). Other features of the GasAlertMicro 5 include an integral concussion-proof enclosure, two power options (three AA alkaline batteries or a rechargeable battery packs), multi-language support, and simple automatic calibration procedure compatible with BW's MicroDock II system. Each monitor is available with optional rechargeable battery pack, motorized pump, datalogging and confined space kit. Two year warranty including all sensors (1 year NH<sub>3</sub>,Cl<sub>2</sub>,O<sub>2</sub>,ETO and ClO<sub>2</sub> sensors).

### A. GasAlertMicro 5 PID Multi-Gas Detector

Compact and lightweight, the GasAlertMicro 5 PID with a humidity resistant PID sensor measures for PID detectable volatile organic compounds (VOCs) while simultaneously monitoring and displaying up to four additional atmospheric hazards including oxygen, combustibles and a range of toxic gases. Available as a diffusion or pumped instrument, the GasAlertMicro 5 PID is fully customizable to suit any application with a wide range of user options.

- Two power options: AA alkaline or rechargeable hot-swappable battery packs
- Dust and water resistant design with IP 65/67 rating
- Rugged and durable, with a built-in concussion-proof boot
- Visual, audible and vibrating alarms
- Multi-language support in English, French, German, Spanish and Portuguese
- Automatic calibration procedure; compatible with BW MicroDock II automatic test and calibration station

### B. GasAlertMicroClip Series

The industrial GasAlertMicroClip is the world's most popular multi-gas portable detector, delivering long runtime and reliability, plus small size, low cost and the easiest user experience. Compact, lightweight and easy to use with one-button operation and no extensive training. Features a rechargeable battery, survives harsh temperatures, punctures and 20-foot drops. Flashing green IntelliFlash™ light for compliance at a glance. Reflex™ Technology ensures sensor responsiveness for safety, uptime and worker confidence

### C. BW Clip

The BW Clip maintenance-free single-gas detector is the most reliable, user-friendly, cost-effective way to keep workers safe and operations compliant. It delivers up to three years of protection with no need for calibration, sensor replacement, battery replacement or battery charging. Features automated self-test for improved safety. Automatically logs the 35 most recent gas events for easy, accurate record keeping. Compatible with the IntelliDoX instrument management system for extremely quick bump tests, bump test tracking, adjustable set points and more. Also compatible with MicroDock II docking station and Fleet Manager II software.

SKU	Description	UOM	Price

### A. MicroDock II

The most cost effective way to manage the calibration and bump testing of BW Technologies by Honeywell portable gas detectors.

**Features & Benefits:**

- Quick and easy compliance - automatically maintain accurate records
- Automatic bump testing, calibration, record keeping and charging
- One base station with one AC outlet supports up to six modules to suit your application
- Verifies proper performance of detectors
- Reduces maintenance costs

**Quick Specs:**

- Size 8.3 x 10.4 x 3.2 in. / 21.2 x 26.3 x 8.2 cm (base station plus one docking module)
- Power supply 6V wall adaptor or four C-cell batteries
- Real-time clock Provides time and date stamp for "last calibration" and "last bump test" data
- Data storage Automatic (instrument and base station)
- MultiMediaCard data storage system

**Please call (800)330-9240 for Configuration and Pricing**

### B. IntelliDoX

IntelliDoX is an instrument management system for the BW Clip, bringing a new level of customization to maintenance-free gas detection. Combining smart docking modules and Fleet Manager II software, the system helps you drive productivity, reliability and efficiency, while configuring BW Clip detectors to meet changing requirements.

**Features:**

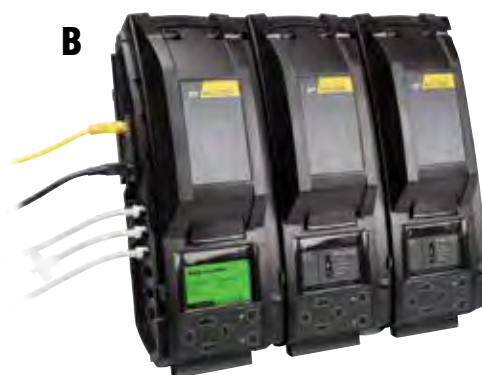

- Enables bump test tracking, email notices and easy recordkeeping for improved compliance
- Performs the quickest bump test in the industry for increased uptime and no wasted calibration gas
- Enables the ability to change alarm set points, set a noncompliance indicator when a bump test is due, and adjust other parameters on the BW Clip for maximum flexibility

**Quick Specs:**

- Easy setup with a network or USB drive no tools required
- Expandable to five docking modules that can operate independently, while sharing power, network connection and calibration gas
- Easy data transfer by Ethernet or USB from docking module to computer

### A. Sirius® Multigas Detector

The Sirius® Multigas Detector offers the ultimate in flexibility by integrating a high-performance PID (Photoionization Detector) and 4-gas detection into one. Users are able to simultaneously monitor volatile organic compounds (VOCs) with low vapor pressures while measuring for combustible, toxic, and oxygen-deficient atmospheres in one reliable, easy-to-use and durable unit. Applications include homeland security, confined spaces, leak detection, perimeter monitoring and many more. Features Include user-friendly software, flexible configurations, attention-getting alarm, interchangeable battery packs, and reliable PID performance. Assemble to order system allows you to configure monitor with options that you need. Compatible with MSA Galaxy® Automated Test System.

### B. ALTAIR® 4X Multigas Detector

The ALTAIR 4X Multigas Detector for LEL, CO, H2S and O2 is as tough and functional as it looks. A rugged housing provides unsurpassed durability, including the ability to survive a 20-foot drop. MSA XCell Sensors are a breakthrough in chemical and mechanical sensor design, enabling faster response and span calibration times. With less time spent on calibration and bump tests, you save calibration gas, maintenance costs and, in turn, save money. Exclusive safety features like MotionAlert™ and InstantAlert™ make the ALTAIR 4X Multigas Detector ideal for applications like confined space entry. The MotionAlert sensor activates when a user becomes disabled and motionless, quickly alerting others to the disabled user's location.

### C. ALTAIR® 5X Multigas Detector

MSA's ALTAIR 5X Multigas Detector provides many options to fit various applications. The detector is configurable with either a high-resolution color or monochrome LCD display with multilingual capabilities. MSA's Logo Express® Service option is available to customize the color display. The detector is easily configurable with interchangeable plug-and-play sensor slots for MSA XCell Sensors. Up to six gases can be monitored simultaneously.

Furthermore, this multigas detector offers optional glow-in-the-dark instrument housing for IR sensor-equipped units. The ALTAIR 5x Multigas Detector's lithium-ion battery lasts up to 20 hours, allowing it to be used over multiple shifts.

### D. GALAXY® GX2 Automated Test System

The GALAXY GX2 Automated Test System allows users to configure many gas detector and cylinder settings at the test stand, settings that can be saved to a reusable file. Settings are stored on a digital-secure USB; no gas detector setting files are stored locally. Your ALTAIR 4X and ALTAIR 5X Multigas Detectors are available to use immediately. If you're faced with an urgent, short-notice situation, these units are ready for deployment, ideal for emergency applications.

### A. RKI Eagle 2

The EAGLE 2 available features include a PID sensor for detecting high or low ppm levels (0-50 & 0-2,000) of VOC gases; % volume capability for CH<sub>4</sub> and H<sub>2</sub> using a TC (thermal conductivity) sensor; PPM or LEL hydrocarbon detection at the push of a button; infrared sensors for CO<sub>2</sub> (ppm or % volume), methane or hydrocarbons in LEL and % volume ranges; methane elimination feature for environmental applications; and a variety of super toxic gases. The EAGLE 2 has a strong internal pump with a low flow auto pump shut off and alarm, which can draw samples from up to 125 feet. This allows for quick response and recovery from distant sampling locations. The EAGLE 2 will continuously operate for over 18 hours on alkaline batteries or 20 hours on NiMH. A variety of accessories are also available to help satisfy almost any application such as long sample hoses, special float probes for tank testing, and dilution fittings, just to name a few. Datalogging is a standard feature for all sensors on all versions.

With its ergonomic design and large glove friendly buttons, the EAGLE 2 offers easy access to controls such as autocalibration, alarm silence, demand zero, peak hold, methane elimination, and a wide variety of other features. Each channel has two alarm levels plus TWA and STEL alarms for toxic channels. The two alarm levels are user adjustable and can be latching or self resetting. Rugged, reliable, easy to operate and maintain, the EAGLE 2 is the solution for just about any portable gas monitoring situation. Also, the display can be set to any of 5 languages: English, French, German, Italian, or Spanish.

#### Features

- Monitor up to 6 different gases
- PPM, % LEL, or % Vol. auto-ranging combustible detection
- Specialty Sensors
  - » PID (Photoionization Detector)
    - Low or high range for VOC detection
    - Fence Electrode Technology for humidity and contamination resistance
  - » Infrared (IR)
    - CO<sub>2</sub>, % LEL CH<sub>4</sub>, % Vol. CH<sub>4</sub>, % LEL HC, % Vol. HC
  - » Thermal Conductivity (TC)
    - % Vol. H<sub>2</sub>, % Vol. CH<sub>4</sub>
- » Smart toxic, plug and play sensors  
NH<sub>3</sub>, AsH<sub>3</sub>, Cl<sub>2</sub>, HCN, PH<sub>3</sub>, & SO<sub>2</sub>
- Multilingual (5 languages)
- Powerful long-life pump up to 125' range
- Low flow pump shut off and alarm
- Methane elimination for environmental use
- Alkaline 18 hours or NiMH 20 hours capability
- Password protection
- Datalogging standard
- Autocalibration / single gas calibration
- Internal hydrophobic dust filter
- External probe with hydrophobic filter
- Ergonomic RFI / EMI / chemical / weather resistant enclosure
- Intrinsically safe design, CSA approval

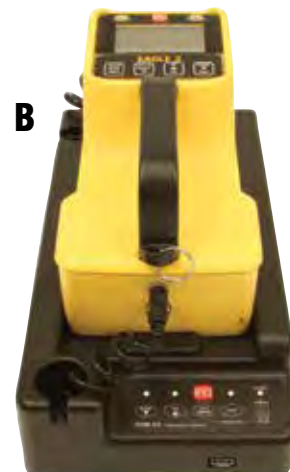

### B. Eagle 2 Calibration Station

The SDM-E2 is a versatile maintenance tool for the Eagle 2 portable gas monitor. This docking station can be used as a stand-alone device for charging, calibration and bump testing, with all records automatically stored for future upload to a PC via USB flash drive (PC software and flash drive included).

#### Multi Module System

The SDM-E2 can also be connected to a PC for automated calibration bump testing and archiving of datalog data from Eagle 2 instruments. Up to ten SDM-E2 docking stations can be connected simultaneously using USB cables. The SDM-E2 is also equipped with two gas ports to connect up to two calibration gas mixtures to the multi module system.

SKU	Description	UOM	Price
RKISDM2	Eagle 2 Calibration Station	EA	\$2250.00

B

## A. RKI M2 Stand Alone Transmitter

The RKI M2™ is a state-of-the-art transmitter that can operate as an independent, stand-alone system or as part of an integrated system. The M2 connects with an analog or digital signal to virtually any controller, PLC, or DCS. Setup procedures are simplified with user friendly push buttons and LCD menus. It utilizes a magnetic wand technique for performing non-intrusive calibration. The M2 provides an automatic zero drift correction feature, which results in more stable readings and reduces the need for adjustments due to sensor aging.

The housing of the M2 does not need to be opened for zeroing or calibration, making it unnecessary to declassify the area for routine maintenance. It is designed so that a complete field calibration can be performed by one person. Sensor construction is rated Class I, Div. 1 groups B, C, D for flammables, CO, H<sub>2</sub>S, O<sub>2</sub>, and CO<sub>2</sub>, and Class I, Div. 2 for all other toxics.

### Features

- Operates with or without a controller
- Direct digital readout on backlit LCD
- Infrared sensor for combustibles and CO<sub>2</sub>
- 4-20 mA & digital Modbus outputs standard
- 2 fully programmable alarm relays & fail relay
- Non-intrusive calibration via magnetic wand
- Explosion proof construction
- Patented water repellent sensor cover
- User friendly setup, push buttons & LCD menus
- Long-life sensors (2 + years typical)

RKI652615RK0	M2 Transmitter, H <sub>2</sub> S 0-100 ppm sensor, with J-Box, Explosion Proof	EA	\$1243.75

## B. SafeAir® Vapor Monitor

The SafeAir badge provides an immediate visual indication in the presence of a specific chemical hazard. The sensor is constructed from a coated indicator layer providing homogeneous and stable color formation. The appearance of an “exclamation mark” warns the presence of the targeted hazard. There is no calibration, extra equipment or laboratory analysis required.

SKU	Description	UOM	Price
KMG38201050	Ammonia monitor	50/PK	\$195.88
KMG38200950	Chlorine monitor	50/PK	\$195.88

IMPORTANT: The 3M products in this catalogue must be used in accordance with OSHA regulations, and the user instructions, warnings, and limitations accompanying each product.

ISO 9001:2008 CERTIFIED

## Innovation Leader

PortaGas has developed a recyclable cylinder program utilizing a complete line of reusable, sustainable cylinders. This eliminates the cost and work associated with the current cylinder disposal process. The new PortaGreen cylinders can be conveniently returned to PortaGas for reuse using the  program. These cylinders are more compact and globally approved.

## Game Changing Innovation

- **Eliminates HAZMAT Liability** - Just hand empty cylinder to your carrier.
- **Easy To Return** - no paperwork, no packing, no valve to crush, no hole to drill - just strip and ship.
- **No Disposal Fees... No Return Fees...**
- **Reduced Cylinder Footprint**
- **Increased Shelf Life**

Portagas is one of the most trusted names in the safety industry for calibration gases and equipment. Portagas uses ISO certified manufacturing processes to insure you receive the highest quality of calibration gas available. Each cylinder comes with a Material Safety Data Sheet and Certificate of Analysis. Use the Portagas brand of calibration gases for all of your calibration gas needs.

### • QUALITY ASSURANCE

Each cylinder is labeled with a unique serial number providing full traceability. The stability of each mix is guaranteed. All gases are made to the highest accuracy with traceability to N.I.S.T.

### A. Gas Sampling Pump & Tubes

The Gastec Gas Sampling Pump is designed for optimum safety and convenience. Its one-stroke, piston design with flow finish indicator eliminates the risk of partial samples and is perfectly calibrated. It includes a built-in detector tube tip breaker with storage bin for safe tip disposal. It is intrinsically safe and has a lifetime warranty. The pre-calibrated, direct-read tubes offer distinct lines of demarcation for easier viewing and require no interpretation, dual scales, or color charts. Offering some of the broadest operating temperature ranges available, the tubes can be used in virtually any environment—from 32°F to 104°F. Gastec Gas Sampling Pumps should only be used with Gastec Detector Tubes. Gastec products are designed, manufactured, and calibrated to work together to ensure accurate readings. To maintain the highest level of quality, Gastec products are manufactured in ISO-9001 certified facilities.

**A**

### A. Reed Weather Station

This weather station's measurements are transmitted up to 300 ft (100m) to indoor receiver/display. The exterior sensors are easily mounted on fences or roofs and data is transmitted from outdoor sensors to indoor receiver every 30 to 40 seconds. The receiver is powered by an AC/DC adapter (included). Display is switchable from imperial to metric measurements. Other features include the memory retaining maximum and minimum values and desk or wall mount. Functions: Date and time with alarm; Indoor and outdoor temperatures; Temperature alarm; Wind speed and direction; Wind chill; Relative humidity; Accumulated rainfall; Barometric pressure and trend; Forecasts the next 12 hours.

SKU	Description	UOM	Price
ITMDG950	Weather station	EA	\$170.33

### B. Reed Psychrometer

The ITM8706 and ITM8726 simultaneous display with %RH, temperature and dew point or wet bulb or external probe temperature\*. Features include: calculates T1-T2 (Air temperature - External probe temperature)\*, triple display with backlighting, Max/Min readings, and sensor cap closes to protect probe during storage. The 8726 also includes: built-in datalogger stores up to 99 data points, real time clock and retrieve Max/Min/Avg readings from stored data. Includes batteries.

\* Requires 87P6 temperature probe

SKU	Description	UOM	Price
ITM8706	Psychrometer, digital	EA	\$173.68
ITM8726	Psychrometer, digital w/datalogger	EA	\$148.04
ITM87P6	Temperature Probe for 8706 & 8726	EA	\$22.39

**B**

**C**

### C. Reed Humidity/Temperature Datalogger W/ LCD

The ITM8829 records up to 16,000 temperature and humidity readings. Features include: real-time clock stores data and time, °F or °C selectable, LCD display, logs data for days, weeks or months, programmable sampling rate from 1 second to 2 hours, three start modes: scheduled, immediate or magnetic, data is retained in non-volatile memory, user-defined min/max alarm settings, program by RS-232 serial port and Windows® compatible software and 60" cable with DB9 connector.

SKU	Description	UOM	Price
ITM8829	Humidity/temperature datalogger W/ LCD	EA	\$148.04
ITM8818	Datalogger software & cable For 8829	EA	\$60.96
ITM9801	Datalogger printer for 8829	EA	\$309.76

### D. Reed Thermo-Anemometer All-In-One W/ Air Volume Calculator

The ITM8906 simultaneous displays air velocity and temperature. It calculates air volume by keying in area dimension. Selectable wind speed units. Calculates average velocity values. Features include: continuous moving air velocity averaging of measurements for up to 2 hours, displays Min/Max/Avg velocity with temperature values, multi-point averaging up to 8 points, high-contrast, 4-digit LCD readout, RS-232 interface and data hold and auto power off. Includes hard carrying case and batteries.

SKU	Description	UOM	Price
ITM8906	Thermo-Anemometer all in one w/ air volume calculator	EA	\$235.12

**D**

### A. Reed Light Meter One Hand Operation

Auto-ranging, 0 to 20,000 Lux and user selectable Lux/Foot-candles. Features include: Min/Max and data hold function, auto shut off and zero adjustment button and over range and low battery indication. Battery included.

SKU	Description	UOM	Price
ITMLM81LX	Light meter one hand operation, 20,000LUX	EA	\$98.28

### B. Reed Light Meter

The ST1301 accurately displays light levels over a range of 0 to 50,000 Lux. Features include: user selectable Lux/Foot-candles, max and data hold function, auto shut off over range and low battery indication. Carrying case and 12V battery included.

SKU	Description	UOM	Price
ITMST1301	Light meter, 50,000 LUX	EA	\$98.28

### C. Reed Thermometer, Thermocouple

The ITMST610B accepts K-type thermocouples. Features include: accuracy to 0.5%, maximum Hold plus Data Hold, large LCD with backlight, user selectable °C or °F and user selectable 0.1°C or 1°C (0.1°F or 1°F) resolution. Includes 9V battery and holster. The ITMST612 dual input thermocouple thermometer provides differential temperature measurements. Features include: differential temperature (T1-T2) mode freezes display, Scan Function (T1, T2, T1-T2, Max, Hold....) direct or differential measurements to 0.1°C/ 0.1°F resolution, accuracy to 0.5%, display maximum reading plus Data Hold, large LCD with backlight, user selectable °C or °F and accepts K-type thermocouples. Includes 9V battery and holster.

SKU	Description	UOM	Price
ITMST610B	Thermometer, thermocouple single input	EA	\$110.72
ITMST612	Thermometer, thermocouple dual input	EA	\$272.44
ITMBS6	Tripod for ST-610B & ST-612 thermocouple	EA	\$73.40

### D. Casella Microtherm Heat Stress WBGT

The Microtherm WBGT from Casella CEL is an ergonomically designed, compact, and rugged instrument designed to monitor heat stress potential of personnel in hot working environments in accordance with ISO 7243. It is the first heat stress meter that offers real-time graphical display of data and also features an audible/visual alarm which allows the operator to make rapid decisions if required. PC software for retrospective data analysis is included.

SKU	Description	UOM	Price
CEL180042A	Microtherm heat stress monitor kit	EA	\$3208.34

### E. Casella Microdust Pro

The Microdust Pro from Casella CEL is a portable, real time monitor for assessing the concentration of suspended particulate matter. It is probably the most versatile instrument available with the ability to measure from 1µgm-3 to 2500 mgm-3.

SKU	Description	UOM	Price
CEL176000A	Microdust Pro particulate monitor kit	EA	\$4735.25

**A**

### A. Casella CEL-110/1 and CEL-110/2 Acoustic Calibrators

The CEL-110/1 and CEL-110/2 units are compact and ergonomically designed with simplicity and ease of use being the main priority. A simple keypad is provided for logical control of the unit's functions. Two versions are available fulfilling the accuracy requirements of ANSI and IEC in the new Class 1 and Class 2 categories.

SKU	Description	UOM	Price
CEL110/1	Acoustic calibrator dual level class 1	EA	\$904.17
CEL110/2	Acoustic calibrator single level class 2	EA	\$519.17

### B. Casella CEL-200 Series Sound Level Meters

The CEL-200 series are ideal instruments for simple workplace noise monitoring or general checks of noise levels from machines or from fire alarms etc. They feature the 'A' frequency weighting which simulates the typical hearing response of humans and have the slow and fast time weightings as specified in many international standards.

SKU	Description	UOM	Price
CEL240/K1	Digital sound level meter kit	EA	\$1044.17
CEL242/K2	Digital logging sound level meter kit with software	EA	\$1510.83
CEL244/K1	Digital integrating sound level meter kit	EA	\$1627.50
CEL246/K2	Digital logging integrating sound level meter kit with software	EA	\$2094.17

**B**

**C**

### C. Casella CEL-600 Series Full Color - Real Time Analyzers

The CEL-600 series is a brand new range of quality sound level meters aimed primarily at the industrial hygiene and safety user for the measurement of workplace noise. These new instruments feature the benefits of digital signal processing (DSP) technology to make them powerful yet very easy to use.

SKU	Description	UOM	Price
CEL620A2/K1	Sound level meter kit	EA	\$3535.00
CEL620B2/K2	Octave band sound level meter kit with software	EA	\$3838.33

### D. 3M™ Sound Detector SD-200

The 3M(TM) Sound Detector SD-200 includes key features for the assessment of workplace noise levels, including integration which computes the average sound pressure level. In addition, the SD-200 has LED indicators that flash green, yellow and/or red when preset thresholds have been reached. The rechargeable lithium polymer battery helps to lower the total cost of ownership versus other sound level meters that use replaceable batteries.

SKU	Description	UOM	Price
3MSD-200	SD-200 Sound Detector, USB Cable, Windscreen	EA	\$359.90

**WARNING**

Important: For appropriate use of hearing protection devices, consult your company's safety professional, applicable local standards or call 3M at 1-800-243-4630.

## A. OHD Optimus Sound Meters Kits

When you are making a noise measurement, the instrument you are using should not get in the way of getting reliable and useful information. The Optimus sound level meters have been designed with ease of use as the most important feature which lets you get on with measuring and controlling the noise. The instruments use the very latest in digital technology and industrial design techniques to make everything as clear and simple as possible. OHD used a high resolution colour OLED screen which can be seen in any conditions, and the keypad will illuminate automatically in low light. The case is robust and covered with a tactile finish so it can be used even if you're wearing gloves. The measurement data is displayed in a clear and simple format along with a realtime noise chart so that you can see how the noise varies with time. All of the functions of the instrument are measured simultaneously, and with a wide 120dB measurement span you don't need to worry about choosing the right range. An Optimus can measure up to 140dB(A) and 143dB(C) Peak in this single range. Just switch on, calibrate and you are ready to go.

### The Optimus Yellow - High Performance

The Optimus Yellow instruments are a range of state-of-the-art sound level meters that have been designed to meet the very latest standards for noise measurement instruments and provide the highest level of performance possible whilst being simple to setup, use and operate.

SKU	Description	Data Logging	Octave Band Filters	UOM	Price
OHDSLMCK152A	Optimus sound meter class 2 kit (yellow)			EA	\$3156.82
OHDSLMCK152B	Optimus sound meter class 2 kit (yellow)	✓		EA	\$3770.45

### The Optimus Red - Occupational Noise & Industrial Hygiene Noise

The optimus Red sound level meters are the ideal sound instruments for occupational noise and industrial hygiene measurements, as well as for basic noise surveys, and will give you all of the information you need, right at your finger tips.

SKU	Description	Data Logging	Octave Band Filters	UOM	Price

## B. DoseBadge

The OHD/Cirrus Research doseBadge Dosimeter is an innovative wireless noise dosimeter that is powerful, easy to maintain, and very cost effective. No wires to tangle and no unit to tamper with means accurate and safe measurements. Multiple badges can be controlled by one reader, which will turn the badges off and on via an infrared signal. The reader can download the data into the included doseBadge Database software for flexible and comprehensive reporting from your PC. Allow the doseBadge dosimeter to measure your noise with no wires and no hassles! The doseBadge is now available in an Intrinsically Safe version that has been approved by MSHA.

SKU	Description	UOM	Price
OHDSLMCK110A	DoseBadge system with 1 badge	EA	\$4731.82

**A**

### A. Casella CEL-300 Series Convertible Noise Dosimeters

The CEL-300 Series includes the CEL-320 and CEL-360 dosimeters which can be converted to the CEL-320S and CEL-360S sound level meters by simply exchanging the cable microphone assembly for a traditional stalk microphone and preamplifier. They are the ideal instruments for any form of personal worker surveys when considering the possible risk of hearing loss in the workplace. Conversion to a compact sound level meter enables comprehensive noise measurements to be carried out with the possibility of storage of the results for later recall from memory.

SKU	Description	UOM	Price
CEL320/K1	Noise dosimeter kit	EA	\$2061.50
CEL320IS/K1	IS noise Dosimeter kit	EA	\$2178.17
CEL360/K1	Logging noise Dosimeter kit	EA	\$2790.67

### B. Casella dBadge2 Personal Noise Dosimeter

The dbadge2 retains all the great features that made the CEL-35x series so successful but Casella has added powerful new capabilities that will completely change the way use dosimeters - to save you and your workers time, money and even prevent costly errors or mistakes - because they have revolutionized how personal dosimetry gets done! Imagine being able to view noise exposure data from multiple workers, REMOTELY right on your cellphone or tablet! That's right, now you can access each ANSI/IEC standards compliant dBadge2 dosimeter directly from your HHD using the built-in Bluetooth®4.0 connection and the Casella Airwave™ App!

SKU	Description	UOM	Price
CELD2K1	dBadge2 Noise Dosimeter 1 pack kit	EA	\$3184.21
CELD2K2	dBadge2 Noise Dosimeter 2 pack kit	EA	\$5007.01

**B**

### C. 3M™ Noise Indicator NI-100

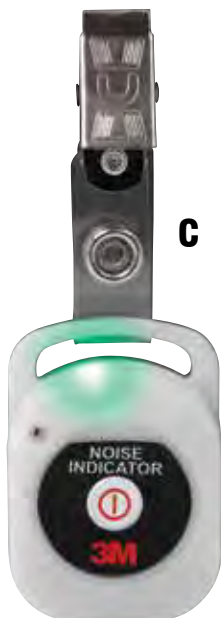

Innovative and durable noise detection, the NI-100 noise indicator alerts you when noises in an area reach potentially hazardous levels. The noise indicator's small size and lightweight design make it ideal for workers in a variety of industries. With a rechargeable battery that operates for up to 200 hours between charges, it's an economical investment in your hearing conservation program. The NI-100 can be used as an effective training tool within a Hearing Conservation Program (consult OSHA Standard 1910.95) to help ensure workers know when and where to wear hearing protection. Safety and health professionals can also use it as a mapping tool to determine where noise studies are necessary. In a variable noise environment, the 3M noise indicator can help train workers as to when noise levels become potentially hazardous and hearing protection may be required.

- Red Flashing LED indicates noise levels are above 85 dBA and hearing protection may be required.
- Green Flashing LED indicates noise levels are below 85 dBA and hearing protection may not be necessary.

*\*The NRR may overestimate the hearing protection provided during typical use. 3M recommends reducing the NRR by 50% for estimating the amount of noise reduction provided. 3M is Leading the Advancement of Hearing Conservation™. 3M™ Noise Indicator NI-100 is not Intrinsically Safe.*

SKU	Description	UOM	Price
3MNI-100	Noise Indicator NI-100, 10/CS	CS	\$434.13

IMPORTANT: For appropriate use of hearing protection, consult your company's safety professional or applicable local safety standards

# Communications

### CLS Series

Clear. Lightweight. Simple. Designed with business productivity in mind, Motorola CLS Series™ radios and headsets provide a communication solution that is not only smart, simple and reliable but also able to withstand the daily rigors of the workplace.

**A**

#### A. Motorola Two-Way Radios CLS Series

**Features:**

- 1 Watt power
- Up to 4 Channels
- 56 UHF business exclusive frequencies (FCC license required)
- Interference eliminator with 121 codes - 83 DPL & 38 PL
- 12 hrs battery life (based on 5/5/90 duty cycle)
- Meets Mil-Spec 810 C, D, E for drop and vibration
- LCD display screen
- "Call Alert" button with 4 tones, including vibrate
- Audio accessory jack - use with speaker mic and headsets

- VOX - Voice activated transmit with select audio accessories
- Cloning capability (requires 6 unit charger #56531)

**Range/Coverage:**

- Steel/Concrete Buildings: Up to 200,000 sq ft
- Multi-Level Buildings: Up to 15 floors

**Accessories Included:**

- Li Ion rechargeable battery
- 3 hr desktop charger
- Quick release swivel holster with belt clip

SKU	Description	UOM	Price
AXCLS1410	1410 UHF two-way radio, 1 watt, 4 channels	EA	\$194.19

### PR-400

When you need to be safe, the Motorola PR400, Intrinsically Safe Approved Portable Radio Unit, meets Factory Mutual approvals for safe operation in certain chemical or gaseous environments.

#### B. Motorola Intrinsically Safe (IS) Two-Way Radio PR-400

**Features:**

- Up to 4 Watts Power (1 Watt low power setting)
- Up to 16 Channels custom programmed by Access
- 9 Hrs battery life (4W, 5/5/90, battery save enabled)
- Designed to IP-55 and MIL-SPEC specifications
- Intrinsically Safe for use in Classes I, II, III, Division 1, Groups C,D,E,F,G
- Approved for non-incendive use in Class I, Division 2, Groups A,B,C
- 2 programmable buttons
- Dual priority scan
- X-Pand™ technology
- Programmable frequency range: UHF 438-470MHZ
- Large rotary channel selector
- Tri-color LED indicator

- Rugged, die-cast chassis with polycarbonate housing
- Large, textured push-to-talk button is easy to use even when wearing gloves
- Battery latch lock secures battery in case radio is dropped

**Range/Coverage:**

- Steel/Concrete Buildings: Up to 350,000 sq. ft.
- Multi-Level Buildings: Up to 30 floors

**Accessories Included:**

- Intrinsically Safe (FM) 1300 mAh NiMH battery
- 90-minute drop-in charging tray with wall adaptor
- 3" spring belt clip
- User's guide
- Warranty card

#### C. Motorola PR-400 Radio 90Min Rapid Charger

Lightweight and compact charger with wall-mounted power supply rapidly charges Lilon, NiMH & NiCd batteries within 3 hours. Allows battery only or radio/battery combination charging. 90-min. Rapid Charger for the PR-400 Radio.

SKU	Description	UOM	Price
AXWPLN4138AR	Rapid Charger for the PR-400 Radio	EA	\$92.47

## RM Series

Motorola RM Series two-way radios have the business smarts to help people work better together – coordinating resources at the construction site or monitoring production on the manufacturing line. They come with the right credentials to give business the competitive edge: exceptional quality, affordability and durability to outlast high noise, tough conditions and hard use.

### A. Motorola On-Site Two-Way Business Radio RM Series

**Features:**

- 2 Watt power
- Up to 4 Channels
- Operates on 89 UHF business exclusive frequencies
- 219 PL/DPL codes, including 6 customizable codes to help ensure a clear signal
- Up to 15 hours with battery save on or up to 12 hours without battery save
- Meets military specifications for sealing against dust, wind, shock, vibration and other adverse conditions. These radios also undergo Motorola’s exclusive Accelerated Life Testing (ALT) that simulates up to 5 years of field use
- Tricolor LED interface allows users to identify radio features and status
- Powerful 1500 mW speaker ensures clear communication without distracting feedback in noisy conditions
- VOX - Enables hands-free operation with or without the use of optional accessories

- Quickly copies settings from radio to radio (between RM series radios or between RM and RDX series radios). Cloning is done with radio-to-radio cloning cable or through the multi-unit charger
- Antimicrobial Coating helps prevent the growth of mold and germs on the surface of the radio

**Range/Coverage:**

- UHF provides coverage up to 250,000 Sq. Ft./20 Floors. Coverage will vary based on terrain, conditions, and the radio model used.

**Accessories Included:**

- Carry holster with a swivel belt clip
- 2100 mAh Li Ion battery
- Compact drop-in charging tray with power supply
- User guide

SKU	Description	UOM	Price
AXRMU2040	RMU2040 UHF two-way radio, 2 watts, 4 channels	EA	\$245.00

### B. Motorola On-Site Two-Way Business Radio RM Series With Display

**Features:**

- 2 Watt power
- Up to 8 Channels
- Operates on 89 UHF business exclusive frequencies
- 219 PL/DPL codes, including 6 customizable codes to help ensure a clear signal
- Up to 15 hours with battery save on or up to 12 hours without battery save
- Meets military specifications for sealing against dust, wind, shock, vibration and other adverse conditions. These radios also undergo Motorola’s exclusive Accelerated Life Testing (ALT) that simulates up to 5 years of field use
- Tricolor LED interface allows users to identify radio features and status
- Powerful 1500 mW speaker ensures clear communication without distracting feedback in noisy conditions

- Antimicrobial Coating helps prevent the growth of mold and germs on the surface of the radio
- NOAA Weather Radio-(NWR) Channel 8 is pre-assigned to receive official National Weather Service warnings, watches, forecasts and other hazard information 24 hours a day, 7 days a week. The Weather Channel configuration can be customized based on geographic location.
- Quickly copies settings from radio to radio when used with accessory

**Range/Coverage:**

- Provides coverage up to 250,000 Sq. Ft./20 Floors. Coverage will vary based on terrain, conditions, and the radio model used.
- 2100 mAh Li Ion battery
- Compact drop-in charging tray and power supply
- User guide

SKU	Description	UOM	Price
AXRMU2080D	UHF two-way radio, 2 watts, 8 channels with display	EA	\$310.00

### RDX Series

The RDX Series radios perform well in harsh and noisy environments, generating 30% louder audio than the XTN and AX Series. Water proof and durable, a metal die cast chassis helps radios hold up under demanding conditions. Coverage varies by model, working effectively in up to 350,000 sq. ft., 30 floors.

#### A. Motorola RDX Series Industrial Two-Way Radios

**Features:**

- Up to 4 or 5 Watts Power (2W low power setting)
- Up to 10 channels
- 2 programmable buttons
- Repeater capable
- 39 analog and 83 digital interference eliminator codes
- 22 hrs battery life (4 or 5W, 5/5/90, battery save enabled)
- Meets Military 810, C, D, E and F and IP54/55 specifications for shock, rain, humidity, salt fog, vibration, sand/dust, temperature shock, high and low temperature
- 3 voice-inversion scramble settings to minimize eavesdropping
- Channel scan with selectable scan list
- 3 audible call tones
- 2 pin accessory plug

- VOX (hands-free use with accessories) with 3 sensitivity levels
- Tri-color LED display screen with transmit, receive, and low battery indication

**Range/Coverage:**

Steel/Concrete Buildings:

- RDU4100 - Up to 350,000 sq. ft.
- RDV5100 - Up to 300,000 sq. ft.

Multi-Level Buildings:

- RDU4100 - Up to 30 floors
- RDV5100 - Up to 18 floors

**Accessories Included:**

- 2400 mAh Li Ion rechargeable battery
- (Up to 22 hrs average daily use)
- 12 hr drop-in charging tray with wall adaptor
- 3" spring belt clip

SKU	Description	UOM	Price
AXRDU4100	RDU4100 UHF two-way radio, 4 watt, up to 10 channels	EA	\$341.99
AXRDV5100	RDV5100 VHF two-way radio, 5 watt, up to 10 channels	EA	\$308.74

#### B. Motorola RDX Series Industrial Two-Way Radios With Display

**Features:**

- Up to 4 Watts Power (2 Watts low power setting)
- Up to 16 channels with aliasing (up to 8 characters)
- 5 programmable buttons
- Repeater capable
- 39 analog and 83 digital interference eliminator codes
- 22 hrs battery life (4W, 5/5/90, battery save enabled)
- Meets Military 810, C, D, E and F and IP54/55 specifications for shock, rain, humidity, salt fog, vibration, sand/dust, temperature shock, high and low temperature
- 3 voice-inversion scramble settings to minimize eavesdropping
- Channel scan with selectable scan list
- 3 audible call tones
- 2 pin accessory plug
- VOX (hands-free use with accessories) with 3 sensitivity levels

- Tri-color LED display screen with transmit, receive, and low battery indication
- Battery gauge
- Signal strength indicator
- Keypad lock

**Range/Coverage:**

- Steel/Concrete Buildings: Up to 350,000 sq. ft.
- Multi-Level Buildings: Up to 30 floors

**Accessories Included:**

- 2400 mAh Li Ion rechargeable battery
- (Up to 22 hrs average daily use)
- 12 hr drop-in charging tray with wall adaptor
- 3" spring belt clip

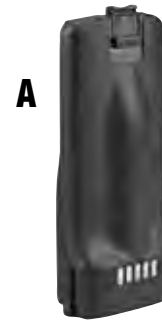

SKU	Description	UOM	Price
AXRDU4160D	RDU4160d UHF two-way radio, 4 watt, 16 channels, with display	EA	\$361.00

**Accessories**
**A. Motorola RM Series Replacement Li-on Battery**

Replacement lithium ion battery for the RM Series Radios. 2150 mAH – Up to 15 hours with battery save on or up to 12 hours without battery save (battery capacity will differ depending on the radio model and/or region).

SKU	Description	UOM	Price
AXPMNN4434AR	Replacement Li-on Battery RM Series Radios	EA	\$70.19

**B**

**B. Motorola RM Series Multi-Unit Charger**

Multi-unit charger for the RM Series radios. Allows drop-in charging of up to 6 units.

SKU	Description	UOM	Price
AXPMLN6384	Multi-Unit Charger RM Series Radios	EA	\$323.89

**C. Motorola RDX Series Ultra Capacity Li-on Battery**

Ultra high capacity lithium ion battery for the RDX Series Radios. 2400 mAh – Provides up to 26 hours of service (estimated only, with “battery save” feature “ON” – battery capacity will differ depending on the radio model and/or region).

SKU	Description	UOM	Price
AXRLN6308	Li Ion Battery for the RDX Series Radios	EA	\$104.49

**D**

**D. Motorola RDX Series Multi-Unit Charger**

Multi-unit charger for the RDX Series radios. Allows drop-in charging of up to 6 radios or batteries. Batteries can be charged with the radios or removed and placed in the MUC separately.

SKU	Description	UOM	Price
AXRLN6309	Multi-unit charger for the RDX Series Radios	EA	\$261.25

**E. Motorola Remote Speaker Microphone**

Remote Speaker Microphones are built and rigorously tested to the same quality standards as Motorola radios. They are ideal for professionals who need to talk and listen without removing the radio from the belt, case or charger. Remote speaker microphone compatibility with AX/RM/CLS/DTR/RDX/XTN radios.

SKU	Description	UOM	Price
AXHMN9026B	Remote speaker microphone CLS/DTR/RX/XTN	EA	\$65.00

### DTR Series

The DTR Series operate at 900 MHz and offer enhanced communication options, including Digital One-to-One Calling and Digital One-to-Many Calling (Public Group and Private Group). They also provide enhanced performance with greater coverage, longer battery life and digital audio quality that is loud and clear everywhere you have coverage.

**A**

### A. Motorola Digital Two-Way Radio DTR550

**Features:**

- 900 MHz ISM License-Free Band
- Digital one-to-many group call
- One-to-one private calling
- SMS messaging - 15 preset text messages
- Frequency Hopping Spread Spectrum (FHSS)
- Private-group calling - up to 10 private groups
- Public-group calling - 20 public groups
- Antenna: Stubby
- Battery gauge
- Li Ion battery - up to 14.5 hrs. operation / full charge; high capacity Li Ion battery available for up to 19 hrs. operation/ full charge
- 2 pin audio accessory jack with captive connector cover; takes 2 pin audio accessories – uses XTN/CLS audio accessories
- 3-hr. desktop charger
- Public group call name aliasing (via optional mini keyboard)
- Tough polycarbonate housing with rubber overmold for comfort

- Meets military standards MIL-STD 810 C, D, E, F for high resistance to dust, moisture, shock and vibration
- Connector programming interface with captive connector cover
- Full-graphic backlit display with contrast adjustment and backlight timer
- Daily alarm
- Caller ID
- VibraCall® - vibrate with no audio alert tones
- Recent call list - last 20 transmissions
- Up to 150 unit contact list
- Unit-to-unit configuration cloning (via optional cloning cable)

**Range/Coverage:**

DTR550 - Up to 325,000 sq. ft. and 30 floors

**Accessories Included:**

- Li Ion battery - standard capacity
- 3-hr plug-in charger
- Drop-in charging tray
- Swivel belt holster with 3" spring clip

SKU	Description	UOM	Price
AXDTR550	DTR550 digital two-way radio	EA	\$265.05

### B. Eartec Double Muff Headset

Headset to use in noisy areas without needing to remove radio from belt. Covers both ears to seal out ambient noise. Headband wraps around the back of head. Works on VOX equipped radios. For use with RM, RDX, XTN and CLS Series two way radios.

SKU	Description	UOM	Price
AXCETXTMOTOS	Eartec Double Muff Headset for hardhat wearers	EA	\$242.92

# Respiratory

### A. 3M™ Particulate Respirator 8210, N95

This respirator is designed to help protect workers against certain non-oil particles. It features Advanced Electrostatic Media, welded strap attachment, soft nose foam, and an adjustable noseclip to help ensure a custom and secure seal.

SKU	Description	UOM	Price
3M8210	Particulate respirator 8210, N95	20/BX	\$18.07

### B. 3M™ Particulate Respirator 8211, N95

This respirator offers all the great features of the 8511, plus a comfortable foam face seal. Its design helps protect against certain non-oil based particles.

SKU	Description	UOM	Price
3M8211	Particulate respirator 8211, N95	10/BX	\$35.35

### C. 3M™ Particulate Respirator 8511, N95

3M's most popular valved model, this respirator helps provide protection against certain non-oil based particles. Ideally suited for work situations involving heat, humidity, or long periods of wear.

SKU	Description	UOM	Price
3M8511	Particulate respirator 8511, N95	10/BX	\$23.37

### D. 3M™ Aura™ 9211+ Particulate Respirator, N95

An innovative three-panel respirator that's ideally suited for work situations involving heat, humidity, or long periods of wear. Designed to reduce eyewear fogging, the embossed top panel helps reduce the potential fogging of eyewear from warm, moist exhaled airflow. Sculpted top panel helps conform to nose and contours of the face and helps compatibility with eyewear. Chin Tab is designed for ease of positioning, donning and adjustment.

SKU	Description	UOM	Price
3M9211+	Particulate respirator 9211+, N95	10/BX	\$25.69

#### ⚠️ WARNING!

These respirators help reduce exposure to certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

### A. 3M™ Particulate Respirator 8210V, N95

An economical option when a valved respirator is desired, this respirator is based on the popular 8210 and features the proprietary 3M™ Cool Flow™ Valve.

SKU	Description	UOM	Price
3M8210V	Particulate Respirator 8210V, N95	10/BX	\$14.13

### B. 3M™ Particulate Respirator 8293, P100

For those who want NIOSH's highest-rated filtration efficiency in a disposable respirator, this provides a minimum filter efficiency of 99.97% against oil-based particles.

SKU	Description	UOM	Price
3M8293	Particulate respirator 8293 P100	20/CS	\$205.63

### C. 3M™ Particulate Respirator 8233, N100

For those who want NIOSH's highest-rated filtration efficiency in a disposable respirator, this provides a minimum filter efficiency of 99.97% against **non-oil based** particles.

SKU	Description	UOM	Price
3M8233	Particulate respirator 8233, N100, Individually packaged	20/CS	\$182.02

#### Featured Technologies

3M's technological features help you match the right respirator to your environment. Use this color code to identify which features are included on each respirator.

**Advanced Electrostatic Media**  
Proprietary filter media with electrostatically charged microfibers designed for ease of breathing.

**Cool Flow™ Exhalation Valve**  
Proprietary one-way valve for easy exhalation and cool comfort.

**Faceseal**  
Soft and secure, conforms closely to face for additional comfort.

**P-Series Filter**  
Proprietary Advanced Electrostatic Media, appropriate for prolonged use in both oil and non-oil containing environments.

IMPORTANT: All 3M products shown in this catalog must be used in accordance with the OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

**A**

### A. 3M™ Particulate Welding Respirator 8212, N95 with Faceseal

This option contains all of the features of the 8512 plus a comfortable foam faceseal.  
*Potential Applications: Welding, metal pouring.*

SKU	Description	UOM	Price
3M8212	Particulate respirator 8212, N95	10/BX	\$72.37

### B. 3M™ Particulate Welding Respirator 8515, N95

An economical option for welders. Features the 3M™ Cool Flow™ Valve, welding web, adjustable M-Noseclip, and braided headbands to help provide a custom and secure seal.

*Potential Applications: Welding, metal pouring.*

SKU	Description	UOM	Price
3M8515	Particulate welding respirator 8515, N95	10/BX	\$32.89

**B**

**C**

### C. 3M™ Particulate Welding Respirator 8514, N95

A respirator designed for applications where metal fumes are present, including those with ozone\* and nuisance level organic vapors.\*\*

*Potential Applications: Welding, particularly with stainless, galvanized and aluminum and metal pouring.*

SKU	Description	UOM	Price
3M8514	Particulate respirator 8514, N95	10/BX	\$75.31

### D. 3M™ Particulate Respirator 8214, N95

All the features of the 8514, plus a comfortable foam faceseal.\*

*Potential Applications: Welding, particularly with stainless, galvanized and aluminum, metal pouring.*

SKU	Description	UOM	Price
3M8214	Particulate respirator 8214, N95	10/BX	\$84.78

\* 3M recommended for ozone protection up to 10X OSHA PEL. Not NIOSH approved for ozone.  
 \*\* 3M recommended for relief against nuisance level acid gas or organic vapors. Nuisance levels are less than OSHA PEL or applicable government occupational exposure limits, whichever is lower.

**D**

### A. 3M™ Particulate Respirator 8577, P95, with Nuisance Level Organic Vapor Relief

This respirator helps provide comfortable, reliable worker protection against certain oil and non-oil based particles – including those with nuisance levels of **organic vapors\*** such as solvents, degreasers, and resins.

*Potential Applications: Foundry operation, lab settings, agricultural, petrochemical and manufacturing.*

SKU	Description	UOM	Price
3M8577	Particulate respirator 8577, P95, with Nuisance Level Organic Vapor Relief	10/BX	\$51.35

### B. 3M™ Particulate Respirator 8271, P95

This design helps protect against certain oil and non-oil based particles. It features a collapse-resistant shell for increased durability in most hot, humid conditions.

*Potential Applications: Grinding, sanding, sweeping, machining and other dust producing/oily operations.*

SKU	Description	UOM	Price
3M8271	Particulate respirator 8271, P95	10/BX	\$39.89

\* 3M recommended for relief against nuisance level acid gas or organic vapors. Nuisance levels are less than OSHA PEL or applicable government occupational exposure limits, whichever is lower.

 <p><b>M-Noseclip</b> Proprietary noseclip adjusts easily for fewer pressure points and greater comfort.</p>	 <p><b>Cake-Resistant Filter Media</b> Proprietary filter media with specifically designed filter layers for welding applications provide longer respirator life and easier breathing.</p>	 <p><b>Adjustable Buckle Straps</b> A single tug helps provide a comfortable, secure seal.</p>	 <p><b>Welding Web</b> Unique filter media incorporating protective layers designed to be flame resistant as demonstrated per ASTM D2859-96. (Not a substitute for a faceshield.)</p>	 <p><b>Carbon Filter Material</b> Carbon Filter Media provides relief against odors, vapors, and other gaseous contaminants for greater wearer comfort. For nuisance level relief only.**</p>

# Respiratory

## Half/Full Face

by Honeywell

### A. North® 7700 Series Silicone Half Mask Respirator & Accessories

The 7700's soft non-allergenic silicone seal provides excellent protection, comfort and fit. The half mask cradle suspension system allows the facepiece to seal evenly on the face without creating pressure points. Its low profile gives workers a wide field of vision and does not interfere with protective eyewear. The low inhalation and exhalation resistance of the 7700 Series makes breathing easier to reduce worker fatigue. NIOSH approved when used with North cartridges and/or filters. Cartridges and filters sold separately.

SKU	Description	Size	UOM	Price
NORR7700-30S	7700 Series half mask	S	EA	\$28.77

NORR7583P100	OV, Acid Gas Cartridge & P100 Filter		PR	\$23.61

### B. North® 5500 Series Half Mask

Elastomeric half mask is the economical solution that does not skimp on features. A wide contoured sealing area provides great fit. The low "dead air" space limits re-breathing of exhaled air for increase comfort and worker productivity. Latex free straps stretch and move with the worker while providing optimum support NIOSH approved when used with North cartridges and/or filters. Cartridges and filters sold separately.

### C. Advantage® 200 Respirators

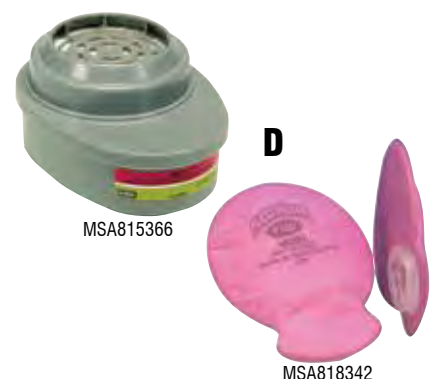

The Advantage 200 Respirator is unlike any other half-mask respirator you'll find. Offering unmatched fit and comfort, it's the first respirator to feature MSA's patented MultiFlex® System, a soft, pliable combination of rubber and plastic that provides a customized fit. The result is a respirator that feels great on any face, because it works to remove the pressure points from the face seal area. This design results in an effective sealing surface that instantly conforms to the wearer's unique facial characteristics. Advantage cartridges are compatible with 42 CFR 84 NIOSH-approved.

### D. Advantage® Respirator Cartridges

The complete line of Advantage Cartridges protect against a wide variety of contaminants. Filter cartridges protect against dusts, particles and mists. Chemical Cartridges protect against gases and vapors. Combination cartridges deliver protection from both particulate and gaseous contaminants. All cartridges, multigas w/ P100 are interchangeable between all Advantage Respirators and are color-coded to indicate the type of protection offered. The Complete Advantage line of particulate, chemical and combination cartridges are approved under 42 CFR Part 84.

## 3M™ Versaflo™ TR-300 Powered Air Purifying Respirators

The lightweight 3M™ Versaflo™ TR-300 Powered Air Purifying Respirator is the key to easy-to-use, versatile respirator systems for particulate environments. With its compact, well-balanced and slim design, the Versaflo TR-300 powered air respirator is the answer to respiratory protection needs for many users. The TR-300 is available with a flexible range of headgear — from lightweight hoods to industrial helmets that can provide head, eye and face protection.

### A. 3M™ Versaflo™ PAPR Unit TR-302N

The TR-300 PAPR is a light weight, easy-to-use PAPR for protection against particulates and certain nuisance odors. The TR-302N PAPR Unit does not include a filter, belt, battery, or charger.

SKU	Description	UOM	Price
3MTR302N	3M™ Versaflo™) PAPR Unit TR-302N	EA	\$493.87

### B. 3M™ Versaflo™ PAPR Assembly TR-305N

The TR-300 PAPR is a light weight, easy-to-use PAPR for protection against particulates and certain nuisance odors. The TR-305N assembly includes a standard belt, economy battery, HE filter, and single-station charger.

SKU	Description	UOM	Price
3MTR305N	Versaflo™ PAPR Assembly TR-305N, Standard Belt and Economy Battery	EA	\$988.76

### C. 3M™ Versaflo™ PAPR Assembly TR-306N

The TR-300 PAPR is a light weight, easy-to-use PAPR for protection against particulates and certain nuisance odors. The TR-306N assembly includes a high durability belt, high capacity battery, HE filter, and single-station charger.

SKU	Description	UOM	Price
3MTR306N	Versaflo™ PAPR Assembly TR-306N, High Durability Belt and High Capacity Battery	EA	\$1109.95

### D. 3M™ Versaflo™ PAPR Assembly TR-307N

The TR-300 PAPR is a light weight, easy-to-use PAPR for protection against particulates and certain nuisance odors. The TR-307N assembly includes an easy clean belt, high capacity battery, HE filter, and single-station charger.

SKU	Description	UOM	Price
3MTR307N	Versaflo™ PAPR Assembly TR-307N, Easy Clean Belt and High Capacity Battery	EA	\$1109.95

**WARNING!**

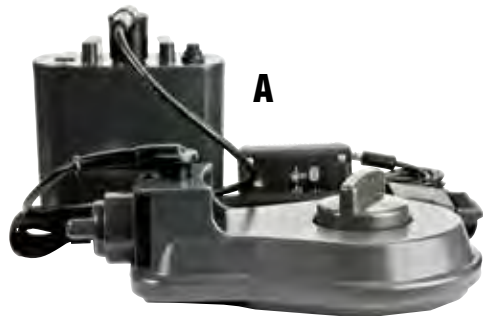

These respirators help reduce exposure to certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

### 3M™ GVP-Series Powered Air Purifying Respirators

These assemblies are available with a web belt or comfort belt. In addition to the waist belt, the assembly includes power cord, motor blower, battery, charger and flow meter. The system contours to the hip and body for comfort.

#### A. 3M™ GVP-Series PAPR GVP-1

This belt-mounted powered air purifying respirator assembly includes components needed to make a complete PAPR system. Helps provide respiratory protection when combined with 3M™ Headgear and breathing tube.

SKU	Description	UOM	Price
3MGVP-1	GVP-Series PAPR, Standard Belt, NiCd Battery	EA	\$943.00

#### B. 3M™ GVP-Series PAPR GVP-CB

This belt-mounted powered air purifying respirator assembly includes components needed to make a complete, comfortable PAPR system. Offers high airflow to the worker. Comfort belt is adjustable to fit waists from 26 inches to 54 inches.

SKU	Description	UOM	Price
3MGVP-CB	GVP-Series PAPR, Comfort Belt, NiCd Battery	EA	\$1096.47

#### C. 3M™ Cartridges and Filters GVP-Series

SKU	Description	UOM	Price
3MGVP-402	Acid Gas Cartridge	6/PK	\$372.36
3MGVP-440	HEPA Filter	8/PK	\$326.70
3MGVP-443	Organic vapor/Acid Gas/HEPA Cartridge	6/PK	\$562.40

#### D. 3M™ Vortex Cooling Assembly V-100

This supplied air respirator assembly, when used with approved breathing tube and headgear, can help regulate the flow and temperature of supplied air system. Cools the air up to 50°F (28°C). Includes the cooling tube, waist belt and holder.

SKU	Description	UOM	Price
3MV-100	Vortex Cooling Assembly	EA	\$407.19

#### E. 3M™ Air Supply Hoses

Choose the type and length that best fits your needs. Also available in 25' and 100' lengths. Industrial interchange fittings.

SKU	Description	Length	UOM	Price
3MW9435-50	3/8" High Pressure	50'	EA	\$212.90

**IMPORTANT:** All 3M™ products shown in this catalogue must be used in accordance with the OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

**A. 3M™ Versaflo™ Hood Assembly S-757**

Similar to S-657 but with a fabric specifically intended to help capture paint overspray, minimizing the potential for paint to flake off the wearer and onto the work piece. Fabric has an internal film barrier to help prevent paint contact with skin or clothes.

SKU	Description	UOM	Price
3MS-757	Versaflo™ Hood Assembly S-757	EA	\$86.65

**B. 3M™ Versaflo™ Hood Assembly S-655**

Head, face, neck and shoulder coverage. Its respiratory seal is a comfortable, knitted inner collar that is shorter and thinner than previous models. General purpose, cost-effective fabric.

SKU	Description	UOM	Price
3MS-655	Versaflo™ Hood Assembly S-655	EA	\$79.58

**C. M-300 Respiratory Hard Hat**

Provides respiratory (OSHA APF 25) protection, plus limited head (ANSI Z89.1-2003 Type 1 Class G) and eye (ANSI Z87.1-2010) protection. 6-strap textile suspension offers maximum comfort. Recommended for most powder handling, paint spraying and general maintenance applications where hard hat protection is required or desired. Weighs approx. 850g (1.9 lbs)\*

SKU	Description	UOM	Price
3MM305	Respiratory Hard Hat Assembly, Standard Visor, Face Seal	EA	\$409.53
3MM307	Respiratory Hard Hat Assembly, Premium Visor, Flame Resistant Face Seal	EA	\$426.55

**D. M-400 Respiratory Helmet**

Provides respiratory (OSHA APF 1000) protection, plus limited head (ANSI Z89.1-2003 Type 1 Class G) and eye (ANSI Z87.1-2010) protection. 6-strap textile suspension offers maximum comfort. Recommended for most powder handling, paint spraying, and general maintenance applications where the highest level of respiratory protection defined by OSHA and hard hat protection is required or desired. Weighs approx. 1049g (2.3 lbs)\*

SKU	Description	UOM	Price
3MM405	Respiratory Helmet Assembly, Standard Visor, Shroud	EA	\$564.15
3MM407	Respiratory Helmet Assembly, Premium Visor, Flame Resistant Shroud	EA	\$628.91

\* Weight is complete assembly.

### A. PA30IS (Intrinsically Safe) Powered Air-Purifying Respirator

The PA30IS helps provide respiratory protection to workers in many potentially explosive atmospheres. Vapors from organic solvents and high dust concentrations can be triggered from a spark by equipment. The intrinsically safe PA30IS Powered Air-Purifying Respirator is designed exactly for these types of environments.

SKU	Description	UOM	Price
BULPA30ISTIC	PA30IS PAPR w/decon belt complete	EA	\$1578.72

### B. EVA Powered Air Purifying Respirator

EVA is the latest in cutting-edge Powered Air-Purifying Respirator (PAPR) technology and design. EVA offers users an easy-to-read visual fuel gauge, Active Flow Technology that automatically responds to a worker's need for more or less air flow, two distinct audible alarms for low battery and low air flow, a long-lasting 10,000 hour brushless motor, and a single combination filter for easy use.

SKU	Description	UOM	Price
BULEVA20TIC	EVA Blower, Battery, Charger, Breathing Tube, 20TIC Hood	EA	\$1241.22
BULPAPRFC3	Filter, HEPA, EVA (6 pack)	PK	\$257.14

**C**

### C. 88VX Series Respirator for Abrasive Blasting

The Bullard 88VX Series airline respirators offer comfortable, reliable respiratory protection for abrasive blasters and painters. NIOSH approved as a Type C or CE Continuous Flow Class Respirator (Approval No. TC-19C-293) Bullard's lightweight inner shell with an adjustable headband suspension holds the respirator firmly and comfortably on the wearer's head. Air-flow is channeled directly to the user's breathing zone for easy breathing. The helmet easily accommodates beards, prescription eye wear or safety glasses. No fit testing is required.

SKU	Description	UOM	Price
BUL88VX3230H	88VX series respirator for abrasive blasting includes air supply hose	EA	\$762.40
BUL88VXAK	Window frame maintenance kit	KT	\$58.62
BUL88VXBT	Breathing tube	EA	\$76.99
BUL88VXRTP	Ratchet suspension and air plenum	EA	\$32.33

## A. Sperian Survivair Cougar™ 30 minute SCBA

The Cougar meets the demands of industrial users who want the finest respiratory protection against environments that are immediately dangerous to life or health (IDLH), but do not require the performance of an NFPA-compliant SCBA. The Cougar design eliminates unnecessary fire fighting features, keeping costs under control for today's dollar-conscious industrial users, yet providing maximum safety and comfort. Standard configuration includes a TwentyTwenty Plus medium facepiece and a 2216 psig, aluminum cylinder without locking collar.

SKU	Description	UOM	Price
SVR888888	30-minute Cougar	EA	\$1872.43

## B. North® CBRN 30 minute Escape Hood

NIOSH CAP 2 Escape hood offers minimum of 30 minutes escape from many contaminants. Dual cartridge design is ergonomically balanced for increased comfort. Features anti-claustrophobic clear hood and contoured butyl neck dam for easy donning and better fit.

SKU	Description	UOM	Price
NORER2000CB	CBRN 30 minute Escape Hood	EA	\$264.76

## C. North® 7900 Series Emergency Escape Mouthbit Respirators

The 7900 Series Emergency Escape Mouthbit Respirators consists of a single cartridge, mouthpiece, neck strap, and nose clip attached to the cartridge body by a braided cord. These Respirators are designed for escape only from contaminants listed on the respective labels. They are not approved for entry or continuous use, or for escape from atmospheres that are Immediately Dangerous to Life and Health (IDLH), including atmospheres with less than 19.5% oxygen. Once the North 7900 Series Mouthbit Respirator has been used for escape from a contaminated atmosphere it must be discarded in accordance with EPA and local regulations.

SKU	Description	UOM	Price
NORR7902	Emergency Escape Mouthbit Respirator Acid Gas	EA	\$18.47
NORR7904	Emergency Escape Mouthbit Respirator Ammonia	EA	\$21.38

**A**

### A. Spray Socks

Provides comfortable protection against overspray and other particulates. Spray Sock fits over the head and can be worn with goggles, half mask or full mask respirators. The stretch knit material is breathable and cool to wear. One size fits all.

SKU	Description	UOM	Price
ALLE1410-12	Spray socks	12/PK	\$13.95

### B. Respirator Cleaning Pads

Large (5" x 8"), individually foil-packaged towelettes contain 70% Isopropanol and are designed specifically for rubber respirator facepieces and other personal safety equipment. The box is designed as a wall mounted dispenser, or can be wall mounted using the box holder. 100 towelettes per box. Or choose alcohol free cleaning pads where the manufacturer recommends using a non-alcohol cleaning wipe. Active ingredient: Benzalkonium Chloride. Will not harm even the most sensitive rubber facepieces. 100 towelettes per box.

SKU	Description	UOM	Price
ALLE1001	Respirator cleaning pads	100/BX	\$12.63
ALLE3001	Alcohol free cleaning pads	100/BX	\$12.63

**B**

**C**

### C. The Big Ones

Individually foil-packaged towelettes contain 70% isopropanol and are designed specifically for rubber respirator facepieces and other personal safety equipment. These extra large 8" x 11" towelettes are perfect for big cleaning jobs such as full face and supplied air respirators. 50 per box. Available in alcohol free.

SKU	Description	UOM	Price
ALLE1001-05	Big Ones alcohol pads	50/BX	\$9.39
ALLE3001-05	Big Ones alcohol free pads	50/BX	\$9.39

### D. Respirator Cleaning Kit

Convenient cleaning and storage for full face and half mask respirators. Contains ninety 1/2 oz. packets of water-soluble cleaner, air bulb, bucket, brush, 100 each sterile storage bags and seals, and large 17 quart, two sided bucket. Kit meets OSHA recommendations.

SKU	Description	UOM	Price
ALLE4001	Respirator cleaning kit	EA	\$121.05
ALLE4001-02	Dry replacement soap	EA	\$61.40
ALLE4001-05	Disposable storage bags	100/BX	\$21.49

**D**

**A. 3M™ Respirator Cleaning Wipe 504, Alcohol-Free, Individually Packaged**

These wipes are used to clean 3M™ Elastomeric Facepiece Respirators. The 8" x 10" tow-elettes are alcohol free and will not damage the facepiece materials.

SKU	Description	UOM	Price
3M504	Respirator Cleaning Wipes 504	100/BX	\$49.88

**B. 3M™ FIT Test Kits and Accessories**

Fit testing materials can help you meet OSHA requirements. Equipment and procedures provide a simple, direct way to meet OSHA qualitative fit testing requirements. Our fit test products can be used with any particulate or gas/vapor respirator with a particulate prefilter to test face-to-respirator seal. The equipment helps satisfy respiratory program requirements and is easy to use during respiratory training. Fit test kits include: hood & collar assembly, sensitivity solution, fit test solution, two nebulizers, english/spanish instruction book.

SKU	Description	UOM	Price
3MFT-30	Bitter solution fit test kit	EA	\$289.89

**IMPORTANT:** All 3M™ products shown in this catalogue must be used in accordance with the OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

**C. OHD Quantifit™**

Introducing the OHD Quantifit...the new gold standard in respirator fit testing. We've taken the strengths of the OHD FitTester 3000, and made it even better. The new design includes fast 1-3 minute respirator fit tests, on-board storage, keyboard input, USB printer connection, USB memory stick port, and a simpler user interface. It's smaller, lighter and quieter. This advanced system is based on a patented technology called Controlled Negative Pressure (CNP), which directly measures leakage at the face-to-facepiece seal. There are no challenge agents to spray, breathe, mix, fill, or spill, so you can perform your testing quickly and easily. With the Quantifit, you'll be confident that your employees are wearing respirators that actually fit. Upgrade your respirator program with the fastest and most accurate method available. The best just got better!

SKU	Description	UOM	Price
OHD9519-4000	OHD Quantifit	EA	\$12265.91

**D**

**D. WorkSmart® Half-Mask Respirator Bag**

Rugged nylon bag provides instant access to half-mask respirator or small tools. Lightweight, durable nylon construction protects equipment from dust and moisture. Hook and loop closure for fast seal and release. Webbing belt loop closes with hook and loop for easy donning, doffing, and tear-away. Water-resistant, 7" x 6" x 3.5" main hold.

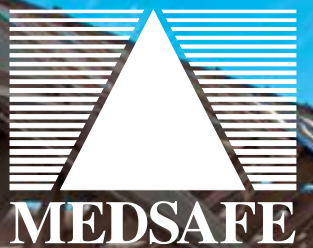

SKU	Description	Capacity	Color	UOM	Price

# Hearing Protection

**A. Max® Earplugs**

Workers who need to block out loud noise demand the best protection and comfort available in an earplug. That's where Max comes in. The world's most-used polyurethane earplug, Max offers superior noise-blocking performance in a single-use earplug. Max's new enhanced contoured shape is easier to insert and resists backing out of the ear canal, while its softer foam delivers superior long-wearing comfort – delivering solid performance that your workers can depend on. NRR 33. Tested in accordance with ANSI S3.19-1974. Coral color.

SKU	Description	Type	Package	UOM	Price
HOWMAX1	Max	Uncorded	Polybag	200 PR/BX	\$26.21
HOWMAX30	Max	Corded	Polybag	100 PR/BX	\$24.80
HOWMAX30USA	RWB earplugs	Corded	Polybag	100 PR/BX	\$26.13

**B. Max Lite® Earplugs**

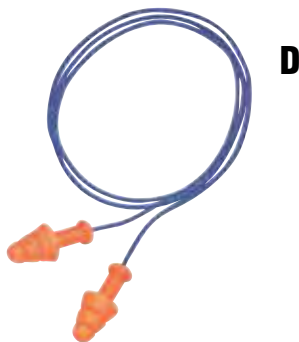

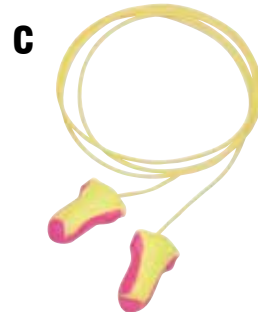

Ideal for workers with smaller ear canals, Max Lite's low-pressure foam expands gently inside the ear canal for comfortable long-term wear, eliminating that feeling of "tightness." Its contoured T-shape delivers easy handling for insertion and removal. Plus, Max Lite is available with special cording, packaging and dispenser options, ideal for process industries with low tolerances for packaging waste. Attenuation tested in accordance with ANSI S3.19-1974. Green color. NRR 30 dB.

SKU	Description	Type	Package	UOM	Price
HOWLPF1	Max Lite	Uncorded	Polybag	200 PR/BX	\$21.45
HOWLPF30	Max Lite	Corded	Polybag	100 PR/BX	\$21.09

**C. Laser Lite® Earplugs**

The bright idea in hearing protection, Laser Lite's low-pressure foam expands gently inside the ear canal for comfortable long-term wear, while its contoured T-shape delivers easy handling. Its high visibility magenta and yellow colors make compliance checks quick and easy. Plus, Laser Lite is available with special packaging and dispenser options, ideal for process industries with low tolerances for packaging waste. Attenuation tested in accordance with ANSI S3.19-1974. Magenta/Yellow color, NRR 32 dB.

CAB340-4004	UltraFit	Corded	PR	\$1.25
CAB340-6004	UltraFit Plus NRR* 26 dB	Corded	PR	\$1.73

### B. 3M™ E-A-R™ E-Z Fit™ Earplugs

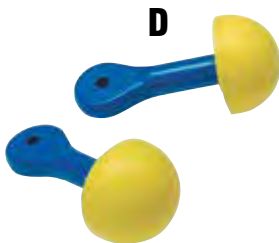

The E-Z Fit line of earplugs was designed specifically for smaller ear canals, providing comfort and a secure fit. The self-adjusting foam and bell shape allow for easy insertion and help to keep the earplug from shifting or dislodging. NRR\* 28 dB.

SKU	Description	Type	UOM	Price
CAB312-1222	E-Z Fit	Corded	200 PR/BX	\$65.31

### C. 3M™ E-A-R™ Push-Ins™ Earplugs

An innovative, simple-to-use design and the ultra-soft performance of a tip made of patented EARform™ foam. The EARform foam expands in the ear canal to create a comfortable seal against noise. The unique foam softens and becomes more pliable with body temperature for improved seal and comfort. The plugs stay seated with a gentle low pressure seal on the ear canal. NRR\* of 28 dB.

SKU	Description	Type	UOM	Price
CAB318-1003	Push-Ins	Corded	200 PR/BX	\$108.43

### D. 3M™ E-A-R™ Express™ Pod Plugs™

These reusable earpods feature the InstaSeal system, which combines a unique pod shape with a soft grip. The grip design eliminates the need to touch the plug's pod which in turn reduces the chance of contamination. The soft foam pods have a slow recovery time offering a customized and secure fit every time. Designed to not shift or dislodge with jaw movement. NRR\* 25 dB.

SKU	Description	Type	Package	UOM	Price
CAB311-1115	Express pod plugs	Corded	Assorted	100 PR/BX	\$90.43

### E. 3M™ E-A-R™ Push-Ins™ SoftTouch™ Earplugs

Provides the highest NRR of all Push-Ins Earplugs—31\*dB. Made of specially formulated foam for added softness. A gentle push is all it takes to insert. Flexible, pistol-grip handle and stem allow fingertip control for easy insertion. Eliminates dirt transfer for better hygiene. CSA Class AL.

SKU	Description	Type	UOM	Price
CAB318-4001	Push-Ins SoftTouch Earplugs	Corded	200/BX	\$111.85

\*Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided. Hearing warning can be found page 246.

### A. 3M™ E-A-R™ ARC Plug™ Earplugs in Carrying Case

Patented Hear-Through™ design allow workers to hear conversations, signals, or other critical sounds clearly, while protecting against damaging impulse noise from an arc flash. Insert the yellow end and it allows clear hearing. Arc blast is instantly suppressed by a calibrated filter, reducing it to a safer level. Filter reacts instantaneously to reduce or eliminate the risk of hearing damage or concussive disorientation. Insert red end for steady-state 22dB protection from high-noise levels (heavy equipment, etc. ) Washable and reusable plugs include a plastic carrying case with dielectric chain. Red end NRR\* 22dB; Yellow end NRR\* 0dB (level dependent); CSA Class AL.

SKU	Description	UOM	Price
CAB370-2000	ARC Plug Earplugs in carrying case	PR	\$13.80

### B. 3M™ E-A-R™ Classic™ Earplugs

E-A-R Classic Plugs are the most popular earplugs in the world. The moisture-resistant foam is non-irritating and its slow recovery provides comfort with low pressure. NRR\* 29 dB and 33 dB.

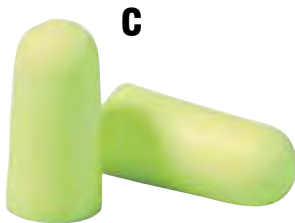

SKU	Description	Type	Package	NRR*	UOM	Price

### D. 3M™ E-A-R™ CABOFLEX™ Model 600 Hearing Protector

The silicone pods contain a foam plug core for a sure fit. Pods swivel to properly align with and align with and fit a wide variety of ear canal sizes. The CABOFLEX is great for use with hard hats or safety glasses, when worn under the chin. NRR\* 20 dB.

SKU	Description	UOM	Price
CAB320-2001	CABOFLEX Model 600	EA	\$8.00

#### ⚠️ WARNING!

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.

\*Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

# Hearing Protection

## Earmuffs

### A. 3M™ Peltor™ Optime™ Series Earmuffs

These slim design muffs were specially engineered for high comfort and continuous wear. The two-point suspension exerts low pressure for comfortable, long-term use. The soft, liquid foam filled ear cushions provide added comfort and protection. Designed for use with welding helmets, sandblasting hoods, hard caps, bump caps and fire helmets. Not only protects from noise, but also protects from welding spatter which can cause ear and ear canal burns. NRR\* 21dB.

SKU	Description	Type	UOM	Price
PELH6B/V	H6 Series earmuff	Backband	EA	\$12.85

### B. 3M™ Peltor™ Optime™ Series Earmuff

The H9 Series is a lightweight, mid-range earmuff. It utilizes individual stainless spring steel headband wires and two low-tension points for even, comfortable alignment to the head. The broad foam cushions give low comfortable surface pressure.

SKU	Description	NRR*	Type	UOM	Price
PELH9A	H9 series earmuff	25	Headband	EA	\$16.74

### C. 3M™ Peltor™ Optime™ Series Earmuffs

The H10 Series represents the ultimate in earmuff technology by providing one of the highest protection levels in the industry coupled with Peltor's™ extensive list of performance and comfort features. The unique, patented dual cup design minimizes resonance to achieve maximum sound quality and attenuation without resorting to muff cups. A wide, soft padded headband distributes weight while two-point suspension exerts low pressure for comfortable, long-term use. The soft, foam-filled ear cushions provide added comfort.

### B. QM24+® Earmuff

It is ultra-lightweight for prolonged usage, providing excellent protection for most environments. The QM24+ is a three-position, ultra-lightweight earmuff that weighs only 6 oz. The high visibility red cups and black band add style to an extremely functional earmuff. Supplied with an adjustable crown strap for a secure fit when worn behind the head or under the chin. Low-cost cushions are easily removed for replacement. NRR 25 dB.

SKU	Description	UOM	Price
HOWQM24	QM24+ earmuff	EA	\$7.16

### C. Thunder® Series Earmuffs

The Thunder series earmuff are designed with all-day comfort in mind. Thunder headband earmuffs features a unique dual-headband for better positioning and breathability, and non-deforming outer headband that minimizes pressure on the head. Plus, its dielectric construction withstands use and abuse, while protecting workers in electrical environments. The Thunder series features patented Air Flow Control™ technology for optimal attenuation across all frequencies and also snap-in ear cushions for easy maintenance. Quick-Click height adjustment keeps setting in place during wear. Special application models available, including cap-mounted [hard hat adapters included] and folding styles.

### A. Casella CEL-300 Series Convertible Noise Dosimeters

The CEL-300 Series includes the CEL-320 and CEL-360 dosimeters which can be converted to the CEL-320S and CEL-360S sound level meters by simply exchanging the cable microphone assembly for a traditional stalk microphone and preamplifier. They are the ideal instruments for any form of personal worker surveys when considering the possible risk of hearing loss in the workplace. Conversion to a compact sound level meter enables comprehensive noise measurements to be carried out with the possibility of storage of the results for later recall from memory.

SKU	Description	UOM	Price
CEL320/K1	Noise dosimeter kit	EA	\$2061.50
CEL320S/K1	IS noise Dosimeter kit	EA	\$2178.17
CEL360/K1	Logging noise Dosimeter kit	EA	\$2790.67

### B. Casella dBadge2 Personal Noise Dosimeter

The dbadge2 retains all the great features that made the CEL-35x series so successful but Casella has added powerful new capabilities that will completely change the way use dosimeters - to save you and your workers time, money and even prevent costly errors or mistakes - because they have revolutionized how personal dosimetry gets done! Imagine being able to view noise exposure data from multiple workers, REMOTELY right on your cellphone or tablet! That's right, now you can access each ANSI/IEC standards compliant dBadge2 dosimeter directly from your HHD using the built-in Bluetooth®4.0 connection and the Casella Airwave™ App!

### C. 3M™ Noise Indicator NI-100

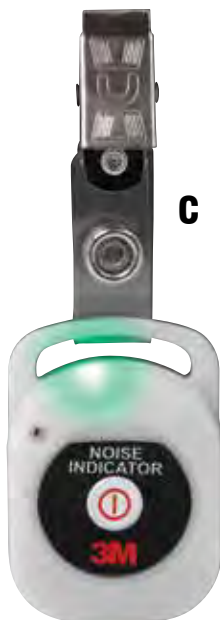

Innovative and durable noise detection, the NI-100 noise indicator alerts you when noises in an area reach potentially hazardous levels. The noise indicator's small size and lightweight design make it ideal for workers in a variety of industries. With a rechargeable battery that operates for up to 200 hours between charges, it's an economical investment in your hearing conservation program. The NI-100 can be used as an effective training tool within a Hearing Conservation Program (consult OSHA Standard 1910.95) to help ensure workers know when and where to wear hearing protection. Safety and health professionals can also use it as a mapping tool to determine where noise studies are necessary. In a variable noise environment, the 3M noise indicator can help train workers as to when noise levels become potentially hazardous and hearing protection may be required.

- Red Flashing LED indicates noise levels are above 85 dBA and hearing protection may be required.
- Green Flashing LED indicates noise levels are below 85 dBA and hearing protection may not be necessary.

*\*The NRR may overestimate the hearing protection provided during typical use. 3M recommends reducing the NRR by 50% for estimating the amount of noise reduction provided. 3M is Leading the Advancement of Hearing Conservation™. 3M™ Noise Indicator NI-100 is not Intrinsically Safe.*

SKU	Description	UOM	Price

### D. Chore Pro Cool Steel Toe

The Chore Pro Cool Steel Toe features XpressCool™ fabric lining to rapidly pull moisture away from skin to dryer areas of the boot - as moisture spreads it creates a cooling affect. It has a etc® sockliner lining to reduce friction and heat buildup, new Vibram® outsole for improved durability and performance, full rubber coverage and 4mm CR flex-foam bootie with four way stretch nylon that is 100% waterproof, lightweight and flexible. Meets ASTM F2413-11 M I/75 C/75 EH

SKU	Description	Sizes	UOM	Price
SRVCPCTBL	Chore Pro Cool Steel Toe, Black	5-16	PR	\$170.76

**A**

### A. 16" Black Metatarsal Knee Boot

Perfect for hazardous, heavy-duty jobs, the Turtleback features Safe-Toe steel toe construction, anchored metatarsal guard, Safe-Step steel midsole and Trac Tread™ sole and heel. The outsoles are high abrasion rubber for durability and longer wear. 100% waterproof rubber construction. Meets ASTM F2413-11 M I/75 C/75 Mt/75 PR Made in the U.S.A

SKU	Description	Sizes	UOM	Price
SRVR2145	16" Full Metatarsal Midsole Steel Toe	6-14	PR	\$127.82

### B. Stormking

The 31 inch rubber Stormking with pull-on-loops, Trac Tread sole and heel. Made in U.S.A. These 100% waterproof, non-safety toe boots feature commercial grade rubber uppers that are specially formulated to prevent ozone deterioration. Steel shanks reinforce construction and support the feet, while cushion insoles reduce fatigue for all-day comfort.

SKU	Description	Sizes	UOM	Price
SRV11444	SEAFARER stormking, 31" rubber boot	8-13	PR	\$127.41

**C**

### C. Servus® PRM

The 15" Servus PRM was developed to meet the needs of workers in many industries including mining, construction, breweries, utilities and municipalities. PRM™ features a steel toe for impact protection and steel midsole for puncture protection. 100% waterproof PVC injection molded construction. Meets ASTM F2413-11 M I/75 C/75 PR EH

SKU	Description	Sizes	UOM	Price
SRV75145-	15" PRM rubber boot steel toe	7-14	PR	\$40.02

### D. Dielectric Work Boot

Dielectric overshoes are made from ozone resistant yellow rubber. The construction is hand layered in full cut patterns to easily fit over work boots. These overshoes are 100% waterproof. The lining is fabric, so it is easy to slip on and off. The sole is an anti-skid bar tread. The outsole of these boots have been tested to 20,000 volts to the electrical hazard requirements of ASTM F2413-05.

SKU	Description	Sizes	UOM	Price
SRV31924	Dielectric work boot	6-17	PR	\$190.29

# Safety Overshoes Keep You On Your Feet

**Ice & All Surface Overshoe**  
Reduce Slips & Falls Outdoors

**Safety Overshoe**  
Protects Toes from Impact

## A. Tiger Grip® Visitor Overshoe

Visitor is a safety toe-cap overshoe made to protect visitors to industrial sites against crushed toes and impacts. Visitor's toe-cap is made of aluminum/titanium alloy ( 50% lighter, but as resistant as steel ). With its Tiger Grip® anti-slip technology sole, you will easily walk on wet or greasy surfaces too.

SKU	Description	Size	UOM	Price
TGRVISS	Visitor Overshoe	SM 5.5	PR	\$41.75
TGRVISM	Visitor Overshoe	MD 6-9.5	PR	\$41.75
TGRVISXL	Visitor Overshoe	XL 10-13+	PR	\$41.75

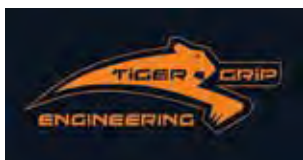

## B. Tiger Grip® Total Protect Overshoe

As a worldwide innovation, TOTAL-PROTECT is intended to protect against slipping risks and toe crush injuries. Safety cap is made of an aluminum/titanium alloy, 50% lighter than steel but as resistant. The antislip sole from Tiger Grip® technology secures all your moves on greasy or wet floors and guarantee security and comfort. TOTAL PROTECT is a real alternative for a better safety on the workplace.

TGRMASXL	Master-Grip Ice and All-Surface Overshoe	XL 10-13	PR	\$44.28

### B. Trex Adjustable one-piece traction device

Adjustable one-piece traction device for shoes or boots delivers tenacious grip and stability.

Features:

- Rugged steel studs for tenacious grip & stability
- Adjustable cord cinches tight for a secure fit
- Stretchable rubber for fit and easy on/off
- Aggressive tread connects mid-foot and heel stud zones
- Reflective pull-on tab adds enhanced visibility
- Flexible to -40°F (-40°C)

SKU	Description	Size	UOM	Price
ERG6310M	Trex adjustable one-piece traction device for shoes or boots	M	PR	\$22.05

ERG6310XL	Trex adjustable one-piece traction device for shoes or boots	XL	PR	\$22.05

### C. Stainless Steel Insole

A stainless steel insert that is flexible and cushion-covered. It will not deteriorate and fits into most boots.

SKU	Description	Sizes	UOM	Price
SRV29000-	Puncture-resistant midsole	5-14	PR	\$17.02

**A**

### A. Foot and Shin Combination Guards

Rugged aluminum alloy foot and shin guards fastened to permit free leg movement in any direction. Shin guard covers front of leg through 180 degrees; full height 16-3/4".

SKU	Description	UOM	Price
ELW400	Foot and shin combination guards, aluminum	PR	\$99.75

### B. Metatarsal Guard

Comfortable and low-cost protection are standard to this aluminum alloy Metatarsal Guard. Designed to be worn with most lace-type steel-toed safety shoes. Can withstand an impact of over 75 foot-pounds. Weighs only 4-1/2 oz. One size fits all.

SKU	Description	UOM	Price
ELW800	Metatarsal Guard	PR	\$32.92
ELW801	Metatarsal Guard w/ spring for non-lace-up	PR	\$34.50

**B**

**C**

### C. Foot Guards

Foot guards fit any shoe (no rights or lefts), with 5" (average) and 5-1/2" (large) widths. They are light enough to be worn comfortably all day. To keep the guard properly positioned, it has a rubber toe clip, crossbar, and either a one-piece rubber strap with a tension buckle, or a two-piece leather strap with a spring fastening device. Made of .081" aircraft quality aluminum alloy.

SKU	Description	Size	UOM	Price
ELW200	Foot guard w/ rubber toe	L	PR	\$47.83
ELW200XL	Foot guard w/ rubber toe	XL	PR	\$61.92
ELW202	Foot guard w/ full sole	L	PR	\$77.21

### D. Plastic Foot Guard

Lightweight, comfortable, economical, rugged Thermo-Foam plastic guards withstand impact of 50 foot-pounds. Rubber straps on sole and heel slip on and off easily, one size fits all.

SKU	Description	UOM	Price
ELW500	Plastic foot guard	PR	\$24.42

**D**

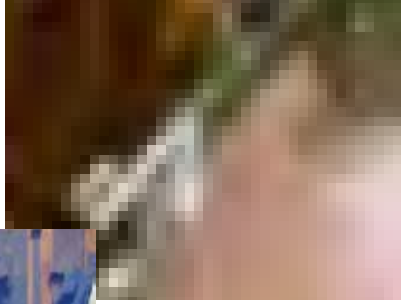

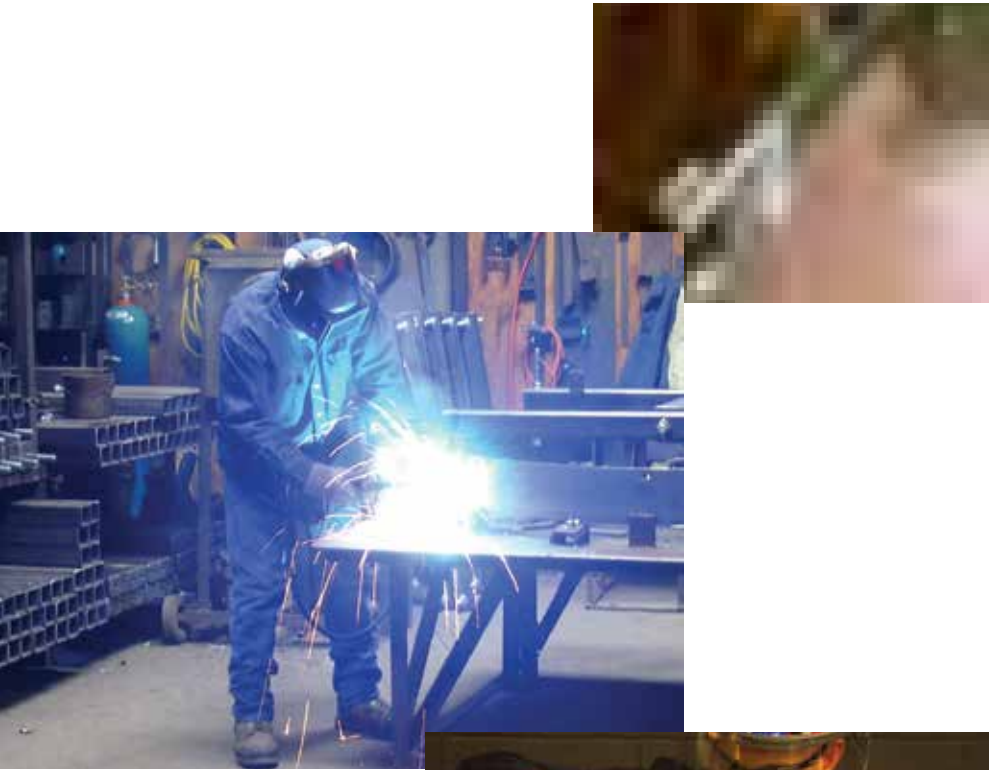

**E**

### E. Toe Guard

Protect toes from injury with this 16-gauge carbon steel Toe Guard. Weighs only 12 oz, yet can withstand an impact of over 75 foot-pounds. Features a quick fastener and an adjustable strap. Easy to put on. Exceptionally comfortable.

SKU	Description	Size	UOM	Price

### A. 3M™ Speedglas™ 9100 FX Welding Helmet

The new 9100 FX combines legendary Speedglas quality and auto darkening technology with an innovative wide-view grinding visor to give welders an all-in-one solution for more flexibility, precision, and efficiency.

The exceptionally clear, wide grinding visor offers a greater field of view in all directions, while a smooth flip-up pivot mechanism assures effortless transition from welding to grinding modes.

New front air exhaust vents help reduce fogging, and highly adjustable suspension and well-balanced design enhance the well known Speedglas top performance and comfort qualities.

#### Features:

- Exceptionally large, 8" x 4.25" protective visor with 105 degree viewing angle significantly increases user's field of view in all directions.
- Smooth flip-up pivot mechanism allows for effortless one-handed use and quick transition between welding and grinding modes.
- Compatible with all 3M™ Speedglas™ 9100 Auto Darkening Filters (Shade 5, 8, 9-13, and tack mode).
- Includes SideWindows with exclusive Shade 5 filters allow you to see others working around you.
- Meets the mechanical strength requirements of EN 175 level "B" and ANSI Z87.1 – 2010.
- Includes spark deflector, and optional flame-resistant extended ear and neck protection accessory for added protection from welding hazards.
- Front and side air exhaust vents minimize fogging and enhance comfort, particularly during extended use.
- Compatible with most 3M disposable respirators and select 3M reusable respirators.

SKU	Description	UOM	Price

### B. 3M™ Speedglas™ Welding Helmets Series 100

3M™ Speedglas™ Welding Helmet Series 100 allows you to take advantage of excellent optical quality and reliable light-to-dark switching at an affordable price. Choose from several highly creative graphic helmet designs - each with a unique personality.

The easy-to-use Speedglas 100 model helmet can be an ideal auto-darkening helmet for the occasional welder. Welders can benefit from the ability to clearly see with their welding protection in place.

#### Features:

- Speedglas 100 welding helmets meet high impact standards of ANSI Z87.1 - 2003 and CSA Z94.3.
- Five adjustable dark shades 8-12 and a light shade of 3.
- Three sensitivity settings.
- Switching speed (light to dark) of <0.1 ms.

#### WARNING

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. Misuse may result in permanent eye injury and vision loss. Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For proper use, see supervisor, or User Instructions or call 3M in U.S.A. 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414.

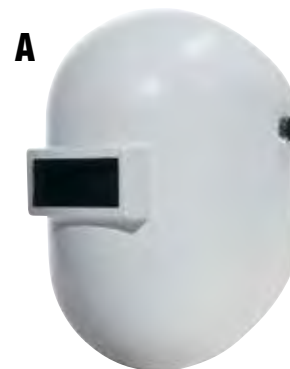

by Honeywell

### A. Superglas Pipeliner

Molded from Superglas Plus, this helmet is light and strong. Provides everything pipe welders need in a helmet to be safe and productive under the harshest welding conditions. Impervious to moisture, impact-resistant, will not crack, chip or split. Compact design allows access to areas where there is no room for a standard helmet. Comfortable, functional headgear uses a constant-fit rubber headband for frequent readjustments as pipe welders move about their work. Also available with a ratchet headgear for use where space limitations are not as severe.

SKU	Description	Color	UOM	Price
FIB110	Ratchet headgear	White	EA	\$57.33
FIB110P	Rubber headband	White	EA	\$56.76
FIB1-CP	Pipeliner elastic headgear		EA	\$18.43
FIB1-PS	Neoprene headgear strap		EA	\$1.86

### B. TIGERHOOD® Thermoplastic Welding Helmets

Lightweight Tigerhood helmets are molded from Noryl®, a tough weight-to-strength, heat-resistant thermoplastic. Their universal shell shape combines under-chin and straight-front helmet benefits to increase welder comfort and protection. Choose from telescoping lift front stationary, molded-in or wide vision molded-in glass holder models. Deeply offset, pliable headband fits head contours comfortably. Overhead band with multiple adjustments helps position the glass holder for the best view of the weld and a comfortable working position. Exclusive “free-floating” arms balance and stabilize the helmet while minimizing pressure points.

### A. 3M™ Speedglas™ Welding Helmet 9100 MP with 3M™ Adflo™ PAPR and HE filter

The award-winning 3M™ Adflo™ Powered Air Purifying Respirator is especially designed for you, as a welder. Its slim profile, light weight, and ergonomic design fits into many tight welding spaces. And you can simply add an organic vapor/acid gas OV/AG cartridge to the HE particle filter — and selectively replace either as needed.

The airflow is always a constant nominal rate of approx. 7 CFM (205 liters/minute), regardless of the battery's charge or the particle loading of the filter. The Adflo PAPR, combined with the 3M™ Speedglas™ Welding Helmet 9100 MP's unique air delivery system achieves an OSHA assigned protection factor of 25.

SKU	Description	UOM	Price

### B. 3M™ Speedglas™ Welding Helmet 9100 MP with 3M™ Speedglas™ Fresh-air III Supplied Air Regulator, V-100 cooling valve

For welding environments where supplied air respiratory protection is needed, the 3M™ Speedglas™ Fresh-air III Supplied Air Regulator System can be used with the 3M™ Speedglas™ Welding Helmet 9100 MP. The lightweight, belt-mounted regulator allows you to regulate the airflow from a supplied air source and cool or heat the air entering the headgear by as much as 50°F (28°C), - ideal for extreme temperature work environments.

The Fresh-air III SAR system meets National Institute for Occupational Safety and Health (NIOSH) standards for supplied air respirators, OSHA assigned protection factor of 25 with Speedglas welding helmet 9100 MP, and Freshair III SAR regulator (3M™ Valves V-Series). Meets the requirements of CSA Z94.3 for CSA marked products and the high impact requirements of ANSI Z87.1 - 2010

#### WARNING!

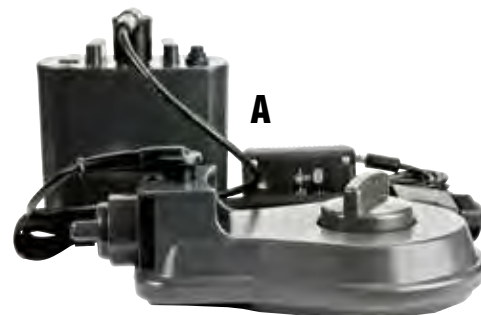

These respirators help reduce exposure to certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

## 3M™ GVP-Series Powered Air Purifying Respirators

These assemblies are available with a web belt or comfort belt. In addition to the waist belt, the assembly includes power cord, motor blower, battery, charger and flow meter. The system contours to the hip and body for comfort.

### A. 3M™ GVP-Series PAPR GVP-1

This belt-mounted powered air purifying respirator assembly includes components needed to make a complete PAPR system. Helps provide respiratory protection when combined with 3M™ Headgear and breathing tube.

SKU	Description	UOM	Price
3MGVP-1	GVP-Series PAPR, Standard Belt, NiCd Battery	EA	\$943.00

### B. 3M™ GVP-Series PAPR GVP-1U

Includes the components needed to make a complete 3M™ PAPR System. When combined with the 3M™ Headgear and breathing tube, it provides protection for a wide range of applications.

### B. 3M™ Breathing Tube L-122

This breathing tube is attached to the opening on 3M™ Headgear L-Series to help provide respiratory protection. The lower end of the breathing tube is attached to the air control device.

SKU	Description	UOM	Price
3ML122	Breathing Tube for L-series Facepiece	EA	\$101.99

**C**

### C. 3M™ Full Facepiece 7800S

This is the ultimate reusable full facepiece respirator. The lightweight silicone facepiece enhances the comfortable fit and improves durability. Breathing is easier with the extra-large inhalation and exhalation valves. Double-flange face seal and six adjustable straps on the 7800S help provide a secure fit. Not for use with 3M™ Self-Contained Breathing Apparatus (SCBA) Systems.

SKU	Description	Size	UOM	Price
3M7800S(sm)	Full Facepiece 7800S-S	S	EA	\$394.70
3M7800S(MD)	Full Facepiece 7800S-M	M	EA	\$394.70
3M7800S(lg)	Full Facepiece 7800S-L	L	EA	\$394.70

**D**

### D. 3M™ Combination Dual Airline Back-Mounted Breathing Tube

Used on both the high and low pressure back-mounted combination kits.

SKU	Description	UOM	Price
3MSA2600	Dual airline back-mounted adapter kit	EA	\$160.35

**E**

### E. 3M™ Welders Full Face Shroud

Use with 3M™ Full Facepieces 7000 Series to cover head and shoulders. Leather.

SKU	Description	UOM	Price
3M7993	Welders full face shroud, leather	EA	\$233.22

### A. 3M™ Clip-on Welding Shield

This lightweight, easy to use clip-on welding adapter can be used in conjunction with the 3M™ Full Facepiece 7800S and is approved in all modes of operation as an accessory product. It is compatible with standard 4.5 by 5.25 inch lens. Also can be used with the 3M™ Electronic Lens Assembly 7991/7991-AM. The large viewing area enhances wearer safety.

SKU	Description	UOM	Price
3M7990	Clip-on welding attachment for the 3M™ Full Facepiece 7800S	EA	\$197.21

**B**

### B. 3M™ Electronic Lens Assembly

Auto darkening lens enhances the quality and speed of the welds by allowing the wearer to view the weld with the lens down, unlike traditional passive lenses. Variable shade options (9-12) allows for multiple uses.

SKU	Description	UOM	Price
3M7991	Auto darkening lens for use with 3M™ Clip-on Welding Faceshield Kit	EA	\$618.93

### C. 3M™ Welding Fume Respirators

Maintenance-free particulate respirators are designed for applications such as welding, soldering and other operations where metal fumes are present.

SKU	Description	UOM	Price
3M8212	Particulate welding respirator N95, 3M™ Cool Flow™ Exhalation Valve, welding web, cake-resistant filter media, nose foam, adjustable noseclip, buckle straps and faceseal, 10/BX	BX	\$72.37
3M8512	Particulate welding respirator, N95, 3M™ Cool Flow™ Exhalation Valve, welding web, cake-resistant filter media, nose foam, adjustable noseclip, and buckle straps, 10/BX	BX	\$66.24
3M8214	Particulate respirator N95, 3M™ Cool Flow™ Exhalation Valve faceseal and nuisance level organic vapor relief, 10/BX	BX	\$84.78

FIB4178

### A. Fibre-Metal Faceshields

Model F-300 is for light duty, general purpose face protection. Exceptionally lightweight and comfortable. Fits easily over today's spectacles with space for air circulation to prevent fogging. Accommodates a 4118 standard size (11-1/2" x 8") window. Model F-400 has a deep crown protector and wider windows for extended face protection. Deeper 4" crown protector extends protection without increasing weight. Incorporates wide-vision (17" x 8") wraparound windows and screens which provide 40% more protective area than standard size faceshields. Fits easily over required spectacles or respirators. Available with choice of three protective cap mounting mechanisms. High Performance protective faceshields can be equipped with model 5000 Speedy-Loop for easy on/off mounting on protective caps. Patented, adjustable loop fits Fibre-Metal caps and most competitive brands; model 4000 Quick-Lok cups for mounting on Fibre-Metal Caps equipped with Quick-Lok blocks for more permanent mounting.

SKU	Description	UOM	Price
FIBF300	Faceshield headband ratchet w/3" crown	EA	\$15.31
FIBF400	Faceshield bracket w/ratchet headgear	EA	\$18.78

### B. Cap Peak Mounted Faceshields with Shaded Replacement Visors

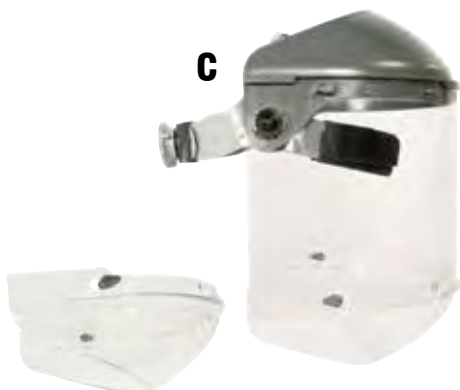

Lightweight, dielectric faceshield protective cap mounting bracket mounts on the front peak of the cap. Dual channel mounting system uses one channel to anchor the bracket to the cap while the other channel holds the window so it can lock into the work position and pivot up and out of the way when not needed. The locked channels form a positive seal to keep debris from filtering between the cap and faceshield. Molded from strong, heat-resistant Noryl, ideal for extended outdoor use.

SKU	Description	UOM	Price
FIBFM70	Faceshield, cap style	EA	\$10.92

### A. Sellstrom® DP4™ Multi-Purpose Faceshield

The new DP4 faceshield combines a clear anti-fog window with a flip-down IR window, providing uninterrupted protection for grinding, cutting, and brazing operations. The shield curves naturally to fit facial contours; ensuring reliable protection from splash, particles, and flying debris. Ratchet headgear suspension allows user to adjust size and tighten at the turn of a knob. Rugged, polycarbonate shield is impact and splash resistant. Meets ANSI Z87.1 standards and is CUL-certified to meet CAN/CSA-Z94.3 standards.

SKU	Description	Lens	UOM	Price
SEL32010	Multi-purpose faceshield	Clear	EA	\$34.14

SEL32130	Replacement faceshield lens	Clear	EA	\$27.78

### B. Portable HEPA Welding Fume Extractors

Air Systems' Portable Fume Extractor is used mainly for source capture of welding smoke and fumes. Different filter combinations can make the Portable Fume Extractor unit very versatile and cost effective for the job required. The Portable Fume Extractor series operates at less than 80dba. A non-metallic fume hood is placed on the 360° rotating adjustable arm and is supplied with an adjustable damper to control air flow velocity at the capture site. The contaminated air is drawn in through the arm or central duct; clean filtered air is exhausted through the sides and bottom of the cabinet.

SKU	Description	UOM	Price
ASIPFE-750	The Fume-Air 750	EA	\$6097.02
ASIPFE2412HF	HEPA filter for Fume-Air 750 24" x 24 x 11-1/2"	EA	\$514.29

### C. LeadCheck™ Swabs

Easy to use, disposable LeadCheck Swabs will work on any surface, instantly turning bright pink when lead is present. Each swab is ready to use. There are no hidden steps or lengthy procedures. LeadCheck Swabs are odorless, disposable and non-staining. The entire test procedure is so convenient that it can be performed anywhere in 30 seconds. There's even a test confirmation card to verify test results. This product has an indefinite shelf life.

SKU	Description	UOM	Price
LEADCHK	LeadCheck swabs	8/Kit	\$25.90

### D. ChromateCheck™ Swabs

ChromateCheck Swabs are an instant field test for the detection of hexavalent chromium ions also called chrome (VI) on any surface. When ChromateCheck Swabs come in contact with hexavalent chromium the swab tip turns a pink/purple color. The intensity of the color development is directly related to hexavalent chromium content. Each kit contains 8 swabs and instruction sheet with color guide.

SKU	Description	UOM	Price
LEADCHRCHK	ChromateCheck Swabs	8/Kit	\$44.37

### A. Shoulder Split Cowhide

Shoulder split cowhide provides excellent protection in high heat welding conditions at an affordable price. 14" length protects hands and arms from sparks and spatter. Welting fingers to protect seams from sparks, wing thumb for a natural fit and cotton lining keeps hands cool.

SKU	Description	Size	UOM	Price
WCHE9010L	Welding Glove Shoulder Split Cowhide, Gray	L	DZ	\$69.91

### B. Shoulder Split Cowhide

Shoulder split cowhide provides excellent protection in high heat welding conditions at an affordable price. 14" length protects hands and arms from sparks and spatter. Welting fingers to protect seams from sparks, wing thumb for a natural fit and cotton lining keeps hands cool.

SKU	Description	Size	UOM	Price
WCHE9011L	Welding Glove Shoulder Split Cowhide, Russet	L	DZ	\$87.68

### C. Premium Side Split Cowhide

Premium side split cowhide provides the most durable protection in high heat welding conditions. 14" length protects hands and arms from sparks and spatter. Welting fingers and Kevlar® thread protect seams from sparks, wing thumb for a natural fit and cotton lining keeps hands cool.

SKU	Description	Size	UOM	Price
WCHE9030L	Welding Gloves Premium Side Split Cowhide	L	DZ	\$109.75

### D. Insulated Premium Side Split Cowhide - Dbl Reinforced Thumb

Premium side split cowhide provides the most durable protection in high heat welding conditions. 14" length protects hands and arms from sparks and spatter. Additional layer of foam on palm and back of hand provides added heat insulation. Double reinforced thumb combines thumb strap with an added patch on thumb saddle to protect high stress area. Double reinforced wing thumb provides a natural fit and reduces abrasion. Welting fingers and Kevlar® thread protect seams from sparks.

SKU	Description	Size	UOM	Price
WCHE9051	Welding Gloves Insulated Premium Side Split Cowhide, Reinf Thumb	M-XL	DZ	\$128.50

### A. Heavyweight Top Grain Cowhide - MIG

Heavyweight grain cowhide glove provides a sturdy glove for all-around MIG welding. Unlined for additional dexterity. 4" cuff protects hands and lower arms from burns. Kevlar® thread protects seams from sparks. Wing thumb and seamless forefinger for increased dexterity.

SKU	Description	Size	UOM	Price
WCHE6010	Welding Gloves Heavyweight Top Grain Cowhide, MIG	S-XL	DZ	\$112.29

### B. Sure-Grip® EX Yellow Safety Cabinet for Flammables

With Justrite's Sure-Grip® EX cabinets, you are assured of getting the best possible protection. Distinguishable differences like a versatile U-Loc™ padlockable handle and Haz-Alert™ reflective labeling system offer added convenience and safety. Welded construction and a 3-point, stainless steel bullet latching system help reduce fire risks. High performance, long-life design is backed by an industry first, Ten-Year Warranty.

Sure Grip® EX design offers exclusive features to make a workplace EXtra safe, EXtra secure:

- Exclusive U-loc™ padlockable handle comes with a double key set and/or accepts an optional padlock
- Exclusive Haz-Alert™ reflective labeling provides high-visibility under fire conditions and power outages
- Unique SpillSlope™ galvanized steel shelves safely direct incidental spills to back and bottom of leaktight, 2" bottom sump

Protect workers, reduce fire risks, and improve productivity by storing hazardous liquids in code compliant safety cabinets. Designed to meet OSHA and NFPA standards, Justrite's cabinets are sturdily constructed of all-welded, 18-gauge, double-walled steel with 1-1/2" of insulating air space for resistance. Finished inside and out with a powder coat paint for durability and chemical resistance. Complies with OSHA and NFPA regulations and all cabinets are FM Approved.

### A. Type I Red Safety Cans

Compliant and economical Justrite Type I safety cans reduce fire risks and make everyday use of flammables easier and safer. Protection features include a 3.5" (88mm) long chemical resistant stainless steel flame arrester that stops flashback ignition, provides faster liquid flow, and offers exceptional durability. The self-venting, self-closing leakproof lid prevents ruptures from pressure build-up and controls vapors and spills. Warning label includes an extra large ID zone for user labeling of contents to avoid misuse, reduce the potential for incompatible mixtures, or may be used to designate department or individual owner. Made of galvanized steel with a tough powder paint finish, can capacities 1 gallon (4L) and above have ample headspace to accommodate oil additives.

SKU	Description	Capacity	Dia.	Height	Approval/List	UOM	Price

### B. Red Oily Waste Can with Foot Operated Cover

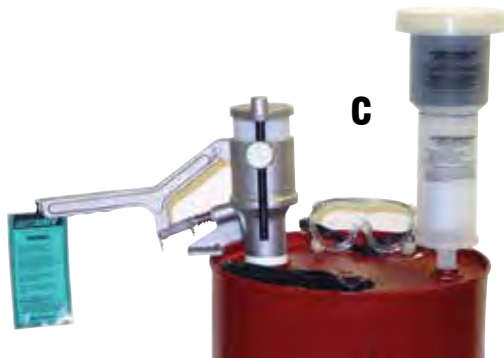

Dispose of oil soaked rags and protect your facility from fires that can start due to spontaneous combustion, sparks or careless use of smoking material. OSHA compliant oily waste cans are essential whenever solvent cloths and wiping rags are used. Rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids present a serious fire risk when improperly discarded. The specially designed lid opens no more than 60 degrees and stays closed when not in use, isolating contents from fire sources. Round construction and elevated bottom encourage circulation of air around the can to disperse heat and reduce moisture build-up and rusting. Container has a high-grade coated steel body construction with a durable powder-paint finish. FM tested and approved; UL listed.

SKU	Description	Cap.	OD	Height	UOM	Price
JUS09100	Oily waste can w/foot operated cover	6 gal	11 7/8"	15 7/8"	EA	\$61.84

JUS09700	Oily waste can w/foot operated cover	21 gal	18 3/8"	23 7/16"	EA	\$118.33

### C. Aerosolv® Aerosol Can Disposal System

Safe, convenient, easy-to-use, economical and compliant way to dispose of aerosol cans. Changes cans from solid hazardous waste to a non-hazardous, fully recyclable state. Every 100 cans punctured and emptied increases recyclable scrap metal by 25 lb. and reduces solid waste by 10 cubic feet. The contents of over 4,000 spent aerosols may be collected in just one 55 gallon drum. The puncturing unit threads into the 2" bung of a standard 55-gallon drum. All moving parts are 308 stainless-steel. Accepts series 200, 300 and 6 oz. cans. No power source is needed. Carbide-tipped piercing pin displays no visible signs of wear after puncturing 10,000 aerosol cans. Super system includes a lockout and shutoff mechanism that positively seals the unit and the drum when not in use. A padlock with key is included to insure against use by unauthorized personnel. Super system is also easier to keep clean as dirt and grime slide off its Teflon® coated body. A 32 oz. bottle of degreaser is included. Color changing combination coalescing/carbon filter signals saturation and eliminates premature changing of upper activated carbon cartridge. Complies with EPA 40 CFR 261.23(a)6.

SKU	Description	UOM	Price
JUS28202	Aerosolv® standard aerosol can disposal system	EA	\$909.00
JUS28197	Coalescing/carbon filter	EA	\$166.37

### A. Ultra-Drum Truck®

Drum handling, dispensing and containment in one unit. This drum dolly features a rugged polyethylene construction that offers excellent chemical resistance, a large containment sump (66 gallons) that meets SPCC and EPA Containment Regulations. Unlike alternative products, the open containment sump does not require spills to flow inside the double walls to meet EPA regulations — easy to clean; eliminating residue concerns as related to compatibility. Can be used with 55- or 30-gallon drums — nylon strap keeps drums secure. Ergonomically designed for safe and easy handling and large 10" wheels roll easily over shop and factory floors.

SKU	Description	UOM	Price

ULT0482	Drum funnel, bung access with spout, yellow	EA	\$50.88
ULT0484	Drum funnel, bung access with hinged lid and spout, yellow	EA	\$101.75

### C. Ultra-Overpacks®

Versatile Ultra-OverPacks offer the highest UN and DOT certifications available. The 30-, 55-, 65- and 95-gallon models comply with UN Packaging Group 1 (X-Rating) and are certified for use as DOT Salvage Drums, 49 CFR 173.3 (c). New Overpack Plus 95 and 65 with screw top lids are the highest performing poly overpacks on the market! High density polyethylene construction offers excellent chemical resistance, including acids, caustics and corrosives. Convenient, "no tools required" closures are perfect for clean-up and spill response activities. Nestable design and low tare weight allow convenient storage and reduced transportation costs. Applications Include: overpacking of damaged or leaking packages, collection and transport of soiled sorbents, clean-up of contaminated sites, emergency response, direct containment and transport of hazardous solids and use as spill kits.

SKU	Description	UOM	Price
ULT0582	Ultra-Overpack Plus 65, yellow	EA	\$175.44
ULT0580	Ultra-Overpack Plus 95, yellow	EA	\$194.74

D

### D. Ultra-Spill Pallets®

High load capacity: 6,000 lbs. for 4-drum model, 3000 lbs. for 2-drum model. Bright, safety yellow sidewalls are translucent, offering convenient visual leak detection. 100% polyethylene Construction compatible with a broad range of chemicals, including acids and corrosives. Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175 and UFC Spill Containment Regulations.

SKU	Description	UOM	Price
ULT1000	P4 Plus spill pallet, standard, 4-drum, yellow, no drain	EA	\$436.84
ULT1001	P4 Plus spill pallet, standard, 4-drum, yellow, with drain	EA	\$459.65
ULT1010	P2 Plus spill pallet, standard, 2-drum, yellow, no drain	EA	\$326.32
ULT1011	P2 Plus spill pallet, standard, 2-drum, yellow, with drain	EA	\$350.88

### A. Ultra-Spill Pallets Economy Models®

With the advent of global markets, the business world has never been more competitive. Ultra-Spill Pallet Economy Models have been developed specifically to meet tight budgets for spill containment products. Available in 2-drum and 4-drum configurations. Applications for the all-polyethylene units include satellite waste collection and storage of virgin chemicals. Black color helps hide dirt and grime. Removable grating - makes clean-up quick and easy. Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175 and UFC Spill Containment Regulations.

SKU	Description	UOM	Price
ULT1112	P4 Plus spill pallet, economy, 4-drum, black, no drain	EA	\$361.40
ULT1113	P4 Plus spill pallet, economy, 4-drum, black, with drain	EA	\$385.96
ULT2504	P2 Plus spill pallet, economy, 2-drum, black, no drain	EA	\$243.86
ULT2505	P2 Plus spill pallet, economy, 2-drum, black, with drain	EA	\$268.42

### B. Ultra-Utility Trays®

Keep messy drips and spills off warehouse and factory floors. Heavy-duty polyethylene construction - will not rust or corrode. Ribbed bottom keeps cans, pails and other containers elevated above small spills or leaks. Nestable for easy storage when not in use and available in six sizes for a variety of applications.

SKU	Description	UOM	Price
ULT1031	Utility tray - 12" x 48", black	EA	\$64.91
ULT1032	Utility tray - 24" x 48", black	EA	\$85.96
ULT1033	Utility tray - 30" x 48", black	EA	\$124.56
ULT1034	Utility tray - 24" x 36", black	EA	\$78.95
ULT1035	Utility tray - 36" x 36", black	EA	\$100.00
ULT1036	Utility tray - 40" x 48", black	EA	\$154.39

### C. Ultra-Containment Berms® - Collapsible Wall Model

Economical design sets up quickly - provides secure containment. The Collapsible Wall Model Containment Berm features rugged PVC sidewall assemblies for sidewall support. Simply swivel the "feet" of the PVC supports to lower or raise the sidewalls in just seconds! Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175.

SKU	Description	UOM	Price
ULT8400	Containment Berm, collapsible wall, 10' x 10' x 1'	EA	\$1433.33
ULT8403	Containment Berm, collapsible wall, 6' x 6' x 1'	EA	\$922.81

### D. Ultra-Containment Berms® - Rapid Rise Model

Sidewalls stay lowered and out of the way until they are needed. Sidewalls remain down during normal operations, loading and unloading. Vehicles and equipment can drive in and out with no set-up or take-down required. In the case of a spill, the foam ring around the top perimeter of the Containment Berm rises with the level of spilled liquid. Helps meet EPA Container Storage Regulation 40 CFR 264.175 and SPCC requirements. Standard material of construction is Copolymer 2000™.

SKU	Description	UOM	Price
ULT8432	Containment Berm, rapid rise, 10' x 10' x 1'	EA	\$1638.60
ULT8437	Containment Berm, rapid rise, 12' x 26' x 1'	EA	\$3450.88

### A. Ultra-Containment Berms® - Ultimate Model

Unique, "Living Hinge" design allows hands-free drive in/drive out - no need to manually raise or lower the endwalls. Entry and exit walls are supported every 12" with a patented "living hinge". Once a vehicle has entered or exited, the walls automatically spring back to their vertical position. Both long sidewalls are held upright by PVC sidewall assemblies. Simply swivel the feet to lower the sidewalls for storage or transport to another location. Standard material of construction is Copolymer-2000™. XR5, polyurethane and other materials also available.

SKU	Description	UOM	Price
ULT8505	Containment Berm, Ultimate Model, 12' x 60' x 1'	EA	\$6178.95
ULT8506	Containment Berm, Ultimate Model, 15' x 50' x 1'	EA	\$6149.12
ULT8507	Containment Berm, Ultimate Model, 15' x 66' x 1'	EA	\$7640.35

### B. Ultra-Concrete Washout Berm®

Economical and portable containment for concrete washout. Portable solution for harmful industrial concrete sediment, paint, drywall mud, stucco and mortar. UV resistant, 10 mil polyethylene and unfolds for simple and quick set up in seconds. Compatible with mixer, pump trucks and wheel barrows. Built-in tie-downs allow berm to be secured to standard wooden pallets for easier handling and transport. Dispose of after evaporation and job completion.

SKU	Description	UOM	Price
ULT3512	Concrete Washout Berm, Ultimate Model, yellow, 48" x 48" x 14"	EA	\$87.72

### C. Ultra-Dewatering Bag®

Contain sediment and oil pumped out during dewatering operations. Detains both oil and sediment, offering a combination of benefits not available in alternative dewatering bags. Accommodates up to 4" discharge hose. Helps comply with NPDES, 40 CFR 122.26 (1999) when used as Best Management Practice in Storm Water Pollution Prevention Plans.

SKU	Description	UOM	Price
ULT9724-O/S	Dewatering Bag, oil and Sediment 6' x 6'	EA	\$47.37
ULT9725-O/S	Dewatering Bag, oil and Sediment 10' x 15'	EA	\$152.63
ULT9727-O/S	Dewatering Bag, oil and Sediment 15' x 15'	EA	\$226.32
ULT9729-O/S	Dewatering Bag, oil and Sediment 3' x 4'	EA	\$33.33

### D. Ultra-Drain Seals®

Stop spills from going down the drain. Reinforced mesh is "sandwiched" between layers of polyurethane - increases durability and resistance to tearing. Unique, urethane construction allows the pad to deform and seal off most drains — temporarily "seals" to any smooth surface. A valuable addition to any emergency response plan, spill kit or stormwater management program. Unlike some alternative products, BOTH sides will quickly seal drains - there is no specified "top" or "bottom". Flexible, non-absorbing material with reinforced, tear-resistant mesh. Resists oil, water and most aggressive chemicals, cleans with soap and water.

**NOTE:** Not intended for long-term outdoor use (more than two (2) hours), as UV exposure and/or heat for extended periods can degrade the product. For applications where extended use may be required, the Ultra-Drain Seal Plus should be considered.

*Due to the nature of softer urethane, the physical properties of these products may change with exposure to certain environmental conditions like temperature, humidity and UV radiation. Regular inspection of the stored product should be done to ensure it is in a usable state.*

SKU	Description	UOM	Price
ULT2130	Drain Seal 36" x 36", orange	EA	\$305.26

### A. HazMat Spill Kits

Be prepared with these emergency spill kits. Great for industrial and marine applications. Contains goggles, gloves, sorbent materials and disposal bag.

SKU	Description	Contents	Absorbs	UOM	Price
CEPHAZSK5	HazMat aggressive spill kit	10 pads, 2 socks	5 gal	EA	\$63.64
CEPHAZSK55	HazMat aggressive spill kit	100 pads, 2 booms, 5 pillows	55 gal	EA	\$336.54
CEPSK30	HazMat spill kit, oil only	50 pads, 12 socks, 4 pillows	30 gal	EA	\$333.93
CEPSK55	HazMat spill kit, oil only	100 pads, 2 booms, 5 pillows	55 gal	EA	\$498.67
CEPCSKU2	HazMat truck kit, universal	20 pads, 2 socks	20 gal	EA	\$106.86

### B. Universal Aggressive Sorbent Pads

Universal sorbent pads will absorb all liquids from water based fluids to aggressive acids. An absolute necessity for any hazmat spill or spill contingency planning. Bonded for tensile strength and absorb up to 25 times their weight in liquids.

SKU	Description	Size	UOM	Price
CEPUP100	Sorbent pads, universal	17" X 19"	100/CS	\$65.09

### C. Oil Only Sorbents

Oil only sorbent products are made of pure melt blown polypropylene fibers that quickly pick up to 25 times their weight in hydrocarbon. Choose from a variety of sorbents available.

SKU	Description	Absorb	Size	UOM	Price
CEPB510	Sorbent booms, oil only	32 gal	5' x 10'	4/CS	\$70.25
CEPP100	Sorbent pads, oil only	34 gal	17" x 19"	100/CS	\$63.65
CEPP200	Sorbent pads, oil only	35 gal	17" x 19"	200/CS	\$55.79

### D. Econo Sorbent Pads

CEP pure meltblown polypropylene fibers are the most cost-effective adsorption technology today. Fibers absorb up to 25 times their weight in hydrocarbon. Oil only sorbent.

SKU	Description	Thickness	Absorb	Size	UOM	Price
CEPEP100	Econo sorbent pads, oil only	1/4"	28 gal	17" x 19"	100/CS	\$41.60

### E. 3M™ Petroleum Sorbent Pad HP-156, High Capacity

This high capacity sorbent pad features a low-profile design, so that it can be easily placed in tight areas. Ideal for cleaning up small spills and wiping down contaminated areas. Designed with scrim on one side to increase strength and help eliminate linting. Conveniently sized pad allows the user to quickly spread sorbent over a spill. Pad may also be used on a work surface in anticipation of a spill or as a wipe.

SKU	Description	Absorb	Approx. Size	UOM	Price
3MHP156	Petroleum sorbent pad	37.5 gal/bale	17" x 19"	100 PD/bale	\$67.67

#### WARNING!

Failure to properly handle and dispose of sorbents contaminated by hazardous materials can result in serious physical injury or death and/or environmental harm. For proper handling, consult the Material Safety Data Sheet for the material absorbed, applicable safety and health standards, contact your supervisor, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

# Poly-America

# Facility

### A. Safety Station Eye Wash and Shower

Features a 10" safety orange ABS plastic showerhead with 1" IPS chrome plated brass stay-open ball valve and stainless-steel actuating arm and stainless-steel pull rod. Two GS-Plus spray heads mounted on chrome plated brass supply arms complete the outlet head assembly. Each GS-plus spray head has "flip-top" dust cover, internal flow control and filter to remove suspended solids from water flow. 11-1/2" stainless-steel or safety orange ABS plastic bowl. Eye wash valve is a 1/2" IPS chrome plated brass stay-open ball valve with epoxy-coated cast aluminum flag handle and 1-1/4" IPS Schedule 40 hot-dipped galvanized steel; 9" cast aluminum floor flange. Has 1-1/4" IPS female top or side inlet supply and 1-1/4" IPS female outlet waste. This unit meets ANSI Z 358.1 standard as primary eye wash and safety shower. Comes with ANSI-compliant identification sign.

SKU	Description	UOM	Price
GREG1902	Safety station eyewash and shower w/ stainless steel bowl	EA	\$791.92
GREG1902P	Safety station eyewash and shower w/ orange ABS plastic bowl	EA	\$703.34
GREG1902BC	Safety station eyewash and shower w/ stainless steel bowl cover	EA	\$983.51

### B. 15 Gallon Portable Eyewash/Drench Hose Unit

Self-contained eyewash and/or drench hose units are ideal where a continuous supply of potable water is not available. These units may be used in low traffic areas, low hazard areas or where installation of plumbed equipment is not cost effective. Fifteen gallon units provide approximately 10 usable gallons (37.9 liters) of water for effective rinsing of the eyes, face or body. 15 gallon stainless steel pressurized tank. Tank has built-in carrying handles, air intake fitting, pressure gauge and pressure relief valve. Tank has approximately 10 gallons (37.9 liters) usable capacity. Two GS-Plus spray heads, each with a "flip-top" dust cover, internal flow control and filter. 1/2" IPS chrome plated brass stay-open ball valve with flag handle. Pressure regulator controls eyewash flow to 0.65 GPM for 15 minutes. Single GS-Plus spray head with "flip-top" dust cover, internal flow control and filter. Chrome plated brass squeeze valve with stainless steel lever handle and 6 ft. reinforced PVC hose.

SKU	Description	UOM	Price
GREG1562	15 gallon portable eyewash with drench hose unit	EA	\$1032.64

### C. Sellstrom® Gravit-Eye™ Portable Eye Wash Unit

The Sellstrom® Gravit-Eye™ self-contained gravity flow eye wash unit uses gravity to deliver water through dual spray heads. The unit delivers over fourteen gallons (53 liters) of water for fifteen minutes, thus complying with the provisions of ANSI Z358.1-2004 for eye washes. Units have a rugged plastic tank that can be installed in a wide variety of locations. These units are ideal for use where a continuous supply of potable water is not available, especially in remote plant areas, low traffic and/or low hazard areas. Tank has built-in carrying handle, heavy wall construction and reinforced ribs to support weight of unit. Furnished with epoxy coated steel bracket for mounting unit on wall. Unit can also be placed on counter top or other flat surface. One bottle of 8 oz. bottle of bacteriostatic additive is included to protect against growth of bacteria and other impurities in portable unit. Unit is completely assembled and water tested prior to shipment.

Sellstrom's water collection tanks provide a quick, clean option for water disposal and testing. The tank is equipped with a roller base that locks into place so it is easy to move and store around facility. A drain plug is also provided for easy disposal.

### A. SENTRY® Dry Chemical Extinguishers

Dry chemical extinguishers are designed for protection of light, ordinary and extra high hazards. These compact and portable extinguishers are suited for both industrial and commercial fire protection needs. All extinguishers are designed to fit most wall mounted storage cabinets. Typical applications include light manufacturing, warehousing, restaurants, office buildings, shop areas, auto repair shops, paint process areas, welding areas, machinery, apartment buildings, parking garages, aircraft servicing areas, material handling vehicles and many others. DOT and USCG approved with proper bracket. Meets or exceeds requirements of ANSI/UL 299 and 711.

### A. Smokers Cease-Fire® Cigarette Butt Receptacle

Utilizing Justrite's proven Cease-Fire® technology, the Smokers Cease-Fire® innovative self-extinguishing design safely collects unsightly cigarette butts and reduces the risk of fire. Made of flame-retardant, sturdy polyethylene, this low-maintenance smoker's friend won't rust, dent or crack. Unique rain bonnet opening keeps rain out and discourages other trash. Simply lift off lid to empty big galvanized steel pail inside. Tie-down notches offer security and greater stability under severe weather conditions. In high humidity environments, unique "drip-lip" internal construction prevents tar condensation from escaping. FM Approved. Other colors available but not commonly stocked. ADA compliant.

### A. 2AA ProPolymer®

Tough, super-convenient, extra bright flashlight. Now with a push-button tail switch. It's co-molded grip ensures it'll stay in your hand.

SKU	Description	UOM	Price
STRE67101	2AA LED yellow with alkaline batteries	EA	\$26.02

### B. 4AA ProPolymer®

The 4AA ProPolymer is a tough, waterproof, super-bright alkaline battery-powered flashlight with one high-intensity xenon bulb that provides 11,000 peak beam candlepower. The 4AA ProPolymer LED is an impact and shock resistant LED flashlight that provides 155 hours of run time. Features 7 ultra-bright 100,000-hour life LEDs. The 4AA ProPolymer LUX are now C4® LED with 100 lumens, 6 hour runtime. All are ergonomically shaped for maximum hand comfort.

SKU	Description	UOM	Price
STRE68602	4AA LUX DIV 1 yellow with alkaline batteries	EA	\$51.32
STRE68244	4AA LUX DIV 2 yellow with alkaline batteries	EA	\$47.37

### C. 3C ProPolymer®

The 3C ProPolymer is a powerful and incredibly handy flashlight that features a momentary blink or constant on tail cap switch. The 3C ProPolymer LED is an impact and shock resistant LED flashlight that provides 336 hours of run time.

SKU	Description	UOM	Price
STRE33202	3C LED yellow batteries not included	EA	\$48.32

### D. TRIDENT® Headlamp

When you need a light that will provide you with the broadest range of lighting applications for everyday use, whether distance or "up close" work, the multi-purpose Trident headlamp provides a good mix of both for users. C4 LED for super-bright light with usable range: 4,000 candela peak beam intensity; 80 lumens; 126m beam distance; 5 hour run time. Push-button switch is easy to use when wearing gloves and is recessed to protect it from inadvertent activation. 90° tilting head features a robust ratcheting system; prevents neck fatigue. Includes elastic head strap and rubber hard hat strap.

SKU	Description	UOM	Price
STRE61050	Trident with alkaline batteries	EA	\$30.60

### E. Argo® Headlamp

If you often find yourself needing to illuminate objects at a distance, the long-range capability of the Argo delivers a far-reaching beam. High for maximum output with a long-range beam distance: 150 lumens, 9,250 candela peak beam intensity, 3 hour run time, 190m beam distance. Push-button switch is easy to use when wearing gloves and is recessed to protect it from inadvertent activation. 90° tilting head features a robust ratcheting system; prevents neck fatigue. Durable, co-molded rubber body. Includes elastic head strap and rubber hard hat strap.

SKU	Description	UOM	Price
STRE61301	Argo headlamp w/3-AAA batteries	EA	\$39.47

### F. 3AA HAZ-LO® Headlamp

The first safety approved headlamp for Class 1, Div 1 hazardous locations! The 3AA Haz-LO is an engineered compact, high-performance, C4® LED headlamp to meet the stringent requirements of class 1, division 1 hazardous locations while maintaining exceptional light output and a long run time. LED delivers 120 Lumens for up to 11 hours. Intrinsically safe for use in atmospheres containing hazardous gases, vapors and liquids. Weighs 7.1 oz.

SKU	Description	UOM	Price
STRE61200	HAZ-LO w/3-AAA alkaline batteries	EA	\$52.89

### A. SabreLite™ Flashlight

The SabreLite is made of unbreakable Lexan EXL 9330 material with a hi-impact polycarbonate lens. The SabreLite has an exclusive state-of-the-art laser spot xenon lamp module that produces a tightly focused white light beam. Includes a belt clip, stainless-steel split ring and black lanyard allowing the flashlight to be attached to a pocket, belt or a hand. Accidental turn on and mechanical switch failure is eliminated because of the rotary on/off switch. It also includes a safety battery tray with 3C cell alkaline batteries (not included) in order to avoid accidents if the cells are inverted. Submersible. Made in USA.

SKU	Description	Color	UOM	Price
PEL2000B	SabreLite, boxed	Black	EA	\$33.85
PEL2000Y	SabreLite, boxed	Yellow	EA	\$33.85

### B. PeliLite™

The PeliLite™ is made of unbreakable ABS material with a hi-impact polycarbonate lens. Its laser spot Xenon lamp module can cut through, smoke, fog, and rain, making it a perfect light source for all applications. Accidental turn on and mechanical switch failure is eliminated because of the rotary on/off switch. It requires 2-C cell alkaline batteries (not included) and is submersible. FM, CSA and MSHA approved. Made in the USA.

SKU	Description	UOM	Price
PEL1800C	Super PeliLite flashlight	PK	\$27.53

### C. MityLite™ Laser Flashlight

Unbreakable polycarbonate resin flashlight is 4 3/4" long. Its laser spot Xenon® lamp module can cut through water, smoke, fog and rain making it a perfect light source for all applications. The MityLite is compact, lightweight and equipped with a shirt clip, making it easy to fit into pockets, purses, tool kits, camera bags or glove compartments. Accidental turn on and mechanical switch failure is eliminated because of the rotary on/off switch. CSA and UL approved. Made in the USA.

SKU	Description	Color	UOM	Price
PEL1900M	Laser flashlight	Black	EA	\$13.00

### D. Tracker™ Light

Tracker™ is a handy pocket flashlight of 3-1/2" (9 cm) in length which attaches to almost anything making it an ideal hands free flashlight. The Tracker™ easily fits into tool/fishing boxes, photographer's equipment, travel bags and is perfect for any outdoor activity, scuba diving, home, office or emergency lighting. Submersible to 500 feet, the Tracker™ is ideal for anyone to use as a warning or emergency light. It includes 2-AAA cell Alkaline batteries and is UL approved. You break it, we replace it... forever.

SKU	Description	UOM	Price
PEL2140	Tracker light	EA	\$15.18

### E. VersaBrite®

VersaBrite is made of Xenoy/Polycarbonate material. The VersaBrite features a multiple position swivel head that allows you to point the bright beam where you need it. Due to its compact size and only 3.17 oz of weight, the VersaBrite securely clips on to visors, caps and clothing. A head strap, Velcro and clip are available to keep hands free to work. It includes 2-AA cell alkaline batteries and is water-resistant (not for diving applications).

SKU	Description	UOM	Price
PEL2250	VersaBrite	EA	\$22.65

### A. Bright Star Industrial Flashlight

Specially designed to provide durable reliability for the industrial markets. Sure-gripped ribbed case is molded from a specialty blended industrial polypropylene that resists most chemicals, oils and grease. Switch guard prevents accidental lighting. Features unbreakable Tuflexx® lens, anti-roll design with lens ring standoffs, ABS plastic ring hanger and spare bulb compartment.

SKU	Description	Color	UOM	Price
BRI2618	2 D-cell flashlight	Yellow	EA	\$8.05

### B. Bright Star WorkSAFE® D-Cell Flashlights

WorkSAFE flashlights feature a crush-resistant case, unbreakable lens, switch guard, spare bulb holder, ring hanger and anti-roll design. Molded in international safety orange. UL, CSA and MSHA approved for Division 1 hazardous locations. The waterproof design of these safety-approved lights make them ideal for places where safety is necessary and water is a concern. Each flashlight features a waterproof 3-way switch. When in the middle position, the button on the switch can be pressed to provide intermittent light.

SKU	Description	UOM	Price
BRI2117	2 D-cell flashlight	EA	\$10.15
BRI2217	2 D-cell waterproof flashlight	EA	\$12.84

### C. Industrial 2D Value Bright Light

The Industrial 2D Value Bright Light runs off two D cell batteries. It is made of heavy duty polyethylene with a polystyrene lens. Features 2750 peak beam candlepower, a lanyard for hanging or use as a wrist strap and an easy to slide switch.

SKU	Description	UOM	Price
RAYIV2D	Industrial 2D value bright light	EA	\$2.93

### D. Lighted Aircraft Wand

A versatile, multi-use that sets the industry standard for: marshalling aircraft, directing traffic, directing pedestrians and construction zones. It is the brightest, most durable LED Wand on the market and is water-proof, grease-proof and spark-proof. Three super-bright LEDs provide 100,000 hours of burn time while 2 "C" batteries will last up to 300 hours. Features a heavy-duty switch for smooth, reliable functions. This wand has less breakage; less "walk-offs," and is UL rated for hazardous locations. Patented.

SKU	Description	UOM	Price
NEW3251-00E	Lighted aircraft wand	EA	\$12.05

**A**

### A. Alkaline Batteries

Rayovac alkaline batteries are the smart choice for your battery-powered devices because they last as long as other leading brands, but cost less.

SKU	Description	UOM	Price
RAYOAL-9V	Alkaline batteries 9V	EA	\$1.89
RAYOAL-AA	Alkaline batteries AA	EA	\$ .48
RAYOAL-AAA	Alkaline batteries AAA	EA	\$ .48
RAYOAL-C	Alkaline batteries C	EA	\$ .93
RAYOAL-D	Alkaline batteries D	EA	\$ .98

### B. OLFA Self-Retracting Safety Cutter

The SK-8 is a fully automatic heavy duty automatic self-retracting safety knife. It is an extra protection safety cutter featuring a blade that automatically retracts the instant it loses contact with material being cut, even when the blade slider is engaged. By simply reversing the way the blade fits into the blade slide, this knife can be used right or left handed. The contoured handle cushions your hand as you cut and is non-slip.

SKU	Description	UOM	Price
OLFASK-8	Self-retracting safety cutter	EA	\$15.19
OLFASKB-8	Self-retracting cutter replacement blades 10/PK	PK	\$6.23

**B**

SKB-8

### C. OLFA Compact Safety Cutter

The OLFA SK-7 has a compact handle designed to fit any size hand. It has a spring retractable safety design. It will automatically retract the instant the blade loses contact with the cutting surface. By simply reversing the way the blade fits into the blade slide, this knife can be used right or left handed. The blade slide is recessed so the user can easily slide the cutter into their pocket without fear of the blade being extended.

SKU	Description	UOM	Price
OLFASK-7	Compact safety cutter	EA	\$7.04
OLFASKB-7	Compact safety cutter replacement blades 10/PK	PK	\$5.42

SKB-7

### D. Duct Tape

Silver economy duct tape comes in rolls of 2" X 60 yd and can be used in bundling and packaging.

SKU	Description	UOM	Price
MUTU17807	Duct tape grey 2" X 60 yd	RL	\$4.40

**D**

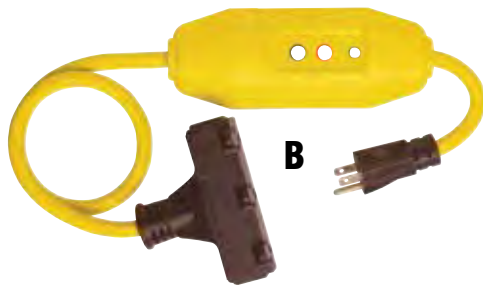

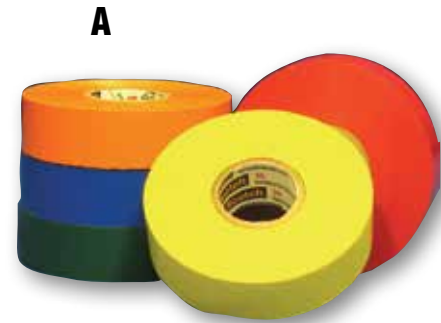

### A. 3M™ Scotch® Vinyl Electrical Tape

Primary electrical insulation for all wire and cable splices rated up to 600 volts. Resistant to weather, UV ray, abrasion, corrosion, alkalis and acids. Provides a protective jacketing for high voltage cable splices and repairs. Made in the USA.

SKU	Description	Color	UOM	Price
3M10828	Scotch vinyl electrical tape	White	RL	\$5.64
3M10836	Scotch vinyl electrical tape	Blue	RL	\$5.27
3M10844	Scotch vinyl electrical tape	Yellow	RL	\$5.27
3M10851	Scotch vinyl electrical tape	Green	RL	\$5.27
3M10869	Scotch vinyl electrical tape	Orange	RL	\$5.62
3M10810	Scotch vinyl electrical tape	Red	RL	\$5.64

### B. In-Line GFCI

In-line GFCI protection from ground faults and open neutral conditions anywhere electrical equipment is used. Rainproof outdoor rated. UL listed and meets OSHA specifications.

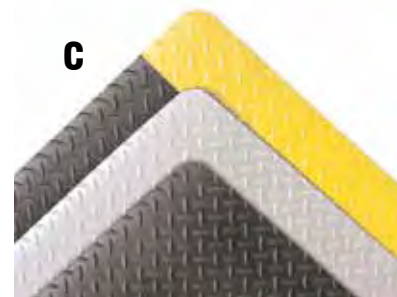

SKU	Description	Card	Length	Amps	UOM	Price
MSSGFCI3OUT	In-line GFCI and triple tap cord set 125V	12/3 AWG SJTW	3'	15A	EA	\$32.50

### C. Cushion Trax®

Cushion Trax® is engineered to meet the toughest requirements of today's industrial applications and is particularly suited for multi-shift operations in dry work areas. The durable vinyl diamond-plate design provides non-directional traction, and is easy to clean. The top surface is combined with a dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. Contact customer service for other sizes and colors.

SKU	Description	Size	Color	UOM	Price
SUP479S0023Y	Cushion Trax	2' x 3'	Yellow & Black	EA	\$58.55
SUP479-23BL	Cushion Trax	2' x 3'	Black	EA	\$52.48
SUP479S0035Y	Cushion Trax	3' x 5'	Yellow & Black	EA	\$146.37
SUP479-35BL	Cushion Trax	3' x 5'	Black	EA	\$131.21

### D. Outdoor Convex Detection Mirrors

Outdoor Convex Detection Mirrors help monitor blind spots and are designed to prevent intersection accidents in an industrial application. Convex mirrors can be positioned to reflect a hidden area to a forklift operator. These mirrors can also be directed to allow equipment operators to view co-workers approaching from behind to reduce accidents.

SKU	Description	Size	UOM	Price
SEKCVO-36	Mirror outdoor convex	36"	EA	\$189.91

### A. The Forklift Spotter

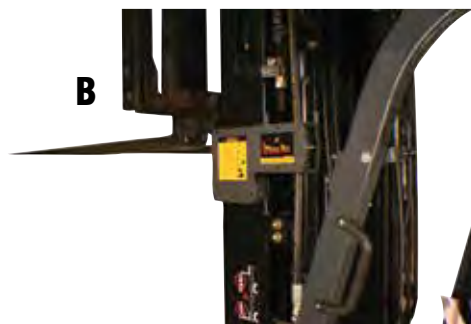

The Forklift Spotter provides visual warning for pedestrians and promotes greater safety with a bright blue spot beam pattern projecting onto the ground. It features a UV-resistant polycarbonate lens, rugged aluminum housing that prevents rust and corrosion. Configured for 12-48 VDC. Long-lasting LEDs (30,000 Hour Service Life) means never having to replace another bulb! Optional universal mounting kit.

SKU	Description	UOM	Price
IDL701095	The Forklift Spotter	EA	\$185.97
IDL7010911	The Forklift Spotter Universal Mounting Bracket	EA	\$26.28
IRN7010951	Warning Safety Sign	EA	

### B. Accu-Tilt Fork Tilt Level Indicator

The Accu-Tilt shows the operator the level of the forks at all times thereby reducing potential damage by piercing product or racking and increasing productivity by eliminating the guess work.

SKU	Description	UOM	Price
IRN701000	Accu-Tilt Fork Tilt Level Indicator	EA	\$174.14

### C. Accu-Height Fork Height Level Indicator

The higher the lift, the harder it is to judge the correct height of the forks. Accu-Height is a simple sticker set that allows the operator to quickly know the right height of the forks at various rack levels. By matching the indicator sticker with the color marker, the correct fork height is obtained to enter the pallet safely. The second marker indicates the safe lift height of the pallet to be either removed from the rack or to be placed in to the rack.

SKU	Description	UOM	Price
IDL701100	Accu-Height Fork Height Level Indicator	EA	\$27.15

### D. Anti-Blind Spot Dome Mirror

Lift truck operators need to know what is going on all around the lift truck. This mirror gives a complete 180° view allowing the operator to give a quick safety check before they travel in reverse.

SKU	Description	UOM	Price
IRN701130	Anti-Blind Spot Dome Mirror, double sided tape	EA	\$53.65
IRN701140	Anti-Blind Spot Dome Mirror, magnet arm	EA	\$76.80

### E. Ergo Back-Up Handle

Reduce back strain with the Ergo Back-up Handle. Operators who are required to travel frequently in reverse often grab the overhead guard.

SKU	Description	UOM	Price
IRN701080	Ergo Handle with Horn ( Hard Wire)	EA	\$79.19
IRN701090	Ergo Handle with Built in Horn (Battery)	EA	\$140.20

**A**

### A. Safe-Bump Forklift Protectors

Specifically designed for forklifts, these bumpers reduce damage in many applications. Safe-Bump attaches with two 100 lb magnets and (VHB) two way tape.

SKU	Description	UOM	Price
IDL701110	Safe-Bump Forklift Protectors	EA	\$75.20

**B**

### B. Forklift Battery Protective Handling PPE Kit

Occupational Health and Safety laws require that all personnel wear personal protective equipment (PPE) when performing all battery maintenance or replacement. The PPE kit comes with everything needed to stay compliant and safe.

Forklift batteries contain sulphuric acid which is a hazardous material and the MSDS information requires personnel to wear particular PPE.

This complete forklift battery handling personal protective equipment kit mounts conveniently on any wall so that everything is within easy reach.

SKU	Description	UOM	Price
IDL701170	Forklift Battery Protective Handling PPE Kit	EA	\$157.03

### C. Forklift Battery Watering Gun

Keep your batteries properly filled and keep your battery tops dry by using our SFS watering gun. The forklift battery watering gun will help with the battery maintenance and care for your forklift battery. The front trigger battery watering gun safely and easily adds water to your industrial batteries. The gun automatically shuts off at the correct fill level every time. This gives an accurate cell fill every time without back strain or the risk of an acid splash.

SKU	Description	UOM	Price
IRN701180	Forklift battery watering gun	EA	\$130.43

**C**

**D**

### D. Dissipater Forklift Battery Cap

The Dissipater Battery cap makes battery maintenance easy with its revolutionary technology. It maximizes your forklift battery's potential and reduces watering intervals by returning 80% of the evaporated water back into the battery. Its ergonomic design and durable housing that is resistant against battery acid makes the Dissipater an effective battery maintenance tool. Use the Dissipater cap on all industrial batteries such as a forklift battery, lift truck battery, Aerial Work Platform battery and golf cart battery.

SKU	Description	UOM	Price
IRN701150	Dissipater forklift battery cap, yellow	EA	\$8.69

### A. Portable Safety Zone

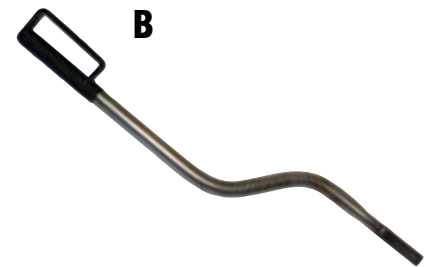

The Portable Safety Zone design utilizes features representing the breakthrough in 'ease of use' barrier systems. It is lightweight and balanced for easy transportation by one operator and features a robust construction in 'safety orange' powder coated steel. The Portable Safety Zone comes complete with 100' safety orange fencing, 4 posts, 4 rubber base pads and 4 magnetic fence clips. The unique fence locking system ensures a sturdy fence assembly. Easily fits through 30" doorways, suitable for both indoor & outdoor applications on smooth surfaces.

SKU	Description	UOM	Price
IRN706030	Portable Safety Zone	EA	\$1056.25

### B. Trailer Lock Power Lever

The Trailer Lock Power Lever makes short work of stubborn container door handles that are difficult to move because of their small size and are often jammed, especially in snow and ice conditions. Just slip the tool over the door locking handles and easily use the extra leverage provided by the Trailer Lock Power Lever to open the doors. The extra leverage reduces operator strain and can help prevent injury. Additional safety is provided by the handle guard to help prevent scrapes and bruises. The Trailer Lock Power Lever can also be used as a "Tire Thumper" to check for adequate tire pressure.

SKU	Description	UOM	Price
IRN705000	Trailer Lock Power Lever	EA	\$205.07

### C. Auto-Stand Plus

When fork-trucks load at the front of trailers, the trailer can become nose heavy and tip. This hazardous situation can be prevented by using Trailer Stands. The AutoStand Plus has unique features which make it user friendly, simple to move, and easy to operate, eliminating the need for strenuous motions required by other stands.

SKU	Description	UOM	Price
IRN605444	Auto-Stand Plus	EA	\$809.77

### D. Auto-Stand

When fork-trucks load at the front of trailers, the trailer can become nose heavy and tip. This hazardous situation can be prevented by using Trailer Stands. The Auto-Stand has Long and wide positioning handles with grips for easy positioning. Gas activated, self-leveling system with security pin.

SKU	Description	UOM	Price
IRN605452	Auto-Stand	EA	\$522.43

### E. Ratchet Top Stabilizing Jack

When fork-trucks load at the front of trailers, the trailer can become nose heavy and tip. This hazardous situation can be prevented by using Trailer Stands. Ratchet jack 100,000 lb. Static Load Capacity 8" diameter support pad.

SKU	Description	UOM	Price
IRN605453	Ratchet Top Stabilizing Jack	EA	\$284.81

## A. Barricade Construction Tag

Barricade construction tags allow workers to label a construction site by the dangers it presents. Come 25 per pack and with wire ties; made of vinyl.

SKU	Description	UOM	Price
MSS120	Barricade construction tag yellow, vinyl	25/PK	\$16.48

B

## B. Danger Tag

The blank danger tag warns workers to be alert and allows you to write the specific hazard on the card. Made of vinyl or cardstock and come 25 per pack.

SKU	Description	UOM	Price
MSS124	Danger tag-blank, vinyl	25/PK	\$16.48
MSS124-1	Danger tag-blank, cardstock	25/PK	\$7.10

## C. Scaffold Tags

Clearly label the safety of a scaffold using this daily inspection tags. Available in three colors and two durable materials.

SKU	Description	Type	Color	UOM	Price
MSS8137122R	Scaffold tags	Cardstock	Red	PK	\$7.10

**C**

ALLE4400

ALLE4500

### C. Respirator Storage Wall Case

Perfect for storing APRs, cartridges and other respirator accessories such as fit testing kits, storage bags and cleaning supplies. Exterior: 14"W x 9-1/2"D x 18"H. Interior: 12"W x 7-1/2"D x 16"H. Weight: 4 lbs.

SKU	Description	UOM	Price
ALLE4400	Respirator storage wall case, Ext: 14"W x 9-1/2"D x 18"H. Int: 12"W x 7-1/2"D x 16"H	EA	\$131.58
ALLE4500	Emergency respirator wall case, Ext: 14"W x 9-1/2"D x 21"H. Int: 12"W x 7-1/2"D x 19"H	EA	\$131.58

### D. AED Wall Cabinet

Metal case comes in corrosion resistant electro-static white finish. Defibrillator graphics are dominantly displayed. Other features include a 13" x 13" window on door front, right hand door opening and recessed handle. Also included is a battery operated alarm. Includes metal shelf. The 4210-S has a battery operated audio alarm and fully sealed water-proof strobe. Exterior: 20-1/4"W x 9-1/4"D x 20-1/4"H. Interior: 20-/18"W x 8-3/4"D x 20"H.

SKU	Description	UOM	Price
ALLE4210-01	AED wall cabinet small with alarm	EA	\$296.49

**D**

# Seasonal PPE

# COLD STRESS

## WORK/WARM-UP SCHEDULE

### FOR A 4 HR SHIFT

#### HOW TO USE THIS SCHEDULE:

- Across the top row, locate today's predicted wind speed.
- Down the left side, locate today's predicted air temperature.
- Follow across and down to find the recommended work time and warm-up/break-time in a four hour shift. Example: if the wind speed is 5 mph with an air temp of -20°F/29°C, workers shouldn't be outside for longer than 75 minutes at a time and should take a minimum of two, 10 minute breaks (warm-ups) in a heated area during a four-hour shift.

Limiting exposure to the cold is key in the prevention of cold stress. It's especially dangerous as temperatures lower and wind speed increases. Below is a work/warm-up schedule for workers based on the air temperature and wind speed of the environment:

AIR TEMPERATURE		NO NOTICEABLE WIND		5 MPH/8 KPH WIND		10 MPH/16 KPH WIND		15 MPH/24 KPH WIND		20 MPH/32 KPH WIND	
°C (approx.)	°F (approx.)	Maximum Work Period	Number of Breaks (>10 mins each)	Maximum Work Period	Number of Breaks (>10 mins each)	Maximum Work Period	Number of Breaks (>10 mins each)	Maximum Work Period	Number of Breaks (>10 mins each)	Maximum Work Period	Number of Breaks (>10 mins each)

■ HexArmor Protection Zone - ISEA CUT:5 CE 4543  
 ■ Impact Protection

### A. HexArmor® GGT5® Arctic Gator® 4031

The synthesis of the most advanced HexArmor® technologies shouldn't only be available at room temperature. That's why HexArmor® took the industry's highest level of cut protection and impact resistance, combined them, and then added layers of Hipora® and C40 Thinsulate™. Now your gloves can combat challenging conditions while your hands stay safe. The GGT Arctic Gator™ 4031 gives you Level 5 cut protection on the palm and fingers, with an additional reinforcing layer of TP-X™ technology for high grip and durability. The Hi-Vis back-of-hand supports our IR-X™ impact-resistant exoskeleton, so your entire hand is guarded from smash injuries down to each knuckle. All of this was achieved while maintaining the highest movement allowance, so your dexterity is preserved, and you can face the cold with confidence.

# HEAT INDEX CHART - PLAN AHEAD & STAY SAFE

## How To Use Heat Index

Locate today's predicted high temperature across the top line (air temp.) Down the left side (relative humidity) locate today's predicted humidity. Follow across and down to find "Apparent Temperature" or "What it feels like." Keep in mind, this chart was devised for shady, light wind conditions, so exposure to full sun can increase values by up to 15°. Strong winds, particularly with hot, dry air can be extremely hazardous.

Source: National Oceanic & Atmospheric Association & OSHA

Air Temp.	70°F 21°C	75°F 24°C	80°F 26°C	85°F 29°C	90°F 32°C	95°F 35°C	100°F 38°C	105°F 41°C	110°F 43°C

### C. TEGGEN® Select 6.25 oz Coverall

TEGGEN® Select protects you from radiant heat, electric arc fires and flash fires, just like bulkier clothing. Only it isn't bulky. In fact, it's downright comfortable - and stays that way - even as the heat rises, because the patented fiber actually sucks moisture from your skin, where it quickly evaporates keeping you cool. Hey, firefighters wear this kind of stuff. Why shouldn't you? Lightweight 6.25 oz, inherently FR - will never wash or wear away. High air permeability means greater comfort with inherent moisture transport. Available in tan and navy blue. Specify size S - 7X. **CAT 2, NFPA 70E and NFPA 2112 compliant.**

## Heat Stress

by Honeywell

### A. Sunbrero

Sunbrero extends brim of a hard cap for shade. The one piece construction requires no assembly and the gray tint blocks 99% of UV rays. Easy to install and remove. Fits Fibre-Metal caps and hats.

SKU	Description	UOM	Price
FIBFMP-SB-1	Sunbrero hat model	EA	\$12.19
FIBFMP-SB-2	Sunbrero cap model	EA	\$11.75

### B. Sun Shields

Sun Shields attach to your existing hard hat and extend the brim all the way around to help protect wearer's ears and neck from the sun's rays. Made of polyurethane.

SKU	Description	UOM	Price
PAUA-S4-M	Sun Shield for V-Gard & Fibre-Metal full brim hats	EA	\$14.26
PAUA-S4-MT	Sun Shield for Topguard hard hats	EA	\$14.26
PAUA-S5-F	Sun Shield for Fibre-Metal caps	EA	\$14.26
PAUA-S5-M	Sun Shield for V-Gard caps	EA	\$14.26

### C. Radians SunShade Hard Hat Accessory

Lightweight cooling device. Protects neck by shading from harmful UV rays. FR: "Non-durable FR protection" is achieved by chemically treating a material that is not naturally flame-resistant, but becomes self-extinguishing after the treatment. Contrasting Trim Detail. NFPA 701 (2004) FR Treated 100% polyester mesh. Fits both cap style and full brim hard hats.

SKU	Description	UOM	Price
RADNSG	Hi-Viz yellow-green SunShade w/ reflective stripe (helmet not included)	EA	\$6.00
RADNSO	Hi-Viz orange SunShade w/ reflective stripe (helmet not included)	EA	\$6.00

### D. Hard Hat Shade

Fits almost every hard hat. Blocks sun and most UV rays. Shade at back of neck facilitates perspiration evaporation. Helps keep workers comfortable.

SKU	Description	UOM	Price
OCCU898-008	White hard hat shade	EA	\$7.00
OCCU898-028	Royal blue hard hat shade	EA	\$7.00

### E. Chill-Its® 6717 Hard Hat Pad and Neck Shade

This hard hat pad and neck shade provides cool comfort 24 to 48 hours when activated in cold water. Ideal for all warm work, Chill-Its body technologies help workers stay cool, fight fatigue, and increase productivity.

SKU	Description	Color	Size	UOM	Price
ERG6717	Hard hat pad with neck shade	Solid blue	One size	EA	\$4.06

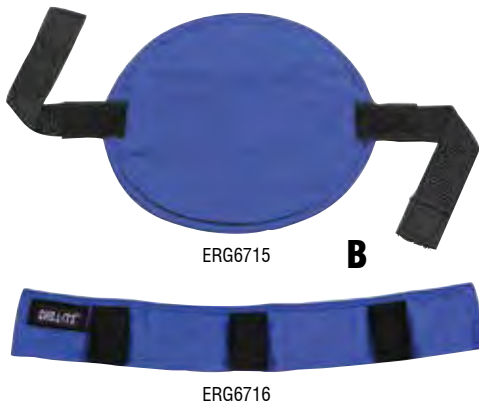

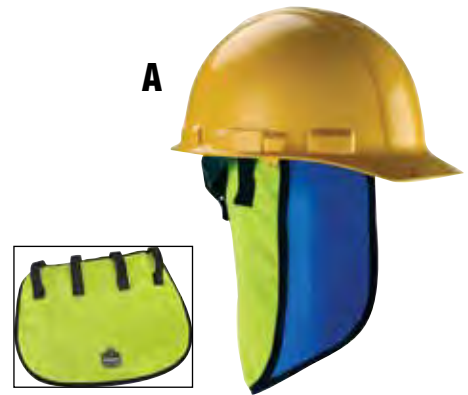

**A. Chill-Its® 6670CT Evaporative Hard Hat Neck Shade**

Keeps the sun off while delivering cool comfort to your neck. Advanced PVA material activates easily and quickly when run under water for one minute. Super-evaporative cooling process helps keep you cool. Hook and Loop straps for easy attachment. Re-usable, just re-wet.

SKU	Description	UOM	Price
ERG6670CT	Evaporative hard hat neck shade, lime	EA	\$13.99

**B. Chill-Its® 6715 Hard Hat Pad/6716 Hard Hat Liner**

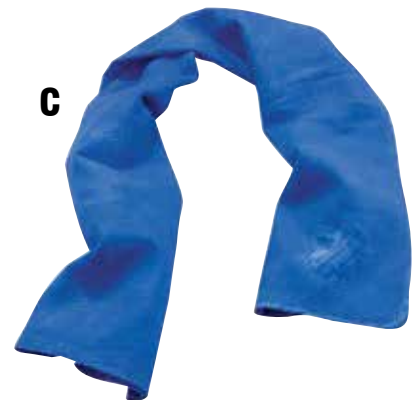

These hard hat inserts provide cool comfort 24 to 48 hours when activated in cold water. Ideal for all warm work, Chill-Its body technologies help workers stay cool, fight fatigue and increase productivity.

SKU	Description	Size	Color	UOM	Price
ERG6715	Cooling hard hat pad	Solid blue	One size	EA	\$2.44

### A. Chrome Oasis™ 4030

In a heated situation, comfort should be the last thing on your mind. HexArmor® wants to keep it that way. HexArmor added HexVent™ to their most popular mechanic's glove, to provide you with the highest level of cut and impact protection on the market while making sure you aren't overheating due to your PPE. This advanced breathable technology supports our Hi-Vis impact-resistance system, and a layer of Cut 5 SuperFabric® brand material gives you both superior safety and peace of mind. The combination of HexVent™, HexArmor's standard pre-curve design, and double-stitched seams provides added dexterity and durability. Now you can focus on your work, and we'll focus on your comfort and safety.

### B. Chrome Core Oasis™ 4035

Comfort shouldn't be a luxury, and we at HexArmor® know that safety certainly isn't. That's the reasoning behind our Chrome Core Oasis™ 4035 – a sleek, hi-vis mechanic's glove with a SuperFabric® brand material palm and a HexVent® back of hand. Built to beat the heat, the Chrome Core Oasis™ 4035 also beats laceration hazards with the most advanced technology on the market. With features such as our pre-curved design and double-stitched side seams, you won't have to give up dexterity for the highest level of safety. Our patented SlipFit® cuff also means an easy on and off between jobs.

### C. Rig Lizard Oasis™ 2022

In the most extreme work environments, the heat can be nearly unbearable. Outdated leather protective gloves often make this situation worse. Fortunately, HexArmor® listened, and is proud to offer the Rig Lizard Oasis™ 2022. They have created a unique ventilation technology, called HexVent™; an advanced nylon mesh that supports our IR-X™ Impact Exoskeleton™, so you have the distinct advantage of a lightweight, breathable glove without sacrificing any of our industry-leading smash protection. Combining this innovation with our proprietary TP-X™ synthetic high-grip palm yields the level of safety and dexterity you require. ISEA Level 3 cut and puncture protection.

### D. Rig Lizard Thin Lizzie™ 2090

The secondary line of palm-coated gloves from HexArmor®, the 2000 Series™ is purpose-built for an impressive range of applications. Each product in this series is constructed of fiber blend and unique palm coatings. Glove structures are durable, flexible, and cut resistant, offering both dexterity and safety. Varying palm dips increase abrasion resistance, extend product life, and provide the highest grip for many specific uses. The shell is comprised of a 13-gauge high-performance polyethylene and glass fiber blend. Superior back-of-hand impact protection system utilizes an advanced design to dissipate forceful blows over a large area. Sandy Nitrile palm dip increases abrasion resistance and provides exceptional grip in heavy oil and wet situations. Machine washable.

### A. Powder Pack™ Mixes

Great tasting, scientifically formulated electrolyte replacement drink is designed to restore important mineral salts and fluids lost through dehydration, physical exertion and heat stress. Sqwincher is more satisfying than water or soft drinks because the body absorbs it more quickly and restores it to its proper electrolyte and fluid balance. Powder Pack mixes quickly and easily with water. Sqwincher is the natural recovery source for dehydration. Powder Pack concentrate mixes are available in 1, 2 1/2, or a 5 gallon packet.

### C. Spreadable Geraniol For Yard & Garden

Outdoor activities for children and adults need not be a battle with biting insects. Whether you are responsible for a children's playground or having an outdoor event at your home, Bug-Band™ Spreadable Geraniol Insect Repellent is a "must have" item. Easily apply the granular repellent from the shaker bottle or with your own spreader. Repeat the application every two days or after rain to repel such pests as mosquitoes, flies, gnats, no-see-ums and fleas.

BUG88991M	4.3 lbs BugBand shaker bottle	EA	\$18.05
BUG88992	160 lbs BugBand fiber drum	EA	\$397.01

**D**

### D. Pump Spray

Perfect for when you need heavy-duty protection, BugBand™ spray lotion does not contain any propellants, but relies on a highly effective metered pump sprayer to dispense a fine mist of Geraniol lotion over the area to be treated. By spraying the BugBand™ liquid directly on clothing or skin, the Geraniol vapors form a protective barrier to deter blood-sucking insects from biting. It is ideal for use around the ankles, wrist or neck where insects tend to invade clothing. Use once for hours of insect protection. Effective against mosquitoes, ticks, flies, gnats, no-see-ums and fleas. Retains FR properties when sprayed on Indura or Nomex.

SKU	Description	UOM	Price
BUG88336	BugBand pump spray bottle, 6 oz	EA	\$8.90

### E. OFF!® Insect Repellent

Available in our famous orange can, has remained one of the most popular repellents in the United States for over 40 years. Ideal for the entire family and is now available in fresh scent. This medium-strength repellent provides protection from mosquitoes, gnats, deer flies, sand flies, stable flies, black flies, ticks, chiggers and fleas. OFF! Insect Repellent contains 15% DEET and because it resists perspiration, it's a perfect choice for use at family activities like picnics, gardening, walks in the woods, and other activities. Deep Woods OFF! contains 25% DEET.

# Honeywell

### B. Metal Dual Opening Lockout Hasps

Dual opening metal lockout hasp. The opens measure 1-3/4" in diameter and 3/4" in diameter. The dual scissor type hasp is 5-1/4" in length. Accommodates six padlocks and is made of tempered steel.

SKU	Description	UOM	Price
ARK666	Lockout hasps	EA	\$6.90

### C. Adjustable Cable Lockout

The adjustable cable lockout is infinitely adjustable for a secure fit every time. Simply feed the cable end through the points to be locked out, then back through the lockout body. The tough, multi-strand 3/16" steel cable is rated at 1,000 lbs. minimum pull strength at the weakest point, which prevents accidental energizations. Up to 6 workers can apply locks for increased security. Cable can be replaced with the versatile 10'; cable in the same lockout body.

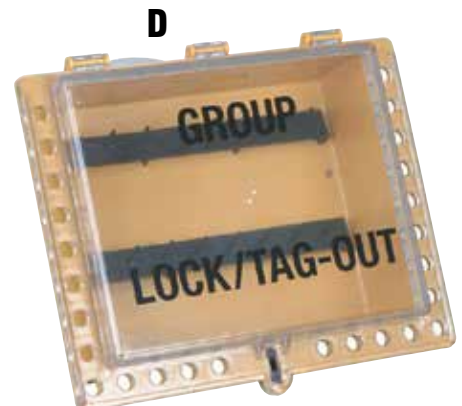

SKU	Description	UOM	Price
ARKCBLOK06R	6' cable lockout device	EA	\$19.79
ARKCBL10	10' replacement cable	EA	\$12.10

### D. Original Hinge Box

Features an extra key strip used to enable user to double the number of keys inside of box. These are a snap-in design and can be removed if not wanted. An external slot, for the purpose of adding another key, if needed, without having to unlock all existing locks that are normally in use during a shutdown. Also, are four 1/4" mounting holes-spaced on 9-3/8" centers to facilitate hanging the box. Improved slot type center hasp gives a much better appearance, yet still offers the same protection as before when properly used.

SKU	Description	UOM	Price
SAAB21184Y	Original hinge box	EA	\$86.06

# Honeywell

## A. Nylon Lockout Hasps

This safety lock hasp has a heavy-duty nylon construction that is unbreakable and is resistant to heat and cold. The M-Safe design allows more than one worker to lock out the same energy source for added safety. Accepts up to six padlocks with shackle diameters up to 3/8" and is dielectric.

*Lockout/Tagout Standard (29CFR 1910.147) requires that all energy sources be turned off and "locked out" while machines are being serviced or maintained.*

# Hi Visibility Safety & PPE

## VISIBLE - SAFE - COMFORTABLE

Radians knows visibility is a safety requirement in high traffic areas, around heavy equipment, and in poorly lit work environments. Hard work in these difficult places calls for noticeable solutions.

GlenGuard<sup>®</sup> 

3M Scotchlite<sup>™</sup>  
Reflective Material

RADICALLY  
VISIBLE<sup>™</sup>

**ANSI/ISEA 107-2010 CLASS 2:** Background Fabric: 775 Square Inches;  
Reflective Material: 201 Square Inches; Minimum Reflective Width: 1.375 Inches

Ideal for workers who require greater visibility under inclement weather conditions - Or when work backgrounds are complex - Or when tasks divert attention from approaching vehicle traffic.

**APPLICATIONS:** Roadway construction workers / Utility workers / Survey crews / Railroad workers / School crossing guards / Airport baggage handlers / Law enforcement personnel / Emergency response personnel

**ANSI/ISEA 107-2010 CLASS 3:** Background Fabric: 1240 Square Inches;  
Reflective Material: 310 Square Inches; Minimum Reflective Width: 2 Inch

Ideal for workers and vehicle operators whose heavy task loads place them in danger - Or the wearer must be conspicuous through the full range of body motions at a minimum of 1,280 ft. - Or when wearer must be identifiable as a person.

**APPLICATIONS:** Roadway construction workers / Utility workers / Survey crews / Emergency response personnel

**ANSI/ISEA 207-2011 STANDARD:** Background Fabric: 450 Square Inches;  
Reflective Material: 201 Square Inches; Minimum Reflective Width: 2 Inch

The use of ANSI 207 Public Safety compliant garments is included as an option for emergency, incident responders and law enforcement officers to meet the requirements of the ANSI regulation in lieu of ANSI 107.

**APPLICATIONS:** Public Safety / Law Enforcement / First Responders

**FR ASTM 1506 and NFPA 701 STANDARDS:** FR ASTM 1506 and SE D6413 STANDARDS: Products that meet ASTM 1506 standards are inherently flame resistant, while SE D6413 products are chemically treated to make the base fiber flame retardant.

Ideal for any worker requiring high visibility and protection from flames, sparks, arc flashes and other possible introductions to flammable situations.

**APPLICATIONS:** Utility Workers / Welding / Public Safety / Oil Fields / First Responders / Petrochem Refining / Shipyards

## A. Economy Surveyor Vest Class 2 with Zipper Closure

These class 2 vests feature a zipper closure. It has a 2" silver tape reflective material. 1 horizontal stripe. Types of pockets include: 1 upper left front and 1 lower right inside. Made of 100% polyester mesh and come in hi-viz green or hi-viz orange.

MR500017-500	Plastic chain 2"	500 FT	Orange	BX	\$458.64

### B. Stanchion Sign Holder Adapter

The Sign Adapter allows you to attach a sign to your stanchion. Simply replace the ball top with the Sign Adapter and insert your sign. May accommodate signs up to 1/16" thick, 1.25" deep. Attaches to 3" diameter pole.

SKU	Description	Color	UOM	Price
MR93001	Sign holder adapter 3" dia	White	EA	\$31.92
MR93002	Sign holder adapter 3" dia	Yellow	EA	\$31.92
MR93005	Sign holder adapter 3" dia	Red	EA	\$31.92
MR93017	Sign holder adapter 3" dia	Orange	EA	\$5.79

### C. Traffic Stanchions

These heavy duty stanchions have a 32" pole (3" diameter), 4.5" ball top, 16" hollow base that can be filled with sand or gravel for extra stability. C-hook included.

SKU	Description	Color	UOM	Price
MR99901-4	Traffic Stanchion 3" dia heavy duty	White	EA	\$144.11
MR99902-4	Traffic Stanchion 3" dia heavy duty	Yellow	EA	\$144.11
MR99905-4	Traffic Stanchion 3" dia heavy duty	Red	EA	\$144.11
MR99917-4	Traffic Stanchion 3" dia heavy duty	Orange	EA	\$144.11
MR99945-4	Traffic Stanchion 3" dia. heavy duty DOT approved stripe	Orange/Silver	EA	\$243.92

MR99945-4

### D. Delineator Post & Base

Designed for maximum visibility, quick setup and low-maintenance, delineator post allows you to restrict access, identify hazards and direct traffic. Posts feature a "flare-bottom" design with one-inch wide right angle flare. Two 3" reflective collars insure visibility at low light levels. Delineator is 42" x 4" dia. Tested and certified to meet the crash worthy requirements of NCHRP- 350.

SKU	Description	UOM	Price
BENDT74223W	Delineator post & 12 lbs. base	EA	\$22.16

### E. Navicade Post & Base

The Navicade has a unique handle design with molded-in holes for mounting light and ropes. It can be used to rope work area. The snug fitting bases will not be knocked over by a car traveling down the roadway. Navicade is designed for easy placement and pick-up from a truck bed. Stackable for easy transportation or storage and is made of durable low-density polyethylene. Federal Highway Administration Approved, NCHRP 350 Compliant.

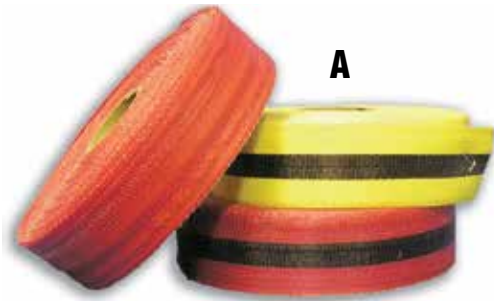

SKU	Description	UOM	Price
PLC650R104H	Navicade Post with 4" x 4" HIP stripes	EA	\$24.39
PLC650RB16	Navicade Post 16# base	EA	\$17.98
PLC650RB30	Navicade Post 30# base	EA	\$27.19

### A. Woven Barricade Tape

These 2" x 200' barricade tapes are made from woven polypropylene monofilament for extra strength and durability where you need it indoors or outdoors. Made to reuse as often as required.

SKU	Description	Size	Color	UOM	Price
ALLRB2200	Woven barricade tape	2" x 200'	Red/black	RL	\$7.49
ALLRED2200	Woven barricade tape	2" x 200'	Red/orange	RL	\$7.49
ALLYB2200	Woven barricade tape	2" x 200'	Black/yellow	RL	\$8.05

### B. Barrier Tape

Rugged 2 mil polyethylene barrier tape in high-visibility yellow or red provides identification and protection for above and below ground hazardous areas and elements such as high voltage cables, telecommunication lines, etc. 3" x 1,000 ft roll.

SKU	Description	Message	Color	UOM	Price
MSSDAN14998	Barrier tape	Danger	Red	RL	\$7.49

**C**

### C. Barricade Construction Hazard Tags

Tags meet OSHA's Lockout/Tagout standard (29CFR1910.47). Self-laminated to protect against weather and tampering and are metal-reinforced to withstand OSHA's 50 pound of tensile strength requirement. These tags are made of vinyl and come 25/pack.

SKU	Description	Color	UOM	Price
MSS120	Barricade construction hazard tag	Yellow with red letters	PK	\$16.48
MSS120A	Barricade construction hazard tag	Red with white letters	PK	\$16.48

### D. Rebar Caps

Patented Suprotek rebar covers protect employees against implements. The DONPC110 cover contains a curved steel plate, which provides additional protection against falls that occur from an angle. Cal. OSHA Approval #C7116AG. Meets Fed. OSHA Spec. #1926.701(b).

SKU	Description	Size	UOM	Price
DONPC110	Rebar cap	3-8	EA	\$2.22
DONPC200	Rebar cover	9-16	EA	\$3.47

**D**

### A. 48" Standard Roll-Up Signs

This 48" sign comes with fiberglass cross braces designed with plastic corner pockets that outlast all other designs and require less flexing to assemble. This makes the setup/break-down process quick and easy. Signs meet MUTCD specifications and are NCHRP-350 crash test approved when used with Dicke tripod or Uniflex stands. Available in non-reflective and reflective materials.

SKU	Description	Material	UOM	Price
DICRUNR48200	Be Prepared to Stop	Non-reflective	EA	\$65.71
DICRUNR482FL	Flagger Symbol	Non-reflective	EA	\$65.71
DICRUNR482ME	Men Working Symbol	Non-reflective	EA	\$65.71
DICRUNR482TR	Trucks Entering Highway	Non-reflective	EA	\$65.71
DICRUR48-200	Be Prepared to Stop	Reflective	EA	\$158.82

DICRUR482MEN	Men Working Symbol	Reflective	EA	\$158.82
DICRUR482TRU	Trucks Entering Highway	Reflective	EA	\$158.82

### B. Economy Tripod Sign Stand

This lightweight stand is made of durable, 1" O.D. galvanized mechanical tubing with no sharp edges. Displays 36" and 48" roll-up or rigid sign panels. Tripod design allows for quick and easy set-up. NCHRP-350 Test Level 2 compatibility with a roll-up sign panel. Crash test results available. Complies with MUTCD standards. Heavy duty model (DICT150) also available.

SKU	Description	UOM	Price
DICT50	Economy tripod stand, galvanized mechanical tubing	EA	\$43.92

### C. UniFlex™ Spring Loaded Sign Stand

Dicke's most versatile and economic compact spring stand features a vertical steel coil spring for windy conditions. The tripod displays both 36" and 48" roll-up signs and has a patented leg kick-release with two position height adjustment. The standard aluminum leg length is 30" and it telescopes to 51". The Uniflex stand meets the NCHRP-350 crash test standard when used with Dicke's roll-up signs.

SKU	Description	UOM	Price
DICUF2000W	UniFlex spring load sign stand	EA	\$156.29

### D. Stop/Slow Paddle Signs

Made of tough, durable, weatherproof aluminum. Paddle signs are lightweight and corrosion resistant.

SKU	Description	Size	Handle	Type	UOM	Price
SFSTSL18OCTR	Aluminum paddle signs reflective	18"	60"	Octagon	EA	\$57.25
SFSTSL18A-OC	Aluminum paddle signs	18"	10"	Octagon	EA	\$27.02

### A. Air Horn

The Signal 8 oz horn kit complete with trumpet. This kit is 100% safe for the ozone and 100% nonflammable. Meets USCG requirements as a signal device. The trumpet is made of a high impact plastic.

SKU	Description	UOM	Price
50074005	Air horn	EA	\$16.89
50074022	Air horn canister refill	EA	\$13.67

**B**

### B. Air Horn Pump

Eco-Friendly no replacement cans or chemicals. This air horn pump is easy to use and meets U.S. Coast Guard requirements for boats up to 65', Patent Pending. Not just for boating, use at sporting events or for your auto.

SKU	Description	UOM	Price
500746311	Air horn pump kit	EA	\$16.04

**C**

### C. Whistle

Command attention with the chrome plated whistle.

SKU	Description	UOM	Price
WR85	Whistle	EA	\$1.62
LY85	Lanyard for whistle	EA	\$.68

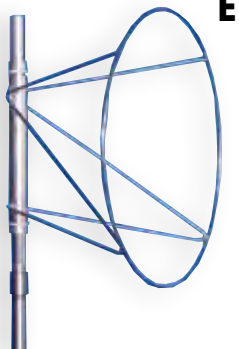

### D. Windsock

Wind tunnel tested. Windsock is designed for conditions in which safety and wind direction are of greatest importance. Constructed of nylon oxford cloth for strength and fly ability. Dyed bright orange for higher visibility. Throat and tail bands of heavy-duty cotton duck stitched with multiple rows of tough synthetic thread. Throat band finished with #2 brass grommets for easy lacing onto frame. Unlike canvas or vinyl, nylon flies with the slightest breeze.

SKU	Description	Throat Dia.	Length	Color	UOM	Price
ARAW10361	Windsock	10"	3'	Orange	EA	\$14.90
ARAW18481	Windsock	18"	4'	Orange	EA	\$47.95
ARAW18601	Windsock	18"	5'	Orange	EA	\$49.70

**D**

**E**

### E. Standard Unlighted Windsock Frame

Standard unlighted windsock frame is constructed of heavy-duty wire with sleeve and set collars. Zinc coated for weather protection and furnished with zinc coated pipe with standard threads for optional mounting. Rotates freely with no maintenance required.

SKU	Description	Frame Size	Sleeve ID	pipe OD	UOM	Price
ARAWF10	Unlighted windsock frame	10"	1 1/8"	1 1/16"	EA	\$58.68
ARAWF18	Unlighted windsock frame	18"	1 1/8"	1 1/16"	EA	\$94.53

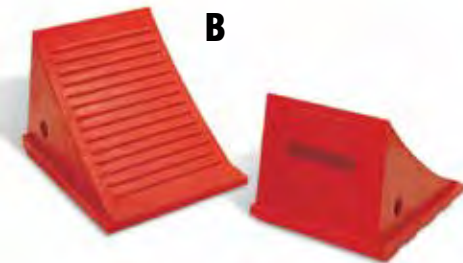

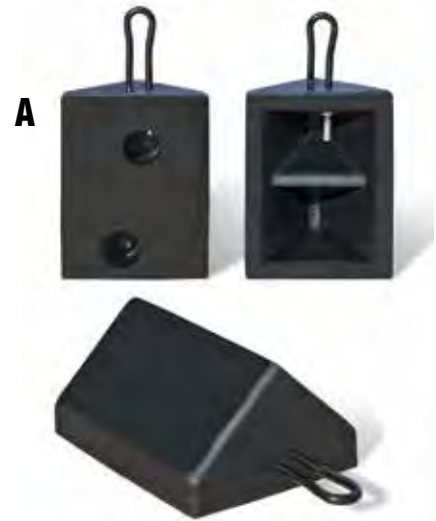

### A. Wheel Chocks 450 Series

This wheel chock design is used by most utility and telephone fleets and allows either side of chock to be positioned against tire.

SKU	Description	Length	Width	Height	Weight	UOM	Price
CHECRC450	Rubber wheel chuck void bottom black	10"	8"	5.5"	7 lbs.	EA	\$19.25
CHECRC450-S	Rubber wheel chuck solid bottom black	10"	8"	5.5"	10 lbs.	EA	\$25.97

### B. Wheel Chocks 1500 Series

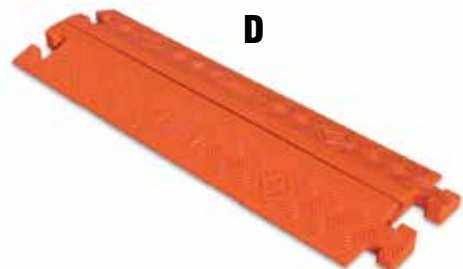

The 1500 Series wheel chocks feature a tough urethane construction that is oil and chemical resistant. It also has a recessed carrying handle and mounting hole for ropes or chains. Mounting brackets are available.

SKU	Description	Length	Width	Height	Weight	UOM	Price
CHECUC150045	Urethane wheel chuck orange	11"	7.75"	8"	4.5 lbs	EA	\$48.30
CHECUC15006	Urethane wheel chuck orange	11"	7.75"	8"	6 lbs	EA	\$56.49
CHECUC15HM	Horizontal mounting bracket series 1500				2.75 lbs	EA	\$45.32
CHECUC15VM	Vertical mounting bracket series 1500				2.25 lbs	EA	\$45.32

### C. Cable Protectors 5 Channel System

Protect valuable electrical cables, cords and hose lines from damage and abuse while ensuring a method of safe passage for vehicles and pedestrian traffic. Compact design is ideal for use in amusement parks, entertainment venues, sporting events, and in most public, commercial, industrial, construction, and utility applications.

SKU	Description	Length	Width	Height	Slot W X H	UOM	Price
CHECP5X125	Cable Protector 5 slot	36"	17.25"	1.96"	1.3" x 1.3"	EA	\$331.70
CHECPEC5X125	Cable Protector 5 slot end cap	4.75"	17.25"	1.95"	1.3" x 1.3"	EA	\$157.93

### D. Cable Protector 1 Channel System

Single Channel Systems protect valuable electrical cables, cords and hose lines from vehicle and foot traffic. Small, compact, low profile design allows for ease of storage and transport to job site. Popular with many utility, construction, and maintenance companies. Ideal for temporary re-routing of single cable and hose lines including fragile fiber optic telecommunications cable.

SKU	Description	Length	Width	Height	Slot Width	UOM	Price
CHECP1X125GP	Cable protector 1 open slot	36"	11.5"	1.6"	1.25"	EA	\$187.16
CHECP1X225GP	Cable protector 1 open slot	36"	14.25"	3"	2.25"	EA	\$269.80

### A. 275 Series Beacon

Applications include utility, construction, security and maintenance. Unique features include a whisper drive, a vacuum metallized reflector with a computer optimized beam pattern for improved visibility, an integrated low friction reflector drive module, an impact resistant polycarbonate lens, a patented quick bulb change system with phosphorous bronze contacts, and is water and dust-resistant. 12-volts DC. 2.2 pounds, 6.25" H x 6" D. SAE J845 and Class I Certified.

SKU	Description	UOM	Price
PSE660AH	Amber beacon w/9 ft. cord, magnetic	EA	\$103.59

### B. Star Flash IV

High-intensity strobe flashes 72 quad flashes per minute, perfect for construction equipment and other working class vehicles. Operates on 12 to 24V DC with 14 joule output. Low profile polycarbonate amber lens. Meets SAE Class 2 requirements. Made in USA.

SKU	Description	UOM	Price
PSELL400ASH	Star Flash IV amber strobe light	EA	\$167.67

**B**

### C. WhiteSound Back-Up Alarm

Back-up alarms are vital for vehicle safety, yet their very use can cause noise nuisance, irritating workers and neighbors, especially when used out of normal working hours. The White-Sound alarm emits a unique "shh...shh..." sound which solves the problem. These bbs-tek® alarms emit multi-frequency broadband sound, replacing the narrow frequency band of tonal beepers. It is directional, concentrating the sound in the danger area, thus reducing noise nuisance. Also, it is much safer than tonal beepers; its sound is instantly locatable so you immediately know which vehicle is reversing and where it is coming from. Broadband sound also dissipates more quickly beyond the danger zone, so it is much less of a nuisance to local residents and is less likely to be ignored by workers due to over exposure of tonal beepers.

SKU	Description	UOM	Price

### D. CCTV- Single Camera

Rear View CCTV is an essential aid to safe reversing. The ultimate fail-safe solution providing drivers with a clearer view of the area behind the vehicle and alerting them to dangers within blind spot areas. CCTV gives the driver a wider field of vision at the rear of the vehicle. Choose from the fantastic picture quality of the 4.5" monochrome monitor or 5" and 7" color monitor. Features backlit control buttons for ease of use at night. The compact monochrome camera includes six infra-red LEDs, while the color camera has 18 infra-red LEDs. Both systems are ideal when space is limited.

# Signs

The standards for basic sign requirements are covered under the Occupational Safety and Health Administration (OSHA 29 CFR § 1910.154), and the American National Standards Institute (ANSI Z535) provides specifications, design, application and use of Headers, Legends and Symbols. These signs are intended to indicate potential, type of degree of the hazard that may lead to accidental injury or property damage. They both define specific hazards by conveying a clear and rapidly understood message.

### Applicable Safety Sign Standards

**Occupations Safety & Health Administration:** OSHA 29 CFR 1910.145: Specifications for accident prevention signs.

**American National Standards Institute:** ANSI Z535.1, .2, .3, .4, .5, .6: Six standards that specify format, colors, and symbols for accident prevention safety signs. Recognized by OSHA.

### Safety Sign Header Markings

**DANGER** — Indicates an imminently hazardous situation which, if not avoided, **will** result in **death** or **serious injury**.

**WARNING** — Indicates a potentially hazardous situation which, if not avoided, **could** result in **death** or **serious injury**.

**CAUTION** — Indicates a potentially hazardous situation which, if not avoided, **could** result in **minor** or **moderate injury**.

**NOTICE** — Preferred signal word to address practices not related to personal injury.

**SAFETY FIRST, THINK, EMERGENCY** — Indicates general instructions relative to safe work practices or indicates the location of safety equipment.

### Basic Safety Sign Selections

#### Header

A "signal" word (or words) to designate the level of safety alertfulness required, always located in the uppermost portion of the sign. Intended to capture and direct attention to the potentially hazardous situation.

#### Legend

The specific short message conveys the need to pay attention to a potential hazard or hazards, or take a necessary action to avoid such hazard(s).

Many signs consist of just header and legend — Signs can also contain a symbol...

#### Symbol

Pictorials are graphic representations to clearly convey a specific alerting message compatible with and supplemental to the legend message. Universal in design and standardized to be easily understood.

### Safety Sign Materials

#### ADHESIVE VINYL (VS)

For light-duty applications. The ideal choice for indoor and sheltered outdoor marking needs. Mounts to all curved areas such as pipes, poles and secondary containers.

- 4-mil thick printed matte surface
- Permanent acrylic adhesive
- Moisture-resistant
- Service temperature range: -20°F to 140°F
- Durability: 2 years outdoors
- Square corners and scored backing for quick peel-off and application

#### PLASTIC (VP)

Semi-flexible, economical and appropriate for medium-duty use — ideal for indoor and sheltered outdoor environments.

- Ideal for flat surfaces with enough flex to mount on slightly curved areas
- .055" thick with good impact resistance and surface image with non-glare finish
- Contains UV inhibitors
- Service temperature range: -90°F to 168°F
- Durability: 2 years outdoors
- Rounded corners and 3/16" mounting holes
- Made from 50% recycled material

#### ALUMINUM (VA)

Get the strength of metal, without the rust. Superior abrasion and chemical resistance for indoor and outdoor environments.

- Printed image on rigid .040" aluminum backing
- Protected by high-gloss UV protective coating film
- Service temperature range: -20°F to 140°F
- Withstands splashes and washdowns
- Endures outdoor environmental conditions
- Rounded corners and 3/16" mounting holes

## ANSI-ISO Safety Signs

ISO 7010 graphical symbol is combined onto ANSI Z535 signs. This provides universal understanding of the safety message, comprehension by more workers of different backgrounds. ANSI Z535 format signs are inclusive in the OSHA regulations.

Keep Your English & Spanish Speaking Employees Safe.

Wherever the workforce has a mix of English and Spanish speaking employees, it is common for many manufacturing, plant, and warehouse locations to use Bilingual Spanish signs, labels, and tags with the same text repeated in both languages.

Bilingual Spanish Signs are designed to help convey the same proper direction and safety information to Spanish-speaking workers, as English signs.

Z535.2 "...In certain areas of the country where other languages are used, consideration should be given to providing messages in those languages..."

## How to Order Custom Signs

### Step 1: Develop Message

Your sign message should be easily understood. Include graphics, pictorials, logos or full-color images. Sketch out your ideas, and we'll take it from there.

### Step 2: Select Material

Our comprehensive selection of custom sign materials is built for flexibility and durability for any environmental condition. Think about where you will install your sign when choosing a material.

### Step 3: Size & Placement

A sign not seen is an opportunity lost. Keep in mind your intended application and placement when determining sign size.

### Step 4: Send Us Your Order

Call, e-mail or fax us to place your order. Be sure to provide any high resolution graphics (images, logos, etc.) along with your sketch or description.

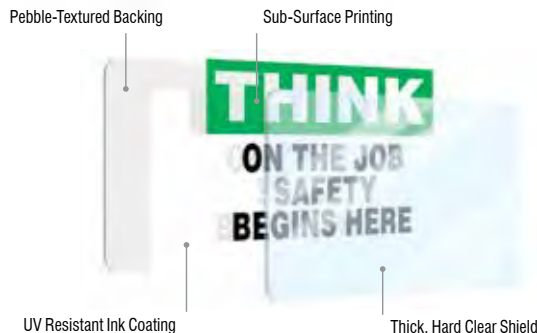

Personalized with Corporate Identity

Full-Color Photographic Quality Images

Impactful Motivational Message

Unique Eye-Catching Design Layout

## Accu-Shield™:

## AccuShield™

Highest performance sign with superior construction for extreme conditions – outstanding UV protection, high-impact strength, tough under harsh conditions such as chemicals, corrosion, and abrasions, and nearly indestructible to vandalism. Reverse-printed image on the underside of the thick face and further protected underneath. Rugged appearance with a thick-edge design and pebble-textured backside.

- .152" or .214" thick specially-formulated polycarbonate and poly bonded back
- Durability warranty to 15 years
- 1/4" mounting holes with rounded corners

### .152" Thick – Ideal for Small to Medium Signs

Size	Part #	1	6 - 9	10 - 24	25 - 49	50+
7" x 10"	AFAC710	\$34.53	\$25.39	\$21.11	\$16.74	\$13.88
10" x 14"	AFAC1014	\$45.28	\$36.13	\$31.96	\$27.82	\$25.88
14" x 20"	AFAC1420	\$73.82	\$61.79	\$57.54	\$53.17	\$48.25

## Adhesive Vinyl:

Self stick is for indoor or sheltered areas. Adhere to most flat, clean, dry surfaces. Ideal for basic identification purposes or short term outdoor applications.

- Flexible 4-mil thick vinyl with acrylic adhesive
- Non-glare printed surface
- Impact resistant
- Moisture resistant

Size	Part #	1	6 - 9	10 - 24	25 - 49	50+
7" x 10"	AFVS710	\$22.65	\$14.62	\$9.05	\$7.05	\$3.45
10" x 14"	AFVS1014	\$26.79	\$18.33	\$12.60	\$10.57	\$6.31
14" x 20"	AFVS1420	\$42.36	\$29.96	\$21.71	\$18.65	\$11.93
Other Sizes & Shapes	AFVS555	Call for quote				

## Adhesive Dura-Vinyl™:

Dual-layered vinyl that outperforms standard vinyl. Printed image is protected by a high-gloss UV protective coating to prevent fading for outdoor use.

- Flexible 6-mil thick poly-composite
- Durability warranty to 5 years
- Abrasion, humidity, chemical, and solvent resistant
- Adheres to smooth, curved and irregular surfaces

Size	Part #	1	6 - 9	10 - 24	25 - 49	50+
7" x 10"	AFXV710	\$25.56	\$16.74	\$10.68	\$8.11	\$4.48
10" x 14"	AFXV1014	\$29.91	\$21.08	\$15.00	\$12.13	\$8.16
14" x 20"	AFXV1420	\$46.62	\$33.96	\$25.39	\$21.88	\$15.11
Other Sizes & Shapes	AFXV555	Call for quote				

## Plastic:

Semi-flexible thick plastic for standard, medium-duty use. Use long-term indoor and sheltered outdoor locations – or temporary outdoor exposure, such as construction sites.

- .055" thick polyethylene plastic
- Non-glare finish
- 3/16" mounting holes with rounded corners
- Made from 50% recycled material

Size	Part #	1	6 - 9	10 - 24	25 - 49	50+
7" x 10"	AFVP710	\$24.22	\$15.85	\$10.13	\$7.71	\$4.28
10" x 14"	AFVP1014	\$28.13	\$19.79	\$14.13	\$11.48	\$7.73
14" x 20"	AFVP1420	\$46.31	\$33.73	\$25.25	\$20.85	\$15.00
Other Sizes & Shapes	AFVP555	Call for quote				

## Dura-Plastic™:

Polycarbonate plastic offers high impact resistance and durability for outdoor applications and harsh environments. Printed image is protected by a high-gloss UV protective coating.

- .060" thick polycarbonate
- Resistant to abrasion, humidity, and chemicals
- Durability warranty to 7 years
- 3/16" mounting holes with rounded corners

Size	Part #	1	6 - 9	10 - 24	25 - 49	50+
7" x 10"	AFXD710	\$30.79	\$22.53	\$16.99	\$13.48	\$10.37
10" x 14"	AFXD1014	\$39.85	\$31.62	\$26.08	\$22.42	\$18.25

## Stainless Steel – Full Color:

10 YEARS GUARANTEED

AVAILABLE IN ANY SHAPE

### Stainless Steel

Signs offer maximum legend recognition with a distinctive natural stainless steel edge. Signs are surface printed, and the printed image is protected by a UV protective coating that offers protection from graffiti, chemicals, moisture, scratches and dirt. Designed to withstand tough, abusive environments indoors and in ambient temperature outdoor environments. Stainless Steel signs are ideal for withstanding exposures from chemical, textile, petroleum, maritime, and food industries.

- 20-gauge (.0375" thick), Type 304 Stainless Steel
- Withstands wash-downs to meet tough cleanliness demands
- Service temperature range up to 200°F.
- 3/16" mounting holes, Rounded corners

Size	Part #	1	6 - 9	10 - 24	25 - 49	50+

**TRUCK SHIPMENTS (LTL - Less than Truckload)** We are committed to getting items only transportable by truck to you in excellent condition, and in a timely manner. We know that your business depends on speed and convenience. To assist in providing advance notice on items that **MUST** ship by truck, we have identified those items with a truck icon throughout this catalog. If you do not have a preferred LTL carrier, we will help determine the best carrier for your order. On occasion, large quantity orders may be more cost effective to ship via LTL carrier; in these instances, you will be notified prior to shipment. Truck shipments do not qualify for any special shipping promotions.

### Evacuation Map Holders

In an emergency, see where to go to get out safely.

- Map Holder is constructed of .040" clear polycarbonate face with standard (non-glow) or photoluminescent (glow) plastic back
- Accommodates clear transparency film insert (sold separately)
- Simply print map onto clear insert from your computer, and slide into holder
- Glow-in-the-dark background option is visible when the lights go out and appears white in regular light conditions
- Border is printed with clear bold letters – with the glow area for the letters – to identify the evacuation map in light and dark
- Includes adhesive foam strips for mounting

# MARSEC SIGNS

Comply with U.S. Coast Guard, Department of Homeland Security regulations Title 33 – Navigation and Navigable Waters.

Maritime Security (MARSEC) identification signs are designed in bold for quick viewing from a distance. The three level codes designate which security measures are in effect. When Homeland Security issues a National Terrorism Advisory System (NTAS) Alert, the U.S. Coast Guard adjusts the MARSEC level as appropriate to the threat.

Post MARSEC signs at the entrance of a port facility, dock approach, or boarding area of a vessel.

USCG 33CFR 104.265(e)(3) Conspicuously post signs that describe security measures currently in effect and clearly state that: (i) Boarding the vessel is deemed valid consent to screening or inspection; and (ii) Failure to consent or submit to screening or inspection will result in denial or revocation of authorized to board:

USCG 33CFR 105.255 (e)(3) Conspicuously post signs that describe security measures currently in effect and clearly state that: (i) entering the facility is deemed valid consent to screening or inspection; and (ii) Failure to consent or submit to screening or inspection will result in denial or revocation of authorization to enter:

## Standard Set

Each 12" x 18" sign signifies one of the three security code levels. Available in three durable materials for outdoor use.

Mat'l  
VA AFMASE545VA  
XL AFMASE545XL  
XP AFMASE545XP

Material Code	Material	Price / Set
VA	Aluminum	\$86.37
XL	Aluma-Lite™	\$112.04
XP	Accu-Shield™	\$132.11

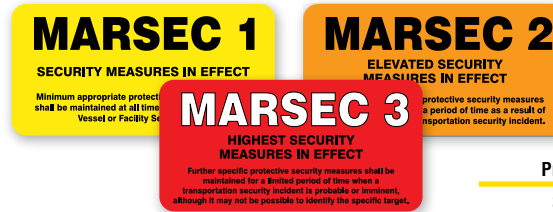

## Magnetic Set

24" x 36" durable galvanized steel sign includes three 9" x 18" magnetic panels - each represents the three security code levels with color-coded backgrounds. Easily change the magnetic panels on the steel sign as the MARSEC security levels warrant.

24" x 36" AFMASE530

Magnetic Panels - 9" x 18"

Price / Set  
\$152.11

## Restricted Area Sign

The U.S. Coast Guard and the International Maritime Organization require security signs aboard ships and at port facilities.

Restricted Area signs are to be posted throughout a port facility or on-board a ship or vessel. Identify sensitive security areas designated as off-limits to those unauthorized. Available each in three durable materials for outdoor use.

Ship or Vessel - USCG 33 CFR 104.270 (c)(6), ISPS Part B 9.20  
Port Facility - USCG 33 CFR 105.260 (b) & (c)(6), ISPS Part B 16.12  
Clearly mark all restricted areas and indicate that access to the area is restricted and that unauthorized presence within the area constitutes a breach of security.

Oversized banners use bold graphics and words to capture attention and identify the location of safety showers and eyewashes.

The unique vertical banner is printed double-sided making it easily visible from both directions.

40"H x 17"W banner combines high quality printed images with durable, 10-oz. reinforced vinyl, suitable for a wide variety of environments.

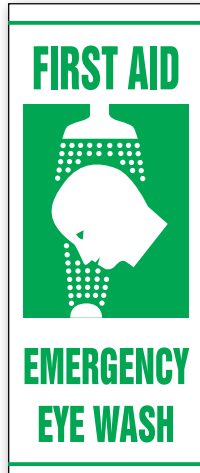

Banner is double stitched along with top and bottom hemmed sleeves for added stability. It's quick and easy to install. Mount the metal brackets with arms onto the vertical pipe, then slip the top and bottom of the banner onto the two 22" fiberglass arms.

Mounting hardware included.

**Price / Each**

\$228.99

Bright, attention-getting stripe signs are to identify eyewash and shower stations.

In an emergency, be able to identify the location and equipment for immediate eye and face flush or shower drench.

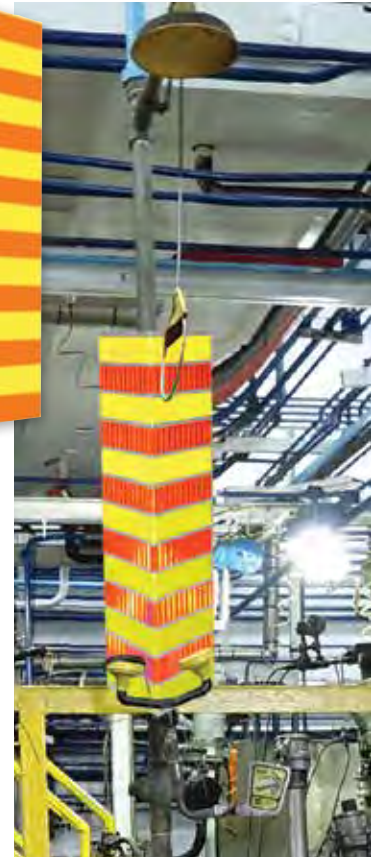

- Highly visible, bold stripes with contrasting and alternating color combinations
- Distinguishable design stands out against the background in a facility
- In an emergency, even with limited sight, be able to quickly recognize and head toward the sign's colors
- 3-sided sign can be seen from all directions

Each of the three sides is a tall 30" x 8" panel. The sign is open along a leading back edge to slip over and install onto an existing pipe. There are 3/16" mounting holes on the middle panel and back leading edges.

Choose Standard or DG-Reflective for added fluorescent visibility.

Standard style

DG-Reflective style style

**STANDARD STYLE**

Has printed color stripes on heavy-duty plastic with UV-overlaminated protection from weathering and fading, abrasions, scratches, and chemical splash. For indoor and outdoor use.

Color	Part #	Price / Each
Orange/Yellow	AFMFSD975ORYL	\$136.59
Orange/Green	AFMFSD975ORGN	\$136.59

## CUSTOM LABELS MADE EASY!

- No set-up fees
- Any print colors you choose, right to the edges
- High-definition, full-color graphics at no additional charge

- Any lettering or font to fit your design
- Also available with bar coding or sequential numbering
- Comprehensive, free design support

### How to Order Custom Labels

#### Step 1: Size, Color

Choose color and size options to accommodate any design.

#### Step 2: Select Print Colors

We can print in any color you want, with no additional charge. Using your company logo? We'll match your colors to print full-color images.

#### Step 3: Create the Layout

Develop your message with words, numbers, bar codes, and in any combination. Include graphics, logos, symbols or full-color images.

#### Step 4: Decide on Quantity

No need to order huge quantities – Start with as few as 25.

### PAPER Labels, Self-Adhesive:

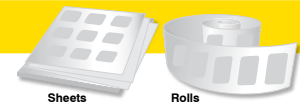

Economical for short-term, temporary, and dry indoor applications – do not expose to moisture.

- 60-lb paper
- Matte surface can be easily written on with pen or pencil
- Permanent acrylic adhesive back with peel-off liner
- Available in any standard background color and select fluorescent backgrounds

## Vinyl Labels, Self-Adhesive:

Moisture- and tear-resistant vinyl labels have clear overlamine for added protection. Labels resist dirt, grease, chemical splash, scuffs, abrasions, fading and weather conditions.

- Ideal for placement indoor and outdoor use, up to 2 years
- Easy to clean, wipe-off surface
- 5-mil label is printed vinyl with clear protective top layer
- Permanent acrylic adhesive back with peel-off liner
- Available in any background color, including clear to provide "print-only" look
- When ordering, specify color(s) or clear background

When ordering, choose clear overlamine by part number:

**Writable Surface** – Ideal when information needs to be filled in on the spot. Clear matte top can be easily written on with any marker, pen, or pencil.

**Gloss Surface** – Easily wipe off dust, dirt, and grease. The print image has a sharp appearance through the clear shiny top.

## HIGH-PERFORMANCE Labels, Self-Adhesive:

Place our most durable, flexible labels on equipment, machinery, and tools that are repeatedly handled and exposed to abusive and harsh conditions. Printed label has clear UV protective coating, engineered to offer excellent protection from chemicals and abrasions.

- Ideal for long-term outdoor exposure.
- High clarity keeps the label message intact and legible.
- Surface withstands rough handling from marks and scratches
- Wipe dust, dirt, and grease off surface – resists over-marking (or graffiti)
- Available in any background color, including clear to provide "print-only" look
- When ordering, specify color(s) or clear background

Don't see what you're looking for? Additional materials and sizes are available. Call us for details.

Header style tags meet Occupational Safety and Health Administration requirements. Choose from a variety of common styles and legends that apply to a variety of situations. Tags are available in two materials: PF-Cardstock and RP-Plastic. Sold in pack of 25.

### PF-Cardstock

- 5-3/4" x 3 1/4" with 3/8" hole
- Pliable, 10-mil polyolefin-based material
- Pulp-free, no wood-paper content
- Waterproof, tear-resistant for light-duty use

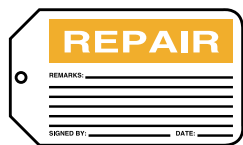

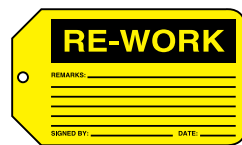

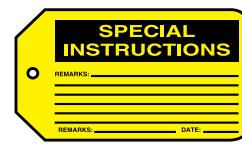

### RP-Plastic

- 5-3/4" x 3 1/4" with 3/8" hole, reinforced with metal grommet
- 15-mil tear-resistant plastic
- Weather- and chemical-resistant

#### Step 1: Message, Design

Develop your tag – provide message, layout, design and color.

#### Step 2: Select Material and Size

Consider tag placement, intended application, and environment.

#### Step 3: Finishing Options

Determine how you will install the tag. Call us for available options.

#### Step 4: Decide on Quantity

No need to order huge quantities – You can order as few as 25.

Call, email, or fax us to place your order!

### PF-Cardstock Tags **PFCARDSTOCK**

Tear-resistant and waterproof tags last longer than standard cardstock tags.

Tags are pulp-free – no wood pulp or paper content – unlike regular cardstock. They are pliable, yet will not rip or breakdown in moisture. Tags do not tear readily when tugged on. Ideal for indoor use and short-term outdoor exposure. The scuff-resistant, matte surface is easy to write on.

- 10-mil polyolefin-based material
- Thin and flexible
- Top has 3/8" plain hole

Size	Part #	25 - 49	50 - 99	100 - 249	250 - 499	500 - 999	1000+
4-1/4" x 2-1/8"	AFCT42	\$1.79	\$1.59	\$1.19	\$0.82	\$0.53	\$0.39
5-3/4" x 3-1/4"	AFCT63	\$2.42	\$1.88	\$1.51	\$1.11	\$0.71	\$0.51
8-1/2" x 3-7/8"	AFCT84	\$3.05	\$2.25	\$1.93	\$1.45	\$0.99	\$0.71
Other Sizes	AFCT555	Call for quote					

### RP-Plastic Tags

Durable tag withstands pulls and tears in dirty and greasy environments. Plastic tags are water-resistant – to withstand weather conditions. The rigid plastic is flexible, yet will not readily break down over a wide temperature range. Good for indoors and outdoors use. Writable surface is abrasion resistant.

- 15-mil rigid plastic material
- Flexible, yet durable – withstands stretching and ripping
- Top has 3/8" hole reinforced with metal grommet to prevent pull off

Size	Part #	25 - 49	50 - 99	100 - 249	250 - 499	500 - 999	1000+
4-1/4" x 2-1/8"	AFRT42	\$3.71	\$3.05	\$2.45	\$1.82	\$1.20	\$0.91
5-3/4" x 3-1/4"	AFRT63	\$4.34	\$3.48	\$2.68	\$2.05	\$1.36	\$1.14
8-1/2" x 3-7/8"	AFRT84	\$5.19	\$4.25	\$3.34	\$2.39	\$1.60	\$1.45
Other Sizes	AFRT555	Call for quote					

### HS-Laminate Tags

Tags are designed to withstand tough and abusive conditions.

HS-Laminate is a composite of all poly materials hard sealed on both sides with no edge seams. Matte surface is scratch resistant, yet easy to write on. Waterproof tags are ideal for extreme weather conditions.

- Tear-proof, weather-proof, chemical-resistant material withstands dirty and greasy environments
- Thick laminate stands up to abuse and rough handling
- 3/8" top hole is reinforced with a pull-proof, metal grommet

Size	Part #	25 - 49	50 - 99	100 - 249	250 - 499	500 - 999	1000+
4-1/4" x 2-1/8"	AFLT42	\$5.60	\$4.73	\$3.99	\$3.05	\$2.20	\$1.76

8-1/2" x 3-7/8"	AFLT84	\$6.51	\$5.51	\$4.68	\$3.73	\$2.82	\$2.34
Other Sizes	AFLT555	Call for quote					

### Tags By-The-Roll — Never Run Out Of Tags Again!

#### PFCARDSTOCK

- Tag size: 6-1/4" x 3", with 3/8" hole
- 10-mil PF-Cardstock tags
- Tear-resistant, waterproof 'pulp-free' material
- Writable matte surface
- Dispenser size: 9-5/8" x 6-5/8" x 3-5/8"
- Available in rolls of 100 or 250 tags

Per Roll	Price / Roll

Labels follow the information guidelines specified by the GHS and must include OSHA's required label elements. For GHS and DOT pictogram combination labels, larger label sizes are recommended. The DOT requires that transport pictograms be at least 4" x 4". OSHA publishes no size requirements for the GHS label or GHS pictograms, but it is recommended the label elements be proportionate to each other.

HCS 2012 Final Rule, March 26, 2012

(f)(1) Labels on shipped containers. The chemical manufacturer, importer, or distributor shall ensure that each container of hazardous chemicals leaving the workplace is labeled, tagged, or marked. Hazards not otherwise classified do not have to be addressed on the container. Where the chemical manufacturer or importer is required to label, tag or mark the following information shall be provided: (i) Product identifier; (ii) Signal word; (iii) Hazard statement(s); (iv) Pictogram(s); (v) Precautionary statement(s); and, (vi) Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party.

**How to order:** Specify size of label. Send us your required label information. Provide guidance on label design if different from examples. Indicate desired material. Specify quantity. Contact us with your request; we'll put together your specifications and send you a proof (upon request)

*Note: You are required to provide all necessary information, specific to your hazardous chemical or material, to complete an accurate and safe label for your premises.*

1.4.10.5.4.1 Location of GHS information on the label

"The GHS hazard pictograms, signal word and hazard statements should be located together on the label. The competent authority may choose to provide a specified layout for the presentation of these and for the presentation of precautionary information, or allow supplier discretion."

Format 1: Custom GHS Pictogram Label

#### Required Label Elements

- 1 Product Identifier – Should match the product identifier used on the Safety Data Sheets.
- 2 Signal Word – Indicates the relative level of the hazard's severity. "Danger" and "Warning" are the GHS signal words.
- 3 Pictograms – Graphic compositions intended to convey specific hazard information.
- 4 Hazard Statements – A phrase assigned to a hazard class and category that describes the nature of the product hazards.
- 5 Precautionary Statements – Describe recommended measures to minimize or prevent adverse effects resulting from exposure.
- 6 Supplier Identification – The name, address and telephone number of the manufacturer or supplier.

Format 2: Custom GHS and DOT Pictogram Combination Label

Actual label design and layout may vary and are subject to the discretion of the competent authority.

#### Dura-Vinyl™

Flexible 6-mil thick poly-composite has self-adhesive acrylic back. Peel-off liner and pressure-sensitive back permanently adheres to smooth, curved, and irregular surfaces. Protective high-gloss UV protective coating provides environmental and outdoor durability. Resists abrasions, humidity, moisture, chemicals, solvents, and sunlight fade.

\*Sizes recommended for combination labels

Pictogram labels comply with the Globally Harmonized System.

GHS pictograms identify the hazards associated with chemicals and warn users of the types of precautions that should be taken to minimize adverse effects that could result from exposure. The GHS recognizes nine hazard pictograms. The Hazard Communication Standard (HCS) requires eight of these pictograms with the exception the environment pictogram (considered non-mandatory since environmental hazards fall outside OSHA's jurisdiction).

Labels are available in Adhesive Coated Paper and Adhesive-Poly Sheet. Available by the roll in quantities of 250 or 500.

C.2.3.1 Pictograms shall be in the shape of a square set at a point and shall include a black hazard symbol on a white background with a red frame sufficiently wide to be clearly visible. A square red frame set at a point without a hazard symbol is not a pictogram and is not permitted on the label.

## Training Posters

- Inform employees and support your hazard communication program.
- Plastic laminated posters provide instructional information regarding chemical identification and hazard communication – as part of your employees' "Right-To-Know"
  - Available each

Style	Part #	Price / Each
SDS	AFZTP133	\$39.91
Haz-Com	AFZTP122	\$29.48

**HAZ-COM / HAZ-MAT WARNING SYMBOLS**

**CHEMICAL HAZARDS IN THIS AREA**

Labels include: HEALTH HAZARD, FIRE HAZARD, SPECIFIC HAZARD, INSTABILITY, and PROTECTIVE EQUIPMENT INDEX.

These symbols are for IMMEDIATE WARNING—REFER TO SDS FOR DETAILED INFORMATION

Part # AFZTP133, Price \$39.91

## Wallet Cards

- Quick reference fits in employee's pocket.
- Color-printed plastic in three front styles: NFPA, HMCIS, and Combo
  - Back features hazard rating code index definitions
  - Measures 2-1/8" x 3-3/8"
  - Available each

**HAZARDOUS MATERIALS CLASSIFICATION**

Health Hazard (1-4), Fire Hazard (1-4), Specific Hazard (0-5), Instability (0-4).

**HAZARDOUS MATERIAL CODE IDENTIFICATION**

Health (1-4), Flammability (0-4), Instability (0-4), Specific Hazard (0-5).

Part # AFTHS200, Price \$2.64

## NFPA Placard Sign Kits

- Easy installation and convenient for instant on-site classification of chemical hazard identification.
- Kit includes: 1 blank placard, 15 numbers (3 sets of 0-4), six symbols, and NFPA wallet guide
  - 4-mil Adhesive Vinyl placards with clear, self-adhesive hazard panels
  - Blank colored placards and self-adhesive hazard panels also available separately

Size	PLACARD KIT Part #	Price / Kit	BLANK PLACARD Part #	Price / Each

**NFPA Flip Placard Sign**

Save time and money by eliminating the need to replace NFPA Placards when hazardous chemicals change.

Give the NFPA Flip Placard Sign a turn of a few panels. Each field contains a side that will reflect the health, flammability, instability and specific hazard information necessary. In seconds, you can display the appropriate NFPA information for the hazardous material.

Consisting of aluminum flip panels, this one convenient sign contains any possible combination to display the proper NFPA hazard information. It has all the necessary colors and severity rating numbers; includes the Use No Water, Oxidizer and Simple Asphyxiant special hazard symbols, recognized by NFPA 704. Also includes the Acid, Alkali, Corrosive and Radiation hazard symbols.

The printed aluminum flip panels are mounted onto sturdy 15 1/2" x 15 1/2" x .063" thick aluminum. Thick .120" clear plastic face plate fits over the placard with a center screw to keep the hazard information in place. The rust-proof, durable aluminum construction is designed to withstand weather and other environmental conditions. Has four 3/16" corner mounting holes.

- Identify specific hazardous materials by applying to visible locations: Placards on vehicles and large containers; Labels on packages and small containers
- Specific color schemes, symbols, words, and numbers requirements identify the hazard

- Square-diamond format: Placard - 273 mm x 273 mm (10-3/4" x 10-3/4"); Label - 100 mm x 100 mm (4" x 4")
- Hazardous Material Regulation (HM-181 and HM-206) as specified by US-DOT 49 CFR, Parts 171 – 172 requires proper identification and classification for transport and shipping.

- Adhesive-Poly Sheet - flexible 2.6-mil vinyl poly is moisture-resistant with self-adhesive and liner back. Available in Roll of 250.

Material	Price / Roll
Adhesive-Poly	\$35.91

Don't see what you're looking for? Placards and labels are available in other materials. Call us for details.

Give workers immediate access to Safety Data Sheet documents stored in one convenient aluminum center.

Large, printed Center Boards identify the location of Right-To-Know information and make binders storing SDS documents accessible to employees. Hang the Center Boards near chemical storage areas or other central locations in the workplace. Boards have holes for wall mounting.

Kit AFZRS347

## Aluminum RTK - NFPA Basket Style

The eye-catching, multi-color Right-to-Know Center Board incorporates the Hazardous Material Classification Guide as a quick reference to the NFPA hazard classification codes.

The 18"H x 24"W board is .063" Aluminum with a coated wire basket bolted on to hold a single binder. Available each in English or Spanish. Center board kit is available with 1 1/2" binder, respective to the board's language.

Board AFZRS348

RTK - NFPA Basket Style	BOARD KIT		BOARD ONLY	
	Part #	Price / Kit	No.	Price / Each

Spanish	AFSHZRS347	\$127.65	AFSHZRS348	\$117.45

## Custom Basket Style Center Board

Basket Style Center Boards are available with your message and symbol and logo. To request a quote, refer to part number **ZRS355** and specify center board size, number of baskets on the board, message, design, color(s), and quantity. We will get back to you with a price and delivery.

## RTK Basket Style

Coated wire basket is bolted on to the lower portion of the aluminum center board to hold and store the SDS binder.\* The .063" Aluminum backboard measures:

**Single Basket style**  
20" x 15"

**Double Basket style**  
24" x 30"

Kit AFZRS326

Board AFZRS313

Kit AFZRS335

Board AFZRS316

\*Boards and Binders are available in English and Bilingual versions. Single boards include (1) 1 1/2" SDS binder, and double boards include (2) 1 1/2" binders.

## Pocket Style Centers

Kit AFSBZRS729

Kit AFZRS730

Kit AFZRS729  
Board AFZRS708

Sturdy all-aluminum center board has a lower pocket to hold and store the SDS binder and training booklets. Pocket is welded on for added strength. The .063" thick aluminum has scratch-resistant, powder-coated finish and 30"H x 24"W sign. The pocket extends out 4 1/8"D with inside dimensions 5 7/8"H x 23 1/4"W x 4"D and two dividers to separate the binder and booklets.

Center board kit is available with 1 1/2" SDS binder and 10 training booklets.

### Custom Pocket Style Center Boards

Blue Pocket Style Center Boards are available with your message and symbol or logo. To request a quote, refer to part number ZRS755 and specify message, design, color(s), and quantity. We will get back to you with a price and delivery.

## Safety Data Sheet Center Boards

Provide easy access to safety data sheets (SDS) in the workplace with center boards. Sturdy .063" aluminum backboard is 20"H x 15"W and printed with bold red diamond border for high visibility. PVC-coated steel wire rack holds 3-ring, 1 1/2" diameter binder (included). Four corner mounting holes are supplied for easy installation. Centers are sold as complete kits including the backboard, rack and binder as shown.

### Price / Kit

\$86.25

20" x 15" AFZRS407

20" x 15" AFZRS409

### Wire Binder Baskets

Baskets are designed to hold binders.  
Mount the basket near hazardous materials storage areas.

Coated white wire basket measures 9-1/2"H X 14"W X 6-3/4"D. Backside accommodates two mounting screws (hardware included) to support heavy binders.

Part #	Price / Each
AFZRS102	\$35.68

Binder sold separately.

### SDS Binders

Organize and store your SDS documents in plastic binders.

Front cover and spine have contrasting red letters. 3-ring binder has 36" metal security chain. Binders are available in white (WT) or yellow (YL) with red (RD) lettering.

### Metal-Lite Tags

Tough, lightweight, poly-composite tags withstand abusive and outdoor environments.

- Resistant to long-term UV-exposure, chemicals, corrosion, and abrasion
- 3/16" thick, multi-ply tag with 1-1/2" diameter and 3/16" hole
- Thick, clear front is reverse, sub-surface engraved
- Color-filled and encapsulated by engineer-grade reflective sheet
- Pebble-textured poly back
- Sequentially numbered in series sets of 25

### CUSTOM ID TAGS MADE EASY!

#### Step 1: Material, Shape and Size by part number

Choose from a selection of metals and plastics.

#### Step 2: Letters, Numbers, or Legend

Specify as appropriate to size and application.

#### Step 3: Quantity

There are no set-up fees, and you can start with low numbers.

#### Step 4: Contact us today

We will provide you with a quote and delivery.

Don't see what you're looking for? ID tags are available in additional sizes, shapes and materials. Call us for details.

Mark contents and flow direction in pipes and piping systems with ready to go stock pipe markers.

A long list of chemicals and standard marking applications are offered in the stock selection. Pipe markers are available in size ranges and three main choices of pipe marking materials meet the needs of varied applications in industry.

The visible colors and bold lettering on the pipe makers are designed to meet or exceed ASME (ANSI) A13.1-2007 recommendations for size, color and visibility. Identify the contents in piping system throughout your facility with a comprehensive and standardized marking program.

### Choose The Right Stock Material

Select a material based upon your specific application to ensure that your pipe markers will last.

#### Self-Stick Vinyl Pipe Markers

Self-Stick Vinyl pipe marker displays one printed legend with detachable arrow for proper directional flow marking.

#### Material Features

- 4-mil flexible adhesive-backed vinyl with 2-mil, UV-resistant polyester film
- Detachable arrow\* included
- High-tack, acrylic adhesive back applies to a smooth, clean pipe surface
- Simply peel off the liner, align and press firmly into place for permanent application

#### Applications

- Service temperature range: -20° to 176°F
- Withstands various environmental elements

#### Cling-Tite Pipe Markers

Cling-Tite pipe markers wrap completely around the pipe and include a heavy-duty vinyl strip along the top leading edge that clings tightly to fasten the marker in place.

#### Material Features

- 7-mil polyester with a 2-mil polyester backing
- Subsurface printed legend with cleanable, glossy surface
- Legends are printed upright and upside-down– viewable from any direction – with directional arrows
- 360° wraparound pipe markers are easy to see from all angles
- Removable and reusable
- Ships and stores flat

#### Applications

- Service temperature range: -40° to 302°F for higher temperature pipes
- Resistant to scratches, abrasions and chemical splash
- Extremely durable for tough environments

#### Snap Tite™ Pipe Markers

Snap Tite™ pipe markers come pre-coiled and easily install by uncurling, placing on the pipe, releasing and “snapping” into place, encircling the entire pipe.

#### Material Features

- Heavy gauge 20-mil Rigid Vinyl plastic is lightweight, yet durable
- Legends are printed upright and upside-down– viewable from any direction – with directional arrows
- 360° wraparound pipe markers are easy to see from all angles
- No need to clean off the pipes to install – Snap Tite™ fits over pipes with dirty, greasy, or rough surfaces – even over insulation or other less than perfect surfaces
- Removable and reusable

#### Applications

- Service temperature range: -4° to 158°F
- Dirty, greasy and rough environments
- Tough industrial environments

### How to Order Pipe Markers:

Find Legend: **ACETONE** AFRPK101

Select Material and Size Code: SSA – Self-Stick, 3/4" to 1 1/4"

Add Code to Legend No: AFRPK101SSA

#### SELF-STICK

Size Code	Pipe Diameter	Marker Size	Price / Each
SSA	3/4" to 1-1/4"	1" x 8"	\$1.97
SSB	1-1/2" to 2"	1-1/2" x 8"	\$2.08
SSD	2-1/2" to 6"	2-1/2" x 12"	\$2.53
SSH	8" to 10"	4" x 24"	\$6.39

#### CLING-TITE

Size Code	Pipe Diameter	Marker Size	Price / Each
CTA	3/4" to 1 1/4"	6" x 8"	\$3.95
CTB	1 1/2" to 2"	9" x 8"	\$5.22
CTC	2 1/4" to 3"	14" x 12"	\$9.68
CTE	3 1/4" to 5"	19" x 12**	\$10.71
CTF	5 1/4" to 6"	25" x 12**	\$11.19

#### SNAP TITE™

Size Code	Pipe Diameter	Marker Size	Price / Each
STA	3/4" to 1-1/4"	6" x 8"	\$4.64
STB	1-1/2" to 2"	9" x 8"	\$6.13
STC	2-1/4" to 3"	14" x 12"	\$11.39
STE	3-1/4" to 5"	19" x 12**	\$12.60
STF	5-1/4" to 6"	25" x 12**	\$13.08

\*Size has self-adhesive leading edge for secure fit

## Color Banding Pipe Marking Tapes

Variety of colors are ideal for coding pipes.

- 5-mil tapes with self-adhesive back, no liner
- Service temperature range -20° to 140°F
- Available in 1", 2" and 3" widths
- 108-ft. rolls

Roll Size	Red	Black	White	Purple	Gray	Blue	Brown	Yellow	Orange	Green	Price / Roll
1" x 108-Ft.	AFPTM613RD	AFPTM613BK	AFPTM613WT	AFPTM613PR	AFPTM613GY	AFPTM613BU	AFPTM613BN	AFPTM613YL	AFPTM613OR	AFPTM613GN	\$6.37
2" x 108-Ft.	AFPTM623RD	AFPTM623BK	AFPTM623WT	AFPTM623PR	AFPTM623GY	AFPTM623BU	AFPTM623BN	AFPTM623YL	AFPTM623OR	AFPTM623GN	\$11.93
3" x 108-Ft.	AFPTM633RD	AFPTM633BK	AFPTM633WT	AFPTM633PR	AFPTM633GY	AFPTM633BU	AFPTM633BN	AFPTM633YL	AFPTM633OR	AFPTM633GN	\$17.31

## Directional Flow Arrow Tapes

Provide 360° visibility for flow direction, with repeated arrows on the tape's length.

- 6-mil self-adhesive vinyl
- Available in 1", 2" and 4" widths
- 54-ft. rolls
- Meets ASME A13.1, 3.1

Roll Size	Black / Orange	Black / Yellow	White / Green	White / Blue	White / Red	White / Brown	Price / Roll
1" x 54-Ft.	AFRAW252BKOR	AFRAW252BKYL	AFRAW252GNWT	AFRAW252BUWT	AFRAW252RDWT	AFRAW252WTBR	\$17.22
2" x 54-Ft.	AFRAW254BKOR	AFRAW254BKYL	AFRAW254GNWT	AFRAW254BUWT	AFRAW254RDWT	AFRAW254WTBR	\$23.55
4" x 54-Ft.	AFRAW258BKOR	AFRAW258BKYL	AFRAW258GNWT	AFRAW258BUWT	AFRAW258RDWT	AFRAW258WTBR	\$43.77

## CUSTOM PIPE MARKERS MADE EASY!

### Step 1: Material and Size by part number

Measure the pipe outside diameter, including insulation, to determine proper size.

### Step 2: Color Combination

Refer to the ASME color guide.

### Step 3: Legend

Specify your desired marker legend, and include directional flow arrows, if they apply.

### Step 4: Quantity

There are no set-up costs or minimums!

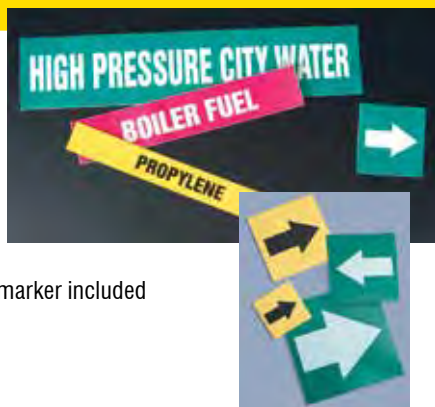

Black on Orange
Black on Yellow
White on Green
White on Blue
White on Red
White on Brown

ASME Colors

## Self-Stick Vinyl

- 4-mil flexible vinyl with 2-mil overlaminat
- UV resistant polyester film withstands elements
- High-tack, acrylic adhesive back and peel-off liner
- Directional flow arrow marker included
- Price per Each

Fit Pipe Diameter	Marker Size	Part #	1 - 5	6 - 9	10 - 24	25+
3/4" to 1-1/4"	1" x 8"	AFRPS961	\$12.42	\$7.48	\$4.05	\$1.68
1-1/2" to 2"	1-1/2" x 8"	AFRPS963	\$13.08	\$7.85	\$4.28	\$1.76
2-1/2" to 6"	2-1/2" x 12"	AFRPS965	\$14.39	\$8.79	\$4.73	\$2.14
8" to 10"	4" x 24"	AFRPS967	\$19.33	\$12.77	\$7.53	\$5.45
Over 10"	4-1/2" x 32"	AFRPS969	\$22.91	\$16.33	\$11.93	\$9.25
Other Size		AFRPS955	Call for quote			

## Snap Tite™

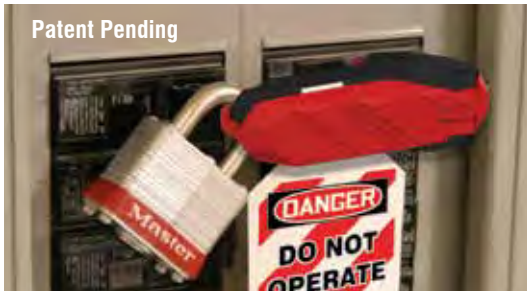

- Pre-coiled design 'snaps' around to fit 360° over pipe
- 20-mil rigid vinyl with repeating message and directional arrow
- Ideal for irregular surfaces, insulated pipes, or where removal is necessary
- Not recommended for hot pipes
- Price per Each

Fit Pipe Diameter	Marker Size	Part #	1 - 5	6 - 9	10 - 24	25+
Up to 1/4"	2" x 4"	AFRPT920	\$17.88	\$13.11	\$8.42	\$5.93
Up to 1/2"	4" x 6"	AFRPT922	\$19.91	\$14.60	\$9.37	\$6.08
3/4" to 1-1/4"	6" x 8"	AFRPT924	\$22.13	\$16.19	\$10.37	\$6.76
1-1/2" to 2"	9" x 8"	AFRPT926	\$23.76	\$18.05	\$12.16	\$8.68
2-1/4" to 3"	14" x 12"	AFRPT928	\$28.76	\$22.85	\$17.45	\$13.68
3-1/4" to 5"	19" x 12"	AFRPT940*	\$32.45	\$24.14	\$22.13	\$16.16
5-1/4" to 6"	25" x 12"	AFRPT942*	\$35.65	\$27.31	\$23.13	\$18.68

\*Comes with self-adhesive leading edge

### Circuit Breaker Lockouts

## STOPOUT®

Pump action of handle quickly secures lockouts to breaker switch.

This unique design allows for fastest lockout application time and quick and easy removal as well. The unit uses metal jaws for optimum secure grip. The Circuit Breaker Lockout is a visible safety red to call attention to the locked out switch.

- Fast secure application, quick-release tab
- Easily apply with just one hand if needed
- Octagon peg allows specially designed Tab Tags (sold separately) to be secured directly to the device
- Accommodates up to 9/32" dia. padlock shackles (sold separately)

Now Available to fit Single-, Double- and Triple- Pole Breakers

### Circuit Breaker Tab Tags

4 1/2" x 2 1/8", 15-mil RP-Plastic.

**Price / Pkg. of 25**

\$30.95

AFKDD166

Back

Item	Size	Part #	Price / Each
Single Pole	15/16"W x 3 1/3"L x 1 1/2"D	AFKDD160	\$14.55
Double Pole	1 3/4"W x 3 1/3"L x 1 1/2"D	AFKDD161	\$17.39
Triple Pole	2 1/2"W x 3 1/3"L x 1 1/2"D	AFKDD162	\$18.44

### Slide 'n Lock™

## STOPOUT®

Lockout large handle circuit breaker. Prevent and block the accidental push on flip style switches. Fits variety of wide lever switches or up to three in column standard circuit breakers.

- Installs easily with no drilling or binding with Mounting Rail for quick adhesion
- Visible red ABS plastic construction incorporates octagon shape to convey STOP
- Consists of three parts: Mounting Rail 5"L x 3/4"W x 1/4"D, Slide Set 2"L x 2"W x 1 3/8"D, Stop Bar 5"L x 1"W x 1"D
- Additional Mounting Rail available for use on multiple panels

Item	Part #	Price / Each
Slide 'n Lock	AFKDD280	\$18.30
Additional Mounting Rails, 5" L	AFKDD282	\$5.31

### Universal Blockout Wall Switch Cover

## STOPOUT®

Flip the switch, flip the lockout.

- Dual use lockout device works on both rocker/toggle and flat paddle switches
- Uses existing switch plate screws to attach the lockout device
- Fold-down, living hinge blocks access to screws, preventing removal
- Secure with standard padlock (sold separately); tag available separately
- Measures 4-1/2"H x 1-5/8"W x 7/8"D
- Unique design allowing the device to only be applied in the direction of the desired lock out position

Part #	Price / Each
AFKDD139	\$6.37

### Toggle-Switch Cover

## STOPOUT®

Prevent access to a toggle switch, yet still be able to see its position.

Quick and easy to install, tough lockout includes clear, industrial strength 3M™ VHB™ tape for secure adhesion\*.

Features:

- Used on toggles, buttons or knobs
- The top half can be removed and stored when not in use
- Clear polycarbonate maintains visibility of the switch position and doesn't disrupt existing decals, marking or messages
- 3 1/2" x 1 1/2" base which covers up to 3/4" x 1" switch area

\* For best adhesion, ideal bond time is 24 to 72 hours prior to lockout application

Part #	Price / Each
AFKDD142	\$22.55

### Ball Valve Lockout

Wingspan halves open and close

## STOPOUT®

Stop valves from being turned with unique gull-wing design ball valve lockout.

- Quickly and simply secure over any closed ball valve handle
- Secure with padlock (sold separately)
- Bright red, plastic device works with ball valve handles either perpendicular or parallel to pipe
- Includes red "Danger Locked Out" label

Fits Ball Valve	Overall Size	Part #	Price / Each
3/8" – 1 1/4"	3 1/8" x 4 1/2" x 4 1/2"	AFKDD442	\$15.84
1/2" – 2"	4 1/2" x 5 2/3" x 5 2/3"	AFKDD440	\$26.11

### Versatile Pneumatic End-Fittings Lockout

## STOPOUT®

Provides a lockout to your pneumatic equipment/source to maintain worker safety.

Secure and lockout several pneumatic devices at the same time, preventing connection to a compressed air line source. There are seven openings ranging from 9/32" – 1/2" diameter to fit most male and female pneumatic end fittings.

- Red octagon design reinforces lockout STOP status
- Clear top to see what is locked out
- Rugged polycarbonate halves with metal hinge close down on the end fittings
- Overall dimensions are 3 7/8" x 3 1/4" x 1 7/8"

Part #	Price / Each
AFKDD480	\$22.11

### Gate Valve Lockouts

## STOPOUT®

Prevent gate valve handles from being turned without authority.

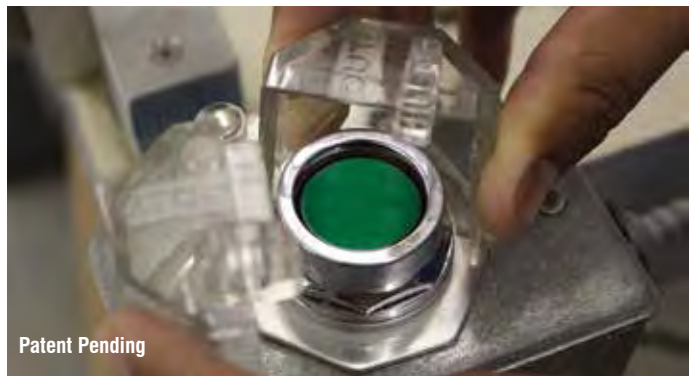

- Hinged clamshell housing fully encloses the valve handle and prevents unauthorized access
- Tough plastic octagon features three shackle holes for group lockout\*
- Unique pry guard edge
- Included safety label has space to write in lockout information

Fits Valve Handle Dia.	Size	Part #	Price / Each
1" – 2-1/2"	3" x 1"	AFKFF470*	\$11.11
2-1/2" – 5"	5-1/2" x 2"	AFKDD471	\$16.91
5" – 6-1/2"	7" x 2"	AFKDD472	\$23.86
6-1/2" – 10"	10-1/2" x 3"	AFKDD473	\$29.53
10" – 13"	13" x 3-1/2"	AFKDD474	\$46.79

\*AFKDD470 has only one padlock shackle hole.

### Push Button Cover

Patent Pending

## STOPOUT®

Prevent accidental activation of push button.

Two part lockout device: place aluminum metal ring underneath threaded ring nut and clear polycarbonate top with lip on bottom slips under the rim of the metal ring for a secure fit. (padlock sold separately).

- Semi-removable design allows for easy storage
- Tamper, impact resistant and extremely durable
- Available for 22.5 and 30mm buttons

Item	Part #	Price / Each
STOPOUT® Device with 22.5mm base	AFKDD219	\$25.19
STOPOUT® Device with 30mm base	AFKDD220	\$25.19
Additional 22.5mm metal ring only	AFKDD221	\$6.71
Additional 30mm metal ring only	AFKDD217	\$6.71

### Twist 'n Lock Cinch Lockout Hasp

## STOPOUT®

Easy-to-use cable and cinch lockout hasp solution.

- Polycarbonate, compact hasp comprised of two 3" dia. x 1 1/2" thick rotating halves with 6-ft. red plastic-coated steel cable
- Insert the cable through the devices to lock out; then pull the cable taut
- Short 15° turn of the hasp halves tightens and cinches the cable in place
- Pin pops up to hold the device in the secured position and lines up the four padlock holes
- Secure with lockout tag and padlocks (sold separately)

Part #	Price / Each
AFKDD637	\$23.31

### Disposable Padlock Seal

## STOPOUT®

Cost-saving, single-use lock device for operation-wide plant and facility lockout shutdown and turnaround.

- Loop and insert band end through padlock-style body; push band in to shorten and tighten the loop
- Molded teeth lock band in place inside the body and cannot reverse out
- Plastic shackle band can only be broken or cut for removal
- All-plastic body measures 2 1/2"H x 1 1/2"W x 7/8"D
- 7"L x 1/4"W long shackle band rated up to 100-lb pull strength

Part #	Price / Pkg. of 10
AFTLS202	\$27.71

### Look 'n Stop Compact Group Lock Box

## STOPOUT®

Small group lock box goes portable on the job – from the office to the production floor.

- Set on a desk, mount on the wall, or simply grab and go
- Slots in lid to insert and store locked out keys
- Unique twist-to-turn lid for secure close
- Inner pry-guard prevents tamper access
- Lid has two see through windows and carry handle
- Octagon shaped box in red conveys the STOP message
- 7 3/4" x 7 3/4" x 4" box is durable, impact-resistant plastic

Part #	Price / Each
AFKCC620	\$24.62

### Cinch Cable Lockout

## STOPOUT®

Universal spooling cable can lockout multiple devices at once.

- Contains internal cable spooling feature
- Quickly extend and loop 6-ft. cable through several devices
- Insert cable end back into device to "cinch" tight
- Pull the cable tight to automatically hold, secure with up to two padlocks (sold separately); tag available separately
- Durable plastic device measures 3-1/3" x 4" x 1"

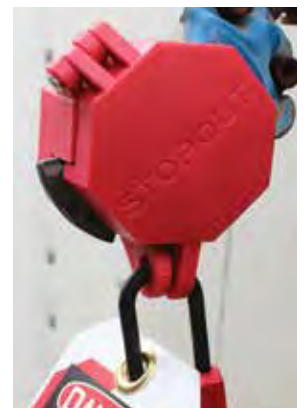

Item	Part #	Price / Each
Cinch Lockout w/ 6-ft. Cable	AFKDD630	\$37.95
15-ft. Cable (separate)	AFKDD635	\$19.57

### Trailer-Lock Glad Hand Lockout

## STOPOUT®

Deter unauthorized drive-off of trailers by blocking access to the emergency brake airline.

- Easy-to-use, clam-style device measures 4"L x 3"W x 2"H and fits only one way
- Made of durable plastic with a zinc-coated steel pin for the hinge
- Attach to trailer's (red) line connection, and secure with your choice of padlock (sold separately) to control access.
- Hinges to completely cover the glad hand coupling point valve – fits standard valves

Part #	Price / Each
AFKDD477	\$19.22

### Look 'n Stop Group Lock Box

## STOPOUT®

Prevent access to keys of locked out devices until all workers have completed the project.

- Hang up to 16 keys inside with front slot to drop in additional keys
- Secure with up to 44 padlocks (sold separately) with hole for supervisor's padlock on left backside
- 13" x 13" x 3 1/2" impact-resistant plastic box with top carry handle
- Cover pry-guard edge provides security when using minimal padlocks
- Front cover slides to hinge open and close
- Two rear keyholes for wall mounting and flange foot to set on flat surface

Part #	Price / Each
AFKCC624	\$44.84

### StopPlug™ Lockout

## STOPOUT®

Prevent unauthorized, accidental plug-in of power cord.

- Insert plug, close down, and secure with padlock (sold separately)
- Tamper-proof, pry-guard edge design
- Multi-Plug lockout fits most 110, 220, 550, or 600 VAC plugs – measures 3"H x 3"W x 6"L.
- 110 Plug lockout fits most 110 VAC plugs – measures 2 1/4"H x 2 1/4"W x 3 1/2"L.

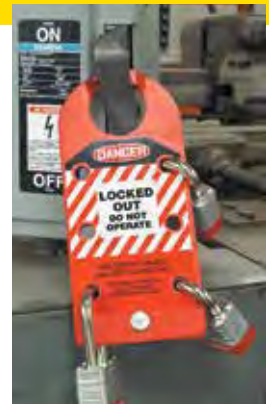

Style	Part #	Price / Each
Multi-Plug	AFKDD230	\$13.77
110 Plug	AFKDD225	\$12.08

### Aluma-Tag™ Hasps

## STOPOUT®

Lock out more equipment with the large reach hasp made to withstand the tough and abusive environment.

- Scissor-style hasp comprised of two high-strength .090" thick red anodized aluminum plates
- Accommodates up to six padlocks (sold separately)
- Crossover jaw ends prevent prying and tampering
- Get true 1 1/2" round reach with the full jaw opening
- Measures 6 3/4" x 3 1/8"
- Bold, contrasting red/white/black lockout hazard message labels on both sides — with space to write in necessary information
- Available each

Price / Each

\$19.86

### Tag 'n Hang Hasp

## STOPOUT®

Change out, insert, and secure a lockout tab tag for each lockout situation.

- 5 1/4" x 3" hasp fits in the palm of the hand
- Lightweight, all-dielectric plastic design
- Stop-shaped octagon front panel contains changeable lockout Tab Tag (sold separately)

Easy to use:

- Insert lockout tag over the top hole inside the front panel
- Close down the 2 1/4" octagon panel to hold the tag in place
- Insert the open end of the 1/4" wide loop to lockout the device
- Hasp hangs by the 1 3/8" x 2 3/4" closed oval loop
- Secures with up to three padlocks (sold separately)

Permit Sheets - Checklist Shown

Customize Permits with your specific information. Contact us for a quote with part number AFCBS855; specify your quantity, layout and checklist requirements.

**Confined Space Permit Station**

Make permits accessible where they are needed - at the site.

- Mount the station at or near the job site
- Store blank permits for easy access to the workers
- 14" x 20" x .040" thick aluminum board with corner mounting holes
- Clear plastic holder with flip top lid allows storage of blank permits protected from the elements

Part #	Price / Each
AFCBS420	\$67.88

Permits Sold Separately

**Permit Holder Board**

Board communicates the Confined Space requirements and holds related entry permit sheet.

- Hang or set board near or at the entrance of confined space to be readily seen by all
- Features large OSHA sign message with clear acrylic pocket for 8 1/2" x 11" entry permit (available separately)
- Board is 12"H x 19"W x 1/8" thick plastic construction with corner mounting holes

Price / Each
\$64.31

AFCBS129

We will create one with your design in mind. Order AFCBS555 and provide us the following specifications - dimensions, message, color(s), and company logo, if required. We can provide a proof upon request.

Post traffic signs to safely control and regulate the flow of vehicles and pedestrians.

- Constructed of heavy-duty, .080" aluminum, rustproof to withstand weather conditions
- Reflective face for added bounce-back light visibility from headlights and other light sources
- Abrasion-resistant face is also UV-resistant to prevent fading for years of outdoor exposure
- Top and bottom center holes for post- or fence-mount installation

**Material Descriptions:**

**Engineer-Grade Prismatic (RA)** – Good choice for added visibility in low-light conditions. Type I

**High-Intensity Prismatic (HP)** – Better choice for greater visibility, 3X brighter than Engineer-Grade. Type III, IV, X

**DG High-Prism (DP)** – Best choice for wide angle visibility at 10X brighter than Engineer-Grade. Type IX

### Custom Railroad Crossing Signals

Custom Railroad Crossing Signals are available. Specify signal style (one- or two-sided), controller and sensor settings, and desired accessories. Additional information may also be required. Refer to part number AFFSR555. We will get back to you with a quote.

TRUCK SHIPMENTS (LTL - Less than Truckload) We are committed to getting items only transportable by truck to you in excellent condition, and in a timely manner. We know that your business depends on speed and convenience. To assist in providing advance notice on items that MUST ship by truck, we have identified those items with a truck icon throughout this catalog. If you do not have a preferred LTL carrier, we will help determine the best carrier for your order. On occasion, large quantity orders may be more cost effective to ship via LTL carrier; in these instances, you will be notified prior to shipment. Truck shipments do not qualify for any special shipping promotions.

### Cone Top Warning Signs

Temporarily and quickly direct facility traffic.

- Slips into top of any traffic cone
- Rugged, 10" x 14" .060" plastic
- Same message both sides
- Weather- and fade-resistant

Mount and protect identification labels on the floor. Place and protect message, information, barcode, and other identification on the floor contained in a sturdy frame system. The metal frame mounts directly to the floor, containing a clear protective cover to protect your label (not included) underneath. Available in two sizes.

**Small size:**

- 8 1/2" x 5 1/2" x 1/8" all-aluminum oval frame
- 3 1/2" x 5" x .063" clear visible protective polycarbonate cover

**Large size:**

- 12" x 7 1/2" x 1/8" all-aluminum oval frame
- 5" x 7" x .063" clear visible protective polycarbonate cover

Frame features beveled edges to prevent abuse and damage from rollover of pallet jacks and forklift vehicles, as well as slide-over from pallets. Four concrete screws (included) secure frame to floor and prevent removal of the clear insert and label.

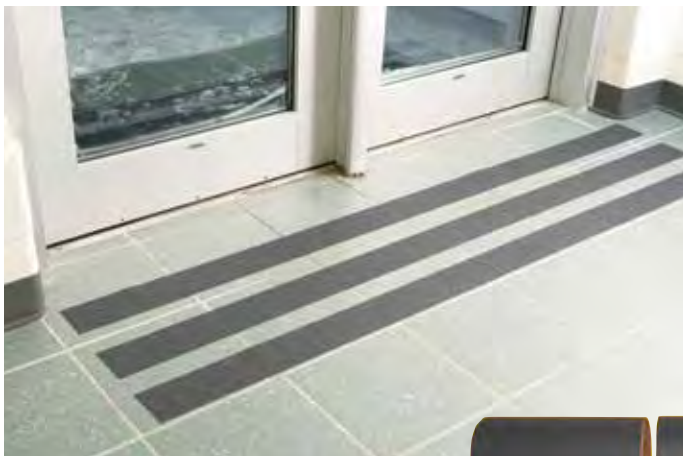

The frame's smooth underside can also be installed to floors using adhesive (not included).

Place anti-skid floor tape on walkways, ramps, loading docks, steps, and stairways to help maintain safe stepping workplace on wet or greasy floors.

Tape has aggressive 60-grit aluminum oxide compound layer fused onto a thick PVC base. This durable surface ensures safe-footing by providing good grip, wear resistance, weatherability, and water resistance under normal traffic conditions for both indoor and outdoor environments.

Installs quickly with high-tack acrylic adhesive back. Peel off liner and adhere to most any clean, smooth, dry surface. Maintains a waterproof seal - resisting sliding, buckling, wrinkling, and peeling.

Available in black in 60-ft. rolls.

Meets ANSI/NFSI B101.1.

Size	Part #	Price / Roll
1" x 60-ft.	AFPTA101BK	\$25.68
2" x 60-ft.	AFPTA102BK	\$50.57

6" x 60-ft.	AFPTA106BK	\$137.59
12" x 60-ft.	AFPTA112BK	\$268.82

OSHA 29 CFR 1910.24(f)  
"Stair treads." All treads shall be reasonably slip-resistant and the nosings shall be of nonslip finish.

Designed to withstand the industrial facility and high plant traffic.

- Superior durability for high traffic locations
- Easy to apply with only one person
- Abrasion- and chemical-resistant
- Aggressive acrylic adhesive minimizes peel or lift
- Low-profile reduces tears and scratches from skids, pallet jacks, etc.
- Removes easily without leaving any adhesive residue or damage to the floor

Floor Stripe™ Marking Tape outperforms standard floor marking tapes. Heavy-duty composite tape creates a high gloss surface that resists marks and smudges and cleans up like new. The surface is water and chemical resistant which makes the cleaning fast and easy.

Long-lasting tape is ideal for marking aisles, pathways, work areas, hazard areas and storage locations, plus outlining machinery and placement of portable equipment. For optimal performance, apply to clean, flat, non-coated concrete surfaces.

Printed 2-mil polyester with 3-mil clear polycarbonate over-laminate creates a strong, durable tape that is flexible, heat resistant, long lasting, and does not stretch like traditional tapes. Acrylic adhesive provides high tack, bond to variety of smooth and rough surfaces. Minimum application temperature: 50°F. Temperature range: -40 to 302°F.

## Plastic Chain

Lightweight, yet remarkably strong, polyethylene plastic. Each link is 2" x 1" x 1/4". Available in solid colors and alternating color chain that changes color every two feet. Chain can be cut to your required length (maximum continuous length is 500-ft. except Glow Chain being 164-ft.). Available per foot.

### Accessories for Chain Links

**S-Hooks** — Open ends to quickly link and unlink separate lengths of chain. Available each.

**Master Link** — Permanently joins separate lengths of chain to give a seamless look. Available each.

## Stanchion Post

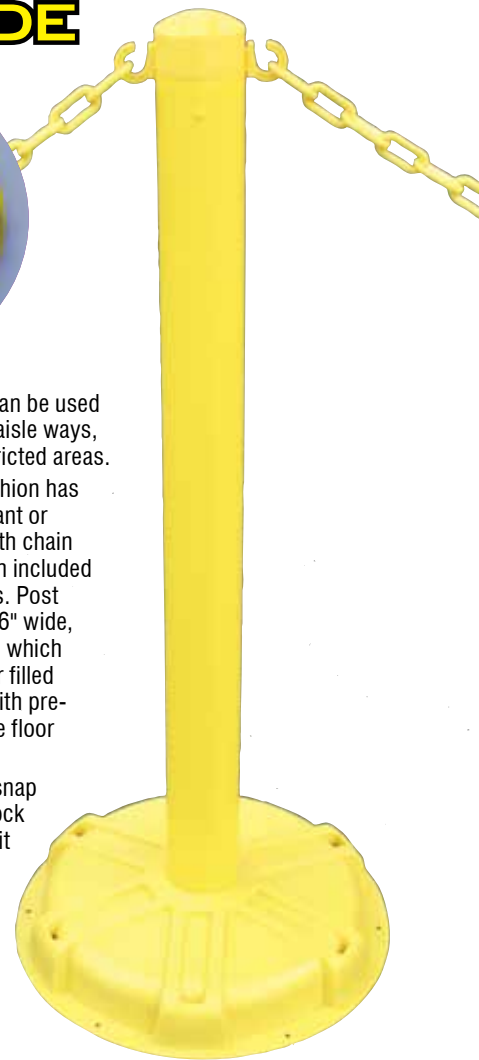

# BLOCKADE

Uniquely designed stanchions can be used for crowd control, to designate aisle ways, or cordon off hazardous or restricted areas.

High density polyethylene stanchion has industrial design ideal for the plant or facility. Set out several posts with chain (sold separately) connected with included C-hooks to establish boundaries. Post stands 38" high with a sturdy, 16" wide, low-profile compartmental base which can be filled with gravel, sand or filled ring weight. Base also comes with pre-drilled holes to be secured to the floor if desired.

The 3" diameter post and base snap together for a secure, positive lock rather than the standard press-fit design. Snap lock ensures the post will not pull out from the base when lifted and moved. Unit breaks down and stacks for compact storage.

### STANDARD YELLOW POST

Height	Par #	Price / Each
38"	AFPRC441YL	\$35.42

## Fiberglass Stakes

Heavy-duty, fiberglass reinforced composite stakes are nearly indestructible. Ten times stronger than typical thermoplastic. Stake is 66" long x 3 3/4"W with 1/4" thick center and 3/8" thick ribbed-edge design for structural rigidity. Install by driving pointed end into the ground (recommended depth of 18 to 24 inches).

To order, add stake color code after part number.

### PPE-ID™ Chart & Label Booklet Kit

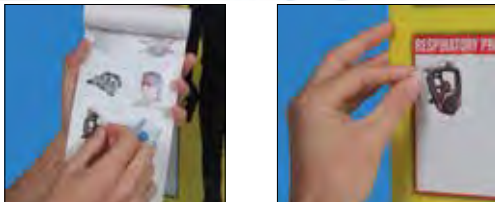

Create and display a visual chart identifying Personal Protective Equipment (PPE) required for use by employees, contractors, and visitors. Ideal for posting at entrances, doorways, time-clock, lockers, and more – capture their attention and remind them about your company's PPE policy of what is to be worn and used, in and around your facility.

This 24" x 18" chart is designed so that you can add basic specific identifiable PPE as required. Chart is a template with blank spaces provided that is filled in by placing PPE product pictorials from the included Label Booklet. The labels within the booklet represent today's most common PPE products. Also create and post additional charts featuring PPE requirements specific to different hazard areas. PPE-ID™ Chart is printed on sturdy 1/8" over-laminated Plastic Lite. Label Booklet contains 2" x 2" self-adhesive vinyl images of commonly recognized standardized PPE, broken down into popular categories; body, eye, foot, hand, head, hearing, and respiratory. Easily peel and place the appropriate label onto the available spaces on the chart.

#### PPE-ID™ Chart Kits can:

- Help visually identify basic PPE requirements
- Enhance and reinforce usage
- Help non-English speaking workers quickly recognize PPE
- Show your commitment to a safe workplace

Item	Part #	Price / Each
PPE-ID™ Chart & Label Booklet Kit	AFPPE248	\$57.85

Keep track of safe days automatically. Heighten awareness and visibility of safe work days, and take the chore out of manually changing the number.

- Bright, red LED numbers
- Frameless design, lightweight aluminum scoreboard
- Printed image goes to the edge and wraps around the sides for depth and visual impact
- Internal clock advances automatically by one, every 24 hours; set to change any time of day
- Operate tamper-proof scoreboard with easy-to-use, small remote control
- Last number saved in event of power failure

**Digi-Day® Specifications:**

- For indoor use
- 28" x 20" aluminum construction
- Four-digit, red LED display with 2-1/2" H numbers
- Operates on 120 VAC with 6-ft. power cord

**Digi-Day® Plus+ Specifications:**

- For wet, damp, harsh locations\*
- 36" x 24" aluminum construction
- Four-digit, bright LED display with 4" H numbers
- Operates on 120 VAC with 12-ft. power cord
- IP65 tested for dust and water resistance

\*Power receptacle exposed to wet environment should be plugged into a GFI outlet with weatherproof protective receptacle cover.

\*Includes one electronic display and one magnetic display with changeable number set (for "best previous record").

Proudly display safe work days that count up in green – electronically and automatically – with the next generation Digi-Day®2. The LED display mounts in a frameless designed scoreboard. Innovative scoreboard design takes the image to the edge and wraps it around each side for visual depth.

**Show Display in 2 Ways**

Be able to control the LED to display only the safe days count, or flash between safe days, time, and date. Internal clock automatically advances based on your setting preference.

**Track Days 2 Ways**

Track the full 7-day week, and the count accumulates continuously for each day. Or, count only working days. Does your company work 4, 5, or 6 days? Now you can set to track only those days.

**Additional Features**

The display count can be set to freeze or hold. In the event of a power failure, all the information remains stored; then operations resume when power returns. There are notification indicators for the hold and power failure events.

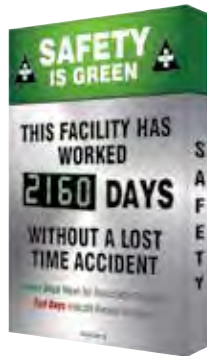

**Price / Each**

Wind-resistant, mesh banners offer an indoor/outdoor banner solution for your safety and motivation messages.

- Mesh material holds up to high winds
  - Heavy-duty design stands up to the elements
  - Bold color graphics and images convey the message
- Made from 11 oz. polyester mesh material, banners are reinforced with grommets and double-stitched hems. Small openings in the mesh and surface area clearly display graphics and messages while allowing wind to pass through, reducing wind load stress and preventing the banner from ripping. Images and messages are digitally printed with vibrant colors in high-resolution. UV-resistant ink prevents fading. Four nylon ropes included.

# PERSONALIZE IT!

Keep your workplace informed and motivated with unique, customized banners that will hold up – indoors and out. Personalize your banner with bright, colorful, eye-catching. Convey the message, using your words, phrases, colors, full-color images and logos.

**How to Order:**

- Step 1:** Specify size by part number
- Step 2:** Write your message
- Step 3:** Include a sketch or file of your image, design, logo, etc.
- Step 4:** Pick your colors
- Step 5:** Place your order

Size	Part #	Price / Roll
4-ft. x 10-ft.	AFMBM325	\$142.60
Other size	AFMBM355	Call for quote

Repeat your message on custom banners to beautify facility fencing. Include your colors, messages, images and corporate brand.

Wind-resistant banners are made from 11 oz. polyester mesh material, reinforced with grommets and double-stitched hems. Custom design is digitally printed within UV-resistant inks and high-resolution, clear images.

Fence-Wrap™ comes in 4-ft. wide rolls up to 150-ft. long with a maximum graphic length of 150-ft. Available with repeatable image within maximum length.

For other custom requirements, contact us with your specifications, and refer to part number AFFBW555 for a quote.

**How to Order:**

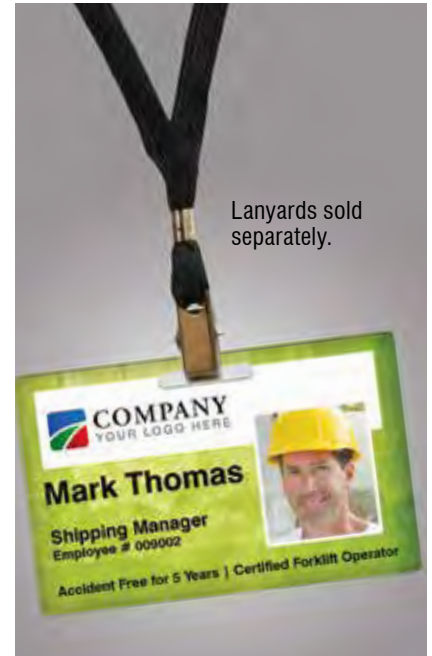

- Step 1:** Specify roll size by part number
- Step 2:** Provide your message, and specify if it repeats
- Step 3:** Include a sketch or file of your image, design, logo, etc.
- Step 4:** Pick your colors
- Step 5:** Place your order

4-ft. x 150-ft.	AFFBW155	\$1742.97

# PERSONALIZE IT!

Get personalized identification badge cards that are durable and good-looking with photo-quality images. Full-color identification cards are created using advance dye-sublimation and thermal resin transfer print technology. Cards can be printed with graphics and individual information — such as names, numbers, and bar codes — as well as photo images. The card is laminated with a sheer clear-gloss film to permanently seal and protect the image, providing maximum durability and resistance to abrasion and color-fading. Printed on 15-mil polypropylene that is laminated on both sides with 10-mil (34-mil total). Print can be done on one side or both sides.

Lanyards sold separately.

### How to order:

- Create a standard design template or incorporate your company logo. Send your information to us in an electronic file format, Illustrator EPS (with all fonts/typefaces turned to outlines/curves) or we can scan an actual design/logo.
- List out the names and/or numbers required - sequential or otherwise. If bar codes are required, please specify the symbology.
- Point out your color requirements - including PMS numbers.

For photo-quality images, please provide: high-resolution electronic TIF format file - Mac or PC; or actual photograph to be scanned. Verify the quantity of badges.

Style	Part #	10 - 24	25 - 49	50 - 99	100 - 249	250 - 499	500 - 999	1000+

\*Pricing includes custom design and material by size. For components and accessories, contact us for a quote.

**Design your Site-Boards™ with us online, in real time ... at no extra cost!**

Interact with our graphic artist in real time to develop your Site-Boards™. Your artwork comes to life right before your eyes. You get exactly what you want versus settling for something close.

**Contact us to have professionally designed Site-Boards™ customized for you.**

Site-Boards™ are designed with protection to maintain the printed images. Graphics, wording, and message will remain unchanged in clarity, color, and sharpness throughout the durability period. Site-Boards™ are sold with the understanding that the buyers will test this material, in actual use, to determine for themselves its adaptability to their intended environment and use(s). We warrant that Site-Boards™ are free from defects in material and workmanship, but limit obligation under this warranty to replacement of the product shown, to our satisfaction, to have been defective at the time we sold it. This warranty does not extend to any persons obtaining the product from the buyer. Under no circumstances will we be liable for any loss, damage, expense, or consequential damages of any kind arising in connection with the use, or inability to use Site-Boards™. We will not be liable for defects that are the result of product abuse, misuse, alteration or modification; or for defects that are due to a failure to install, maintain, or use of the product in accordance with our provided installation instructions.

**TRUCK SHIPMENTS (LTL - Less than Truckload)** We are committed to getting items only transportable by truck to you in excellent condition, and in a timely manner. We know that your business depends on speed and convenience. To assist in providing advance notice on items that **MUST** ship by truck, we have identified those items with a truck icon throughout this catalog. If you do not have a preferred LTL carrier, we will help determine the best carrier for your order. On occasion, large quantity orders may be more cost effective to ship via LTL carrier; in these instances, you will be notified prior to shipment. Truck shipments do not qualify for any special shipping promotions.

# PERSONALIZE IT!

Foam Organizers designate a place for every tool in your tool box, drawer, chest, cabinet, station, or tray. When a tool is removed, the tool's 'shadow' visually identifies that it is in use, missing, left behind, misplaced, not returned, or lost.

Dense, textured polyethylene foam is chemically cross-linked to be durable, heat stable, yet lightweight. Resistant to oils, solvents and jet fuels. Available standard or, for an additional cost, with your information – company name, department name, logo, tool name, tool part number, etc. – printed in color onto the foam.

**Features:**

- 3/4" thick dual-layered foam
- Top 1/2" layer contains precision laser-cutout silhouettes of your tools in contrast color to the 1/4" bottom layer
- Tool Spacing: 1/2" minimum space between tool cutouts; minimum 5/8" from the edge; narrowest cutout is 1/4" wide
- Finger Pockets: Semi-circular opening next to tool shape to easily remove small tools

**How to Order:**

- Choose color combination and foam style by part number – standard or with print
- Provide the inside dimensions to fit each drawer, tray, or tool box requested – include at least two decimal places on each dimension
- Indicate the desired quantity – number of drawers or tool box inserts
- Contact us for a quote – see instructions and options in 'How It Works'. Price Guideline Table provided to approximate the price of your Store-Drawers™ Organizers

**Color Combination**

Black/Red      Black/Yellow      Blue/Red      Blue/Yellow

**STORE-DRAWERS™ ORGANIZERS**

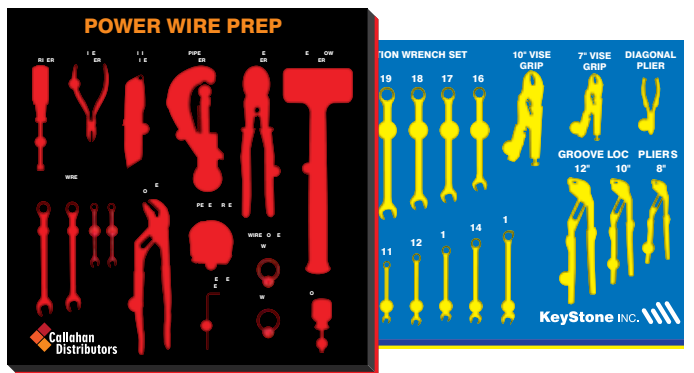

Color Combination (Top/Bottom)	Standard Part #	With Print Part #
Black/Red	AFPDR112BKRD	AFPDR126BKRD
Black/Yellow	AFPDR112BKYL	AFPDR126BKYL
Blue/Red	AFPDR112BURD	AFPDR126BURD
Blue/Yellow	AFPDR112BUYL	AFPDR126BUYL

**PRICE GUIDELINE TABLE**

**Example Drawer Size, Approx. (W x D)**

Approx. (W x D)	Standard Price (Approx.)	With Print Price (Approx.)
18" x 12"	\$139.80	\$174.77
27" x 12"	\$198.68	\$248.34
27" x 18"	\$285.31	\$356.62
36" x 18"	\$375.28	\$469.05
27" x 27"	\$397.73	\$477.28
36" x 27"	\$525.19	\$617.85
36" x 36"	\$681.77	\$802.08
54" x 27"	\$750.05	\$882.45

Pricing is based and calculated by finished size of your Store-Drawers™ Tool Control Foam Organizers. Contact us for a quote.

**Design your Store-Drawers™ with us online, in real time ... at no extra cost!**

Interact with our graphic artist in real time to develop your Store-Drawers™. Your artwork comes to life right before your eyes. You get exactly what you want versus settling for something close.

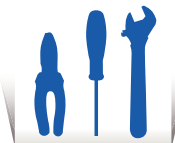

**Contact us to have professionally designed Store-Drawers™ customized for you.**

**How it works:**

**STEP 1:**

Request a quote – based on foam style, sizing and quantity. Once you approve your quote, proceed to step 2.

**STEP 2:**

Identify your tools and layout requirements, specific to each Organizer. You must include at least two decimal places on each dimension.

**STEP 3:**

Schedule a live, interactive art proof session (via WebEx™), and collaborate with our graphic artist on your Organizer's design.

**STEP 4:**

An art proof is emailed for your approval. Once approved, your personalized Organizer is created and shipped in short-order.

# PERSONALIZE IT!

Organize tools, supplies and equipment to promote efficiency, effectiveness and safety. Store-Boards™ have shadow outlines showing when tools are in use or missing, and the proper place to return tools. Ideal for use in 5S and other lean practices. Store-Boards™ are customized to your requirements - any size and shape with any colors, images, logos and graphic schemes.

**How to Order:**

- Determine Store-Boards™ requirements - Choose size and material, note any special hardware/holders\*, and be prepared to identify equipment to be shadowed
- Request an art proof - We can schedule your personalized WebEx™ to finalize your design
- Receive your personalized price quote
- Approve your artwork, and we produce your Store-Boards™

Instruction card	1

**D**

**A. Burn Jel®**

Unlike petroleum products that can actually trap the heat in a burn, this water-based, water-soluble gel actually draws the heat away from the skin and dissipates it on contact. It relieves pain fast and cools and soothes the affected area. Contains 2% lidocaine

SKU	Description	UOM	Price
WJ100U-6	Water-Jel Burn Jel, unitized 6/BX	EA	\$4.30
WJ600U-1	Water-Jel Burn Jel, unit doses 3.5 gm 25/BX	BX	\$17.54
WJ144-1	Water-Jel Burn Jel, 4 oz. squeeze bottle	EA	\$5.84

**B. Cool Jel**

This topical cooling gel cools and soothes minor burns, sunburns, scalds, cuts and abrasions. Water-based and water-soluble, it won't stick to a wound and can be easily rinsed away. Cool Jel also forms a protective barrier to help protect the wound from airborne contaminants that may delay healing.

SKU	Description	UOM	Price
WJCJ-6	Cool Jel 6/BX	BX	\$2.49
WJCJ-25	Cool Jel unit dose 25/BX	BX	\$10.45
WJCJ4-24	Cool Jel 4 oz squeeze bottle	EA	\$4.40

**C. Burn Dressings**

Water-Jel® Sterile Burn Dressings are soaked in a water-based, water-soluble gel to relieve the pain, cool the burn and protect against airborne contamination all-in-one easy step. The sterile burn dressings consist of a medical grade non-woven polyester soaked in a water-based, water-soluble gel and are available in six convenient sizes. The dressings can be placed directly over clothing, and the gel is easily removed with sterile saline.

SKU	Description	UOM	Price
WJ0206-60	Water-Jel Burn Dressing - sterile 2" x 6"	EA	\$3.47
WJ0404-60	Water-Jel Burn Dressing - sterile 4" x 4"	EA	\$4.33

WJ0818-20	Water-Jel Burn Dressing - sterile 8" x 18"	EA	\$12.71
WJ1216-20	Water-Jel Burn Dressing - sterile face mask 12" x 16"	EA	\$16.77
WJ0820-20	Water-Jel Burn Dressing - sterile for hand burns 8" x 20"	EA	\$16.77

**A**

### A. Burn Wrap

Water-Jel® Burn Wraps offer one of the quickest, easiest and most direct methods of administering emergency first aid burn care. When placed on a victim, gel-soaked wraps ease the pain, cool the burn, and help protect against airborne contamination all-in-one easy step. They can also be used to extinguish flames on a victim and put out small fires. The wraps are composed of a 100% worsted wool carrier capable of absorbing up to 12x its own weight. The wool is soaked in a water-based, water-soluble gel that is bacteriostatic and biodegradable. Five year shelf life.

SKU	Description	UOM	Price
WJP3630-4	Water-Jel Burn Wrap 3 ft x 2.5 ft in pouch	EA	\$68.90
WJ3630-4	Water-Jel Burn Wrap w/canister 3 ft x 2.5 ft	EA	\$68.90

### B. Fire Blanket

Water-Jel® Fire Blankets are soaked in a water-based, water-soluble gel to relieve pain, cool the burn, and protect against airborne contamination all-in-one easy step. The fire blankets consist of a 100% worsted wool blanket with intercellular weave. In addition to being a one-step burn care product, they can also be used to put out small fires, extinguish flames on a victim, and protect a rescuer from heat and flame. The blankets can be placed directly over clothing, and the gel is easily removed with sterile saline. Five year shelf life.

SKU	Description	UOM	Price
WJ7260-4	Water-Jel Fire Blanket Plus w/canister 6ft x 5ft	EA	\$163.16
WJP7260-1	Water-Jel Fire Blanket Plus 6 ft x 5 ft in pouch	EA	\$163.16

**B**

**C**

### C. Heat Shield

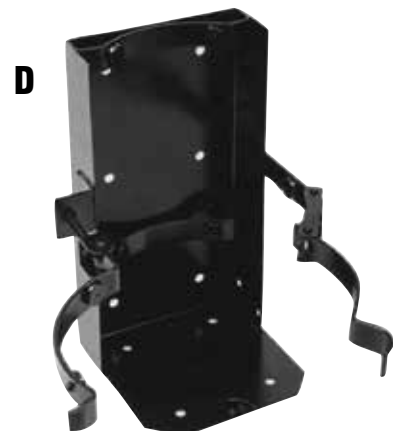

The Water-Jel® Heat Shield protects a rescuer from heat and flame, put out small fires and extinguish flames on a victim. In addition to providing protection from flames, it is soaked in a water-based, water-soluble gel to relieve pain, cool the burn, and protect against airborne contamination when applied to burnt skin. The blankets can be placed directly over clothing, and the gel is easily removed with sterile saline. Five year shelf life.

SKU	Description	UOM	Price
WJ9672-4	Water-Jel Heat Shield w/canister 8 ft x 6 ft	EA	\$239.04

### D. Water-Jel® Mounting Brackets

This mounting bracket holds the Water-Jel® canisters, allowing for easy access in emergency situations.

SKU	Description	UOM	Price
WJTL-10	Water-Jel steel mounting brackets TL10 for 9672-4	EA	\$63.16
WJTM-10	Water-Jel steel mounting brackets TM10 for 7260-4	EA	\$60.96

**D**

### A. Itch Relief Spray

### A. Eye Flush Set

Eye-Lert® Eyewash Solution. Sterile, solution 1 oz. with 2 eye pads & 4 adhesive strips per unit, double size.

SKU	Description	UOM	Price
NORM02-09-56	Eye wash with pads and strips, 1 oz	EA	\$3.67

### B. Morgan® Lens

The Morgan Lens is the most effective method for treating ocular trauma. It is widely used by physicians, nurses and other medical personnel for emergency eye irrigation. In seconds, the eye can be receiving the lavage necessary to treat chemical and thermal burns or to remove non-embedded foreign materials in the eye. The Morgan Lens is designed to be attached to the Morgan Lens Delivery Set (or a standard IV setup) and an irrigation solution of choice. The patient can then be comfortably transported while receiving complete ocular irrigation, and medical personnel are free to concentrate on other injuries or other patients. Because of its effectiveness and efficiency, the Morgan Lens saves time, saves trouble ... saves eyes. All packaging and products are latex free.

SKU	Description	UOM	Price
MORMT2000	Morgan Lens	EA	\$35.53

### C. Morgan® Lens Delivery Set

It is very often the case that the pain in one eye masks pain in the second eye. Therefore, as soon as irrigation of a severely burned or irritated eye has begun, it is essential that a careful assessment of the other eye be done. Unless the other eye is completely comfortable and there is no pathology discovered, immediate irrigation should be started. The Morgan Lens Delivery Set consists of a specialized IV delivery set that can be attached to two Morgan Lenses, conveniently providing simultaneous irrigation of both eyes. Use of the Delivery Set saves time and money, since you do not need to use two separate IV setups. The rate of flow may be controlled, and irrigation to just one eye is possible since the necessary clamps are included. Latex free.

SKU	Description	UOM	Price
MORMT202	Lens delivery set 6/BX	BX	\$46.85

### D. Irrigating Solutions

The sterile solution in an irrigation comes in an Aqualite semi-rigid, shatter-proof container. The square bottle shape makes it easy-to-handle and eliminates rolling. The bottle is latex-free and available in 500 mL and 1000 mL sizes. **This item requires a prescription.**

SKU	Description	UOM	Price
0074-6139-03	Solution sterile water for irrigation 500 ml pour bottle	EA	\$2.84

SKU	Description	UOM	Price
PROG0721	IV start kit (tour, PVP, tape, dress, label)	EA	\$2.98

### A. Protectiv IV Catheter

The Protectiv IV Catheter Safety System puts needle stick protection in your hands. Needle sticks account for more than a third of all hospital-related injuries and eighty percent of HIV/AIDS and HBV infections acquired on the job. Here's how it works: as you slide the catheter off the introducer needle, the protective guard glides into place over the needle. You are never exposed to a contaminated needle because the guard locks into place over the needle before the needle is removed from the catheter hub. A reassuring "click" lets you know the needle has been safely and permanently locked within the guard. No need to recap. No need to transport a contaminated needle. **This item requires a prescription.**

SKU	Description	UOM	Price
3460-JE3055	Protectiv IV catheter safety system J&J 18G x 1-1/4	EA	\$5.70
3460-JE3056	Protectiv IV catheter safety system J&J 20G x 1-1/4	EA	\$5.70

### B. Venicare® IV Catheter

### B. Venicare® IV Catheter

The Venicare line of IV catheters feature a thin taper, but don't sacrifice penetration force. This virtually eliminates catheter "curlback." **This item requires a prescription.**

**A. HeartStart FR3**

The new HeartStart FR3 is Philips best professional-grade AED yet and is now making lifesaving faster, easier, better for professional responders.

As the smallest and lightest professional-grade AED available among leading global manufacturers\*, the HeartStart FR3 continues Philips legacy of providing AEDs that are designed to be rugged, reliable, and to support you every step of the way.

The HeartStart FR3 Defibrillator includes a Guide To Setup and Maintenance (printed); Instructions For Administrator's (CD); Battery (1); and SMART Pads III (1 set). The HeartStart FR3 Defibrillator includes a 5 year manufacturer's warranty at no charge. Battery includes a 3 year warranty; pads are warranted until expiration date. Other accessories (sold separately) include a 1 year warranty.

\* Data on file with Philips Healthcare.

**A. Zoll® AED Plus Unit with Prescription**

Now fully 2010 Guidelines-compliant! When a cardiac arrest occurs, the fact is that only half of the victims will need a shock. The other half requires high-quality cardiopulmonary resuscitation (CPR). You deserve an automated external defibrillator (AED) that helps you all the time, one that can actually see when you are doing CPR and provide help. You need more than just commands without assistance. That's not smart, and it's certainly not help. Only ZOLL's AED Plus® features Real CPR Help,™ a tool that is able to actually see what you are doing and provide feedback to help you do it well. Audio and visual prompts help you rescue with confidence and clarity unmatched by any other AED.

### A. CPREzy™ CPR Assistance Device

The CPREzy CPR Assistance Device is unlike other manual External Chest Compression Assist Devices (ECCAD). Just turn it on, place it to the chest as suggested and begin compressing. There is no waiting for voice prompts which divert your attention and waste precious rescue time. Furthermore, the CPREzy ensures you are giving correct compression depths regardless of the surface that your victim is laying upon.

SKU	Description	UOM	Price
CPREZ01	CPREzy CPR Assistance Device	EA	\$214.04

### B. CPR Microshield®

For more than a decade the CPR Microshield has been the leader in CPR barriers. Designed to protect the rescuer while aiding in the administration of proper CPR technique, it has become the standard by which others are judged. The positive one-way valve inside the airway enhancing bite block is designed for maximum protection of the first responder. It also assists in keeping an open airway while performing the head-tilt, chin-lift maneuver.

SKU	Description	UOM	Price
431070150	Reusable CPR microshield, orange pouch	EA	\$6.46
431070155	CPR Microshield - sealed tamper resistant	EA	\$6.97

**D**

### A. CPR Microkey™

The MDI CPR Microkey offers the protection of the finest barrier device available with the convenience of a key chain. An important factor in being prepared to save a life is to always have your barrier device with you. The compact pouch is made of durable nylon with a hook and loop closure and is available in two attractive colors.

SKU	Description	UOM	Price
431070190	CPR Microkey black	EA	\$9.19
431070192	CPR Microkey orange	EA	\$9.19

**B**

### B. CPR Micromask™

The CPR Micromask features a positive one-way, non-re-breathing valve complete with filter. This valve has a large opening to reduce restrictive rescue breathing. The CPR Micromask is made of materials that remain flexible over a wide range of temperatures, allowing it to conform to facial contours and provide an outstanding seal, even under extreme conditions. The dome is manufactured from clear plastic for accurate patient monitoring. It may be used on adults, children and infants.

SKU	Description	UOM	Price
431073401	Single use CPR Micromask with gloves	EA	\$12.92

### C. AED First Responder Kits

AED First Responder kits allow the rescuer to administer proper CPR using the finest barrier or mask available. Additional components increase the level of protection while enabling the rescuer to efficiently dispose of all components.

SKU	Description	UOM	Price
431078700	AED first response kit with Microshield polybag	EA	\$13.73

### D. Laerdal® V-Vac™ Manual Suction Unit

With a wide-bore intake valve and suction tube to minimize clogging, the V-Vac Manual Suction Unit is a small, lightweight unit perfect for first responders. The disposable one-piece suction tube and cartridge leaves no need for cleaning. The unit has an adjustment for high and low pressure suctioning, with the maximum suction exceeding 380mmHg. Peak air flow is over 70 liters per minute. The starter kit contains two disposable cartridges, catheter, adapter tip, double male connector and handle.

SKU	Description	UOM	Price
LAE985000	V-VAC starter kit	EA	\$190.70

### E. Laerdal® Compact Suction Unit

The Laerdal Compact Suction Unit packs a lot of value into a small machine. The versatile LCSU comes with built-in gauge and regulator for all suctioning applications, and a two-year limited warranty. Comes complete with a soft carry case and AC/DC powercords. Oral, nasal, and tracheal suction applications for infants through adults!

SKU	Description	UOM	Price
LAE880020	Suction unit w/gauge, regulator & canister	EA	\$893.45

### A. Laerdal® Little Anne™ Manikin

The Little Anne is a realistic, lightweight, adult CPR trainer that offers all the essential features for quality CPR training. The airway can be opened using the head tilt, chin lift or jaw thrust technique. It has compression “clicker” to assure adequate compression depth, a compression spring for consistent resistance. The Little Anne manikin also includes disposable airways equipped with a one-way valve. Pad that doubles as carrying case included.

SKU	Description	UOM	Price
LAE020020	Little Anne manikin with pad carry bag	EA	\$301.32

A

B

### B. Laerdal® Little Anne™ Replacement Lungs

The Little Anne disposable airways with one-way valve need to be changed only at the end of each class for maximum instructor convenience and student safety. The replacement airways come 24 to a box.

SKU	Description	UOM	Price
LAE020300	Little Anne replacement lungs 24/BX	BX	\$72.37

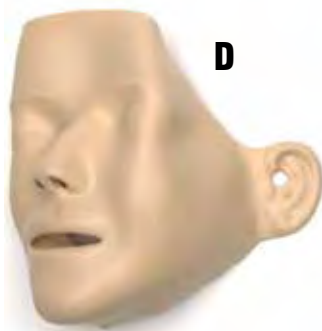

### C. Laerdal® Manikin Face Shields

These disposable plastic face shields have a low resistance filter that fits over the manikin’s face. Used in addition to disinfectant products it offers inexpensive extra barrier protection for students sharing a manikin. It also trains students in the use of Laerdal Face Shield for real life emergencies.

SKU	Description	UOM	Price
LAE151201-CS	Manikin face shields 6 RL x 36/CS	CS	\$85.53

**C**

### C. Ferno Scoop EXL Stretcher

The lightweight, polyethylene scoop stretcher has Twin Safety Lock™ for smooth locking and unlocking. A narrow foot-end makes this stretcher ideal for use in confined spaces and angled handles make for easy transport.

SKU	Description	UOM	Price
FERN065	Scoop stretcher 66"-99" without case	EA	\$1071.05

### D. Ferno Model 71 Basket Stretcher

This high-density polyethylene basket stretcher is attached to an aluminum frame for maximum durability. Runners and hand holds are molded-in making it easy to handle. Resistant to chemical, UV, rust and corrosion. Restraints are included.

SKU	Description	UOM	Price
FERN071	Polyethylene basket stretcher, orange	EA	\$1097.74

**D**

### Adjustable Lifting Bridle

The adjusting lifting bridle features locking steel carabiners, which are welded in to prevent bridle separation, to attach at the lifting points. Each end is adjustable to the patient position.

SKU	Description	UOM	Price
FERN0418-1	Adjustable lifting bridle	EA	\$372.37

### A. Backboard Body Restraint

The backboard body restraint is made of 2" polypropylene webbing and has a side-release, snap-lock, plastic buckle. The strap features a hammed tab that prevents it from being pulled from the buckle. Available as a single strap or in a set of three.

SKU	Description	UOM	Price
FERN0430-1	Backboard body restraint 1 piece 2" nylon 7'	EA	\$48.69
FERN0439	Backboard restraint strap kit 3-7 ft straps	EA	\$115.79

### B. 2-Piece Body Restraint

These 5"x2" patient restraints feature a quick release buckles that are chrome plated to resist rust and corrosion. The straps are a nylon-polyester blend.

SKU	Description	UOM	Price
FERN07735SC	2-Piece body restraint w/speed clip 3/PK	PK	\$235.10

### C. FernoTrac™

The FernoTrac Traction Splint is great for patients with suspected lower extremities, long bone fractures. The tubular aluminum frame is easy to adjust and wide elastic straps keep the leg firmly in place. The heel stand folds down for easy storage.

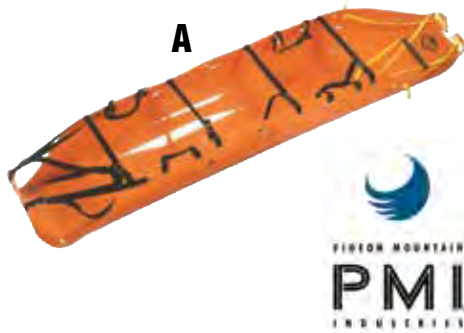

SKU	Description	UOM	Price
FERN0443	FernoTrac 443 Traction Splint, pediatrics	EA	\$481.58
FERN0444	FernoTrac Adult Leg Splint	EA	\$501.42

### D. Ferno K.E.D. (Kendrick Extrication Device)

The Ferno K.E.D. (Kendrick Extrication Device) is a versatile, improved means of immobilizing and extricating patients from automobile accidents or confined spaces. The color-coded straps make application simple even in the dark or in extremely cramped areas. This device immobilizes the patients torso, head and neck, this allows prompt extrication while minimizing the risk of further injury. Three handles are integrated into the device to assist in better control of the patient during extrication.

SKU	Description	UOM	Price
FERN0125	Kendrick Extrication Device (K.E.D)	EA	\$151.35

### A. Sked Stretcher System

Compact, lightweight and carries easily in its own case, Sked's unique shape and narrow profile accommodates patient evacuation through small openings such as manholes, sewers, ship hatches or caves. Components and optional equipment: Sked Stretcher (14 lbs), backpack (28 oz), horizontal lift slings (19 oz), tow strap (7 oz), webbing handle set/ 4 handles (3 oz). Note: Total Sked system consists of the above items plus 9.2m length of PMI 10mm E-Z bend and one large locking carabiner.

SKU	Description	UOM	Price
PMISK200	Sked stretcher system	EA	\$801.72

### B. Plastic Stretcher

The Junkin Plastic Stretcher has a yellow high-density polyethylene shell, supported by a stainless-steel outer rail that is permanently attached with stainless-steel semi-tubular rivets. It features molded runners, a fully exposed outer rail, a non-absorbent foam pad secured to stretcher and four patient restraint straps.

SKU	Description	UOM	Price
JUNSAF200	Plastic stretcher	EA	\$946.89

### C. Aluminum Stretcher

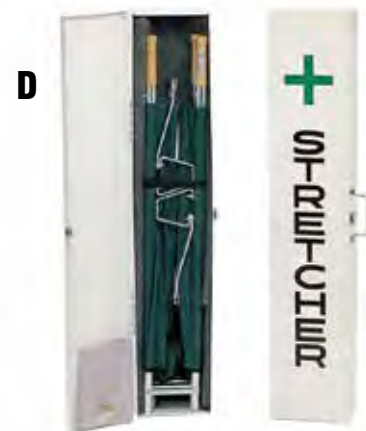

The Junkin Easy-Fold Stretcher is easily set up and is compact for storing. This Medical Corps type litter is lightweight, and has shaped hardwood handles on aluminum poles. The cover is durable 18 oz. vinyl coated nylon.

SKU	Description	UOM	Price
JUNSAF601NA	Stretcher aluminum pole 87" "easy fold"	EA	\$310.44

### D. Stretcher Pole Kit

The easy-fold stretcher kits consists of the Junkin "Easy-Fold" Stretcher with steel poles, the Junkin First Aid Blanket and a vinyl sheet; all housed in 20 gauge steel stretcher case. The kit may be wall mounted or has a handle for easy hand carrying.

SKU	Description	UOM	Price
JUNSAF655NA4	Stretcher pole kit w/restraints	EA	\$713.01

### E. Folding Cot

This all-purpose cot is for first aid and sick rooms, and ideal for heavy-duty use in industry or institutions. It is constructed of high strength anodized aluminum tubing to meet military standards, and is foldable for convenient storing. The cover is a strong 500 denier DuPont Cordura. Both head and foot ends elevate 15°, 30° and 45° degrees when required.

SKU	Description	UOM	Price
JUNSAF364	Folding cot w/elevated head and foot	EA	\$332.66
JUNSAF364P	Cot pad for folding cot, 1" thick	EA	\$67.21

### A. SAM® Splint

The SAM (Structural Aluminum Malleable) Splint contains all the properties of the many other splints which it replaces. Constructed of a strip of soft aluminum with a polyvinyl coating. The aluminum alloy presents no impediment to X-rays. When folded into a structural bend longitudinally, the splint becomes quite rigid and easily supports injured extremities. Can even be contoured and crimped to stabilize the cervical spine. Coating does not stain and is reusable with proper cleaning.

SKU	Description	UOM	Price
SAM1121	Sam splint roll, orange/blue	EA	\$16.88
SAM1208	Sam finger splint 10/BX	BX	\$17.60

### B

### B. Air Splint

Zippered air splints are constructed of a heavy-duty double polished soft vinyl which provides durability and easy cleaning. The clean vinyl construction allows observation and X-ray of injury. Special nylon zipper is X-ray transparent. All splints zip completely open for easy application. Special twist-turn valve with extension tube allows quick and easy inflation and adjustment. Specially formulated vinyl also resists cold cracking to -20°F.

SKU	Description	UOM	Price
MAR48-0002	Half arm air splint with zipper & screwlock valve	EA	\$19.43
MAR48-0006	Half leg air splint with zipper & screwlock valve	EA	\$25.52
MAR48-0001	Full arm air splint with Zipper & screwlock valve	EA	\$24.47

### C. Welch Allyn Tycos® Classic Hand Aneroid Sphygmomanometer

The Classic offers unsurpassed reliability in a traditional hand held design. This gauge has a durable cast iron housing and large inflation bulb. All Classic gauges have certified accuracy to +/- 3 mmHg. Each gauge has its dial face individually laser engraved based on movement for optimum accuracy. The Classic has a jeweled movement for smooth, long lasting and reliable operation. Latex free.

SKU	Description	UOM	Price
54675098-02	Hand aneroid sphygmomanometer, Velcro cuff	EA	\$253.68

### D. Welch Allyn DS45 Integrated Aneroid Sphygmomanometer

The DS45 features Welch Allyn's DuraShock® shock resistant technology making this gauge not only very accurate but extremely rugged. Integrated design allows the gauge to be snapped into the cuff. Gauge will rotate 360 degrees for easy viewing. Comes complete with a durable inflation system. This is a great value! Latex Free.

SKU	Description	UOM	Price
54677050-14	Tycos aneroid sphygmomanometer w/adult cuff	EA	\$133.86
54677050-24	Tycos aneroid sphygmomanometer w/large adult cuff	EA	\$143.59
54675090-02	Tycos pocket sphygmomanometer w/adult cuff	EA	\$253.68

**D**

**A. Omron® Blood Pressure Monitor with Printer**

Keep accurate records of your blood pressure readings with the Blood Pressure Monitor and Print Out. Simply wrap the cuff around your arm and press START. In seconds, your blood pressure and pulse are displayed on the large digital panel. You can then print your readings in either numerical or bar graph form for easy record keeping.

SKU	Description	UOM	Price
4187HEM705CP	Blood Pressure Monitor with Printer	EA	\$146.53

**B. Omron® Intellisense® Portable Blood Pressure Monitor- Wrist**

Advanced, portable model is slim and more discrete for readings anywhere you go. It employs smart Heart Guide Technology, which is automatically activated the moment your wrist is at heart level, for a precise reading every time. Automatically activates when your wrist is at heart level, ensuring consistently accurate readings. Flashing orange and blue indicator lights help guide your wrist to your heart level, making it easier to find the correct position.

SKU	Description	UOM	Price
4187HEM650	Portable wrist blood pressure monitor	EA	\$113.61

**C. Omron® Intellisense® Automatic Blood Pressure Monitor**

The Omron Automatic Blood Pressure Monitor with Intellisense features one touch inflation, a large digital display, and 30 reading memory with date/time stamp. Automatic averaging of last 3 readings. Fits 9" to 13" arm circumference. Large cuff available for arm sizes 13" to 17". Powered by AC adapter or 4 AA batteries, both sold separately.

SKU	Description	UOM	Price
4187HEM712C	Blood pressure monitor adult	EA	\$83.37
4187HEMADPT1	AC adapter for Ormon monitors	EA	\$30.57

**D. Touch Key Ultra Digital Blood Pressure Arm Monitor**

Ultra Digital Blood Pressure Monitor features sensitive touchscreen buttons that require little pressure and light up for easier identification. Features include: Displays systolic, diastolic and pulse readings simultaneously. WHO Indicator provides an instant comparison to standards set by the World Health Organization. Irregular Heartbeat Detection lets the user know if an abnormal reading has occurred and soft, comfortable cuffs.

SKU	Description	UOM	Price
MAB04596008	Blood pressure monitor w/memory 2 cuff	EA	\$107.03

## Diagnostic Testing

### A. 3M™ Littmann® Cardiology III Stethoscope

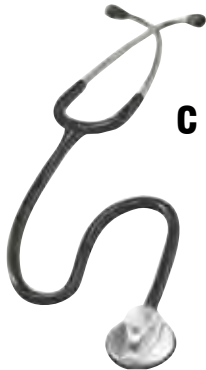

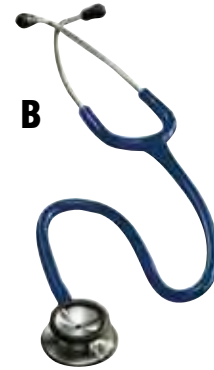

Outstanding acoustics and superior versatility are combined in the technology of the 3M Littmann Cardiology III Stethoscope. Featured is both an adult and pediatric-sided chestpiece, each incorporated with a tunable diaphragm. This innovative design allows you to use both sides of the stethoscope, for monitoring high and low-frequency sounds. Also features solid stainless-steel chestpiece, two-tubes-in-one design, non-chill rims, comfortably angled, anatomically correct headset and patented 3M Littmann Snap-tight Soft-sealing Eartips.

SKU	Description	UOM	Price
43182128L	Littmann Stethoscope Cardiology III 28" black	EA	\$227.08

### B. 3M™ Littmann® Classic II S.E. Stethoscope

The Littmann Classic II S.E. stethoscope offers a traditional bell combined with a tunable diaphragm that conveniently alternates between low and high frequency sounds without the need to turn over the chestpiece. Featuring a two-sided chestpiece, this classic stethoscope offers high acoustic sensitivity for superior performance.

SKU	Description	UOM	Price
43182205	Littmann Stethoscope Classic II 28" blue	EA	\$114.95

### C. 3M™ Littmann® Master Classic II Stethoscope

The 3M Littmann Master Classic II Stethoscope features a computer-designed chest piece allows alteration between low and high-frequency sounds without moving the chest piece. To hear low-frequency sounds typically heard with a traditional bell side of a chest piece, use light contact pressure on the skin; to hear high-frequency sounds typically heard with a diaphragm side, apply firm contact pressure. High-frequency response allows one to hear faint lung sounds.

SKU	Description	UOM	Price
43182144L	Littmann Stethoscope Master Classic II 27" black	EA	\$189.32

### D. 3M™ Littmann® Lightweight II S. E. Stethoscope

The Lightweight II S.E. Stethoscope is a general-purpose, entry-level stethoscope and is an excellent, affordable choice for basic blood pressure and limited physical assessment. It has 28" tubing with a silver bell-type chestpiece.

SKU	Description	UOM	Price
43182197	Littmann Lightweight II S.E. Stethoscope blue	EA	\$74.95

### E. Dual Head Stethoscope

The Baum stainless steel dual head stethoscope is designed for general healthcare applications and offers outstanding acoustics.

SKU	Description	UOM	Price
06612720	Dual head stethoscope	EA	\$35.00

### A. Dual Teaching Stethoscope

The teaching stethoscope has excellent acoustical clarity. It features 22", latex-free tubing with a connector that allows both student and instructor to listen simultaneously. This stethoscope has an anodized aluminum combination dual head chestpiece, chrome-plated brass rotating stem and an adjustable chrome-plated external spring binaural.

SKU	Description	UOM	Price
286704-540	Dual teaching stethoscope	EA	\$16.95

### B. Sprague Rappaport Stethoscope

Features certified sound that is guaranteed to provide the acoustical performance to meet the increasing demands of the healthcare professional. Comes with three different size open bells, two different size replacement diaphragms and two pairs of ear tips in a vinyl storage case.

SKU	Description	Color	UOM	Price
105441622DB	Sprague Rappaport stethoscope	Blue	EA	\$14.12
105441622GRN	Sprague Rappaport stethoscope	Green	EA	\$14.12
105441622RED	Sprague Rappaport stethoscope	Red	EA	\$14.12

### C. Dual Head Stethoscope

The Ormon® Dual-head Stethoscope is lightweight and durable, and features a molded, one-piece tubing for excellent sound quality.

SKU	Description	Color	UOM	Price

### D. Nurse's Stethoscope

The Spectrum Series of nurse stethoscopes offers the healthcare professional an economical solution for those situations that require a quality listening device. Each stethoscope features a chrome-plated brass binaural, lightweight anodized aluminum chestpiece and 22" vinyl Y-tubing.

SKU	Description	Color	UOM	Price
MAB10428240	Nurses's lightweight stethoscope	Navy Blue	EA	\$5.49

### A. Pneumatic Otoscope Set

Pneumatic Otoscope. 3.5v halogen light. Rotating lens with ultra-seal. Fiber optic illumination. Complete with five polypropylene specula.

SKU	Description	UOM	Price
678320000	Pneumatic otoscope	EA	\$312.37

### B. Operating Otoscope

Operating Otoscope. 3.5 volt halogen light. Open system. Rotatable lens and speculum. Fiber optic illumination. Includes five reusable specula; sizes 2, 3, 4, 5 and 9mm.

SKU	Description	UOM	Price
678321700	Operating otoscope w/specula 3.5V	EA	\$240.36

### C. Diagnostic Otoscope

Halogen lighting coupled with fiber optics provides brilliant and cool distal illumination without visual obstruction or specular reflections. Halogen 3.5v head complete with four polypropylene specula. Includes 4 specula, sizes 2.5, 3, 4 and 5mm.

SKU	Description	UOM	Price
678325020	Otoscope	EA	\$185.65

### D. MacroView Otoscope

The MacroView provides twice the field of view of traditional otoscopes. Features halogen lighting coupled with fiber optics provides brilliant and cool distal illumination without visual obstruction or specular reflections.

SKU	Description	UOM	Price
678323810MC	Otoscope MacroView 3.5V halogen with 4 specula head only	EA	\$273.46
678325070M	Otoscope set 3.5V MacroView with case	EA	\$498.19

### E. Diagnostic Set

This portable 3.5 volt, halogen, diagnostic set features Welch Allyn's finest ophthalmoscopes, otoscopes and nasal illuminators.

SKU	Description	UOM	Price
678397150	3.5 volt halogen diagnostic set	EA	\$810.74
678397210	Welch Allyn diagnostic set	EA	\$868.42

### A. Standard Ophthalmoscope - Six Apertures

This ophthalmoscope is a general as well as a specialist use instrument. 3.5 volt halogen light. 5 apertures. 28 lenses -25 to +40 diopters. Illuminated lens dial.

SKU	Description	UOM	Price
678311710	Ophthalmoscope 3.5V, halogen	EA	\$306.26

### B. Coaxial Ophthalmoscope - Six Apertures

Coaxial Ophthalmoscope. 3.5 volt halogen light with HPX lamp provides 30% more light output for true tissue color and consistent long-lasting illumination. The coaxial optical system allows for shadow free spots and easier entry into undilated pupils.

SKU	Description	UOM	Price
678311720	Coaxial ophthalmoscope 3.5V, halogen	EA	\$326.18

### C. Pocketscope Otoscope

Pocket Otoscope uses fiber optics halogen light for a long-lasting consistent inspectability. The scope has a wide angle viewing lens and built in throat illuminator. The set comes with batteries in the handle. Uses AA batteries.

SKU	Description	UOM	Price
678322820	Pocketscope otoscope with AA battery handle	EA	\$265.35

### D. Pocketscope Handle

Pocketscope replacement handle with AA batteries.

SKU	Description	UOM	Price
678372820	Pocketscope handle w/AA batteries	EA	\$101.23

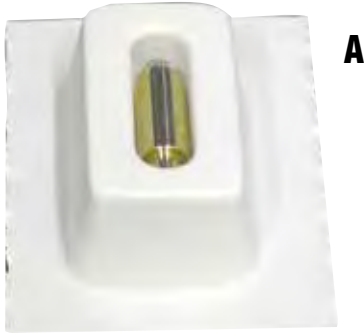

### E. Rechargeable Handle

Rechargeable battery handles for all 3.5v instruments offer dependable power and mobility for any practitioner. Charged easily from any power outlet.

SKU	Description	UOM	Price
678371000	Rechargeable handle for otoscope/ophthalmoscope	EA	\$218.52

**A**

### A. Otoscope Replacement Bulb

Halogen replacement lamp for PocketScope Otoscope/Throat Illuminator.

SKU	Description	UOM	Price
678303400	Replacement bulb for coaxial ophthalmoscope (11720, 11730 & 11735)	EA	\$28.89
678303000	3.5 Volt halogen ophthalmoscope replacement lamp (11710)	EA	\$28.32
678303100	3.5 Volt otoscope replacement lamp	EA	\$26.32

### B. Kleenspec™ Disposable Specula

Specula are made of non-toxic plastic to be used once, then discarded. No adapter required.

SKU	Description	UOM	Price
678352134	Kleenspec disposable specula for pneumatic operating 4MM 500/BX	BX	\$42.91
678352135	Kleenspec disposable specula for pneumatic operating 5MM SP 500/BX	BX	\$43.38
678352133	Kleenspec disposable specula for pneumatic operating 3MM 500/BX	BX	\$42.91
678352432	Kleenspec specula 2.5MM for diagnostic 850/BX	BX	\$40.96
678352434	Kleenspec specula 4.25MM for diagnostic otoscope 850/BX	BX	\$40.96

**B**

**C**

### C. Replacement Batteries

Transformer-style batteries. Contain nickel cadmium.

SKU	Description	UOM	Price
678372200	Battery replacement - 3.5V rechargeable	EA	\$56.65
678372000	Battery replacement - 2.5V rechargeable	EA	\$50.63

### D. Nasal Illuminator

3.5v halogen light. Fiber optic illumination for cool light. Illuminator is convertible to throat illuminator/penlight.

SKU	Description	UOM	Price
678326550	Nasal illuminator for otoscope	EA	\$174.62

### Desk Charger with Two Handles

Complete unit includes charger No. 71110 and two 3.5v rechargeable handles No. 71670, 110-130v 50/60 Hz, UL listed and CSA certified. Compact charger base measures only 3-3/8" (86mm) x 7-1/4" (184mm).

SKU	Description	UOM	Price
678371610	Charger desk 3.5V & 2 handles 71670	EA	\$603.99

### Wall Charger with Two Handles

Diagnostic system includes 3.5v wall transformer and two handles.

SKU	Description	UOM	Price
678376710	Wall transformer 3.5V unit & 2 handles	EA	\$618.81

### Insufflator Bulb

Replacement insufflator bulb and tube with tip.

SKU	Description	UOM	Price
678321504	Insufflator bulb and Tube w/tip	EA	\$12.86

**D**

### A. Medi-First® Digital Thermometer

This thermometer provides a fast, accurate digital read out and comes with a case.

SKU	Description	UOM	Price
MF708-01	Digital thermometer w/case	EA	\$12.67

### B

### B. Mabis Digital Thermometer

This thermometer features a 60-second read-out in either Celsius or Fahrenheit.

SKU	Description	UOM	Price
MAB15-713-00	Digital thermometer w/case hospital	EA	\$4.86
MAB15-618-00	Digital thermometer probe cover 100/BX	BX	\$4.84

### C. Temporal Scanner Thermometer

The Temporal Scanner Thermometer is a totally non-invasive system with advanced infrared technology providing maximum ease of use with quick, consistently accurate measurements. Advanced, patented technology measures temperatures with a gentle stroke across the forehead.

SKU	Description	UOM	Price
EXE124275	TemporalScanner	EA	\$669.70

### D

### D. Braun ThermoScan® PRO 4000 Professional Thermometer

Braun® ThermoScan PRO 4000. The infrared thermometer for professional usage in hospitals and offices. Convenient measurements in the ear in just three seconds. High durability (battery life of 1,000 measurements). Preheated probe tip improves accuracy. Patient temperature range: 68.0 - 108°F. Ambient temperature range: 50.0 - 104 °F. Large, easy-to-read LCD displays temperatures in either Fahrenheit or Celsius.

SKU	Description	UOM	Price
6322-PRO4000	Braun ThermoScan professional thermometer	EA	\$280.53
6322-PC800	Braun ThermoScan probe covers 800/CS	CS	\$86.46

### A. NexTemp Disposable Thermometer

Throw away the germs! Individually wrapped NexTemp thermometers are designed to reduce the risk of cross infection or reinfection that could occur with other thermometer systems. Simply discard the thermometer after patient use.

SKU	Description	UOM	Price
NEX1112-20	Nextemp Disposable Thermometer 100/BX	BX	\$15.37

### B. Astra 300 Spirometer Kit

Easily report your choice of up to 40 spirometry test parameters, all measured accurately and precisely with the highly sophisticated Astra300 Spirometer. Using the bright and sensitive touchscreen, you can easily access multifunctional capabilities and view both graphic and tabular data. Entering patient data, patient testing and reporting couldn't be easier. Exporting test data to a printer or PC via USB is quickly accomplished with just a few stylus taps on the touchscreen.

SKU	Description	UOM	Price
SDI295301050	Astra 300 Spirometer Kit, Printer, OH Module, Syringe and Filters	EA	\$3209.39

**B**

**C**

### C. AstraGuard Bacterial/Viral Filter

The AstraGuard Bacterial/Viral Filter provides virtually perfect infection protection for expiratory and inspiratory spirometry testing. Its single-patient use greatly reduces costly and time-consuming disinfection procedures.

This easy-to-use disposable mouthpiece incorporates a highly efficient woven filter that virtually eliminates cross-contamination from patient to patient and from patient to health care professional.

SKU	Description	UOM	Price
SDI29799050	AstraGuard Bacterial/Viral Filter 50/BX	BX	\$103.28

### D. AstraPulse FT Oximeter

The AstraPulse FT oximeter features the latest technology for measuring oxygen saturation and heart rate. It uses state-of-the-art power-sparing Organic LED displays. The advanced fingertip tunnel design eliminates the problems encountered with measurements of patients with thin or wide fingers and a three year warranty attests to the durability and reliability of the FT series. When shopping for fingertip pulse oximeters, compare the SDI fingertip models with any others on the market. Feature-for-feature, AstraPulse oximeters stand out in a class all their own.

SKU	Description	UOM	Price
SDI29-6000	AstraPulse FT Oximeter	EA	\$182.70

**D**

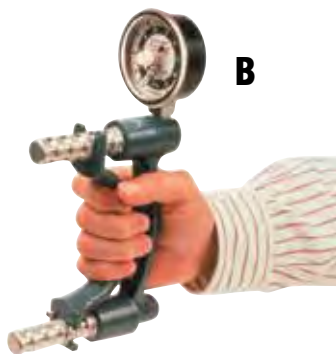

**A. Digit-Ox™ Pulse Oximeter**

Delivers fast, reliable oximetry in an extremely handy, pocket size solution by combining the monitor and sensor into one unit. While it's small in size Digit is big on performance, providing fast, reliable SpO2, pulse rate and pulse strength measurements for patients from pediatric to adult. This affordable, non-invasive device offers the convenience clinicians appreciate in EMS, hospital or clinical environments as well as home use. Features: SpO2: Range: 0 to 99% functional SpO2 (1% increments), Accuracy: +/- 2% at 70 to 99% less than 70% unspecified, Averaging: 8 seconds average. Pulse Rate: Range: 30 to 254bpm (1 bpm increments), Accuracy: +/- 2% or 2 bpm (whichever is greater). Power requirements: 2 AAA cell Alkaline Batteries. Battery Life: 16 hours continuous use, 1,400 spot checks, 1 min. on, 2 min. off. Two Year Warranty

SKU	Description	UOM	Price
INVISG8600	Digit-Ox™ pulse oximeter	EA	\$417.21

**B. Baseline® Hand Dynamometer**

The Baseline hand dynamometer gives accurate grip strength readings without the subject being able to “feel” the handle move. The results are consistent with published Baseline and Jamar® studies. The internationally accepted design assures reliability, user convenience and measurement repeatability. The five position adjustable handle can accommodate any hand size. The maximum reading remains until the unit is reset. The strength reading can be viewed as pounds or kilograms. Each dynamometer comes in a molded carrying case. The unit is made in the USA and has a 1-year warranty. CE certified.

SKU	Description	UOM	Price
286717-2175	Dynamometer Hydraulic Hand Baseline® 200 pounds	EA	\$325.00

**C. Theraputty™**

Theraputty is great for improving hand-muscle strength and increasing endurance. Exercising with the putty promotes increased range of motion, hand closure and tendon gliding. Each color represents a different resistance, from XX- soft (tan) to firm (blue).

SKU	Description	UOM	Price
2867382013	Theraputty 2 oz xx-soft (tan)	EA	\$3.67
2867382013S	Theraputty 2 oz x-soft (yellow)	EA	\$3.67
2867382013SM	Theraputty 2 oz soft (red)	EA	\$3.67
2867382013MF	Theraputty 2 oz medium (green)	EA	\$3.67
2867382013F	Theraputty 2 oz firm (blue)	EA	\$3.67

**D. Therabath® PRO®**

Therabath PRO Paraffin Bath provides intensive moisture therapy that nourishes the skin. The penetrating heat relieves aching joints and work-weary hands.

SKU	Description	UOM	Price
67151106	Therabath Pro paraffin bath w/wintergreen wax	EA	\$213.82
67150101	Therabath Pro wax beads 6 lb unscented	BX	\$27.32
67150100	Therabath Pro paraffin wax beads 6 lb wintergreen	BX	\$27.32

**A**

### A. Ascensia® Contour®

The Ascensia Contour System automatically corrects for common variables that affect accuracy. The system requires no coding and provides automatic under fill detection, automatic control marking and automatic temperature control. It requires a small sample size (0.6 uL) and gives results in 5 seconds. The last 480 test are saved along with the time and date they were performed and this information can be downloaded to your computer using Ascensia Glucofacts® Diabetes Software. Cleared for multiple site testing.

SKU	Description	UOM	Price
0193-7151-01	Ascensia Contour System	EA	\$25.12
0193-7080-50	Ascensia Contour Test Strips 50/BT	EA	\$92.15

### B. ACCU-CHEK® Compact Plus meter system

The only one that's all-in-one, the ACCU-CHEK Compact Plus meter is the only blood sugar monitor with all-in-one convenience. Brightest display - easy to read, the big, glow-in-the-dark screen helps in poor lighting. Load-and-go drum of 17 preloaded test strips. No more struggling with individual strips. And no coding means fewer steps. Detachable lancing device, the ACCU-CHEK Softclix Plus lancing device offers the least-painful lancing technology, with 11 customizable depth settings for different skin types.

SKU	Description	UOM	Price
50924-019-01	ACCU-CHEK Compact Plus Glucose Kit	EA	\$100.50

**B**

**C**

### C. OneTouch® SureSoft™

Create an almost feather-soft experience for your diabetes patients with the OneTouch SureSoft Lancing Device. Our single-use lancing devices are electro-polished, which results in a smoother, more comfortable entry than an acid-washed needle. This means you can use a smaller gauge needle while still ensuring that a sufficient blood sample will be drawn for point-of-care testing.

SKU	Description	UOM	Price
3885-0140-20	OneTouch SureSoft Lancet 200/BX	BX	\$64.12

### D. MicroLets®

Microlet Sterile Lancets are Sterile lancets for use with Microlet Automatic Lancing Device.

SKU	Description	UOM	Price
0193-6546-21	Microlet sterile blood lancets 100/BX	BX	\$14.63

**D**

**E**

### E. Softclix®

The Accu-Chek Softclix Lancet Device is the lancet device that minimizes discomfort. With a Comfort Dial and lancet depth selection this device provides greater adjustability with 11 depth settings.

SKU	Description	UOM	Price
5092-0957-01	Accu-Chek Softclix device	EA	\$42.43
5092-4585-10	Lancets soft-touch 100/BX	BX	\$13.22

### A. In-Line Strep A Test

The QuickVue In-Line® Strep A Test is a one-step test that rapidly detects group A streptococcal antigen from patient throat swab specimens. The testing can take place at the point of care due to the unique in-line extraction design.

SKU	Description	UOM	Price
QUI0343	QuickVue In-Line Strep A 25 Test/BX	BX	\$145.60

### B. One-Step Pregnancy Test

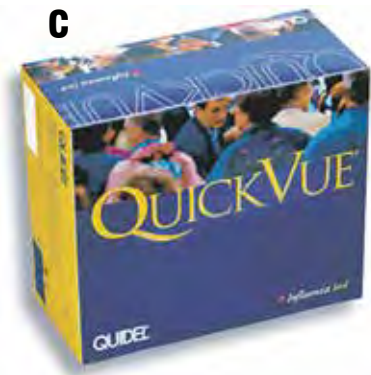

The QuickVue® One-Step hCG Urine test is a sensitive immunoassay for the qualitative detection of human chorionic gonadotrophin (hCG) in urine for the early detection of pregnancy.

SKU	Description	UOM	Price
QUI0258	QuickVue One-Step hCG Urine 25 Test/BX	BX	\$67.97

### C. Influenza Test

The QuickVue® Influenza test provides you with test results that allow you to Test and Treat in less than 10 minutes. Each kit contains everything needed to perform the test, including both positive and negative controls.

SKU	Description	UOM	Price
QUI00317	QuickVue Influenza 25 Test/BX	BX	\$694.05

### D. Chemstrip® 10 SG Strips

Chemstrip 10 SG tests for bilirubin, blood, glucose, ketones, leukocytes, nitrite, pH, protein, specific gravity and urobilinogen in urine. Designed to be more absorbent, ChemStrip Urine Test Strips virtually eliminates reagent run over, and promotes rapid sample diffusion for distinct uniform color changes. Also, the exclusive design of the glucose and blood reagent pads integrates an additional layer permeated with iodate which oxidizes any ascorbic acid. All of this assures efficient, accurate results you can use to screen your patients before problems arise and become costly.

SKU	Description	UOM	Price
5092-4145-10	Chemstrip 10 SG urine test strips 100/BT	BX	\$77.23

### A. Draeger Alcotest® 6810 For DOT

The Draeger Alcotest 6810 was designed through practical experience and input from professionals around the world. The Alcotest 6810 for DOT firmware was developed specifically for the Department of Transportation Workplace Testing. Special lockout features ensure that the instrument is compliant with DOT regulations. The handheld and printer are completely mobile with no wires or cords required for operation. **Training is required prior to purchase and usage of this device.**

SKU	Description	UOM	Price
DRA4416811	Alcotest 6810 Kit I (Basic Kit as described below)	EA	\$2792.10
DRA4416812	Alcotest 6810 Kit II (Basic Kit, plus CalGAZ 105L dry gas cylinder and 12L regulator)	EA	\$3290.38
DRA4416813	Alcotest 6810 Kit III (Basic Kit, plus CalGAZ 34L dry gas cylinder and 12L regulator)	EA	\$3204.47

The basic ALCOTEST 6810 KIT contains a small carrying case, ALCOTEST 6810, ALCOTEST 6810 Mobile Printer, 100 mouthpieces, 2 rolls of thermal printer paper, 1 roll of tamper evident tape, calibration mouthpiece adaptor, 6 AA batteries, 1 year warranty and accuracy log sheets.

### B. Alcotest® 7410 Plus Kit II Accessories

These accessories are designed to go with the Alcotest 7410 Plus DOT.

SKU	Description	UOM	Price
DRA1005	7410 tamper indicator tape 1" x 108'	EA	\$35.62
DRA6805700	7410 mouthpieces	BG	\$9.86
DRA4599129	7410 printer paper rolls 5/BX	BX	\$13.51
DRA8100284	Printer ribbon	EA	\$11.17

### C. Certified Alcohol Solution

This certified alcohol solution is a water, ethanol mix that has been designed to yield specific BrAC reading on a breath testing device.

SKU	Description	UOM	Price
DRA4507060	Certified alcohol solution 0.040% 500ml x 2	BX	\$28.87
DRA4507061	Certified alcohol solution 0.10% 500ml each	EA	\$14.43
DRA4507062	Alcohol calibration gas 0.04% 105 liter	EA	\$255.58

### D. Alcohol Testing Form

The Department of Transportation Alcohol Testing form must be used each time a test is administered by an employer participating in the DOT alcohol testing program.

SKU	Description	UOM	Price
DRA1004	Alcohol D.O.T. three part form 100/PK	PK	\$48.12

**A. Q.E.D.® Saliva Alcohol Test**

The Q.E.D. Saliva Alcohol Test is a rapid, low-cost alternative to breath or blood testing. The test is easy to operate and provides quantitative results as accurate as a blood test.

SKU	Description	UOM	Price
STC31150B	Q.E.D. saliva alcohol test, A150 10/BX	BX	\$130.00

**B. ALCO-Screen™**

Alco-Screen alcohol test sticks are plastic strips tipped with a reagent pad. The reagent tipped end is inserted into the mouth and saturated with saliva. Once saturated, the stick is removed from the mouth and within two minutes the test result can be interpreted. Test results show through varied color blocks increments of 0.02%, 0.05%, 0.1% and 0.3%.

SKU	Description	UOM	Price
CHE55001-25	Alco-Screen alcohol test stick 24/BX	BX	\$42.10

**C. Accutest SplitCup 5**

Drug test results in 5 minutes or less. No exposure to urine. Stores at room temperature. SAM-HSA cutoffs. Built-in controls to validate results. Test starts when you push the key; reduces opportunity to tamper. Flat surface makes photocopying results easy.

SKU	Description	UOM	Price
DS03AC625	Accutest 5 panel (A,C,O,PCP,THC)	25/BX	\$208.38
DS02AC625	Accutest 5 panel (A,C,M,O,THC)	25/BX	\$208.38

**D. Accutest - Drug Test Cup 5 with Adulteration Screen (Urine)**

No-step multiple-panel drug screen with hygienic self-contained cup format. Easy collection, results in 5 minutes and easy to read results. No reagents needed. Stores at room temperature. Built-in control to validate results.

SKU	Description	UOM	Price
DS84	Drug Test Cup 5 with Adulteration Screen (A,C,M,O,THC) 24/BX	BX	\$280.00

### A. Temp Strip Specimen Container

This specimen container is non-sterile and holds up to 6.5 oz.; great for urine samples. Has a temperature strip and no lid.

SKU	Description	UOM	Price
GBFKMEDSAFE	Specimen cup 6.5 oz temp strip no lid 500/CS	CS	\$228.07

### B. Snap Cap Specimen Container

This specimen container is non-sterile and holds up to 5 oz.; great for urine samples.

SKU	Description	UOM	Price
614112500	Specimen container 5 oz w/ plastic snap cap 400/CS	CS	\$140.66

### C. Blue Toilet Tablet for Drug Testing

Toilet Bluing Solution. Eliminate the adulteration of urine sample by substituting toilet water for the urine sample. Easy to use! Flush toilet and when fresh water enters bowl, dispense one True Blue tablet. One tablet instantly turns the toilet bowl or tank water blue.

SKU	Description	UOM	Price
SASITB1	Blue Toilet Tablet for drug testing 100/BT	BT	\$23.25

### D. Mrs. Stewart's® Liquid Bluing

Mrs. Stewart's Liquid Bluing, longtime, earth-friendly fabric whitener, also used to color toilet water for drug testing.

SKU	Description	UOM	Price
9999-08	Mrs. Stewart's Liquid Bluing 8 oz	EA	\$3.62

### A. Defender® 5 Gallon Waste Can

The Defenders medical step cans conform to OSHA standards on bloodborne pathogens for the safe containment of infectious waste and comply with OBRA Regulations. Durable powder coated galvanized steel construction is UL Listed/Factory Mutual Systems Approved fire-safe/self-extinguishing. Retainer bands hold poly-bags securely within galvanized steel liner. Vinyl base ring protects floors.

SKU	Description	UOM	Price
6508ST5	Defender waste can 5 GA (11" x 22") red	EA	\$84.59

### A. Alcohol Gel

Alcohol Gel is the instant solution to the problem of sanitizing hands without soap, water or the use of towels. Our “no rinse” formulation is ideal for use when patient contact is frequent, but soap and water are not readily available. Triad alcohol gel is recommended for repeated use to sanitize your hands. It conditions your skin with aloe vera and will leave you clean and freshly scented. This fast acting gel is waterless and leaves no sticky residue. Triad alcohol gel is thicker than alcohol liquids and thus more easily managed. Simply rub the gel into the skin until dry.

### D

### A. KERLIX® Rolls

KERLIX Bandage Rolls are made of pre-washed, fluff-dried, 100% woven gauze with unique crinkle-weave pattern for loft and bulk to cushion and protect wound areas. The six-ply construction with finished edges reduces loose ends and lint. When used as a primary dressing, the open-weave design provides fast wicking action, superior aeration and excellent absorbency. As secondary dressing, it provides bulk, cushioning and ultimate conformability. Ideal for bandaging heads, limbs and difficult-to-dress wounds.

SKU	Description	UOM	Price
35833324	KERLIX non-sterile rolls 4-1/2" x 147" 12/BX	BX	\$34.96
35836720	KERLIX sterile 2-1/4" 6 ply roll	EA	\$1.05
35836715	KERLIX sterile rolls 4-1/2" 6 ply each	EA	\$2.28

A

B

### B. Bloodstopper® Trauma Dressing

This multipurpose wound and trauma dressing can be used in many ways including: Heavy External Bleeding - The bloodstopper includes an extra gauze roll that can be used as a pressure dressing. Surface Wound and Abrasions - By removing gauze roll use non stick surface to cover wounds. Burns - The expandable wound pad can be used to cover burns. Fractures - Bloodstopper can be used as a sling or to secure a splint.

SKU	Description	UOM	Price
CED1910	Bloodstopper wound dressing sterile	EA	\$2.89

### C. Cover Roll

Cover Roll is a non-woven bandage that provides wide area coverage over wounds and dressings. This bandage can be cut to size to secure virtually any dressing and is air permeable and hypoallergenic.

SKU	Description	UOM	Price
073045547	Cover roll stretch 2" x 2 yd	EA	\$3.95
073045548	Cover roll stretch 4" x 2 yd	EA	\$5.91
073045549	Cover roll stretch 6" x 2 yd	EA	\$7.87

C

D

### D. Adhesive Foam Pad

Self-adhering foam designed to distribute body weight to help prevent skin breakdown and pressure ulcers, and to prevent skin damage from splints, casts and prostheses. Self-adheres to casts, appliances and equipment. Removes easily. Conformable to protect against abrasions, shearing and pressure. Not recommended to be applied directly on skin as can cause adhesive irritation. It works well over dressings.

SKU	Description	UOM	Price
43181560M	Reston adhesive foam pads 8" x 12" 10/BX	BX	\$56.05

### E. Eye Pads

These latex free sterile eye pads are absorbent and help draw excess fluid from the eye. The oval shape fits the eye for better comfort and provides maximum protection from bright light and debris.

SKU	Description	UOM	Price
327117570	Eye pads oval sterile 1s Large 50/BX	BX	\$10.80
327117576	Eye pads oval sterile 1s 50/BX	BX	\$11.62

E

### A. TELFA® Pads

TELFA Ouchless Non-Adherent Dressings are absorbent cotton pad that won't disrupt healing tissue by sticking to wound. Each sterile dressing is individually wrapped in a peel-open envelope. These are ideal as a primary dressing for lightly draining wounds. They are bonded on both sides with perforated non-adherent film, and can be cut to any shape without separating.

SKU	Description	UOM	Price
35831238	TELFA Pads - sterile 8" x 3" 50/BX	BX	\$16.60
35831961	TELFA Pads - sterile 2" x 3" 100/BX	BX	\$13.48
35832132	TELFA Pads - sterile 3" x 4" 100/BX	BX	\$22.88

**B. Co-Lastic®**

Co-Lastic is a high-quality, cohesive elastic wrap, versatile enough to use as a securing, protective compression and support bandage. Designed with both you and your patients in mind it sticks securely to itself, but never to your patient's hair or skin. Co-Lastic provides even, controlled compression and readily conforms to every anatomical structure. It's water-resistant, lightweight and comfortable. Quick and easy-to-use; Co-Lastic is the right choice for you and your patients.

SKU	Description	UOM	Price
15874412	Co-Lastic cohesive wrap 1" x 5 yd 30/BX	BX	\$37.40
15874420	Co-Lastic cohesive wrap 2" x 5 yd 36/BX	BX	\$68.32

15874460	Co-Lastic cohesive wrap 6" x 5 yd 12/BX	BX	\$65.53

**C. Co-Wrap®**

Co-Wrap is a unique blend of cotton and polymer fibers that adhere securely to itself, not skin, hair or clothing. It's special construction also makes Co-Wrap porous so it's cool and comfortable to wear no matter how long it's worn. An easy-to-use, high-performance bandage, Co-Wrap is versatile and is effective even where sensitive tissue or wet environments are a consideration. Because it's cohesive, Co-Wrap is ideal as a secondary or securing bandage and for overwrapping primary dressings. Unlike bandages that require clips, tapes, or pins, Co-Wrap won't shift and slide.

SKU	Description	UOM	Price
15872910	Co-Wrap self-adherent bandage 1" x 5 yd 24/BX	BX	\$23.99
15872920	Co-Wrap self-adherent bandage 2" x 5 yd 12/BX	BX	\$17.03

### D. Diamond Grip™ Gloves

These gloves provide an exceptional balance of performance, comfort and durability. Manufactured by a controlled process for greater product consistency. Gloves are fingertip textured for enhanced wet and dry gripping. This powder free glove is longer and thicker than most standard exam gloves on the market today for added protection. Gloves are made from premium low-modulus natural rubber latex for a true fit and reduced hand fatigue. Caution (LATEX): This product contains natural rubber latex (latex) which may cause allergic reactions. Safe use of this glove by or on latex sensitized individuals has not been established.

BST9905PFM	N-DEX gloves powder-free 6 mil 11" 50/BX class I medium	BX	\$14.82
BST9905PFL	N-DEX gloves powder-free 6 mil 11" 50/BX class I large	BX	\$14.82

### B. TNT® Blue Thin Nitrile Gloves

Disposable nitrile gloves set a whole new standard in durability and chemical splash protection. Feature textured finger tips for exceptional grip. Recommended for manufacturing, light-duty maintenance, automotive, intricate parts handling, laboratory analysis and technical work. Lightly powdered in a clean polybag. Superior flexibility, puncture resistance, made of 100% nitrile. The glove contains absolutely no fillers, additives, silicones, or plasticizers. Rolled cuff gives additional cuff strength and protects the skin from chemicals running off the glove. Comply with FDA regulations for food contact.

SKU	Description	Thickness	Size	UOM	Price
ANS92575M	TNT nitrile gloves	4 mil	M	100/BX	\$9.60
ANS92575L	TNT nitrile gloves	4 mil	L	100/BX	\$9.60
ANS92575XL	TNT nitrile gloves	4 mil	XL	100/BX	\$9.81

### C. Touch N Tuff®

Touch N Tuff disposable gloves set a whole new standard in comfort, durability, dexterity, and cleanliness. Made of 100% nitrile, the gloves contain absolutely no fillers, silicones, or plasticizers. And, although they are only 4 mils thick, Touch N Tuff gloves provide three times the puncture resistance of competitive latex or vinyl gloves. 9.5 inches in length, they are available powdered or powder-free.

SKU	Description	Size	UOM	Price
ANS92500S	Touch-N-Tuff, powdered	S	100/BX	\$10.48

ANS92600XL	Touch-N-Tuff, powder free	XL	100/BX	\$12.72

### D. Nitrilite®

Nitrilite gloves solve many of the contamination problems caused by vinyl and natural rubber latex gloves in today's clean rooms. Designed specifically for critical environments, nitrilite gloves offer significantly reduced particulate and extractable levels. They are 100% powder-free and contain no plasticizers, silicone, or pigments. Plus, the superior strength of nitrile means nitrilite gloves can be thinner than comparable vinyl or latex gloves, which results in a lighter, more comfortable glove with improved dexterity and tactility. Length 12", thickness 4 mil.

SKU	Description	Size	UOM	Price
ANS93-311-LG	Nitrilite gloves	L	100/BX	\$17.74

## 2112 Flash Fire & 70E Arc Flash Protection Clothing Available Exclusively from MEDSAFE

From the refinery to the oilfield, the 2112 line of Flash Fire & Arc Flash Protective Clothing offers complete protection wherever a flash fire hazard exists, or HRC2 level protection from flash fire is required.

The 2112 line includes a full range of clothing, including coveralls, shirts, and outerwear, and is available in 6 & 7 oz. weights (depending upon the item).

The 2112 line of Flash Fire & Arc Flash Protective Clothing is available in Navy Blue, Khaki, Grey, and Royal Blue. Each of these colors is common in industries where FR garments are widely used.
